BETTER LATE than never.

The city of Westland has entered the fray over the American flag, although it's been months since a controversial U.S. Supreme Court decision inflamed the rest of the country.

The Westland City Council last week passed a resolution supporting a proposed constitutional amendment to outlaw desecration of the American flag.

The resolution called the flag a "symbol of democracy, liberty, and justice for all Americans... the standard of hope for the oppressed and for those who lack the many constitutional privileges we as Americans now enjoy."

The amendment to the Constitution was proposed by President George Bush last spring in response to a decision by the Supreme Court that allowed burning of the flag as an expression of free speech guaranteed by the constitution.

YES, THOSE were real Brazilians tooling around Westland Friday.

A group of six people from the South American country stopped in at the fire station for breakfast and toured other city and Wayne-Westland Community Schools facilities as part of a visit to southeast Michigan and Ontario.

The tour is part of a group study exchange program sponsored by Rotary International and the Westland Rotary Club.

IF THE MUSIC coming out of the band, orchestra and vocal music rooms at John Glenn and Wayne Memorial High Schools seems a little brighter this fall, credit the \$12.9 bond issue school district voters approved in January 1988.

The Wayne-Westland school board last month approved buying \$30,423 in instruments and other music-related equipment for use by high school students.

Westland man killed in shooting

Police say shooting followed minor fight

By Bill Casper
staff writer

Redford Township Police investigators were not talking much while they attempted to unravel the circumstances surrounding the shooting death Thursday of a 19-year-old Westland man in a Redford Township house.

Redford Police Inspector Edwin Oswald refused Friday to identify the dead man until the investigation has been completed.

Oswald did say, however, that the victim was a former boyfriend of a woman who was staying with her parents in the house in the 9900 block of Farley.

The man, who lives in the house where the shooting occurred, was injured in a minor scuffle just prior to the shooting, Oswald said.

He suffered cuts to his forehead, said Oswald, who declined to elaborate on the circumstances that triggered the scuffle. Oswald also refused to identify the Farley resident.

ONE NEIGHBOR, Dawn Guyot, who recently moved to a house on Farley, said she heard the woman arguing with a man late one night approximately two months ago.

Redford fire Chief Michael Pattee

identified the victim as Jeffrey Skratz of Westland, who would have turned 20 years old today.

Skratz suffered a gunshot wound to the mouth from a .22 caliber rifle, said Pattee, reading from a report filed by Redford emergency technicians, who responded to the house shortly before 2:30 p.m. on a report of a shooting and stabbing.

Police investigators removed a .22 caliber rifle from the house and Oswald said he believes it was the weapon used in the shooting.

"We are investigating a death by a gun but no arrest has been made," Oswald said Friday. "We should be done with our investigation in a couple of days. I'll probably be able to tell you more (on Monday)."

Oswald declined to identify any of the house's occupants, including the woman's young daughter, believed to be around 3 years old.

SKRATZ'S BODY was found lying on a living room floor, Pattee said.

The body was removed from the house on a stretcher by personnel of the Wayne County Medical Examiner's office.

The man was identified by a first name only by a neighbor, who was interviewed Thursday shortly after the shooting. Other neighbors who

JIM JAGOFELD/staff photographer

The body is taken to the Wayne County Medical Examiner's office Thursday for an autopsy.

were interviewed did not know the name of the Farley Street resident or his wife.

NEIGHBORS SAID they did not hear or see anything unusual prior to the shooting. They said a police in-

vestigator was asking whether they had seen anyone climb through the front window of the house prior to the shooting.

Neighbors said the couple kept to themselves, but were friendly. The couple would engage in neighbor

chitchat outside their house. "The doors were usually closed and the shades drawn," one neighbor said. "I talked to (the man) occasionally when I would be outside and

Theater fires called arson

By Todd Schneider
staff writer

Two fires at the Quo Vadis theater complex last month were deliberately set, possibly by the same person, a fire official said Thursday.

Nobody was injured in the Aug. 10 and Aug. 20 fires, which occurred while the building was open.

Robert Perry, Westland fire marshal, said investigators are interviewing theater employees as part of their effort to determine who set the fires. He said it would be at least two weeks before the investigation was completed.

Although the fires were set differently, Perry said "our investigation is proceeding on the theory that the same person or persons are responsible, unless we find out otherwise."

"We feel there is a connection," Perry said.

Perry said the first fire was set in a storage room on the second floor. Someone set a wooden pallet on fire in the storage room before matinee shows at the six-screen theater started.

THE FIRE spread to other parts of the second floor, causing about \$10,000 in damages.

Employees were evacuated. There were no injuries.

The Aug. 20 fire was set in a closet, also on the second floor, Perry said. The fire marshal said someone ignited a broom and placed it in the closet where other items caught fire.

Damage from the second fire was estimated at \$1,500-\$2,000.

Employees and patrons watching Sunday evening showings of "Batman" and "When Harry Met Sally" and other films were evacuated.

"We were lucky that nobody was hurt, especially the second time because the place was filled," Perry said.

Perry said the fire department is handling the investigation alone at this point, although the Westland police have helped in previous arson cases. The fire marshal is a sworn law enforcement officer and is empowered to seek arrest warrants.

Mill Carles (left) and Angelo Plakas discuss plans for the "Tribute to Excellence" banquet sponsored by the men's club of Saints Helen and Constantine Greek Orthodox Church.

Celebrities Banquet will feature Detroit sports heroes

By Todd Schneider
staff writer

Some of Detroit's top sports stars are coming to Westland.

That's right, Westland.

Players and coaches from the NBA champion Pistons, Detroit Tigers and Detroit Lions will be the celebrity guests at a gilty banquet Thursday, Sept. 21, at the Hellenic Cultural Center. The lineup includes Pistons Dennis Rodman, John Salley and head coach Chuck Daly; Tigers Alan Trammell, Jack Morris, Frank Tanana, Mike Henneman and coach Alex Grammas; and Detroit Lions head coach Wayne Fontes.

WKQI-FM disc jockey Dick Pur-

tan will serve as master of ceremonies.

The program, "A Tribute to Excellence," is being sponsored by the men's club of Saints Constantine and Helen Greek Orthodox Church, on Joy east of Newburgh.

The club will honor Daly, Puratan, restaurateur John Glinopolis and local industrialist Gus Stavropoulos with its Hellenic Award for contributions to the community.

PROCEEDS FROM the banquet will be used for planned new buildings on the church property, including a gymnasium and housing for senior citizens.

Light turnout predicted for primary

By Todd Schneider
staff writer

A four-way mayor's race and a crowded, diverse field of city council candidates has apparently failed to create a great deal of interest among Westland voters.

A turnout of about 12-15 percent of the city's 45,213 registered voters is expected for Tuesday's primary election, said Diane Rohraff, city clerk.

"It looks like it's going to be a typical primary election with a light turnout," Rohraff said Wednesday. "The mayor's race seems to be getting about the same amount of interest as last time (1985)."

The 1985 primary election — which also featured four mayoral candidates — drew 15.4 percent of the city's registered voters to the polls.

On Tuesday, incumbent Charles Griffin will face three challengers, former Mayor Charles Pickering,

city councilman Thomas Artley and Robert Thomas, a city employee. The top two finishers will face each other in the Nov. 7 general election.

WHILE GRIFFIN is generally considered the favorite, the challengers will be pushing for a close margin if not an all-out upset. In 1985, then incumbent Pickering won the primary with 33 percent of the vote, but Griffin finished a strong second with 26 percent.

Griffin was elected by a 53-47 percent margin two months later.

Rohraff said 1,500 absentee ballots had been mailed out through Tuesday, which she said was in line with recent elections. Absentee voters have until 8 p.m. election night to return their ballots.

Also on the primary ballot are 13 candidates for the city council. The top eight finishers will enter the November run-off for four open council seats.

Feud breaks out in mayoral race

By Leonard Poger
editor

A political dispute has erupted on the eve of Tuesday's primary over who resolved a complicated legal battle concerning clouded titles to over 700 houses in Westland's northern section.

Mayor Charles Griffin and council president Kenneth Mehl, seeking re-nomination in the primary, said in a letter to those residents that another unnamed candidate is taking credit for resolving the problem. Griffin and Mehl later said in interviews with the Observer that the unnamed candidate was mayoral hopeful Charles Pickering.

The two officials said the credit should go to the mayor's office and the city attorney.

But the person who was criticized in the city hall letter without being specifically named — Pickering — blasted the timing of the Aug. 22 letter, printed on official city stationery, because of the indirect reference to him and that it was paid for with city money instead of from Griffin's or Mehl's campaign funds.

Three homeowners who received the city hall letters also wrote Griffin and Mehl, criticizing their communication and its political timing.

THE PROPERTY title dispute and the liens placed against their houses surfaced in early 1987 with Pickering, a former mayor acting as a private citizen, doing the initial legwork and investigation, he said.

Pickering, a city council member.

Westland man third in chili cook-off

Joe "Chili" Wnuck of Westland won third place in the Pepto Bismol chili cook-off competition held at the Michigan State Fair. Presenting Wnuck his trophy is State Fair Queen Melissa Sinkevics.

The cool shade of a tent at The Michigan State Fair Grounds was home for some of the hottest fun recently when 13 chili making teams competed in the Pepto-Bismol chili cook-off.

Westland's Joe "Chili" Wnuck won the \$50 third prize for his "Chili Joe TV Chili," created from a non-traditional recipe.

Wnuck had a simplified version of his Guinness world record chili, which contains 1,000 ingredients.

"Motor City Chili" cooks Neil Michaels of Westland and Ken Kirkman of Livonia said their team's secret was sirloin marinated in wine and cooked in dry beer.

"It's one can of beer in the chili, and six cans of beer in the cook," Kirkman joked.

Team members arrived Saturday morning to begin stewing their "secret" recipes for the contest sanc-

tioned by the International Chili Society.

The chills were ranked on color, texture, flavor, and overall appearance. To promote a better competition, the contestants were not allowed to use beans or other fillers while cooking their chili.

The first place winners, Boadie and Susie Hoy, from St. Mary, Ohio, received \$300 for their prize winning chili and are now eligible to compete in the national championships in California.

SECOND PLACE and \$150 went to Gary and Lauren Ray of Livonia for their "Old No. Seven Chili," which used a traditional chili recipe.

The variety of ingredients and contestants was a show in itself.

Rumored ingredients ranged from cactus, grape jelly, beer, choc-

olate, cinnamon, sirloin and fine wine to bear meat.

Contestants varied from the cultured cooking expert, to the first time novice.

Their strategy was to entertain as well as please the palate, so they greeted fairgoers in cowboy hats, and rang cowbells. Michaels and Kirkman were awarded Best Booth for their unique chili display.

After the judges had their sampling cups filled, the chili makers served their leftovers to the hungry crowd of nearly 300 people.

"This chili is hot! My mouth is burning," said Suzanne Murray, 24, of Detroit while sampling some of the various brews.

"This chili is hot temperature wise, but it is compounding the other chili," she said.

State Fair Queen Melissa Sinkevics of Dearborn Heights presented the winners with a wood and brass engraved plaque that held an actual bottle of Pepto Bismol.

Locals win beautification awards

Fifteen municipal organizations, civic groups and individuals from Westland have been named winners of Keep Michigan Beautiful Awards for projects and achievements during the last year.

The 15 awards were among 94 announced by the quasi-governmental group last week. The awards will be presented at the group's annual dinner Oct. 25 in Ann Arbor.

Westland winners were:
The Westland Historical Commis-

sion for its museum and related buildings' Dedication Day and Adopt-A-Tree program; the Elderly Housing Corporation for a Taylor Towers beautification project; Conrad Skalski, renovation of the Ace Hardware store at Wayne Road and Palmer; Friends of the Nankin Mill, Christmas Past and Illunary project; Friends of the Nankin Mill, several mill renovation projects; Westland City Council, Summer Beautification and Christmas Decoration projects; Westland Senior Re-

sources Department, beautification and parks improvement efforts; Mary Giera-Daughters of American Revolution and Audrey Ray D.A.R., grave identification at Chubb and Ganong Cemeteries.

Also, Hazelwood Neighborhood Watch Association, cleanup of Lake Friendship; Spirit of Westland newsletter for community information; Westland CATV-Community Relations Department, five historical and community service videos;

Westland Central City Park Association, fund-raising activities for park improvements; Westland Community Development Department, rehabilitation of senior citizens apartments; and Westland Parks and Recreation Department, softball hall of fame and Adopt-A-Park program.

The Farmington-based Keep Michigan Beautiful organization is composed of volunteers from across the state who promote and recognize local beautification programs.

Feud breaks out in mayoral race

Continued from Page 1

in the middle of a four-year term and running for one of the two mayoral nominations in Tuesday's primary, said he helped form a homeowners' committee to review the problem.

That committee later contacted the city administration because a city building, the Tonquish Community Relations/Cable TV Department, was one of the parcels affected by the dispute.

The administration and the city attorney then handled the matter, which was resolved last September. The basic dispute involved Ypsilanti attorney Douglas Spicer, who had claimed a lien against the titles in the wake of a complicated bankruptcy case involving the developer of the properties in the 1950s and '60s.

The 700 houses involved were generally between Wayne and Farmington Roads, on both sides of Warren Road and as far north as a subdivision between Cowan and Parkgrove built in the past five years.

THE CITY hall letter, signed by Griffin and Mehl, said that "some political candidates, going door to door, have chosen to use this unfortunate incident (referring to the title dispute) in an attempt to further their own political career.

"Your home is your most important asset and shouldn't be used for

any partisan purpose. In an attempt to clarify the misrepresentation being disseminated regarding this issue, the following report has been prepared for your information by the city attorney's office."

It is "totally inappropriate" and "absolutely wrong" for Pickering to claim that he resolved the legal dispute, Griffin told the Observer last week.

The mayor said he and Mehl wouldn't have sent out the disputed letter unless Pickering initiated the issue during the primary campaign.

And he and Mehl decided to draft the letter after they were called by several residents complaining of Pickering's portrayal of his role in the title dispute, Griffin said.

BUT PICKERING told the Observer that he didn't campaign in precincts 24 and 29 in the city's north end until last week, after the city hall letter was mailed.

The candidate said he didn't initiate the lien topic while talking to voters, but if questioned, he would tell what he did in initiating the investigation.

The Griffin-Mehl letter "shouldn't be disguised as a report from the city," he said.

Even without the disputed paragraph indirectly referring to himself, Pickering questioned the timing

of the letter, coming three weeks before the primary.

THE LETTER'S contents, timing and funding were discussed in advance, Mehl said.

"You're damned if you do and damned if you don't," he said, referring to the options open to him and Griffin.

ring to the options open to him and Griffin.

"But we went ahead (with the letter) based on the facts.

"In hindsight, we should have sent the letter last year" after the dispute was concluded, he said.

CITY OF GARDEN CITY ORDINANCE NO. 89-007

AN ORDINANCE TO AMEND SECTION 92.03 OF CHAPTER 92, TITLE IX, OF THE CODE OF THE CITY OF GARDEN CITY.

THE CITY OF GARDEN CITY HEREBY ORDAINS:

THAT SECTION 92.03 OF TITLE IX OF THE CODE OF THE CITY OF GARDEN CITY SHALL BE AMENDED TO READ AS FOLLOWS:

92.03 STOPPING ABANDONED VEHICLES ON PUBLIC OR PRIVATE PROPERTY.
Section (A) It shall be unlawful for any motor vehicle which is inoperative, in a state of major disassembly or disrepair to be parked or stored on any private or public property unless the same is completely enclosed in a garage, building, structure or enclosed by a privacy fence so as not to be visible from surrounding property.

Section (B) For the purpose of this section, a vehicle of any kind, as described in Section (A) shall be deemed abandoned when it has remained parked or stored on public or private property for a period of 48 continuous hours or more.

Section (C) Removal of Vehicle. - The Chief of Police or his designee may remove or cause to be removed or tow away any motor vehicle which is violating the provisions of this ordinance relating to parking or storing of any abandoned vehicle on public or private property, and disposed of in accordance with law. The officer authorized to enforce this provision shall leave a written notice on the premises where the vehicle is kept or affix notice to the vehicle at least 48 hours prior to removal. The written notice shall contain the following information:

1. The date and time the notice was left or affixed;
2. The name and address of the police agency taking the action;
3. The name and badge number of the officer leaving or affixing the notice;
4. The date and time the vehicle may be taken into custody and stored at the owner's expense or scrapped if the vehicle is not removed;
5. The year, make and vehicle identification number of the vehicle, if available.

Section (D) Impounding. - The provisions of the above provisions do not apply to residents of the City while the resident is serving in any branch of the United States Armed Forces. Proof of such service shall be submitted to the Police Department. The servicemember, spouse, or parents shall register with the department, and a decal shall be purchased at the cost of \$1.00 and displayed on the right side of the front windshield. The registration must be made each year prior to March 1, and the vehicle stored at the rear of the property.

Except as herein modified, the said code shall remain in full force and effect.
This amendatory ordinance is declared to be effective upon publication as required by law.

Observer to hold publicity seminar

"I am the new publicity director for my church group. How do I get stories about our activities into the Westland Observer?"

"My high school musicians have been invited to perform at a program for local handicapped persons. How can I arrange for an Observer photographer to cover the event?"

"What are the deadlines and procedures for getting wedding announcements into the Observer?"

Those are typical of the questions the Westland Observer receives from community groups.

The answers will be provided at the Westland Observer's seminar for publicity chairs Thursday night, Oct. 5.

It is open to interested representatives of civic and service groups

without charge.

THE SEMINAR, held by the Observer for many years, will start at 7:30 p.m. in Room 320 of Schoolcraft College's Radcliff Center, 1751 Radcliff, just south of Ford and east of Wildwood.

The seminar will cover general news, sports, church page, and the business and suburban life sections.

Similar seminars have been held over the years by the Observer to help community groups to better inform readers of their activities.

On hand for the seminar will be Westland Observer staffers and top editorial department management persons and supervisors responsible for producing different sections of the newspaper.

Beach volleyball players keep their eyes on the ball during a summer league game at Central City Park.

Gritty players

Beach volleyball teams end season

photos by ART EMANUELE/staff photographer

These beach volleyball players are playing close to the net.

WESTLAND parks and recreation supervisor is pleased with the first season of the department's beach volleyball season, which ended recently after six weeks of play.

MaryBeth Jones said eight teams with up to 64 players competed in the league, which used the new beach volleyball courts in Central City Park, south of Ford near Carlson.

For next year, Jones said, there may be a league for Westland municipal employees, and separate men's, women's and co-ed leagues.

The program may also be expanded next year to have teams of six, four, and two players each.

The teams, which played Tuesdays and Thursdays, paid a \$35

This server puts his all into the game.

fee for resident players and \$40 for non-residents, which she said is much lower than other leagues.

Council rejects land sale offer

The city will hold onto a small lot on the fringe of its current downtown retail district with the hope that further retail or commercial development could make the property more valuable.

The Westland City Council turned down the sale of the city-owned 29-acre parcel for \$2,150 Tuesday by a 6-1 vote.

The bid for the property, by Ralph Draper of Plymouth, was substantially higher than the \$1,000 minimum and the sale was recommended by the administration.

"Based on the location of the land (west of Central City Parkway between Stacy and Elmwood) we might be able to get a better bid down the road if the area develops like we think it will," said councilman Charles Pickering.

A bid on a second piece of property, two small lots in the Wayne-Marquette subdivision, was rejected on the recommendation of the administration because the \$4,000 offer was far less than the \$18,000 suggested minimum bid.

The council approved the sale of three properties for a total of \$120,154, including a bid of \$92,500 by the Peoples Community Baptist Church for 14 acres off Henry Ruff and south of Michigan Ave., near its present building.

Most of the land discussed Tuesday had reverted to the city when previous owners failed to pay property taxes.

"We try and sell the land in order to get it back on the tax rolls," said Deputy Mayor Andrew Spisak.

Men, if you're about to turn 18, it's time to register with Selective Service at any U.S. Post Office.

It's quick. It's easy. And it's the law.

cop calls

A RESIDENT on the 33500 block of Berville was treated and released from Westland Medical Center Tuesday night after she was allegedly assaulted in her home by a teenage girl, police said.

The victim, 30, received two black eyes, cuts and bruises and internal injuries.

The woman told officers that her assailant, whom she identified only as Mary, kicked in her front door and attacked her at 9 p.m. while she was sitting in her living room.

The woman said the assailant, about 15, was apparently upset because she had reported a friend to the police.

A RESIDENT of the Capri Apartments, off Merriam near Ann Arbor Trail, reported that her car was

stolen from the complex parking lot Tuesday or Wednesday.

The woman said her 1981 Dodge was parked under a carport on the south side of the lot. It was stolen between 6 p.m. Tuesday and 7 p.m. Wednesday, the woman said.

A HOMEOWNER on the 35000 block of Norene told police someone broke into his garage Wednesday or Thursday and stole his 1988 Honda motorcycle, valued at approximately \$800.

The thief, who entered the garage between 1 a.m. Wednesday and 7 a.m. Thursday, had to cut through a shackle lock to get the bike, police said.

Police said the damaged lock was found in a neighbor's yard.

Light turnout predicted

Continued from Page 1

With only three of four incumbents running, there will be at least one new face on the city council when it convenes for a new term in January.

Incumbents running for re-election to the council are Ken Mehl, William Ziembra and Ben DeHart.

Challengers are Lewis Beaver,

Ethel Bollinger, Michael Bradley, Deborah Carman, Sandra Cicirelli, Yousef Eadeh, Terri Reighard Johnson, Helene Raupp, Richard Ringer and Dorothy Smith.

THEIR BACKGROUNDS range from a current Wayne-Westland school board member (Johnson) to two attorneys (Bradley and Cicirelli) to local business owners (Eadeh and

Beaver) and a former Westland police officer (Ringer).

Bollinger, Raupp and Smith are making second or third bids for council seats.

There are 37 precincts, in city hall, elementary schools and other community buildings.

The polls are open 7 a.m.-8 p.m. People standing in line at 8 p.m. will be allowed to vote.

Westland man shot, killed

Continued from Page 1

he'd come over to chitchat. It was just neighbor talk.

"There's something wrong with his leg. He walks with a limp and doesn't work because of his leg. He

makes miniature clocks, apparently as a hobby. He helps kids, teaching them to play pool, and he was so proud about a month ago because the kids were going to a national competition.

"His wife and works and she

makes beautiful doll houses," the neighbor said. "She's gone most of the time and I don't talk to her much."

The couple's daughter stays with her parents periodically, the neighbor said.

Banquet to feature sports stars

Continued from Page 1

"This is the first time we've done a program like this and we wanted to do the first one in a big way so we can establish a tradition," said Milt Carles, corresponding secretary for the men's club.

"We would like to draw interest not only from the Westland area, but from all over town," he said. "People will be able to see the kind of facility we have here."

Angelo Plakas, men's club president, said the group would like to draw 600-800 people for the banquet.

Carles said attracting big name sports personalities for the guest list wasn't all that difficult. He said many church members are rabid sports fans and some know players personally.

The toughest part of putting the

program together was finding a date that didn't conflict with the professional baseball, football and basketball schedules, he said.

That's why there won't be any Red Wings on the dais. The hockey team will be sequestered in training camp in Flint.

THE HELLENIC Award is given by the club as a way to "reflect the humanistic and classical ideals associated with ancient Greece," including reason, the pursuit of knowledge and the arts, moral values, moderation, civic responsibility and bodily development.

While the accomplishments of Daly, Puritan and Glinopolis are well known, Carles said Stavropoulos, 51, is equally deserving of the award.

A longtime member of the church, Stavropoulos is the founder and pres-

ident of Wolverine Carbide Die Co. of Troy and several other companies.

"Gus is a local hero who has quietly helped not just our congregation, but all sorts of other churches in the area," Carles said. "He came to this country as a child and is very much a self-made man."

"We feel his philanthropic and religious activities deserve recognition," Carles said.

The "Tribute to Excellence" stag sports banquet will begin with cocktails and hors d'oeuvres at 6 p.m. at the Hellenic Cultural Center, 36375 Joy. Dinner is set for 7:30 p.m. with the awards presentations following. Tickets, at \$125 per person, are available from the church, 325-3550.

How sweet it is! Girls reap their rewards from our jumping rope itself. The durable plastic tubing is filled with real gourmet fruit-flavored candy! Foam handles are removable so "rope" can be emptied and filled any time. 14 50 Candy refills, \$ 7. In our Sweet and Treat Shop.

Jacobson's

We welcome Jacobson's Charge, MasterCard, VISA and American Express. Shop until 8 p.m. on Thursday and Friday. Until 6 p.m. on Monday, Tuesday, Wednesday and Saturday.

Square dancing class shows right moves

● PHOTO CONTEST
A young adult photography contest will be held for Westland students by the Livonia Public Library. The contest is open to youngsters between 12 and 18. Entries are being accepted through October. Interested youngsters may get more information by calling Noble Library at 421-8600.

● PATRIOTS
Monday, Sept. 11 — The Franklin High School Patriot Club will meet at 7:30 p.m. in the north cafeteria of Franklin High School, 31000 Joy, east of Merriman.

● SENIOR TRIP
Monday-Tuesday, Sept. 11-12 — Wayne-Westland Community Schools Senior Adults are sponsoring a West Virginia Belle Cruise trip. The trip of \$139 will include shopping, prime rib dinner, tour of glass plant and Paramount Studios theater. An information meeting will be held at 1 p.m., Wednesday, Sept. 7 at the Dyer Center, on Marquette, west of Wayne Road. Interested persons may call Judy Guideau at 453-2978.

● FALL SOCCER
Tuesday, Sept. 12 — Fall soccer league practice begins at Wayne-Westland YMCA. Registration is open for boys and girls, ages 5-9. For information, call 721-7044.

● SQUARE DANCING
Tuesday, Sept. 12 — A new square dance class will begin at 7 p.m. in the auditorium at Westland Shopping Center. Admission is free on Sept. 12 and 19. Bill Peterson is the instructor. For more information, call 425-8447.

● AARP MEETING
Wednesday, Sept. 13 — The American Association for Retired Persons, Westland Chapter 1642, will hold its first fall meeting at 1:30 p.m. in the Berwyn Senior Center, 26155 Richardson, Dearborn Heights.

● FESTIVAL
Thursday-Sunday, Sept. 14-17 — The Garden City Jaycees will hold their annual Fall Festival in City Park at Cherry Hill and Merriman. Persons interested in having an arts and crafts booth may call Ellen at 525-2862.

● HUNTER SAFETY
Friday-Sunday, Sept. 15-17 — Hunter safety courses will be held at Wayne County Sportsmen's Club. For more information, call Art Maclean at 427-1482.

● PINOCCHLE
Friday, Sept. 15 — Wayne Westland School District Senior Adults will hold progressive pinocchle at 1

community calendar

Non-profit groups should mail items for the calendar to the Observer, 36251 Schoolcraft, Livonia, MI 48150. The date, time and place of the event should be included, along with the name and phone number of someone who can be reached during business hours to clarify information.

p.m. in the Dyer Center, 36745 Marquette, west of Wayne Road.

● CRAFT FAIR
Saturday, Sept. 16 — Exhibitors are wanted for Scarborough Craft Fair. The Fair will be held from 10 a.m. to 4 p.m. at Cambridge Center, 28901 Cambridge, Garden City. For applications, call 422-7198.

● SWIM TEAM
Monday, Sept. 18 — Stingray swim team practice begins at the Wayne-Westland YMCA. Boys and girls, pre-school to 18 years of age who can swim one length of the pool are invited to join. For more information, call 721-7044.

● MACKINAC TRIP
Tuesday, Sept. 19 — Wayne-Westland School District Senior Adults will hold a meeting at 1 p.m. in the Dyer Center, 36745 Marquette, east of Marquette, to obtain information about a Mackinac trip.

● DINNER
Wednesday, Sept. 20 — Wayne-Westland School District Senior Adults will hold a get acquainted dinner at 1 p.m. in the Dyer Center, 36745 Marquette, east of Newburgh. Fee is \$3.

● CONCERT
Wednesday, Sept. 20 — The Westland Cultural Society's Concert in the Park Series will have the European Brass perform at 7 p.m. at the Bailey Center gazebo, behind City Hall, on Ford near Carlson. People are asked to bring a lawn chair or blanket.

● HOLIDAY MEETING
Thursday, Sept. 21 — Holiday Nature Preserve Association will meet

at 7 p.m. in the Church Hill High School library, Newburgh-north of Joy. The meeting is open to guests. For more information, call 453-3833.

● FESTIVAL
Friday-Sunday, Sept. 22-24 — St. Raphael Church will hold its fall festival at Merriman Road, north of Ford, 6-11 p.m., Friday; noon to 11 p.m. Saturday, and 1-9 p.m. Sunday. The festival will feature a \$10,000 grand prize drawing along with a casino, dinners, garage sale, bingo, crafts, bake sale, games, raffles, and kiddie rides.

● FUNGUS WALK
Sunday, Sept. 24 — Learn about the different types of mushrooms and fungi in a walk in the Holiday Park Nature Preserve. It will start at 1 p.m. on the Koppernick entrance between Hix and Haggerty in the preserve. The event is sponsored by the Holiday Park Nature Preserve Association. For more information, call 453-3833.

● GED TESTS
Monday-Tuesday, Sept. 25-26 — Livonia Public Schools will offer GED tests 9 a.m. to 2 p.m. at Bentley Center, 15100 Hubbard. For more information, call 523-9294.

● GARAGE SALE
Saturday, Sept. 30 — The Westland Chamber of Commerce will hold a community garage sale from 9 a.m. to 5 p.m. on Ford Road, between City Hall and the police station. Spaces registered on first come basis. Spaces will be available at \$12 or \$15 for premium space. For more information, call 326-7222.

● BOUTIQUE
Saturday, Oct. 28 — St. Dunstan

Church will hold its annual boutique at 1646 Belton, Garden City. Eight-foot tables rent for \$15. For more information, call Mary at 425-3282.

● CRAFT SHOW
Saturday, Nov. 4 — Kirk of Our Savior Church is renting tables for its craft show at the church on Cherry Hill, Westland. Six-foot tables are \$12 with eight-foot tables being \$15. For more information, call 422-6505.

● CRAFT SHOW
Saturday, Nov. 4 — Wildwood PTA is now renting tables for its arts and crafts show at Wildwood School, 500 North Wildwood, at Cherry Hill, Westland. Six-foot table space rentals are \$15 for one, \$25 for two. For more information, call Ann at 728-1626, Patty at 721-8786, or Marge at 522-6707.

● BAZAAR
Saturday, Nov. 18 — The Harris-Kehrer Ladies Auxiliary will hold its arts and crafts bazaar from 9 a.m. to 6 p.m. at 1055 S. Wayne Road at Avondale. Tables are available for \$15. Proceeds from the bazaar will be donated to cancer aid and research. For information, call 326-3323.

● OPEN SWIM
— The Wayne-Westland YMCA has daily open swim available 2-4 p.m. and 7-8 p.m. Monday-Friday, and 1-3 p.m. Saturday. Family Swim is 8-8:45 p.m. Friday and 3-4 p.m. Saturday. The YMCA is at 827 South Wayne Road, Westland. For more information, call 721-7044.

● CO-OP
Little People's Co-op Nursery is accepting applications for the new school year for 3- and 4-year-olds. Classes will be in Cleveland Elementary School, 28030 Cathedral, west of Inkster and south of West Chicago. For information, call Lois at 937-3174 or Yvonne at 422-8939.

● CO-OP NURSERY
Suburban Children's Co-op Nursery is accepting applications for a 3-year-old morning class. The class is held on Monday and Thursday

from 9:15 to 11:15 at Newburg United Methodist Church, 36500 Ann Arbor Trail, Livonia. For further information, call Donna Kuhn 981-0277.

● GC CO-OP NURSERY
Garden City Co-op Nursery is accepting applications for a 3-year-old morning class. The class is held Mondays and Thursdays 9:15-11:15 a.m. at Garden City Presbyterian Church, 1841 Middlebelt near Ford Road. For more information, call Sue Reed at 261-3732.

● KARATE
Karate classes will be held Tuesdays and Thursdays at the Wayne-Westland Family YMCA, 827 S. Wayne Road, Westland. Bob Preville will instruct classes for children 6:30-7:45 p.m. and adults 7:30-9 p.m. For more information, call the Y at 721-7044.

● COMPUTERS
The Metropolitan Education Commission will offer a free computer applications program at the Cambridge Center, Garden City. Classes start in July. For information, call 425-4275.

● REGISTRATION
St. Dunstan Catholic School is registering students for the next school year in kindergarten through eighth grade. The school is on 1615 Belton, west of Inkster Road and north of Marquette. Interested parents may call 425-4380.

● TOASTMASTERS
Tuesdays — The Dearborn Toastmasters meet every Tuesday 6:30 p.m. at the Ram's Horn Restaurant, Telegraph and Plymouth roads. For more information, call Joana-Kutylowski at 565-8322.

● ALZHEIMER'S
An Alzheimer's support group will meet at 2 p.m. at the Westland Convalescent Center, 36137 Warren, west of Wayne. The group meets the fourth Thursday of every month. For more information, call Nancy Martindale, at 728-6100.

Classes available for district retirees

Wayne-Westland school district retirees can sign up for nearly 30 credit or leisure time classes, which began this month at the Dyer Center, on Marquette, east of Newburgh. Senior citizens can take credit classes without charge if they don't have a high school diploma with regard to residency. School district residents can also take the leisure classes free, with non-residents paying \$20. A new class this fall is stained glass instruction, to be held 1-3 p.m. Fridays.

CREDIT CLASSES include consumers math, understanding the law, and home decorating, held on Mondays and Wednesdays; health and development, held on Mondays and Fridays; and short story, biology/plants and animals, and 20th Centu-

ry America, held on Tuesdays and Thursdays.

Leisure classes offered include Spanish and senior chorus on Mondays; quilting, needleworks and dance on Tuesdays; kitchen band and exercise on Wednesdays; ceramics on Thursdays; and bazaar crafts, stained glass and woodcarvers on Fridays.

The classes are part of the Wayne-Westland Community Schools' Senior Adults program. The center also houses a wide variety of other programs and services.

The Dyer Center is in the rear of the Wayne-Westland school board offices.

Complete schedules on educational, recreational and health programs may be obtained between 9 a.m. and 4 p.m. weekdays at the center or by calling 595-2161 or 595-2163.

Westland man arrested in sit-in protest

Dissatisfied with the punishment handed down to his son at Catholic Central High School in Redford, a Westland father was arrested after staging a sit-in demonstration at the school.

The 40-year-old father sat on the floor in a school hallway at about 8 a.m. Wednesday, Redford police

said. He refused to leave after being asked three times to do so, and was arrested and charged with trespassing, police said.

The man is free on \$100 bond and awaits arraignment on the misdemeanor charge in Redford's 17th District Court.

The father, who has since enrolled

his son in another school, said his son and three other members of the high school band were thrown out of the band, after leaving a hotel for 15 minutes where the band was staying, before returning.

"I'm a disciplinarian," the father said. "It comes down to what's just and what's unjust."

"Make him wash the band room for a year, but don't take away his education."

School spokesman Bruce Mutschler said, "We consider discipline to be an internal matter. It was not our contention to withdraw his son" from school.

CITY OF GARDEN CITY ORDINANCE NO. 89-008 RESTAURANT REGULATIONS

161.045 Definitions
For the purpose of this subchapter the following definitions shall apply unless the context clearly indicates or requires a different meaning.

"CARRY-OUT RESTAURANT." Any establishment whose principal business is the sale of prepared foods, frozen desserts, or beverages to the customer in a ready-to-consume state, and whose design or method of operation includes both of the following characteristics:
(1) Foods, frozen desserts, or beverages are usually served in containers or in paper, plastic, or other disposable containers.
(2) The consumption of foods, frozen desserts, or beverages within the restaurant building, or at other facilities on the premises outside the restaurant building, except within a motor vehicle parked on the premises.

"DRIVE-IN RESTAURANT." Any establishment whose principal business is the sale of prepared foods, frozen desserts, or beverages to the customer in a ready-to-consume state, and whose design, method of operation, or any portion of whose business includes one or both of the following characteristics:
(1) Foods, frozen desserts, or beverages are served directly to the customer in a motor vehicle either by an employee who provides such service outside of the restaurant building.
(2) The consumption of foods, frozen desserts, or beverages within a motor vehicle parked upon the premises, or at other facilities on the premises outside the restaurant building, is allowed, encouraged, or permitted.

"FAST FOOD RESTAURANT." Any establishment whose principal business is the sale of prepared foods, frozen desserts, or beverages to the customer in a ready-to-consume state for consumption either within the restaurant building or for carry-out with consumption either within the restaurant building or for carry-out with consumption off the premises, and whose design or principal method of operation includes both of the following characteristics:
(1) Foods, frozen desserts, or beverages are usually served in containers or paper, plastic, or other disposable containers.
(2) The consumption of foods, frozen desserts, or beverages upon the premises, or at other facilities on the premises, outside the restaurant building.

"STANDARD RESTAURANT." Any establishment, whose principal business is the sale of prepared foods, frozen desserts, or beverages to the consumer in a ready-to-consume state, and whose design or principal method of operation includes one or both of the following characteristics:
(1) Customers, normally provided with a menu, are served their foods, frozen desserts, or beverages by a restaurant employee at the same table or counter at which the items are consumed.
(2) A cafeteria-type operation where prepared foods, frozen desserts, or beverages generally are consumed within the restaurant building.

"FREESTANDING RESTAURANT." Drive-In, Fast Food and Standard Restaurants which are detached structures or a nondetached part of a building greater than 5,000 square feet which is occupied for a commercial use other than an auto service station.

161.046 SITE DEVELOPMENT STANDARDS.
(A) The following site development standards shall apply to freestanding restaurants within the city: minimum lot area, 20,000 square feet, minimum lot width, 150 feet.
(B) On corners, the frontage requirements shall apply to the major traffic road.
(Ord. 78-010, passed 4-3-78)

161.047 ZONING DISTRICTS AND PERMIT STATUS.
All restaurants defined in this subchapter shall meet the following zoning district guidelines.

Restaurant Type	Zoning District
Standard Restaurant	C-2
Drive-In Restaurant	C-3
Fast-food Restaurant	C-2
Carry-out Restaurant	C-2

161.048 TRAFFIC CIRCULATION
(A) For all freestanding restaurants, the minimum width of driveways at the property line shall be 21 feet.
(B) The minimum distance between driveways on the site of a freestanding restaurant shall be 65 feet measured from the two closest driveway curbs.
(C) Vehicular ingress and egress for freestanding restaurants. Points of vehicular ingress and egress shall be limited to the thoroughfare having business frontage only, and site plans shall be reviewed by the Building Department and the Planning Commission for location and design of curb cuts and driveways as well as for layout of parking lots.

161.049 AESTHETICS.
For all freestanding restaurants, detailed site plans shall be submitted to the Planning Commission for approval or denial of the subject design. The Planning Commission shall review the site plans according to the following criteria:
(A) Consistency and compatibility with applicable elements of the City's Master Plan.
(B) Conceptual compatibility of design with the environment immediate to the site.
(C) The degree to which the design promotes harmonious transitions in scale and character in areas between differing designated land uses. The failure of such design to promote a harmonious transition between differing designated land uses shall be reason for denial.
(D) Compatibility with future development as conceived in the Master Plan and based upon the likelihood of such future land use for the site.
(E) The appropriateness of open space and landscaping, in terms of amount and arrangement, to the design and function of the structure.
(Ord. 78-010, passed 4-3-78)

161.050 REVIEW AGENCY; APPLICABILITY OF REGULATIONS.
(A) Review agency. The review agency for the purposes of this subchapter shall be the Building Department and/or the Planning Commission, or the City Council in a Planned Development District.
(B) The provisions of this subchapter shall apply to property presently zoned or later re-zoned within the following districts: C-2, C-3, and Planned Development, and used partially or solely for restaurant activities as described in 161.045 through 161.048 and 161.165 through 161.168 where one of the following occurs:
(1) The construction or erection of any building or other structure upon an improved lot.
(2) Additions or alterations to present structures or the erection or placement of an additional structure or structures upon the lot or nonsubdivided property resulting in a percentage increase in the gross floor area exceeding 10% of the present structures. All such additions, alterations, repairs, and additional structures shall be considered cumulative in determining the percentage increase beginning on April 3, 1978.
(Ord. 78-011, passed 4-3-78)

Except as herein modified, the said code shall remain in full force and effect. This amendatory ordinance is declared to be effective upon publication as required by law.

COCAINE. IT CAN COST YOU YOUR BRAIN.

State steps up MET marketing

By Wayne Peal
staff writer

Fran Gursky and Denise Sigworth are among those who say they rest easier knowing their children will someday go to college through the Michigan Education Trust.

"You could never save the money on your own," said Gursky, an Oakland County mother of two.

But Livonia state Rep. Lyn Bankes and her husband have chosen another college payment plan on behalf of their unborn grandchild.

Rising state tuition and rival plans have clouded MET's future since the college tuition program was introduced last year, leading some to wonder whether potential consumers would lose faith in MET.

On the basis of a recent metropolitan area MET forum, however, interest apparently remains high.

More than 1,000 people, some from as far away as Flint, braved heavy rains and flooded roads to attend Wednesday's forum in the Royal Oak Kimball High School gymnasium.

"If we could get that many people out in a heavy rain storm, I think it shows what kind of interest there is in MET," state treasury department spokesman Robert Kolt said.

Metro area residents, especially those from Oakland County, formed the backbone of last year's crop of MET enrollees.

More than 40,000 youngsters were enrolled last year, with little state promotion.

This year, the state is spending \$250,000 to promote MET. The Royal Oak forum was part of a statewide series preceding this year's Oct. 2-6 sign-up period.

A MET video is available at area video stores. State officials have asked store owners to provide free rentals.

Treasury department officials are aware alternative programs, both public and private, have emerged in the past year.

"We've told people that if they can make investments that would outstrip MET then that's what they

This year, the state is spending \$250,000 to promote MET.

should do," Kolt said.

That's what Bankes did, opting for a U.S. Savings Bond program. But the Republican state representative said a potentially higher rate of return wasn't the major reason.

"MET GUARANTEES tuition, but it's room and board, that's the big college cost," Bankes said. "The way we look at it, our grandchild will probably be able to afford college, but our investment in Savings Bonds could well determine whether he or she goes away to college or stays home."

In contrast, Sigworth and her husband decided to stick with MET after reviewing other plans with a financial planner.

"We're really glad we did it," said Sigworth, grants coordinator for Schoolcraft College, Livonia. "We tell people we're already sending her to college."

State officials said they won't know how many people will sign up for MET this year until results are tallied.

"Last year, we predicted 5,000 and got eight times that," Kolt said. "It's hard to tell."

MET supporters and detractors agree on one point — college is becoming increasingly expensive.

State Treasurer Robert Bowman said four-year tuition at a state university currently averages \$10,000. By the time today's newborns have graduated from high school, Bowman said, that cost will increase to at least \$35,000.

MET is also becoming more expensive. This year's enrollment cost averages 13 percent more than last year.

Peace of mind, Kolt said, is MET's chief selling point.

"Most people, we believe, will choose MET because of its tuition guarantee," he said. "People can make money through a variety of investments, but MET guarantees tuition and that's important."

County to trim list of land bidders

By Wayne Peal
staff writer

Bidders on 1,000 acres of county owned land in Northville will be narrowed this week, possibly as soon as tomorrow.

Bill Wild, county director of business development, said the county's property committee should pare the list by mid-week.

"It will be either Tuesday or Wednesday," Wild said.

Four organizations submitted bids June 8. It is expected two will remain.

County officials would then begin negotiating with the remaining bidders, Wild said.

All bidders would build at least one golf course, surrounded by luxury housing. Some bidders would add "high tech" businesses, others would add offices and senior housing.

Selling the property has been a top priority of County Executive Edward McNamara since he took office in 1987. Money from the land sale and future tax revenue are expected to help the county maintain a balanced budget.

WHILE MONEY is the "the single most important" determining factor, Wild said it won't be the only factor considered.

"The nature of each proposal will be considered — how each bidder will use the land, what conditions they are putting on their proposal," Wild said.

The property runs from Sheldon Road west to Beck and from Six Mile south to the Plymouth Township border. At one time it housed the Child Development Center. As many as 55 former center buildings will have to be demolished to make

room for new development.

Those submitting bids include:

GROUP I: The group is headed by Nicklaus/Sierra Development of Tampa, Fla. Affiliated with golf legend Jack Nicklaus, Nicklaus/Sierra's local partners include LoPatin & Co. of Southfield, Holtzman & Silverman Cos. of Farmington Hills. Duke Associates, the Indianapolis-based group developing a portion of Schoolcraft College property in Livonia, is also a partner.

The bid would develop 550 acres. It includes a golf course and luxury homes.

GROUP II: The group includes developer Robert DeMatia of Plymouth Township, the Alexander Hamilton Life Insurance Co. of Farmington Hills and downriver entrepreneur Heinz Prechter. The proposal includes a golf

course, single family homes, condominiums, other recreational activities and a high tech center.

GROUP III: Group members include developer Arnold Cohen, owner of Arco Construction, Southfield and John Boll and Joseph Ministrelli, owners of Chateau Land Development Co., Mount Clemens.

In addition to a golf course and single family homes, the group's bid also includes town houses, apartments and a senior citizens village, as well as retail, office and high tech development.

GROUP IV: The group includes the national firm Trammell Crow, developer of the Novi Town Center. Partners include developers J & J Slavik, Inc. of Farmington Hills, real estate brokers Byron Trerice, Inc. of Birmingham and landscapers Vidosh Inc. of Pontiac.

SC classes spotlight skills for secretaries

Professional development courses for secretaries are being offered by Schoolcraft College's continuing education services division.

Courses prepare students for the Certified Professional Secretary Examination. They are part of a series of six related courses being offered this year.

Courses include:
• Behavioral science — The course explores psychology, human relations, group dynamics and leadership. Its focus is on understanding yourself, peers, subordinates and superiors. Topics include defense

mechanisms, motivation and leadership, communication barriers and interviewing skills. The course meets for three weeks beginning Saturday, Sept. 16. Fee is \$24.

• Economics and business management — The course covers basic business concepts of operations and management. The course meets for five weeks, beginning Saturday, Oct. 7. Fee is \$42.

Additional information is available by calling 462-4448.

Schoolcraft is at 18600 Haggerty, between Six and Seven Mile, Livonia.

WE'D LIKE YOU TO RESERVE THE WEEK OF SEPTEMBER 17th FOR A MIRACLE.

George Washington said its creation was "little short of a miracle." James Madison said, "It is impossible for the man of pious reflection not to perceive in it a finger of that Almighty hand," when describing the process that created it.

Washington and Madison were commenting on nothing less than the document that created our government: The Constitution of the United States. The Constitution is the foundation of our country and the means by which we achieve the rule of law and protect our freedom.

The week of September 17th is Constitution Week. Many libraries will have displays and information on this incredible document.

Why not take a look at it. After all, it isn't often you can hold a miracle in your hands.

To get your copy, send your name and address to: Bicentennial Commission, 808 17th Street, N.W., Washington, D.C. 20006-3999.

Constitution Week, September 17th-23rd

A circumstance that deglamorized drugs

WHEN PRESIDENT BUSH talked about how casual drug use in America is responsible for murders in Colombia, it made me remember the death of a friend more than 20 years ago.

He was a victim of casual drug use just like the hundreds of judges and others murdered in Colombia by drug king pins.

When Bush said drug use in America translates into blood in Colombia, he was saying something that I had thought for a long time. The cocaine, marijuana and other illegal substances are stained with the blood of police and those in the drug trade.

Whenever somebody uses marijuana or cocaine, he is affecting more than his own health. Through his drug use, he is putting money into a system that supports a war between police and drug smugglers. And as in all wars there are casualties.

My friend was one. And although it was a long time ago, he was much like the Colombians and others who are in the cocaine trade these days. He was a working class kid who saw drugs as a way to get his piece of the pie.

He was a Vietnam era veteran who, after coming out of the service, went to work in one of Detroit's auto plants. But he discovered he could make more money selling drugs to fellow workers than he could by making cars.

Jeff Counts

THIS WAS DURING the Woodstock era when marijuana was common on college campuses, and students openly smoked it. They said it wasn't harmful. Maybe it wasn't to them. But it was lethal to my friend. He was murdered when a drug network fell apart.

After that when I saw people cavalierly smoking marijuana, I thought about my friend. He was dead partly because they had the money to engage in casual drug use. The marijuana users were killing themselves slowly through their drug use, however, they also were signing the death warrants for poorer people.

When drugs are bought, they have to come from someone, and the job of providing those drugs usually falls to those who have less economic hope. There's also the lure of easy money. And that lure is more attractive to the poorer a person is.

For me, my friend's death forever took any luster off drugs that they may have had in those days. When I saw people smoking marijuana, I thought of the funeral of my friend.

No funerals are nice affairs, but when it's a young person, it's always

worse. At the funeral, friends and I discussed how it had happened.

THE DETROIT POLICE called it a traffic death. But a witness who was with my friend didn't think so. Also, another mutual friend who was at the funeral was a policeman and had checked the report. His verdict was that it wasn't an accident.

As with most drug-related deaths, there was a strange web of events led up to my friend's death. It started with a drug raid at the house where he was living that was supposedly used to store marijuana. Also, there was another death shortly after of another person supposedly involved in that network. That person died of a drug overdose. The word from my friends was that it wasn't.

I'll never know the full truth about those incidents that happened so long ago. But they will always haunt me whenever I hear about drug-related murders or hear about cocaine use.

There's a war going on that pits poor people against police and law enforcement officials. They are the ones who are dying in the trenches, while the casual drug users sit behind the lines financing the war.

Maybe things would be different if those drug users had to travel to South America to obtain their own cocaine. If they were risking their lives, maybe things would change.

Jeff Counts is the editor of the Plymouth and Canton Observer newspapers.

Driving drunk
Penalty must be swift, certain

WE ARE MAKING some progress in the battle against drunk driving but we still have a long way to go.

As recently as 10 years ago, a professional athlete or local celebrity only added to his legend if the public found out he had been inebriated behind the wheel. The public didn't find out often, because police officers were inclined to let well-known offenders off with a "warning."

These days, such arrests are reported by the media, usually on the front page or at the top of the newscast. Reaction is negative, status of the person as a "role model" is questioned.

Judges are handing out stiffer penalties in drunk driving fatalities too.

Everyone, it seems, now believes driving under the influence of alcohol is a serious problem for society. Mothers Against Driving Drunk (MADD) and its spinoff organizations deserve much of the credit.

More needs to be done. Those who doubt it ought to show up in their local district court any Monday morning. They will see a half-dozen or more young adults parade before the judge to plead on cases stemming from their arrest the previous weekend.

MOST ARE BETWEEN 18 and 25 years old. Many are repeat offenders.

What's wrong with these people? Weren't they recruited by the SADD (Students Against Driving Drunk) campaign at school? Haven't they seen that film showing the automobile wrecks and the close-ups of the medical equipment used to perform autopsies?

No, they haven't.

The educational effort to thwart drunk driving is a recent phenomenon. Intensive anti-drunk driving campaigns have only been part of school curriculums for the last three or four years. That leaves the young adults who graduated from high school seven or eight years ago uninformed and out on the road.

The job of educating these young adults about the dangers of drunk driving is falling to the courts. And, if you judge by the number of repeat offenders, the courts are failing.

We recommend a mandatory sentence for adults charged with driving under the influence — even first-time offenders. The sentence may or may not include jail time on weekends, community service, therapy and education or any combination of those factors.

A plea agreement to the lesser charge of driving while impaired should be discouraged.

The message being given to these people should be that drunk driving is a serious offense, not an exercise in playing "Let's Make a Deal."

Alcohol ban
U-M deserves praise, support

HAIL TO the victors. No matter where your football sentiments rest, you've got to feel a bit of victory after the University of Michigan's declaration that alcohol is no longer welcome at the stadium.

We commend the university officials for taking steps to keep those more interested in getting drunk from ruining the enjoyment of those who come to watch the game.

Universities, especially, need to be beacons of leadership, to set the pace of American mores and lifestyle. Legions of intoxicated students paraded across the national television networks every Saturday has proved nothing short of ludicrous.

Alcohol abuse is no joke. It very simply is a murderous practice which must not be condoned by any responsible institution.

The university also is banning the practice of allowing patrons to leave the stadium to refresh themselves at the ongoing tailgate party in the parking lot.

Alcohol abuse is no joke. It must not be condoned by any responsible institution.

Some alumni and students are objecting. But to those we can only give a Bronx cheer.

The move by U-M to thwart those secreting alcoholic beverages into the stadium via various types of containers is a move recommended for other sporting arenas.

Frankly, we believe that alcohol is of little use at any sporting event — amateur or professional. Banning the suds completely would be more than commendable.

Perhaps team owners who fret over waning attendance would find a renewal of interest among fans long-departed, frustrated at competing with the din of a drunken crowd.

7 Mile must be made safe

To the editor:

After the most recent traffic accident at Seven Mile and Gill in which two persons were injured, one critically, I felt compelled to write for help.

Anyone who has traveled Seven Mile in the last few years knows the entire length from Middlebelt to Haggerty is a potential death trap. Every intersection is a traffic hazard because there is very heavy traffic, no continuous left-turn lane, and the existing lanes are too narrow. Seven Mile must be widened and a left-turn lane constructed similar to Six Mile. But how long must we wait

for this project to be started?

On the front page of the Observer today (Aug. 31) we are told that in November voters can approve a bond sale to begin improving the roads in Livonia. We would ask that Seven Mile be the top priority project. I quote councilman Robert Bishop, again from the same Observer article. "It (the road improvements) will make life more pleasant for us all."

The hundreds of us who must trav-

el Seven Mile are not concerned with inconvenience or unpleasantness. We are concerned with life and death and mutilation and mayhem. Will some concerned citizens please step forward? Let's spearhead a campaign to put pressure wherever it is needed to insure this work be done now. The next victim may be your neighbor . . . or you.

Donna Klassa,
Livonia

Farmers markets are fun

There's still time to take the last roller coaster ride of summer. If you're like the James Gang, this summer will certainly rank up there with the best but, believe it or not, we can't wait for what fall brings.

In addition to school, the regaining of supposedly regular schedules and crisp days coupled with blowing leaves, now the harvest begins.

What a great time of year to experience our colorful outdoor markets.

The Detroit area has some of the best pickings when it comes to farmer-type marketplaces. Aisles are brimming with squashes that could easily be contenders for the Guinness Book of Records. Mums ablaze with all the colors of the rainbow stuffed in institutional pickle buckets jockey for space between bushels of apples, baskets of corn and rows upon rows of sugar-sweet melons. Pumpkins will be appearing soon, heralding the harvest moon. If you haven't visited an outdoor farmers market, circle a date today and be prepared for what easily could be the greatest show on earth.

Granddaddy of them all, the Eastern market, at the intersection of old Gratiot avenue and the I-75 freeway, beckens suburbanites from all over the area, ready to sample the wares of some of the oldest farmers around.

IN ADDITION to having just about everything you could ask for in the fruit and vegetable line, small shops abound on the perimeter of the market area and are reeking with the smell of olives, spices, fresh roasted peanuts, cheeses, meats and poultry — not to mention bagels and fresh-squeezed orange juice.

Eastern Market has a color and flavor all its own. Folks from all walks of life ply the aisles in search of \$4-per-flat strawberries, \$5-per-bushel canning tomatoes and \$8-per-50-pound sack of potatoes. One could easily pass the day just people watching. Bring the kids, a wagon and lots of dollar bills because, as they say in the advertisements, they don't take American Express, and checks are virtually unheard of.

Another fun, old-time market, not quite as big as the Eastern Market but still filled with loads of farmers selling right from the backs of their pick-up trucks, is the fabled Chene-Ferry Market. Just off the I-94 freeway in one of the oldest parts of town, this is the market where the women still wear babushkas and the men congregate at corner bars for a two-bit shot and a beer. Prices are a little more reasonable because the rents are so low, but this part of old Detroit still blossoms with color and smells, especially during harvest time.

For a more upscale approach, check out the sights, sounds and smells at the Royal Oak Farmers Market. Just about two blocks west of old downtown Royal Oak, this is a yuppie-style suburban market in a big, old shed just a tad smaller than the State Fair Coliseum. Makeshift tables are set upon wooden saw horses topped with plywood and covered from one end to the other with fresh fruits and vegetables. This market is the northern suburbs' mini Eastern Market.

Not to be outdone, and sprouting a whole new look, is the Ann Arbor Farmers Market in Kerrytown, just two blocks north and one block east of downtown Ann Arbor. Here, you will find farmers from the western outskirts of sleepy little towns like Dixboro, Saline, Milan, Dexter and Chelsea. With a little luck, you will come across a few kids with a large cardboard box of puppies or kittens that can be had for a song. Add to that a few bakers who offer loaves of oat bread, baskets of bran muffins and some of the best (and coldest) cider in town.

CLOSER AND still in its infancy is the Ypsilanti Farmers Market nestled on the banks of the

Please turn to Page 3

Daring to grill fish

COMBINE THE WORDS "grill" and "fish" and you immediately conjure up thoughts of Garfield, Felix and all the neighborhood felines perched vulturally on the deck rail.

On a more human side, mention fish on the grill and most backyard chefs will conjure up thoughts of raging fires, fish falling between the grids and a never-ending battle with flies. Let's face it, no one wants to spend an afternoon marinating \$18 worth of fish only to see it burn, or worse, fall through the grids and be swallowed by red-ember-coated swarms of charcoal.

Warm weather just wants to make folks like you and me cook outdoors. Burgers, steaks and chops and even a kebob or two of vegetables are considered "cake" for even novice backyard chefs, but when you mention fish, chills and thoughts of disaster begin to cloud the minds of even the most confident.

Probably the most-asked question regarding fish cooked on the grill is, "When is it done?" Individual fish vary in their popularity due to flavor, fat content, odor, color, texture moisture and availability. As a result, there are many different types of fish and cooking times that can be used on the grill. Fish cooks quickly because its flesh is extremely tender and delicate. Care must always be taken to cook fish just to the point of juicy perfection. Otherwise, it will taste fishy and flavorless.

THERE ARE several ways to determine when fish is sufficiently cooked. The Canadian cooking theory estimates cooking time at a ratio of 10 minutes per inch of thickness for fresh fish. This method produces fish that flakes easily when gently probed with a fork.

A very simple but less exacting

Please turn to Page 2

Wedding cakes can be surprising

By C.L. Rugenstein
staff writer

Once upon a time choosing a wedding cake was a simple matter. Tradition decreed that it had to be a white cake or a fruitcake — with all-white decorations.

Now, anything goes. Cakes can be cheesecake, chocolate or cherry nut. Cake-top brides and grooms can be mice, bears or bikini-clad water-skiers. Black is even acceptable for frosting and decorations.

But the most unusual wedding cake decoration Ruby Marcel, owner and chief decorator, ever did for Thomas Wedding Cakes in Livonia was probably the miniature potatoes.

"The groom was from Idaho," Marcel said, then laughed. "I made the potatoes from marzipan and put the eyes in with toothpicks."

That cake also had the cowboy groom figurine, with a "girl off a softball trophy" for the bride, Marcel said.

In their busiest season, Easter to October, Marcel estimated they av-

erage 20-30 wedding cakes per week. That's not counting the approximately 100 specialty cheesecakes they also turn out each week.

SINCE EVERYTHING is baked fresh from scratch (no mixes or preservatives are used, Marcel said, and none of the cakes are frozen), that's a lot of baking and decorating.

Marcel bakes most of the wedding cakes early in the week and puts one coat of icing on them to keep them fresh.

"A cake will stay fresh for a week or two if it's not cut into," she said.

Marcel adds a second layer of icing when she's ready to decorate.

All the wedding cakes are decorated by Thursday with the flowers she has made up ahead of time. Two part-time helpers assist with the decorating, but otherwise Marcel does most of the work herself.

Her husband, Roy, who owned a service station before getting into the cake business, takes orders and delivers the cakes.

BOTH IN their 40s, Marcel and

her husband have been meeting the challenge of their customers' unusual requests for 13 years. When they bought the little white building at Five Mile and Middlebelt roads, it was already a Livonia landmark.

Roy Thomas began the business more than 60 years before, with his own special recipes. Before he moved to the "park and peek" shop — where customers could check out the cakes in the window after hours, and call to order them the next day — he had a shop in Redford. It was right on the way to Redford High School for then-teenaged Roy Marcel.

"I used to walk by the shop every day and wonder how he did things like that," Marcel said.

Now he knows.

HE AND Ruby, who worked as a cook at the old Huck's Bavarian Village, heard about the shop from a former employee of Thomas, Emma Stankey. She bought it when Thomas decided to retire, but had to sell it

Ruby Marcel puts silk flowers on a wedding cake ordered by a customer.

Take the dare, and cook fish on the grill

Continued from Page 1

test is to insert the tip of a small, sharp, paring knife into the thickest part of a fish fillet during cooking. Leave the tip of the knife in the fillet for approximately five seconds. Then withdraw it and carefully test by feeling the tip of the knife with your fingertips. When the knife feels hot to the touch, the fish is cooked.

Another way to gauge doneness is to gently press the fillet at its thickest part, and when the fish feels springy as opposed to slack, it is sufficiently cooked. Caution: this test should be done only by backyard chefs with considerable experience.

Perhaps the most exact method for determining doneness is to test the temperature of the fish with an instant-read thermometer (often called a meat/yeast thermometer used by most restaurants). The thermometer begins to measure the temperature of any food the moment it is inserted.

Fish is thoroughly-cooked but still juicy and not yet at the flaky stage when the temperature reaches 125 degrees. Remember that fish (like

meat) continues to cook slightly after it is removed from the heat. If you have a recipe that calls for making a sauce or assembling the fish with other ingredients, count on several minutes of residual cooking time. Keep the fish covered with foil or a plate during this time.

GRILLING ADDS enormous flavor, particularly when oak, mesquite, apple or elder fuels the fire. In addition to great taste, fish takes on attractive markings from the grill which definitely adds to its eye appeal, on the plate. Grilling cooks fish rapidly, so, right off the bat, save flatter fish such as sole, flounder or perch for indoor cooking.

Fillet of salmon, bluefish, tuna or seabass and steaks such as swordfish, salmon or shark are the top choices for grilling. Not to be outdone, however, are the firm-fleshed fish such as monkfish, scallops and lobster, which can easily be skewered with inexpensive bamboo skewers or metallic swords. As with most baking techniques, it's best to keep the sizes of the fillets, steaks or skewered chunks approximate so

that you can be assured of uniformity of doneness.

A well-oiled surface will help the backyard chef keep grilled fish from sticking to the grids. For this reason, most restaurants who excel in grilling will recommend that the hot grid be first rubbed with a dish towel lightly soaked in oil. Repeating this procedure before flipping the fish will ensure professional results with minimal effort.

Novices will appreciate the usefulness of a gadget called the fish grill which, simply put, is a pre-made wire cage that will hold the fillets, steaks or whatever and keep them from falling into the fiery depths below. Fish grills can be purchased at most barbecue shops and range in price from about \$10 to more than \$40 for deluxe versions.

Yours truly has experimented with these fish grills and finds them to be very helpful to the novice but, in all honesty, the grills end up being just one more item to wash after the feast, for the more advanced backyard chef. Thinner fillets fare better in these grills. Most steaks, especially firm ones like swordfish, tuna and

salmon do not require the use of a fish grill.

WHEN IT COMES to the positioning of coals and fire for cooking fish on the grill, opinions vary. Cindy Pawlcyn, one of California's hottest chefs, mounds the coals and hickory chips on one side of the barbecue, then arranges the fish over the other side. That way, she explains, the fish is cooked by the smoke rather than the direct heat over the coals. The delicate smoky flavor created by this method is unbeatable. "Chicken works well, too," she adds.

This backyard chef prefers to cook directly over gray, molten coals that have been started at least 40 minutes before. I position the grid about 6-8 inches above the coals and allow the grid to heat up for about 5 minutes before wiping with oil and beginning the grilling process. Techniques vary, and you are your own best judge as to how you like it.

Fish, unlike red meats and poultry, can benefit greatly by incorporating a simple marinade before the cooking process begins. It is not necessary to marinate for long periods

of time. Usually 30-45 minutes will suffice.

In addition to imparting unique flavors from the marinade, brushing the fish during the cooking process will keep it incredibly juicy and tender, barring overcooking. For simpler tastes, a squeeze of fresh lemon or lime juice and a slathering of butter will do the same.

When it comes to preparing sauces for fish, this writer refuses to mask the delicate flavors achieved by grilling, with a heavy sauce. Sauces are great for indoor cooking, but you want to incorporate the goodness and simplicity of grilling. Therefore, I recommend that if a sauce is deemed necessary, it be light and delicate.

NEVER BATHE the freshly grilled fish in the sauce but simply arrange the sauce on a plate or platter and adorn the fish on top of the sauce so that it can be enjoyed with or without, depending on the diners wishes. Better yet, serve the sauce on the side and simply decorate the fish with a little fresh,

chopped dill, chives or garlic butter.

When it comes to necessary gadgets that are deemed a must for the backyard chef, it is recommended you keep a clean spray bottle within arm's reach at all times. Should a sudden flare-up occur, it can be quickly doused. When pressed for time, water can be used, but I enjoy combining a watery blend of broth and white wine. In addition, keep a long-handled spatula, tongs and a pastry brush handy. Long-handled forks should be kept for steaks and chicken, as constant prodding with a sharp fork will make for a less juicy fish.

Last but not least, never underestimate the usefulness of a long-armed insulated mitt that can re-position the grid or pick up red-hot skewers.

If you're thinking of breaking out the barbecue and utilizing it for more than burgers, steaks and poultry, you're in for a pleasant surprise when you attempt to grill fish. Look at it this way, the neighborhood cat population will be your friend for life.

SWORDFISH WITH GINGER, LEEK AND GARLIC

¼ cup (1 stick) butter or margarine
3 medium leeks, cut into ½-inch-

thick rounds
4 medium cloves garlic, minced
1-inch-piece fresh ginger, grated
salt and pepper to taste

olive oil
swordfish steaks

Prepare the grill. Melt butter in a

Chef Larry gives recipes that require fresh vegetables

JAVANESE VEGETABLE SALAD
6 tablespoons fresh lime juice
2 large cloves garlic, minced fine
½ teaspoon salt
2 tablespoons sugar
½ teaspoon crushed red pepper (optional)
1 cup shredded unsweetened coconut
2 teaspoons dried mint
1 teaspoon fresh grated ginger root
¾ pound fresh spinach
½ pound fresh green beans, trimmed
¾ pound fresh bean sprouts

1 cup sliced onion
1 cup cubed or sliced zucchini
2 cups cubed eggplant
½ cup grated carrot
1 teaspoon coriander, ground
½ teaspoon ground cumin
¼ cup minced chopped green chiles
¼ cup chopped olives, optional
½ cup chopped fresh parsley
1 tablespoon minced garlic
2 cups grated monterey jack cheese

1 tablespoon minced garlic
1½ pounds tomatoes, chopped
1 cup barley
1 bay leaf
1 teaspoon thyme
1 teaspoon oregano
6 cups soup stock or broth or vegetable juice

In a large soup pot, heat oil and saute onion till soft. Add remaining vegetables, barley and herbs and saute for 10 minutes, adding a bit of water if needed. Add stock or broth, bring to a boil, cover and reduce heat to a simmer and simmer until barley is tender, about 45 minutes. Remove bay leaf. Serve immediately.

CALIFORNIA COLESLAW
1 small can (11-ounce) mandarin oranges
½ cup mayonnaise or salad dressing
¼ teaspoon salt
¼ teaspoon ground ginger
1 tablespoon vinegar
1 tablespoon sugar
6 cups shredded cabbage
¾ cup chopped walnuts
Drain oranges well. Reserve juice. Blend mayonnaise or salad dressing, salt, ginger and 1 tablespoon of orange juice with vinegar and sugar. Place cabbage in a large bowl. Pour dressing over; toss thoroughly. Add oranges and nuts. Toss lightly. Chill before serving.

In a medium bowl, combine lime juice with garlic, salt, sugar, red pepper, mint, coconut and ginger root. Mix well, set aside. Place clean, whole spinach in a heavy skillet and cook quickly over high heat without any additional liquid until wilted. Add immediately to the marinade. Cook green beans in boiling water for 5 minutes or until tender. Drain and refresh under cold water. Drain again and add to the marinade. Drop sprouts into boiling water for 1 minute. Drain and add to marinade. Stir until well blended.

VEGETABLE ENCHILADA CASSEROLE
12-16 tortillas
2 cups tomato sauce or salsa
1 tablespoon olive oil

VEGETABLE BARLEY SOUP
1 teaspoon oil
1 cup chopped onion
1 cup chopped carrot
1 cup chopped celery

heavy saucpan over medium heat. Add leeks, garlic and ginger and cook until leeks are tender, stirring frequently, about 15 minutes. Season with salt and pepper. Coat grill rack with olive oil. Sprinkle fish with salt and pepper; brush with olive oil. Arrange on a grill and cook until just opaque, about 3 minutes per side. Transfer fish to plates, serve with warm sauce.

GRILLED SALMON WITH DILL BUTTER
¼ cup softened butter or margarine
¼ cup firmly packed stemmed dill sprigs

Place the butter in a food processor with the fresh dill and process until smooth, about 15 seconds. Remove and set aside. Prepare grill and wipe with oil. Place salmon on the grill and cook to desired doneness. Just before serving, slather about 2 teaspoons of the dill butter onto each fish and allow to melt. Serve immediately.

SKEWERED TUNA CHUNKS WITH SESAME GINGER SAUCE
1 tablespoon sesame seeds, toasted
2 teaspoons peeled, grated ginger

2 tablespoons honey
2 tablespoons soy sauce
1½ pounds tuna steaks, cubed into 2-inch cubes
2 limes, cut into eights
4 skewers

Combine sesame seeds with ginger, honey and soy sauce. Mix well, set aside. Skewer tuna chunks onto the skewers, alternating with lime wedges. Prepare grill and grill tuna over hot coals for 2 minutes on each side. Brush with sesame-ginger sauce throughout the cooking process.

family-tested
winner dinner

**Betsy
Brethen**

Mother of 3 has answer to dilemma

Welcome! It is with great excitement and enthusiasm that I begin this first "Family-Tested Winner Dinner" column, hoping it will provide a way for mothers to reach out and help one another by sharing their family's favorite dinner menu.

The dinner hour certainly does affect the lives of wives and mothers simply because it never goes away. Every 24 hours, it's back and is often one of the most stress-filled moments of the day.

As the mother of three growing boys who are usually starving until they sit down at the table, I have often experienced the frustration of preparing meals the boys don't like and won't eat. I found I was in a rut, cooking the same things over and over. I wanted to find other nutritional alternatives the boys would eat, and expand my repertoire of menus.

After talking with other mothers, I knew I wasn't alone. Thus, the idea for "Family-Tested Winner Dinners" was born, based on the premise that every family has at least one or two dinners everyone in the family likes and will eat. In some cases, these favorite recipes have withstood not only the test of tummies but also the test of time, as many recipes have

been passed on from generation to generation.

THIS COLUMN will appear every Monday in the Taste section and will feature one family's tried-and-true dinner menu, recipes as needed, and a shopping list of all necessary ingredients. I am looking forward to hearing about your family's Winner Dinner and what makes it so special. After all, what works for your family may work for others as well. As an added incentive, an apron printed with "Winner Dinner Winner" will be given to the person whose menu is selected to appear in this column.

Together we can work toward providing each other with an ongoing selection of tasty and nutritious family meals. As well as saving you time, these complete menus might even result in your hearing those yearned-for words, "Gee, Mom, that was great. May I have some more?"

I hope you and your family will enjoy this week's Winner Dinner. If you would like to share your family's favorite dinner menu, submit your recipes, to be considered for publication in this column or elsewhere, to: Winner Dinners, P.O. Box 3503, Birmingham 48012.

Which Michigan fish get OK from DNR?

By Larry Janes
special writer

Are Michigan fish safe to eat? Should we all heed the warnings issued by assorted wildlife groups who have released independent studies cautioning people to stop eating Great Lakes fish?

The Department of Natural Resources Fisheries Division has refuted claims concerning health warnings from some independent wildlife groups.

The DNR has issued a free public health fish-consumption advisory, contained in the 1989 Michigan Fishing Guide, which is handed out when fishing licenses are bought. If you don't have a Michigan fishing license and want a copy of the fishing guide, send a self-addressed, stamped envelope to: DNR, Fisheries Division, 2455 N. Williams Lake Road, Pontiac 48054.

In the advisory, the DNR lists all major bodies of water and fish, with recommendations concerning consumption guidelines.

In general, the advisory suggests that you do not consume carp and catfish and that most brown and lake trout and walleye over 21 inches should not be consumed.

COHO SALMON and chinook

salmon under 23 inches should be restricted to no more than one meal per week. The same goes for locally caught perch, bass and pike over 12 inches.

Special advisories for women, children, and nursing and pregnant women apply, and the DNR suggests special caution be taken by these groups.

Kevin Dean of Superior Fish in Royal Oak, and a member of the Great Lakes Fishing Association, suggests that, when buying Great Lakes fish from any fishmonger, deal with a reputable retailer and don't be afraid to ask questions about where the fish came from.

Dean also said that most reputable fish retailers and restaurants buy Great Lakes fish from much colder (and safer) Northern Canadian lakes. These fish are checked first by the Canadian Ministry of Health and again by the Michigan DNR and the health department for contamination prior to sale.

The public health advisory regarding the consumption of Great Lakes fish is not intended to discourage the public, but to help in selecting fish and fish preparation methods that represent the lowest potential health risks due to the presence of contaminants.

Observer & Eccentric Winner Dinner

Chicken and Shallots
Herbed Rice
Steamed Broccoli
Fresh Fruit Salad

Recipes

CHICKEN AND SHALLOTS

This is a very easy dish that can be made in advance and reheated. Cooking time can vary from 20-30 minutes, depending on how long the sauce is allowed to cook down. This recipe feeds our family of five, but can easily be doubled in order to feed more people. This recipe works just as well with turkey scallopine instead of the chicken.

1 boneless, skinned chicken breast per person
2-3 shallots, chopped finely
handful of parsley, chopped finely
1 can of chicken broth (14 1/2 ounce)
1 cup flour
seasoning salt to taste
2 tablespoons butter or margarine (all fat can be eliminated in this recipe by using a small amount of chicken broth instead of butter or margarine)

Pound the chicken breasts flat between 2 pieces of foil. Dredge them in the seasoned flour.

Melt butter in large frying pan and add chicken breasts. Cook both sides of the chicken until lightly browned. Add shallots and parsley and 1/2 can of

chicken broth. Cover and let simmer for 10 minutes.

Continue adding the broth as needed and cool until a light gravy has been formed. Serve the chicken with the sauce spooned on top.

HERBED RICE

I usually use Aunt Jane's Crazy Rice, but any herbed rice available in the supermarket would go well with the chicken. Follow the directions on the box and start while the chicken is browning.

BROCCOLI SPEARS

Wash broccoli and remove the large leaves and the tough part of the stalks. Steam in 1 inch of water in a tightly covered saucepan until it is barely tender, 10-12 minutes. Serve as is or sprinkled with a little melted butter or margarine.

FRESH FRUIT SALAD

Cut up any fruit that you have on hand — apples, pears, bananas or melon, mix together and pour a little orange juice on top.

Wedding cakes are surprising

Continued from Page 1

again after two years due to ill health.

And Ruby Marcel had just taken a cake decorating class.

"I told Roy, 'Let's go talk to her,'" Ruby said, "and a month later we were the owners."

She added her own cheesecake recipes, and picked up new customers as well as second and third generation customers from Thomas. Though the shop doesn't deliver, customers will come in and buy cakes to take as far away as Germany and Australia.

It also has changed location to 29410 Five Mile, two blocks west of Inkster Road.

Marcel estimated that she bakes at least 500 cheesecakes in the two weeks before Christmas. Plain with a sour cream filling is the favorite, but they also do apple, chocolate, pumpkin and Amaretto flavors, among others.

AT \$2.50 per slice, that's a lot of cheesecake. And they're doing turna-way business, Roy said, so customers anticipating a cheesecake attack should order early in the week.

"Some weeks we can't keep them baked. We sell out almost as soon as they're made," Ruby said.

The only challenges she has to meet now are requests from her customers.

"One cake I had to decorate had fresh fruit — grapes, strawberries, apples, plums and kiwi berries," she said.

"Right now I have one with royal blue rosebuds, turquoise roses and peach frosting," she said. "Sometimes I don't agree with the customers' choices, but I give them what they want."

And sometimes, the unusual combinations work out even better than she expected.

Families have fun at farmers markets

Continued from Page 1

Huron River in old Depot Town. Just ask anyone where Cross Street and the Huron River intersect and you will find the Ypsi market. There, about 30 farmers sell everything from fruits and vegetables to those neat hand-crocheted toilet-paper covers in hot pink and seafoam green.

Anyone who has ever visited the beautiful little town of Plymouth on a Saturday morning knows about the traffic and parking situation around Kellogg Park. The Plymouth City fathers built a covered structure a few years back to help shelter the Plymouth farmers who still load their pick-ups every Saturday morning.

This is where I discovered Kathy's Cheesecakes. My arms were filled with bags of sweet corn and apples, but how could anyone resist a sample slice of one of the best homemade cheesecakes in town? Af-

ter depositing my purchases in the trunk, a leisurely stroll into some of the quaintest little shops around topped off the morning, especially when fortified with a sweet roll from the Cozy Cafe.

Just a hop, skip and a jump from Chateau Janes is the Livonia Farmers Market, situated on the site of

the old Wilson Dairy Barn at the corner of Middlebelt and West Chicago roads. This tiny little market, comprised of a handful of farmers selling out of the backs of station wagons and flatbed trucks, sells out before noon to the many shoppers looking for the freshest produce in town. Check out the beekeeper who occasionally has assorted jelly jars filled with some of the best honey the area has to offer.

What a great opportunity to bring the family back together for a few short but wondrous hours on a crisp Saturday morning. A visit to any of the above-mentioned farmers markets will be remembered and enjoyed for a long time.

'Outdoor cookery' is still outstanding

"The Complete Book of Outdoor Cookery" by James A. Beard and Helen Evans Brown, Harper & Row, paperback, 1989, \$9.95.

James A. Beard and Helen E. Brown help us enjoy the pleasure of open-air cooking with their timeless book, "The Complete Book of Outdoor Cookery," second edition.

For those of us who already own a copy of the original 1955 edition, we're thrilled to see it reprinted. But, on the other hand, it's disappointing that the large, cloth version with a vast collection of color photos wasn't republished.

After reviewing this tome and scrutinizing it, I'm amazed that this outdoor cookery book is still the best. And what does it take for a 35-year-old book to keep its vitality and timelessness?

First begin with an author or authors who have a love and experience for the subject. The 23 chapters of Beard and Brown's "The Complete Book of Outdoor Cookery" cover every detail of outdoor cooking. They start with an explanation of the basics, including descriptions and uses of grills and the equipment.

THERE IS advice on the fire and fuel and other necessary technical-

cook's books

Geri Rinschler

ties. There are recipes for all the food groups: meat, fish, veggies and breads. And there's more super, classic recipes to accompany grilled dishes such as Mexican rice, potato cakes and asparagus salad.

I should point out, though, many of the recipes are written loosely, leaving much to personal interpretation, and only suggest ingredients without giving specified amounts. For instance, to make an apple and green pepper salad, mix together "slices of unpeeled apples and rings of green pepper, French dressing and chichory. What could be better with pork chops?"

One of my favorite chapters, Skewer Cookery, lists 81 different combinations for cooking on skewers including recipes for nine varieties of teriyaki. Have you ever tried duck teriyaki, venison teriyaki or teriyaki made with squab? Here's your chance.

Last, but not least, the authors include a chapter on camp cookery. Beard and Brown explain how to build a fire and what to pack, along with campfire recipes.

In between the many recipes in this classic are interesting and fun-filled anecdotes, mentioning personal friends of both Beard and Brown.

There is no limit to what you can cook outdoors. As Jeremiah Tower points out in the forward, about food authority, the late James Beard and his good friend and co-author, Helen Brown, "They are the best and the quality shines through."

CHINESE BROILED DUCKLING
Allow 1 Long Island duckling for each 2-4 persons, depending on the size of the bird and the appetites of the "convives." Split or quarter the duckling and rub with a mixture made with 2 egg yolks, ¼ cup of soy and ¼ cup of honey. Broil, cut side down, for about 45-60 minutes, over a low fire, turning a few times. Toward the end of the cooking, raise the fire in order to crisp the skin. Serve with charcoal-broiled pineapple, rice and a fine white wine - maybe Chardonnay or a Pinot Blanc.

Grill, microwave team up for meals

Chances are that your grill and microwave get a work-out year round.

There are many hardy souls who like to stand outside even in a snowstorm to capture that barbecue flavor in food. A recent survey on cooking trends shows barbecuing and microwaving increasing in popularity because of quickness and efficiency with no clean up. But have you thought how you can use both of these appliances together to make food preparation even shorter?

If it's been one of those hectic, busy days and you're running late, it's five o'clock and you realize you have invited people for dinner. What do you do? Turn to your microwave and grill.

Utilizing the microwave to begin the cooking process for meats and vegetables cuts down the outdoor cooking time but still gives a good color and charcoal flavor. You will need to practice food safety doing this.

If you are going to start chicken in the microwave, then the chicken must go directly from the microwave to the grill, with no stops in between. Do not start the chicken in the microwave and then let it sit for later. This procedure must follow directly so there are no interruptions in the cooking times.

TIMING, OF COURSE, is very important when you are using both appliances. For speedy chicken, pre-cook chicken in microwave 3-4 minutes per pound. Then place over hot coals or on a hot grill to brown well. This cuts your time down considerably.

To take advantage of both appliances, for potatoes, wash, pierce and cook baking potatoes in the microwave for 3-4 minutes each. Toss partially cooked potatoes onto the barbecue grill along with the chicken, steak, ribs or chops. They will finish cooking and absorb that delicious barbecue taste. No dishes!

While microwaving and grilling are easy, consider the ease if you use only a couple of dishes. Place a frozen block of vegetables, that has been removed from the carton, in a double thickness of foil. Do not use foil in microwave. This is for the grill.

Wrap tightly but leave a little room for steam to expand. Place on grill for approximately 15-20 minutes. Turn occasionally.

Spice up these frozen vegetables when foil grilling. To mixed vegeta-

Using the microwave to begin the cooking process for meats and vegetables cuts down the outdoor cooking time but still gives a good color and charcoal flavor.

bles, add sliced green onions or celery before cooking. Frozen spinach is very tasty if onion flakes and a dash of nutmeg are added before grilling. Use your imagination and creativity to spice up frozen vegetables.

Fresh or dried herbs such as thyme, rosemary, basil or oregano may be placed or sprinkled directly on hot coals before starting to grill. Soak herbs, drain well and then sprinkle on coals before grilling fish or chicken.

ADDITIONAL BARBECUING tips are to use dental floss for trussing a chicken for the grill. It does not burn and is very strong. When grilling corn, pull back husks, remove silk, tie back-husks and soak in ice water for 10-15 minutes to ensure moist steaming.

Take advantage of the grill after the main course is completed. Place frozen pie or cake on the grill to thaw and warm. (Turn a gas grill off or you will cook the cake.) Or, naturally an apple crisp or pie can be baking in the microwave for dessert as you are eating the main course.

If there are any leftovers, reheating in the microwave will help retain the good flavor, color and texture. As long as the grill is on, do some extra food for the next day. It helps with meal planning and your family will enjoy it just as much.

Barbecuing used to be a summer activity but not anymore, with the increasing number of tabletop grills or built-in units on stove tops. Grill and microwave meal-planning together or separately add a new dimension in cooking styles and foods, besides keeping the house cool.

These two appliances are really for people who are not into "project cooking." Most of us would like to simplify meals and meal preparation, not complicate it with many hours of preparation and dishes with exotic ingredients that turn out to be a major project.

IMAGINE DYING FROM A DISEASE YOU NEVER KNEW YOU HAD.

Eleven million people in the U.S. have diabetes. But almost half of them don't know it.

Untreated, diabetes can lead to heart disease, kidney disease, blindness and gangrene.

And for 150,000 people each year, it leads to death.

That's why you should be aware of the symptoms of diabetes: blurred vision, excessive thirst and frequent urination are just some of the warning signs. Because the sooner you find out if you have diabetes, the more likely you are to get it under control, before complications set in.

Finding out you have diabetes can be scary. But not finding out can be fatal.

FIGHT SOME OF THE WORST DISEASES OF OUR TIME.
Support the American Diabetes Association.

Grant allows 'World of Difference' to continue

The Anti-Defamation League's award-winning human relations training program for teachers — World of Difference — has been extended another year.

The program, which features a human relations study guide and training for teachers, reached more than 3,000 teachers throughout the tricity area, according to Linda Soberman, president of ADL's Michigan regional board. Numerous training sessions were conducted for local colleges of education, as well.

The one-year program — which actually lasted two years — was scheduled to end by June of 1989.

It was originally funded through grants from the Skillman Foundation and the MichCon Foundation, with the assistance of Pepsi Cola, Community Foundation of Southeast Michigan, National Bank of Detroit, First of America Bank, and DeRoy Testamentary Foundation.

Partners in the original program were the Civil Rights Task Force of Metropolitan Detroit, The Detroit Free Press, and WDIV-Channel 4.

PRIMARY SOURCE of funds for

extending the program comes from the Skillman Foundation, a private, grant-making foundation with assets totaling \$275 million.

"While the first phase of the program targeted middle and high school teachers, we are now able to produce specially designed materials for teachers of elementary and lower middle school grades," said Soberman. "If we reach another 1,500 to 2,000 teachers in the area, we feel certain we can have a significant impact."

A WORLD OF Difference is supported by Gov. Blanchard, the state Board of Education, Detroit Mayor Coleman Young, U.S. Sens Carl Levin and Donald Riegle from Michigan, NAACP, American Citizens for Justice, Edmund Cardinal Szoka, the Baptist Pastors Council, the Chaldean American Federation, Urban League, the Detroit American Indian Center, the Hispanic Economic Club of Michigan, Michigan Association of School Administrators, the Michigan Education Association, the Michigan Federation of Teachers, numerous school districts, the state Chamber of Commerce, United Auto Workers, the Lutheran Church in America, the Michigan AFL-CIO and other groups.

School administrators interested in the program should contact the ADL at 355-3730, for more information.

Spiders have place in web of life

To many people, spiders are viewed with disgust and contempt.

Maybe people feel this way because they have eight legs, which makes them move differently than mammals. They often move very fast, which startles people. They eat their food in a very different manner than we are accustomed to, and maybe because we have all heard about poisonous species like the black widow.

Well, all of these things are true, and I am not going to try and make spider lovers out of those who read this article, but spiders have their place in the web of life just as a chickadee does. In fact, spiders are one of our best insecticides, and they are free.

There are approximately 3,000 different species of spiders in the United States. Some live strictly on the ground, like many of the wolf spiders. Others live in bushes a few feet off the ground, while some live higher in tree tops. Most of them are never encountered by man.

IF PEOPLE do become aware of a spider, its usually because of their webs. Not all spiders build a web to capture food. Even those that do build a web, do not build them all alike. Cobwebs in the cor-

nature

Timothy Nowicki

TIM NOWICKI/illustration

ners of rooms are very irregular in their construction. Grass spiders encountered in shrubs and grass build a flat web with a funnel shaped hiding place for the spider. When an insect lands on the web, the spider quickly leaves the tunnel and grabs its meal.

Those of us who enjoy early morning walks before the dew has evaporated, are always excited to see the "typical" spider webs laden with dew drops. It provides an opportunity to examine the fine detail and symmetry of such a delicate structure. We forget that spider web can be stretched 31 percent more before it breaks than a comparable piece of nylon made by man.

Some species of spider found in the open fields build a bowl shaped web with a loose network of web above the bowl. While waiting for a meal, it rests protected on the underside of the bowl. When an insect

There are approximately 3,000 different species of spiders in the United States.

falls onto the web, the spider bites through the web to subdue its prey. Next time you take a walk through a meadow on a cool fall morning, take note of how many

spider webs there really are. - Tim Nowicki is a naturalist at Independence-Oaks Park in Oakland County. He lives in Livonia.

OBTAINING HEALTH CARE INSURANCE IF YOU HAVE ARTHRITIS
 You could apply for health insurance and be rejected because of having arthritis, even if it is under control. Did the company act unreasonably or was the problem that your doctor did not provide the insurance carrier the right information?
 Probably neither is the case. Arthritis is notorious for its unexpected, prolonged, and repeated flares. Underwriters consider these possibilities as potential expenses that cannot be readily calculated into a premium, and are cautious in accepting any applicant with arthritis.
 Nor can you assume that your doctor failed to present your case in its proper light. If you discuss the matter with him, you are likely to find that he struck a fair balance between forthrightness to the insurance company and sympathy to your case.
 The problem usually is with a company's guidelines. Criteria tend to be quite strict as the insurer tries to protect itself from sustained risk.
 If you are rejected, you should ask the reasons why. If the answers indicate that the company is acting by its rules rather than considering your case; then with the assistance of your doctor, appeal their decision.

Patriots fend off Stevenson, 14-6

By Brad Emons
staff writer

Livonia Franklin held city rival Stevenson to 27 yards total offense Saturday, but the host Patriots nearly saw a 14-6 victory slip and slide away.

In a soggy field more suited for tractor pulls, Franklin had control of the line of scrimmage, but the victory came along with a few anxious moments.

"You're fortunate and happy when anybody can win and play like that," said Franklin coach Armand Vigna, whose team is 1-1 overall.

Franklin's interior defensive line — led by veterans Paul Rhoads, Derek Ploch and Dan McKay — dictated the course of the game.

Stevenson had trouble generating any kind of offense, scoring its lone touchdown on a 75-yard kickoff return by Dave Born in the second quarter.

Quarterback Randy Micallef was sacked six times and was picked off twice. The Spartans were held to minus-34 yards rushing.

"We had a couple of opportunities, but couldn't capitalize," said Stevenson coach Jack Reardon. "We really didn't give our quarterback time to throw."

"But it's tough to set up on six and seven-step drops when it's that slip-

perry. It's easier for a lineman to go forward than to pass block. And they're kind of big inside. We're small, and it's tough to move people, guys 220 pounds, like that. It wasn't all the lineman's fault."

FRANKLIN'S OFFENSE netted 172 total yards, but two big passes accounted for both touchdowns.

On Franklin's first offensive play of the game, Dean Vandal beat the Stevenson secondary and hauled in a 41-yard TD pass from quarterback Brian Bartz.

In the second period, Bartz connected on a 32-yard pass to Tad Dennis, who made an acrobatic catch at the Stevenson 5, setting up Mark Little's 1-yard touchdown run. (Bobby Johnson kicked both extra points.)

But the Spartans quickly erased the 14-point deficit when Born took the ensuing kickoff, finding a wedge up the middle for 75 yards and a score. (The extra point attempt was blocked by Vandal.)

"I can't tell you what really happened on that play," Vigna said. "One kid slipped and wasn't where he was supposed to be, and our kicker didn't come up in time. There was one huge hole."

Stevenson then got a break with less than a minute left in the half when Kevin Corradi picked off a

Bartz pass and returned it to the Franklin 6.

But the Patriots' defense held, as Johnson, the 245-pound junior linebacker, busted through the line and smothered Doug Pascoe's 31-yard field goal try.

VIGNA SAID he made a grave error in calling for a passing play (Corradi's pickoff), which nearly led to game-tying Stevenson.

"Everybody was ready to string me up on the sideline," said the Franklin coach. "But when you throw the ball like we do, you've got to have an aggressive frame of mind. I didn't realize how deep we were on the field. We should have killed the clock. It almost turned out to be disastrous and that could have been the turning point, but then our defense comes through."

It was late in the first quarter when Stevenson failed to convert another turnover. Born intercepted a pass, placing the Spartans down at the Patriots' 9, but Stevenson came up short on fourth-and-8 when a fake field goal attempt, a pass into the end zone by fullback Brian Piergentilli, fell incomplete.

The Spartans also missed out on a golden opportunity early in the fourth quarter when Little, the Franklin punter, scrambled away and got off a short punt near mid-field after the snap sailed over his

Mark Little (with ball) of Livonia Franklin leaves a pile of Stevenson tacklers behind including Kevin Corradi (left) during Saturday's

Livonia city tussle. Little had more than 100 all-purpose yards in the Patriots' 14-6 win.

JIM JAGDFELO/staff photographer

head and bounced around inside the Stevenson 20. He eluded two tacklers.

"We don't coach that," Vigna said of Little's heroics. "He kept his cool and had to go left and away from his body to get that punt off. That was a big play for us. He also made a cou-

ple of nice runs on this field." (Little had 60 yards in 15 carries.)

DESPITE THEIR second straight loss, the Spartans showed positive signs, according to Reardon.

"Franklin is a pretty good football team, but we hung in there today,"

he said. "We picked it up a couple of notches from last Friday (a 16-12 loss to Redford Union). I thought we played a nice defensive football game. It makes me feel good because I saw some big improvement. Even though we lose two, I still can be happy."

Clarenceville shocks Metro foe

Livonia Clarenceville's football team lived up the adage on Friday:

"It's not the size of the man in the fight, it's the size of the fight in the man."

The underdog Trojans (2-0) won a key Metro Conference encounter, pulling out a 14-12 victory against host Harper Woods Lutheran East (1-1) in a game delayed 30 minutes in the third quarter because of thunderstorms.

"We talked all week about playing the game from the heart," said Clarenceville first-year coach Vic Balaj. "That was our theme the whole week and they played that way."

Their whole offensive line was 250 pounds-plus, and we had a bunch of 150, 160-pound kids. If we would have stood toe-to-toe, they would have pounded us. We would have paid dearly in injuries. It was a war, I've never had a group of kids play harder. And they were outgunned."

The Trojans took a 6-0 halftime lead on a 30-yard TD pass from quarterback Chris Foss. (The kick failed.)

East struck in the third quarter when Chris Hufnagel snared a 25-yard TD pass, making it 6-all (the kick failed).

Then the threatening skies unloaded.

"That was the best thing that could have happened to us because all our kids were getting worn out," Balaj said. "We have only 19 juniors and seniors total."

Foss directed a 70-yard TD drive after the delay, sprinting up the middle from 10 yards out. He then hit Andy Weighill with the two-point conversion pass to make it 14-6 late in the third.

Foss was intercepted in the fourth quarter, setting up Hufnagel's second TD on fourth-and-long, going 30 yards on a reverse play.

But the Eagles missed the two-point conversion try on a double-reverse pass play as Clarenceville held on. Balaj saluted the play of Foss.

"We gave Chris a lot of freedom in his choices and made all the right ones today," said the Clarenceville coach.

N. FARMINGTON 12, CHURCHILL 7: The kicking of Mike Cowen proved to be the difference Friday as

North Farmington (2-0) held off host Livonia Churchill (0-2) in another game delayed nearly 75 minutes by thunderstorms.

Cowen booted field goals in the first and second quarters, and teammate Jon Kraus scored on a 21-yard run in the third quarter to make the North advantage stand up. (The Raiders missed on the two-point conversion.)

John Low also played a key role in the victory, intercepting a pair of passes. His initial pickoff led to Cowen's first field goal.

"The difference in the game is that they (North) were able to maintain field position," said Churchill coach Herb Osterland. "Two of his (Cowen's) kickoffs went into the end zone, and the other two were right near the goal line. We were pinned in our end a lot."

Helped by a North unsportsmanlike conduct penalty, Churchill sliced the lead to 12-7 in the third period when fullback Andy Saplenza capped a 65-yard drive on a 1-yard TD run. (Mike Spaccarotella kicked the extra point.)

But the Chargers, who seemingly had the momentum going, ran out of gas down the stretch as North held on for the win.

"At times we moved the ball, but not consistently," Osterland said. "It was a very long night and the field conditions were not suitable. This is the second time in as many years we've gone through this kind of weather."

Mike Brooks, who started at quarterback for the Chargers, rushed for 64 yards in 16 carries, while Brad Hirschman paced North with 59 yards in 11 carries.

The two teams combined for only 19 yards passing (15 by North).

WYANDOTTE 7, WAYNE 0: In a mild upset Friday, quarterback Dan Yates scored the game's lone touchdown on a 1-yard run — only 20 seconds before the half — giving the host Bears (2-0) a Wolverine A League victory over the Zebras (1-1).

Yates, who scored on fourth down, capped an eight-play, 53-yard drive.

That came after Wayne had made a goal line stand at its own 4.

The Zebras lost despite outgaining Wyandotte in total yardage, 228-217. Quarterback Brent Tapp hit 10 of 26 passes for 133 yards, but was intercepted twice inside the Wyandotte 10, ironically, both by Yates.

Laron Price was the Zebras' leading rusher with 62 yards in 10 carries.

Mike Pente paced Wyandotte with 84 yards in 17 attempts. Yates completed three of four passes for 40 yards.

Glenn smothers Western

By Bill Parker
staff writer

When it rains, it pours, and it poured twice over the weekend on the Walled Lake Western football team.

On Friday, Mother Nature poured heavy rain and lightning bolts down on Tom Evans Stadium, forcing Western's game with visiting Westland John Glenn to be postponed until Saturday.

On Saturday, the Rockets poured it on, crushing the Warriors 45-3.

Glenn entered the contest wanting to prove something, having won a poorly played game in last week's season opener.

"OUR GUYS were kind of mad about the way we played last week. We did not play well," said Glenn coach Chuck Gordon.

"We came in here with something to prove. We wanted to play a good game, and I think we did."

"But we are not a very good football team yet. Overconfidence will not be a problem for us. We still have a way to go."

Western coach Chuck Apap admitted Glenn deserved to win the game, but he wasn't ready to give the Rockets all the credit.

"Today was John Glenn's day," Apap said. "They outplayed us in every area of the game. They outthrust us and outthit us, and that's not our game."

"WE USUALLY hit pretty good, but we didn't play up to our potential today."

DAN DEAN/staff photographer

David Ryan catches one of his two touchdown passes for the Rockets in their 45-3 win.

"We're pretty banged up right now," Apap added. "We have four or five starters out with injuries. We have a lot of question marks to answer before next week."

One of those injuries occurred Saturday when junior defensive back Dusty Duryea separated a shoulder and left the field in an ambulance.

THE ROCKETS proved they were ready to play this week-early in the game, scoring on their first two possessions and on five of six possessions in the first half.

Senior quarterback Eric Stover and senior tailback Shannon Layne did most of the damage, combining for 187 yards and four touchdowns in the first half alone.

Stover led the Rockets on an 80-yard drive to open the game, connecting with Chris Madish for a 50-yard gain, then finding Garnett Woody in the end zone for a 4-yard TD strike.

Layne then scored back-to-back touchdowns on runs of 1-yard and 12-

yards, and Tom Luxton scored a TD on a 50-yard punt return.

AFTER a Luxton interception gave the Rockets the ball at the Western 20-yard-line, Stover hooked up with David Ryan on a 19-yard scoring pass.

Wes Taylor, who hit 6-of-6 on extra points on the day, booted a 32-yard field goal as time ran out in the first half, staking Glenn to a 45-0 lead.

TURNOVERS KILLED Western, stifling a drive at the John Glenn 37 and setting up two Rocket scores in the first half. Penalties also took their toll on the Warriors, who were flagged eight times for 68 yards.

"The turnovers hurt," Apap said. "But it wasn't because we have trouble holding the ball, John Glenn just made us do some things."

"Today wasn't our day, but we'll be back next week against Northville because I know what these kids are made of."

Todd Biron gave the Western fans something to cheer about early in the third quarter, breaking free on a 56-yard run deep into Rocket territory. But a couple sacks by Glenn's Sam Weddington and John Hodor shut down the drive, and Glenn took over at their own 47.

FIVE PLAYS later, Stover capped Glenn's scoring for the day with a 34-yard TD pass to Ryan.

Western mounted its best drive of the game early in the fourth, marching 48 yards in 10 plays.

Erik Franz put the Warriors on the board with a 37-yard field goal with just under five minutes left to play.

Country Day's Evans breaks Blazers' backs

By Brad Emons
staff writer

Peggy Evans was sweet as sugar and Natalie Neaton added a little spice for Detroit Country Day, which ran away from Livonia Ladywood in the second half Thursday for a 74-55 girls basketball victory.

The game was played at Redford Catholic Central High.

Evans, a 5-foot-11 senior, showed why she is one of the most versatile players in the state, scoring a game-high 29 points to go along with 12 rebounds, seven steals and seven assists.

Neaton, a sophomore, who seems to enjoy getting floor burn more than scoring, managed to add 23 points despite a gimpy ankle.

"We got out on the break pretty well," said Country Day coach Frank Orlandi, whose team is 2-0. "With Evans being the player she is, she made Ladywood play a different game."

"As every game goes by in her career, she becomes more of a team player. Tonight she made some beautiful assists. She's becoming the kind of player who doesn't need to score. She realizes she needs to do the 'other things' without the ball."

"And Neaton made some big plays. She had a key steal and a key drive to the basket."

LADYWOOD HAD TROUBLE from the outset trying to solve the Yellow Jackets' matchup zone

girls basketball

defense.

Neaton scored 11 points in the opening period as Country Day led 17-12.

In the second quarter, senior point-guard Krista Campeau began to loosen up the zone with some long-range shooting and junior center Rebecca Willey started to find openings near the basket as the Blazers stayed close at intermission, trailing 35-30.

But Willey, who finished with 20 points, and Campeau, who added 16, had little scoring help elsewhere as Country Day opened up a 54-43 lead after three quarters before pulling away in the final period.

Despite foul difficulties, Evans spearheaded the second-half surge, often snaring a defensive rebound and leading the fast-break, a-la Magic Johnson.

"Our players keyed on her (Evans) every time down the floor, but it took three to stop her," said Ladywood first-year coach Toni Gasparovic. "and then if you try and double-team her, she dumps the ball off and they score."

GASPAROVIC WAS UPSET with a lack of in-

tensity, but admitted her team may have been a little fatigued playing their second game in as many days in a stuffy gym. (On Wednesday, Ladywood defeated visiting Detroit DePorres, 40-38, as Willey scored a game-high 21.)

"The biggest thing is that we didn't come to play," said the Ladywood coach. "They were better. They came to play and we didn't. We were kind of lackadaisical and mentally not into it."

Orlando, meanwhile, was just happy to find a worthy opponent on the schedule.

"We'll play a number of teams this year who are comparable," he said. "We try to play a Class A and B type of schedule (Country Day is C). A game like this makes you play up a level. It was a tremendous game for us because a team like Ladywood made us play hard the entire game."

With only eight players on his bench, Orlando's main concern was keeping his club out of foul trouble.

STARTING FORWARD Suzanno White (six points) picked up three first-half fouls and sat out much of the third quarter after being whistled for her fourth.

Evans was also saddled with three fouls, but the Yellow Jackets got a lift from the Sanders sisters, Mary Jo and Georgie (the freshman), who combined for 12 points.

And it didn't hurt Orlando that he had a dose of Sugar Spice so everything turned out nice.

Morton paces GC

Brian Hawkins took medalist honors with a 2-over 38, but the Garden City boys golf team suffered its first loss in three tries Friday, falling to Romulus at Shady Hollow, 186-167.

Other GC scorers included Andy Riess (41), Jay Thompson (43) and Rick Morton (46), while Chris Vavro and Ed Tank each carded a 39 for the victorious Eagles.

Morton took medalist honors in a pair of Cougar wins last week.

In a 215-218 GC victory over Wayne on Thursday, Morton shot a 3-over 37 at Westland Municipal Golf Course.

Right behind was Hawkins (41), Thompson (43) and Chris Rouland (45).

Matt Saynay led Wayne (3-3), with a 37, followed by Darren Kent (39), Scott Ruffing (45) and Scott Rudd (46).

In a match Wednesday at Westland Municipal, GC defeated Dearborn Heights Crestwood, 205-218, as Morton fired a 37.

golf

Hawkins and Crestwood's Rana Sim each carded a 39. Thompson and Rouland each shot a 41.

LIVONIA STEVENSON, meanwhile, is off to a 2-0 start.

The Spartans defeated Novi (220-226) and Ann Arbor Huron (218-250) in a pair of non-league encounters.

Brian Ransom was medalist in both matches, shooting a 41.

In the win over Novi, he was followed by teammate Joe Atwood (42), Bob Diamond (43), Paul Anderson (47) and Pete Pheolis (47).

In the win over Huron, Anderson and John Fenich each shot 45s, while Atwood had a 44 and Pheolis a 45.

'A' champion Spartans triumph

Defending state Class A champion Livonia Stevenson kicked off its boys soccer season on the right foot Wednesday, as they downed the host Northville Mustangs, 5-1.

Shane Millner led the Stevenson attack. He had two goals and an assist. It was Millner's pass which set up forward Greg Smith's goal midway through the first half.

"Shane made a beautiful pass to Smith," Stevenson coach Pete Scerri said. "It was the goal which eventually won the game for us."

Smith had two goals and an assist. His assist came in the second half, as he set up Scott Ceru for the score.

Treyvis Roy had two assists for Stevenson, while John Labadie had one.

Jerry Smolenski and Scott Plagenhoef split the goallending chores for the Spartans. Smolenski played the first three quarters and Plagenhoef came on to relieve in the fourth.

The win gives the Spartans a perfect 1-0 record, while the Mustangs have to settle with a 0-1 mark.

REDFORD CC 4, BISHOP FOLEY 1: Redford Catholic Central won its third game of the season Wednesday, knocking off Madison Heights Bishop

soccer

Foley in a match played at Bell Creek Park. Dominic Scicluna led the Shamrocks with two goals and an assist. Kerry Zavagnin, John Nora and Wayne Worolz each added a goal.

J.P. Angell went the distance in goal for the Shamrocks and recorded the victory.

On Aug. 31, CC opened visiting Okemos, 4-0, as Nora tallied two goals and Zavagnin contributed a goal and two assists.

"Our fullbacks — Mike Derhake, Jason Ries, Joe Sebastyan and Chris Williams — are starting to generate some of our offense by playing such great defense," said CC coach John Boole.

FRANKLIN 2, N. FARMINGTON 0: Livonia Franklin, rebounding from Wednesday's 4-0 loss to Plymouth Canton, took revenge Friday on visiting North Farmington.

After a scoreless first half, Franklin's Paul Hokett fed a pass to Alex Ross for a goal midway through the second half.

Craig Overaitis added an insurance goal for Franklin with nine minutes left in the final quarter to secure the

victory. Franklin goalie Tim Dlugos earned the shutout in goal for Franklin, despite having to stop just four shots from the Raiders.

"We had control in the first half and could easily have scored five goals," Franklin coach Frantz LaMarre said. "I think maybe those two goals will help in the future."

Franklin, with the victory, improves its record to 1-1.

TEMPLE 9, FLINT VALLEY 1: Temple Christian had little trouble knocking off Flint Valley Friday in a game played at Gibson Field.

Kévin DeMass notched the hat trick to pace Temple Christian, which reeled off 33 shots.

Jeff Hess and David Schalle each tallied two goals for Temple, while Steve Toth and Ron Pennington added one apiece.

The victory improves the Patriots' record to 1-2-1 and drops Flint Valley to 0-2.

CHURCHILL 3, FARMINGTON 0: Brady Ericson, John Gentile and Phil Todine each had goals Wednesday as Livonia Churchill knocked off Farmington 3-0.

Jovan Trpovski got the win in goal for Churchill, stopping seven shots.

Maybouer leads Glenn in opener

Westland John Glenn opened its cross country season Thursday with a pair of dual-meet victories against rival Wayne Memorial.

The visiting Rockets won on both sides of the coin, the boys (17-41) and the girls (15-40) side to go 1-0 on the year.

Senior Matt Maybouer, a state qualifier for Glenn in 1988, buried the field, capturing the 5,000-meter boys race in 17:51. He was followed by teammates Jason Nowicki (19:48), Joe Rajewski (19:49) and Carl Lowe (19:51). Others in the top 10 for Glenn included Gamal Attmed, seventh, 20:40, and Eric Ewing, ninth, 21:07.

Aaron Simpson and Bill Donahoe took fifth and sixth, respectively, for the Zebras (1-1) in 20:09 and 20:22. Others in the top 10 for Wayne included Scott LaBean, eighth, 21:01, and John Costello, 10th, 21:58.

On the girls side, Glenn's Yvonne Waddell took first in 24:21. Other Rockets in the top 10 included Dana Nowicki, second, 24:55; Darlene Rousseau, fourth, 25:41; Cathy Bachard, fifth, 27:14; Jennifer Cipielewski, seventh, 31:28; and Michelle Pitcher, eighth, 32:13.

Wayne as led by Gayle Brusseau, who was third in 25:04, and Michelle Glineski, sixth, in 29:47.

Glenn returns to action Tuesday against Livonia Franklin.

cross country

for Joe Marasco gaining third (18:57). Thurston won the next three places led by Mike Murchison (19:07), Jarmá Doszak (19:43) and Clint Sandford (20:01).

LIVONIA CHURCHILL won a double-forefeit Thursday, defeating out-manned Garden City.

Churchill's Scott Westover captured the boys race in 19:05. Teammate Steve Townsend was fourth in 20:16.

GC's Todd Jacobs and Chris Loudon gained second and third, respectively, with times of 20:09 and 20:10.

Mala De la Merced of Churchill was victorious in the girls race (24:10), outdueling GC's Trina Sherlitz (24:48). Lisa Riga of Churchill was third in 25:17.

REDFORD UNION settled for second overall in a boys and girls triangular meet Thursday at Oakland Community College.

Farmington won the boys with 21 points followed by RU (46) and Waterford Mott, which failed to score because of a lack of runners.

Ben Goba of Farmington captured the boys race in 17:14, while Martin Boyd of RU landed fifth in 18:31.

Farmington also captured the girls meet with 21 points to RU's 41. (Mott did not score.)

Jennifer Kiel was the first of three Farmington harriers to cross the finish line. She was clocked in 20:58.

RU's Tracey James and Liza Mockleridge finished fourth and fifth, respectively, in 22:36 and 22:41.

Stevenson blocks Eagles; Garden City romps

If a simple solution exists for every simple problem, then Redford Thurston girls basketball coach Mike Schuette won't have any trouble finding his team's flaw.

Not after Thursday's game at Livonia Stevenson. Correcting it, though, might be something else.

The Eagles (1-1) simply couldn't score. Of course, it didn't help matters much that they also had little success stopping Stevenson. Those two elements combined for a 59-34 Stevenson romp.

It was 16-7 after one quarter and 29-12 at half-time, but Spartan coach Chuck Hebestreit insisted "the third quarter put it away," as Stevenson outscored the Eagles 19-8.

Teresa Sarno, a sophomore center, poured in 16 points and Stephy Sutter, a senior forward, added 10 for Stevenson. Thurston's best: junior forward Sue Herman with eight.

"When we get to (Livonia) Franklin (Thursday, at Stevenson), that will be a test," predicted Hebestreit, whose team is 2-0.

GARDEN CITY 48, ANNAPOLIS 33: After a difficult first half, Garden City swamped Dearborn Heights Annapolis in the second with a 28-16 deluge Thursday at GC.

Free throws played a big part in the victory. GC converted 12-of-19; Annapolis hit just three-of-13.

GC, which led 20-17 at half-time, got 16 points from junior guard Carolyn Shanks. Lynn Gowen and Tracy Thompson had eight apiece, and Krystal Matestic collected six points and 10 rebounds. Annapolis was led by Merja Nieminen's 13 points.

Both teams are now 1-2.

FRANKLIN 54, DEARBORN 25: From the start, Dearborn had little chance Thursday at Livonia Franklin.

The Patriots bounced in front 15-4 after one quarter "and didn't look back," according to coach Dan Freeman. It was 28-13 at the half and 42-19 entering the final quarter.

Dawn Warner, a sophomore guard, did her part with

girls basketball

19 points, nine steals and seven rebounds. Senior forward Shannon Eberly contributed 11 points and seven boards. Dearborn's Cheryl Koschnerus had 10 points and 10 rebounds.

Franklin improved to 2-0.

YPSILANTI 76, JOHN GLENN 51: Senior guard Betsy Brown blistered the nets for 41 points and grabbed 15 rebounds Thursday as the host Braves (2-0) handed Westland John Glenn (1-2) a non-league defeat.

Glenn, which has now lost two straight after starting the season impressively against Wayne Memorial, got 19 points from junior guard Jenny Massey.

LUTHERAN WESTLAND 47, HARPER WOODS 32: Stephanie Locke triggered Lutheran Westland's homecourt victory Thursday with 24 points, four steals and three blocked shots.

Stephanie Otto added six points. Diane Houtos topped Harper Woods with eight points.

Lutheran High (2-1) led 12-3 after one quarter and 21-10 at half-time.

BISHOP FOLEY 41, BORGESS 40: There's little doubt why Redford Bishop Borgess lost Thursday in the consolation final of the Madison Heights Bishop Foley tournament. The Spartans (0-2) made just 10-of-28 free throws.

"We executed both offensively and defensively," said Borgess coach Dan Mann. "But we missed free throws. We didn't make free throws."

Borgess led 15-14 at the half, but fell behind by a point (28-27) entering the final quarter. Tanya Tounsel's 14 points was best for the Spartans; Carrie Stempowski topped Foley with 13.

EDSEL FORD 56, CHURCHILL 32: Youth and inexperience cost Livonia Churchill (0-2) Thursday against visiting Dearborn Edsel Ford. So did Dawn Woods.

Woods victimized the Chargers for 27 points, leading

the Thunderbirds to a 23-13 halftime advantage. A 20-7 third-quarter spree by Edsel Ford cemented the victory.

"We're trying to improve, but we're young," said Churchill coach Don Albertson. "A lot of transition things happened against us."

Chrissy Daly, a freshman guard, had 13 points and Alyssa Belaire, a junior forward, contributed 11 for Churchill.

N. FARMINGTON 57, RU 38: Eve Clearstung Redford Union's defense for 29 points and five assists and her backcourt teammate, Kim Gurecki, added 15 points and seven assists Thursday at North.

RU, which fell to 1-1, had all sorts of problems handling the Raiders' pressure defense in the first half. The Panthers trailed 41-14 at one point before narrowing the gap to 41-22 at half-time.

The second half was better, partially because RU sat back in a zone defense in the final quarter. The Panthers' four-of-15 free-throw shooting didn't help their cause.

Ann Kolar had 12 points and Carrie Burke and Danielle Sorel netted 10 apiece for RU. North improved to 2-0.

GROSSE ILE 76, WAYNE 35: Grosse Ile continued to impress, convincing Wayne Memorial (0-2) of its stature as a Class B power by thrashing the Zebras in the opening round of the Taylor Center Tournament Thursday.

"They're just a real solid team," said Zebra coach Jack Furlong of Grosse Ile. "There's no dominant player. We ran into a buzzsaw, a real nice ballclub."

The Red Devils trailed 2-0 to start the game, then ran off nine straight. It was 25-6 after one quarter and 44-15 at half. All five of their starters reached double figures, led by Shannon Loso's 13. Sue Alford added 12.

Dorris Bathwell's 15 points and 11 boards was best for the Zebras. Maya Lewis added 13 points.

ALLEN PARK 49, CLARENCEVILLE 18: As Livonia Clarenceville coach Wendy Kellehan accurately noted of Thursday's homecourt loss, "We had problems getting our offense going."

The winless Trojans trailed 12-2 after the opening quarter, 26-8 at half-time and 45-10 going into the final period. Junior guard Rhonda Saunders' nine points was tops for Clarenceville, now 1-2 overall.

What kind of a kid do you suppose Thomas Edison was?

Bet he looked at problems and saw solutions. Like Maurice Scales who invented Baby No-Mash to prevent doors from closing on little fingers.

Bet he saw how things were done, and imagined better ways to do them. Like Lillian Lukas who invented the Puddle Detecting Cane for the blind.

Bet he watched how things work and thought of ways to avoid wasting time or effort. Like Caitilin McCracken who invented the Orphan Kitten Feeder for Three.

Maurice, Lillian and Caitilin were three of the thousands of winners in the Invent America! education program.

And you know that small genius can grow up to become big genius—with the capacity to make America number one again.

To participate, just write Invent America!, 510 King Street, Suite 420, Alexandria, VA 22314, or call 703/684-1836.

If you're wondering if it's all worthwhile, just imagine what Edison would have said.

Invent America! For now—as never before—our country needs an inventive spark.

INVENT AMERICA!

Bringing bright ideas out of young minds

O'Shea fielding 11 complete players

By C.J. Rieak
Staff writer

The season opens tomorrow for Schoolcraft College's women's soccer team, and optimism is running high. Why not? Coach Nick O'Shea calls this his best team, from top to bottom — better than his National Junior College Athletic Association championship squad of 1987.

"This team will probably be the most balanced, well-rounded team I've had," said O'Shea. "I'll be able to put 11 quality players on the field. They'll be more consistency — we're good everywhere."

But there's more to winning than talent. It takes purpose, a determined, focused effort, with all players aiming at the same goal.

And as talented as the Lady Ocelots are, they have no greater advantage than the bitter memory of last season.

"I'll never forget that day," said SC midfielder Dawn Gabriel, now a sophomore. The day of infamy came last November, when bids to the NJCAA tournament were extended. SC was the defending NJCAA champion; it had finished the '88 season 14-2-2; its bid to the national tournament was no more than an afterthought.

BUT THE BID never came. The Lady Ocelots were deprived of a chance to defend their title by a set of obscure rules that have since been revised.

Changing the rules after the fact was little solace to SC's '88 squad. But it did provide the impetus for '89.

"We're determined to do it this year," said Gabriel, the former Livonia Churchill standout. "I know the returning players think about (last year). And I know Kellie (Davis) and Rose (Hally) and I talk about it a lot. We're going to win the national title this year."

That's more than just the normal pre-season chatter, brimming with hope and confidence but with a foundation of ifs. O'Shea will have some scoopers up front, something he rarely has had (only the '87 champs could compare). And his defense is experienced and steady.

The Lady Ocelots traveled to East Lansing Wednesday for an exhibition match with Michigan State. The final was 3-2 favoring MSU, but O'Shea was hardly disappointed.

"I was happy with the fact that we were able to score," he said. SC got goals from Shannon Meath and Joan

Schoolcraft sports

Arndt, Cindy Bowman assisted on Meath's, and Meath assisted on Arndt's.

"OUR DEFENSE," added O'Shea. "There were some small things we did wrong, but there is going to be some confusion on defense until they get used to playing with each other."

The remarkable thing is, O'Shea has spent little practice time on the defense. "We've been concentrating on the offense. We haven't done any defensive stuff, really."

"Our defense is fairly strong with Kellie and Rose, and even though Gina (Carozzo) didn't play back there last year, she pretty much knows what I want," said O'Shea. Lisa Yderstadt is another O'Shea plans to use extensively on defense, if her injured knee comes around. She is currently limited to about 10 minutes of play a half.

With Meath, Arndt, Bowman, Robin Lawson and Lori Hodges, O'Shea has five capable forwards to summon. Hodges is currently hampered by an ankle injury, but she should return soon.

"We should get some goals from the people up front," said O'Shea confidently.

IF THERE is a question mark, it's in the middle where Gabriel is the only experienced returnee. There is talent, to be sure: Angie Stiglmaier, Amy Zanetti, Bev DeJohn and Donna O'Brien all have ability.

"The midfield is where we have to work right now," admitted O'Shea. "We're trying Donna at center mid. She was a sweeper at North Farmington, so it's going to take her awhile to get used to it."

The Lady Ocelots are not pressed for time. Their first real test against NJCAA opponents doesn't come until the end of this month at the Monroe (N.Y.) CC Tournament. They play Monroe on Sept. 30; it was the Monroe coach, Chuck Salamone, who got his team into the NJCAA tournament last year in place of SC.

"They're going to pay for that," promised Gabriel.

The long-awaited mission to claim what might have been theirs is just getting under way for SC.

SC men boot Meramec

The match was over; Schoolcraft College men's soccer coach Van Dimitriou managed a weak, nervous, uncertain smile.

With good reason. His team had performed uncertainly in defeating Meramec CC 2-1 Sunday (Sept. 3) at SC. Maybe, a victory should have been satisfying enough. But the Ocelots' glaring mistakes took the luster off the victory.

After John Cortese scored in the first half (Bill Werthman assisted) to put SC ahead, and Khaled Zeidan made it 2-0 early in the second half (with Brendan O'Reilly assisting), the Ocelots had some incredible miss-kicks.

TWICE THEY failed to convert empty-net chances, first Werthman shooting over the goal and then Chris Moore missing wide. In between, Zeidan had the Meramec keeper out of position but booted the ball out of bounds.

A goal with 10 minutes left by the

St. Louis team put what had seemed like a certain victory in doubt. The Ocelot defense stiffened, however, assuring the win.

"I noticed our guys shooting is really horrendous," said Dimitriou. "I knew our shooting was a weakness all along. We've been spending a lot of time on it. They're working on it."

Dimitriou had expected a tough battle, but figured if his Ocelots could run Meramec — which played Macomb CC to a scoreless tie Saturday at Macomb — the chances of victory were greatly improved.

The strategy worked, although it didn't show in the score after the Ocelots failed so miserably to finish their plays.

"I think we convinced some people we were a solid ballclub." Dimitriou singled out sweeper Chris Speen and stopper Dave Dingloff for praise.

SC hosts the Detroit College of Business at noon Saturday.

Abraham optimistic about Madonna club

By Brad Emons
Staff writer

Third-year Madonna College volleyball coach Jerry Abraham is hoping his freshman-dominated team will grow up fast enough this season to make a run at the NAIA playoffs.

The Fighting Crusaders, coming off a 29-10 season, opened their 1989 campaign Thursday with a 15-5, 15-4, 15-4 victory over visiting Oakland Community College.

"We have an extremely young team," Abraham said. "It's a good little group with seven freshman, five sophomores and one senior, but we're facing a tough schedule."

Thursday's match was merely a warmup for Madonna, a four-year school.

OCC, a two-year school, could only come close in the middle game.

Kristy McFadden, a 6-foot-1 sophomore from Redford Bishop Borgess High, led the Borgess attack with eight kills and seven blocks.

Three freshman contributed seven kills each including Stacey Girard, a member of two-time state Class A champion Livonia Ladywood; Tonia Smith of Walled Lake Central; and Maria Wordhouse of Plymouth Salem.

SOPHOMORE Jenny Sladewski (Livonia Stevenson) recorded seven

volleyball

service aces, while freshman Lynn Bernwanger (Walled Lake Central) did an effective job setting up Madonna's 5-1 offensive attack.

Defensively, Madonna standouts included senior Wendy Spencer (Walled Lake Western), sophomore Lisa Dreske (Borgess) freshman Melissa Mars (Borgess).

Abraham also can go to four other players: this season: freshmen Ann DiMambro and Val Perrone, both of Borgess; and sophomores Wendy Wesala (Dearborn Fordson) and Penny Baker (Lincoln Park).

"Even though we're young, we expect to have a good season," Abraham said. "We've gotten super support from the administration. We have new lights in our gym and our floor has been redone. We have a doctor and a trainer, and scholarships (tuition waivers). I'm very happy with the way things are going."

Madonna returns to action at 7 p.m. Wednesday at Kalamazoo College. The Fighting Crusaders return home Thursday for a 7 p.m. match against Henry Ford Community College.

● **WALTER'S GETS AWARD**
Walter's Home Appliance, the Livonia Collegiate Baseball League's representative last month in the All-American Amateur Baseball Association, recently was honored with the AAABA's Sportsmanship Award. Walter's, coached by Mike Keller, finished 3-2 in the tournament. Johnny's of Baltimore, Md. won the 22-team tournament, defeating Waterbury, Conn. in the final, 20-2.

● **GC DIVER 1ST**
Garden City diver Tawila Korhonen set a school record (171.85 points) but it wasn't enough Thursday as the host Cougars fell to Belleville in a girls swim meet, 103-62. Jennifer Martin added a pair of second place finishes for GC in the 200 and 500-yard freestyles with times of 2:47.0 and 7:44.3, respectively. Other seconds were recorded by Cathy Miller in the 50 freestyle (33.0) and Cindy Keene in the 100 backstroke (1:30.0).

● **GREAT START**
A pair of freshman from Livonia Stevenson High have figured highly in Central Michigan University's early-season soccer success. The Chippewas were 2-0-1 through their first three games. Kurt Will tallied the game-winner in a 2-1 victory over Albion College, while former prep teammate Pete Galea tallied a pair of goals and one assist in a 7-2 CMU triumph over Alma. CMU captain Jim Kimble is also a Stevenson product.

● **WINGS WIN TITLE**
The Livonia Wings '77, 1989 Michigan State Cup Champions, opened their fall soccer season by winning the Bay Village (Ohio) Cup Challenge over Labor Day weekend. Coach Rick Hamers' Wings have now captured three boys tournament titles this season. It was the Wings' first action since returning from a second place finish at the U.S. Midwest Regionals. The Wings '77 survived their stiffest challenge in the quarterfinals, defeating Kitchener, Ontario, 1-0. They also defeated two other Canadian teams, the Waterloo Warriors and Pickering Power. Livonians on the squad include Jeff Babinski, Joe Brincat, Brett Emerson, David Green, Dan Kulick, Aaron Racey and Doug Smith. Plymouth Canton players include Jeff Cohen, Jeff Filis, Mark Garrett,

Doug Herriman, Dan Schwartz and Andre Ware. Northville members include Brandon Moggio, Matt Schwagle and Matt Topous.

● **SCORELESS STRING**
Over Labor Day weekend, the Wolves '76 boys soccer team reached the quarterfinals of the Henderson Memorial Tournament in London, Ontario before losing in a shootout to the Dixie Dragons after a scoreless draw in regulation. The Wolves played four games without giving up a goal while extending their shutout to 15 games. En route to the quarterfinals, the Wolves downed Streetsville, a 1989 Ontario Cup finalist, 1-0. They also beat Chatham (4-0) and Guelph (7-0). The Wolves, coached by Paul Scicluna and Jack Hensley, won four summer tournament titles and finished with a record to 23-1. They outscored their summer opponents, 80-6. Members of the Wolves, who will play this fall in the first division of Little Caesars Premier League, include: Adam Borchert, Dan Brody, David Garlick, Neal Grode, Jamie Heitert, Bill Hensley, Adam Hunter, Mike Jablonski, Mike Kley, Matt Kopmeyer, Justin Marshall, Kenny Perlin, Alan Placek, Go Rauer, Seamus Rustan, Ting Scicluna, Rich Walos and Jamie Whitmore. Paul Garlick is the team's manager.

● **TOUCH FOOTBALL**
The City of Westland Department of Parks and Recreation will stage a touch football league (maximum eight teams) with games being held at 6:30 and 8 p.m. Tuesdays and Thursdays (Sept. 28 through Nov. 16). Signup will be Sept. 6-22. A managers meeting will be at 7 p.m. Tuesday, Sept. 26, at the Bailey Recreation Center. To be eligible, you must be 18 years of age, on or before Sept. 1, 1989. No high school, college or professional players are eligible. The cost is \$300 per team (not including a \$15 forfeit fee). Individual and sponsor trophies will be awarded to the league champion.

● **WESTLAND HOCKEY**
The Westland Hockey Association will hold registration for its miniature through pee wee programs (6-13 years) from 11 a.m. until 2 p.m. Saturday, Sept. 16, at the Westland Sports Arena. For more information, call Mike Troup at 728-02092.

CITY OF GARDEN CITY ORDINANCE NO. 89-009

AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDEN CITY BY ADDING A NEW CHAPTER 54 TO TITLE V OF SAID CODE

THE CITY OF GARDEN CITY HEREBY ORDAINS That a new Chapter 54 shall be added to Title V of the Garden City Code which shall read as follows:

WASTEWATER DISCHARGE CONTROL ORDINANCE

Sec. 54.01 PURPOSE

The purpose of this ordinance is to protect the Public Health and Safety by abating and preventing pollution through the regulation and control of the quantity and quality of water admitted to or discharged into the wastewater collection and treatment system to the City of Garden City and the City of Detroit (POTW) and a specific portion of Garden City and the City of Detroit as control authority or to comply with all applicable State and Federal Laws regulated by the Federal Water Pollution Control Act (33 U.S.C. 1311, ET SEQ.) and the General Pretreatment Regulations (40 CFR, Part 403).

The objectives of this ordinance are: 1) To prevent the introduction of pollutants into the POTW which will interfere with the operation of the system or contaminate the resulting sludge or will pose a hazard to the health or welfare of people or to employees of the City of Garden City or the City of Detroit Water and Sewerage Department; 2) To prevent the discharge of pollutants into the POTW which will pass through the system inadequately treated and into the receiving waters, the atmosphere, the environment, or will otherwise be incompatible with the system; 3) To improve the opportunity to recycle or reclaim wastewaters or sludges from the system in an economical and advantageous manner; and 4) To provide for the recovery of costs from the users of the Detroit POTW sufficient to administer regulatory activities and meet the costs of the operation, maintenance, improvement, or replacement of the system.

This ordinance regulates the contributors to the Detroit POTW through the issuance of wastewater discharge permits to certain users and the enforcement of general requirements for all users, authorized monitoring and enforcement, and authorizes fees and penalties.

Sec. 54.02 AUTHORITY By virtue of the obligation and authority placed upon the City of Garden City and the City of Detroit by the Federal Water Pollution Control Act, also known as the Clean Water Act, as amended (33 U.S.C. 1311, ET SEQ.) the Constitution of the State of Michigan, Michigan Public Act 445 of 1979, as amended, the Charter of the City of Garden City, the National Pollutant Discharge Elimination System (NPDES) permit for the City of Detroit (POTW), the Federal District Court consent judgment pertaining to U.S. EPA v. CITY OF DETROIT, ET AL., CA. NO. 77-1100, as amended, the Urban Cooperation Act of 1967, as amended, Public Act 35 of 1951, as amended, and existing or future contracts between the Board of Water Commissioners and the City of Garden City, or by virtue of common law usage of the system, this ordinance shall apply to every applicable user contributing, or causing to be contributed, pollutants to wastewater to the Detroit POTW within the Jurisdictional Boundaries of the City of Garden City.

Sec. 54.03 DEFINITIONS Unless the context specifically indicates otherwise, the following terms and phrases, as used in this ordinance, shall have the meanings hereinafter ascribed to them:

a) Act or the Act shall mean the Federal Water Pollution Control Act, also known as the Clean Water Act of 1972, as amended, 33 U.S.C. 1311, ET SEQ.

b) Authorized representative shall mean any person authorized to act on behalf of the industrial user, if the industrial user is a corporation, (2) a general partner or proprietor, if the industrial user is a partnership or proprietorship, respectively, or (3) a duly authorized representative of the individual designated in either of the above, if such representative is responsible for the overall operation of the facilities from which the indirect discharge originates or is the identified corporation, partnership, or proprietorship representative for responding to such discharge inquiries or action.

c) Biochemical Oxygen Demand (BOD) shall mean the quantity of dissolved oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure five (5) days at 20 degree Celsius expressed in terms of weight and concentration (milligrams per liter (mg/l)) as measured by standard methods.

d) Board shall mean the Board of Water Commissioners of the City of Detroit.

e) City shall mean the City of Garden City or the City of Detroit or their authorized representative or employees, unless otherwise specified.

f) Composite, Pollutant Demand (Biological Oxygen Demand), FOG (Fats, Oils or Grease), phosphorus, suspended solids, and fecal coliform bacteria, plus other pollutants which do not exceed the control authority's interference or pass-through limitations or the limitations of this ordinance.

g) Composite sample shall mean a series of individual samples of equal volume or flow-proportioned volume taken over a specified time period at specified intervals which are combined into one sample or the equivalent of the foregoing as determined by the control authority. The arrangement of the sample series shall be tailored to the specific circumstances of the wastewater being tested and shall reasonably reflect the characteristics of the wastewater at the time of each individual sample.

h) Control authority shall mean the Detroit Water and Sewerage Department (DWSD) which has been officially designated as such by the State under the provisions of 40 CFR 403.10 or authorized representative or employees of the DWSD.

i) Cooling water shall mean the non-contact water discharged from any use such as air conditioning, cooling or refrigeration to which the only pollutant added is heat.

j) Days shall mean, for purpose of computing a period of time prescribed or allowed by this ordinance, consecutive calendar days.

k) Direct discharge shall mean the discharge of treated or untreated wastewater directly into the waters of the State of Michigan.

l) Director shall mean the Director of the Detroit Department of Water and Sewerage or the Director's Deputy.

m) Environmental Protection Agency or EPA shall mean the United States Environmental Protection Agency, where appropriate, the term may also be used as a designation for authorized representative or employees of the EPA.

n) Fats, oil, or grease (FOG) shall mean hydrocarbons, fatty acids, soaps, fats, waxes, oils, and any other non-volatile material of animal, vegetable, or mineral origin that is extractable by solvent in accordance with standard methods.

o) Flow proportional sample shall mean a composite sample taken with regard to the flow rate of the wastewater.

p) Grab sample shall mean a sample which is taken from a wastewater on a one-time basis without regard to the variation in flow rate but which shall reasonably reflect the characteristics of the wastewater at the time of sampling.

q) Indirect discharge shall mean the discharge of the Introduction of pollutants from any non-domestic source, regulated under section 307(b), (c) or (d) of the Act (33 U.S.C. 1317), into the POTW.

r) Industrial user shall mean a person who contributes, causes, or permits wastewater to be discharged into the POTW from a place of business, endeavor, arts, trade, or commerce, whether public or private, commercial or charitable. Single Family and Multi-Family Residential dwellings are specifically excluded.

s) Industrial waste shall mean the discharge into the POTW of any liquid, solid, or gaseous waste or form of energy, or combination thereof, resulting from any processes of industry, manufacturing, business, trade, or research, including the development, recovery, or processing of natural resources.

t) Interference shall mean a discharge by a user which, alone or in conjunction with discharges by other sources, inhibits or disrupts the POTW or its treatment processes or operations, or its sludge processes, use, or disposal, and which causes a violation of any requirement of the POTW's NPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sewage sludge use or disposal by the POTW in accordance with the following statutory provisions and regulations or permit issued thereunder (or more stringent state or local regulations) Section 402 of the Clean Water Act; the Solid Waste Disposal Act (SWDA) (including Title II, more commonly referred to as the Resource Conservation and Recovery Act (RCRA)); and including state regulations contained in any state sludge management plan prepared pursuant to subtitle D of the SWDA; the Clean Air Act; the Toxic Substances Control Act; and the Marine Protection Research and Safeguard Act.

u) National Categorical Pretreatment Standard shall mean any regulation containing pollutant discharge limits promulgated by the EPA in accordance with Section 307(b) and (c) of the Act (33 U.S.C. 1317) which applies to a specific class or category of industrial users.

v) National Pollutant Discharge Elimination System (NPDES) permit shall mean a permit issued to a POTW pursuant to Section 402 of the Act (33 U.S.C. 1312).

w) New source shall mean any building, structure, facility, or installation from which there is or may be a discharge of pollutants, the construction of which is commenced after the publication of proposed National Categorical Pretreatment Standards under Section 307(a) of the Act which will be applicable to such source if such standards are thereafter promulgated in accordance with that section.

x) Pass-through shall mean the discharge of pollutants through the POTW into navigable waters in quantities or concentrations which, alone or in conjunction with discharges from other sources, is a cause of a violation of any requirement of the POTW's NPDES permit (including an increase in the magnitude or duration of a violation).

y) Person shall mean any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, unit of government, school district, or any other legal entity, or their legal representative, agent, or assigns.

RCRA - Resource Conservation and Recovery Act 510 - Standard Industrial Classification SWDA - Solid Waste Disposal Act, 43 U.S.C. 4901, ET SEQ. TSS - Total Suspended Solids USC - United States Code

Sec. 54.04 DELEGATION OF AUTHORITY The City of Detroit Water and Sewerage Department, as the State approved control authority, is authorized to administer and enforce the provisions of this ordinance on behalf of the City. The City shall enter into a contract with the City of Detroit Water and Sewerage Department, which shall set forth the terms and conditions of such delegated authority, consistent with this ordinance, and shall allow the City of Detroit Water and Sewerage Department to perform the specific responsibilities as control authority, pursuant to State and Federal Law.

Sec. 54.05 DISCHARGE PROHIBITIONS A) General Pollutant Prohibitions. No user shall contribute or cause to be contributed to the POTW, directly or indirectly, any pollutant or wastewater which will cause interference or pass-through. These general discharge prohibitions apply to all such users of the POTW, whether or not the user is subject to National Categorical Pretreatment Standards of any other Federal, State, or local pretreatment standards or requirements. In addition, industrial users shall not contribute the following substances to the POTW:

- 1) Any liquid, solid, or gas which, by reason of its nature or quantity, is sufficient, either alone or by interaction with other substances, to cause fire or explosion or be injurious in any other way to persons, the POTW, or the operation of the POTW.
2) Any solids or viscous substance, in concentrations or quantities which are sufficient to cause obstruction to the flow to a sewer or other conveyance to the operation of the POTW, such as but not limited to grease, animal guts or tissues, bones, hair, bladders, entrails, whole blood, feathers, shins, cement, sand, cotton or marble dust, metal plastic shavings, grass clippings, rags, strings, fibers, spent grains, spent hops, wastewater, wood plastics, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, mud or grass grinding or polishing wastes, or tumbling and deburring stones.
3) Unless more strictly limited in this ordinance, any wastewater having a pH less than 5.0 or more than 10.0 if the equivalent calcium carbonate alkalinity exceeds 300 mg/l or more than 10% if the equivalent calcium carbonate alkalinity is 1 mg/l or less. If an industrial user wishes to have a pH limit of 10% they shall monitor both pH and alkalinity.
4) Any wastewater containing toxic pollutants in sufficient concentration or quantity either singly or by interaction with other pollutants to cause interference or pass-through or constitute a hazard to humans or animals.
5) Any liquid, gas, or solid or form of energy which either singly or by interaction with other wastes is sufficient to create a public nuisance or hazard to life or sufficient to prevent entry into the sewers for their maintenance and repair.
6) Any substance which is sufficient to cause the POTW's effluent or any other product of the POTW such as residues, sludges, or scums, to be unsuitable for reclamation processing where the POTW is pursuing a reuse and reclamation program. In no case shall a substance discharged to the POTW cause the POTW to be in non-compliance with sludge use or disposal criteria guidelines or regulations developed under Section 403 of the Act, with criteria, guidelines, or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Federal Clean Air Act, the Federal Toxic Substances Control Act, or State criteria applicable to the sludge management method being used.
7) Any substance which cause the POTW to violate the consent judgment in U.S. EPA v. CITY OF DETROIT, ET AL., CA. NO. 77-1100, or the City of Detroit's National Pollutant Discharge Elimination System Permit.
8) Any wastewater having objectionable color not removed in the POTW treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions.
9) Any wastewater having a temperature which will inhibit biological activity in the POTW treatment plant resulting in interference, but in no case wastewater with a temperature at the introduction into a public sewer which exceeds 150 degree F (64 degree C) or which will cause the influent at the wastewater treatment plant to rise above 140 degrees F (60 degrees C).
10) Any pollutant which constitutes a slug.
11) Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established in compliance with applicable State or Federal regulations.
12) Any floating fats, oil, or grease which are sufficient to cause interference with or pass through the POTW.
13) Any solid materials having a specific gravity greater than 1.3 or a cross-section dimension of one-half inch (1/2") or greater which are sufficient to cause interference with the POTW.

B) SPECIFIC POLLUTANT PROHIBITIONS. No industrial user shall discharge wastewater containing in excess of the following limitations:

Table with 2 columns: Pollutant Name and Limitation. Includes: Any Fats, Oil, or Grease (FOG) in concentrations greater than 2000 mg/l based on the average of all samples collected within a twenty-four (24) hour period; Any Total Suspended Solids (TSS) in concentrations greater than 10,000 mg/l based on a composite sample; Any Biochemical Oxygen Demand (BOD) in concentrations greater than 500 mg/l based on a composite sample; Non-compatable pollutants; and a list of metals and toxic substances with their respective limits (e.g., Total Arsenic (As) 1.0 mg/l, Total Cadmium (Cd) 2.0 mg/l, Total Copper (Cu) 4.0 mg/l, etc.).

ALL LIMITATIONS ARE BASED ON COMPOSITE SAMPLES. 3) Commencing on or before July 1, 1991, no industrial user classified as a significant user shall discharge wastewater containing total toxic in excess of 1000 mg/l based on a composite sample. Industrial users having total toxic discharge concentrations greater than 1000 mg/l shall submit a compliance schedule by July 1, 1991, for achieving the 1000 mg/l limitation by July 1, 1993. This limitation shall not apply to the discharge of internal circulating water from heat exchangers during the cleaning cycle.

C) NATIONAL CATEGORICAL PRETREATMENT STANDARDS. National Categorical Pretreatment Standards and requirements promulgated pursuant to the Act by the effective date of this ordinance shall be met by affected dischargers provided, however, that if a more stringent standard or requirement is applicable pursuant to this ordinance, State law, or regulation, then the more stringent standard or requirement shall be controlling. The control authority may, by rule or regulation, require compliance with National Categorical Pretreatment Standards and requirements promulgated after the effective date of this ordinance. Affected dischargers shall comply with the applicable reporting requirements under 40 CFR Section 403 and as established by the control authority.

D) INTAKE WATER ADJUSTMENT. Industrial users seeking adjustment of National Categorical Pretreatment Standards to reflect the presence of pollutants in their intake water must comply with the requirements of 40 CFR 403.13. Upon notification of approval by the USEPA, the adjustment shall be applied by modifying the permit accordingly.

E) IDENTIFICATION OF NATIONAL CATEGORICAL PRETREATMENT STANDARDS. The control authority may apply the identification of National Resources, or the US Environmental Protection Agency, whichever is applicable, for authorization to grant removal credits in accordance with the requirements and procedures of 403.7. Such authorization may only be granted when the POTW Treatment Plant can achieve consistent removal for each pollutant for which a removal credit is being sought provided that any limitation on such pollutant(s) in the NPDES Permit are neither being exceeded nor pose the prospect of being exceeded as a result of the removal credit being granted. Should this authorization be given by the control authority, any industrial user desiring to obtain such removal credit shall make an application to the control authority, consistent with the provisions of 40 CFR 403.7 and this ordinance. Any credits which may be granted under this provision may be subject to modification or revocation as specified in 40 CFR 403.7 or as determined by the control authority. A prerequisite to the granting of any removal credit may be that the industrial user pay a surcharge based on the amounts of such pollutants removed by the POTW, such surcharge being based on fees or rates which the Board may establish and, when appropriate, revise from time to time. Permits shall reflect or be modified to reflect any credit granted pursuant to this section.

F) DILUTE OR DILUTION. The use of dilute or dilution in any way, to dilute or attempt to dilute a discharge as a partial or complete substitute for a discharge that would be in compliance with the limitations contained in the National Categorical Pretreatment Standards, or in any other pollutant-specific limitation or requirement imposed by this ordinance, combining in-plant wastestreams or modulating the release of pollutants upstream of the sampling point prior to the point of discharge into the public sewer shall not be construed as dilution except as otherwise restricted by National Categorical Pretreatment Standards or regulations.

G) HAZARDOUS WASTEWATER. Hazardous liquid or solid waste from hauling vehicles directly into the POTW with or without treatment is prohibited unless the permittee proposes to unload such waste has applied for and received a permit from the control authority for unloading such waste in accordance with the Board's rules pertaining thereto. The discharger shall be subject to applicable terms, conditions, surcharges, fees or rates as established by the Board. The control authority may establish specific limitations for sludges from municipally owned or operated POTW treatment plants which are different than the specific limitations in this ordinance.

H) RIGHT OF REVISION. The City reserves the right to establish different or more stringent limitations or requirements on discharges to the POTW.

I) ACCIDENTAL DISCHARGES. Each industrial user shall provide protection from accidental discharge of prohibited materials or other substances regulated by this ordinance. Facilities and measures to prevent and abate accidental discharges shall be provided and maintained at the owner's or industrial user's cost or expense. All significant users shall submit to the control authority detailed plans showing facilities and operating procedures to provide protection against accidental discharges. All existing significant users shall complete and submit such a plan within one hundred eighty (180) days of the effective date of this ordinance. New significant users shall submit such a plan prior to the time they commence discharging.

J) NOTIFICATION REQUIREMENTS. Within one (1) hour of becoming aware of a discharge into the POTW which exceeds or does not conform with Federal, State, control authority, or City Laws, Rules, Regulations, or Permit requirements and the degree of exceedance appears to be more than twice the allowable concentration, the industrial user shall telephone the control authority at its control center and notify the control authority of the discharge. The notification shall include the name of the caller, the location of the discharge, the type and volume of discharge, the nature, quantity, and composition of pollutants and estimated volume. Within five (5) calendar days after the discharge, the industrial user shall submit a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences. When required by the control authority, the industrial user's wastewater discharge permit shall be modified to include additional measures to prevent such future occurrences. Such notification shall not relieve the industrial user of any expense, loss, damages, or other liability which may be incurred as a result of damage to the POTW, facilities, or equipment. The user shall be liable for any other damage to person or property. However, notification received pursuant to this paragraph or information obtained by the exploitation of such notification shall not be used against any individual in any criminal case, except a prosecution for perjury or for giving a false statement. Such immunity shall not bar the criminal prosecution of non-natural persons nor shall it bar the pursuit of administrative or civil remedies against any person.

K) NOTICE TO EMPLOYEES. A notice shall be permanently posted on the industrial user's Bulletin board or other prominent place advising employees whom to contact in the event of an actual or potential violation of this ordinance.

L) RECOVERY OF COSTS. Any user discharging in violation of any of the provisions of this ordinance which produces a deposit or obstruction, or causes damage to or impairs the POTW, or causes the City of Detroit to violate its NPDES permit, shall be liable for any expense, loss, damage, penalty, or fine incurred because of said violation or discharge. Prior to assessing such costs, the control authority shall notify the user of its determination that the user's discharge was the proximate cause of such damage, obstruction, impairment, or violation of the City of Detroit's NPDES permit and the intent to assess such costs to the user. Any such notices shall include a written determination which substantiates the determination of proximate cause and a breakdown of cost estimates. Failure to pay the assessed costs shall constitute a violation of this ordinance. Such charge shall be in addition to, not in lieu of, any penalties or remedies provided under this ordinance, other ordinances, statutes, regulations, or law or in equity.

M) The Director may grant a variance from the limitations set forth in Sec. Five (1) - (9) of this ordinance in accordance with rules adopted by the control authority which set forth the guidelines, standards, procedures, fees, and charges by which a person may be granted such a variance. A variance shall not be granted to a user if the result would be a violation of an applicable National Categorical Pretreatment Standard or allow a prohibited discharge (violate 40 CFR 403.7) for cause the POTW to be in non-compliance with its NPDES permit. A user requesting a variance shall have the burden of showing that any guidelines or standards adopted by the Board have been met before a variance may be granted. The Board may adopt fees or charges for reviewing a variance application which shall be paid by a user upon applying for a variance.

Sec. 54.06 FEES a) The purpose of this section is to provide for the recovery of costs from industrial users of the POTW. The applicable charges or fees shall be sufficient to meet the costs of the operation, maintenance, improvement, or replacement of the system or as provided by law, contractual agreement, or Board action.

b) Charges and Fees shall include but not be limited to: 1) Fees for reimbursement of costs of establishing, operating, maintaining, or improving the control authority's industrial waste control and pretreatment programs, and 2) Fees based on volume of waste and concentration or quantity of specific pollutants in the discharge; and 3) Other Fees deemed necessary to carry out the requirements contained herein or as may be required by law.

Sec. 54.07 WASTEWATER DISCHARGE PERMITS It shall be unlawful for significant users to discharge into the POTW without a Wastewater Discharge Permit from the control authority except as authorized by the control authority or in accordance with the provisions of this ordinance.

a) All significant users proposing to connect to or contribute to the POTW shall apply for a wastewater discharge permit in accordance with the following procedures before connecting to or contributing to the POTW. Upon determination that a permit is required, no connection to the POTW shall be made and no discharge thereof shall occur until a permit is issued unless otherwise authorized by the control authority for a period not to exceed sixty (60) days. All existing significant users connected to or contributing to the POTW shall apply for a wastewater discharge permit in accordance with the following procedures. The control authority may require any non-domestic user to fill out a questionnaire and submit it to the control authority to determine whether the user is a significant user. A potential significant user as well as to determine changes or lack of changes in the user's facilities.

b) PERMIT APPLICATION. The control authority may notify an industrial user of its belief that the industrial user is, or may be, a significant user. Upon such notification, the industrial user shall complete and submit an application for a wastewater discharge permit in the manner and form prescribed by the control authority. Failure of the industrial user to so notify an industrial user shall not relieve any significant user of a duty to obtain a permit as required by this ordinance.

1) Existing industrial users shall submit a completed application on the form provided by the control authority within sixty (60) days after being so directed and provided a form by the control authority. 2) Proposed new industrial users shall submit an application form and submit the completed application to the control authority within sixty (60) days after being so directed and provided a form by the control authority. 3) Industrial users who have previously been issued a permit or revised National Categorical Pretreatment Standard and which has not previously submitted an application for a Wastewater Discharge Permit as required by this ordinance shall apply for a Wastewater Discharge Permit within ninety (90) days after the promulgation of the applicable National Categorical Pretreatment Standard. The control authority may also initiate this action.

4) A separate application shall be required for each separate location. 5) APPLICATION INFORMATION. In support of the application, the industrial user shall submit, in units and terms appropriate for evaluation, the following information: 1) Corporate or Individual name, any assumed name(s), Federal Employer Identification number, address, and location of the discharging facility; 2) Name and title of the authorized representative of the industrial user who shall have the authority to bind the industrial user financially and legally; 3) All SIC numbers of all processes at this location according to the Standard Industrial Classification Manual, issued by the Executive Office of the President, Office of Management and Budget, 1972, as amended; 4) Actual or proposed wastewater constituents and characteristics for each permit listed in the permit application form. Such parameters shall include those applicable pollutants having numeric limitations and those pollutants limited by National Categorical Pretreatment Standards or regulations for applicable industries. For each parameter, the expected or experienced maximum and average concentrations during a one (1) year period shall be provided. For industries subject to National Categorical Pretreatment Standards, the data reported therein shall be separately shown for each categorical process wastestream. Combined wastestreams proposed to be regulated by the combined wastestream formula shall also be identified. Sampling and analysis shall be performed in accordance with procedures established by the EPA pursuant to Section 309 of the Act and contained in 40 CFR, Part 136, as amended, where 40 CFR, Part 136 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be performed in accordance with the procedures set forth in the EPA's Sampling and Analysis Procedures for Screening of Industrial Effluents For Priority Pollutants, April, 1977, and amended versions thereof or with any other sampling and analytical procedures which are appropriate and applicable, approved by the EPA, the name and address of the laboratory performing the analytical work.

5) A listing and description of activities, facilities and plant processes on the premises. Those processes which are subject to National Categorical Pretreatment Standards or requirements shall be so designated. As per items (1)-(4) above, identify which pollutants are associated with each process. 6) Restricted to only those pollutants listed in item (4) above, a listing of raw materials and chemicals that are either used in the manufacturing process or could find the pollutants referred to in item (4) above. Any user claiming immunity from having to provide such information for reasons of National Security shall furnish acceptable proof of such immunity.

7) A description of typical daily and weekly operating cycles for each process in terms of starting and ending times for each of the seven (7) days of the week. 8) Average and maximum twenty-four (24) hour wastewater flow rates including daily, monthly and annual flow rates. Average and maximum National Categorical process wastestream flow rate and the cooling water, sanitary water and storm water flow rates separately for each connection to the POTW; list each combined wastestream.

9) A drawing showing all sewer connections and sampling manholes by the size, location, elevation and points of places of discharges into the POTW, also a flow schematic showing which connections receive each National Categorical process wastestream and which connections receive storm water, sanitary water or cooling water; also show which lines handle each combined wastestream. This schematic shall be cross-referenced to the information furnished in item (4) above.

10) Each product produced by type, amount, process, or processes and rate of production as pertains to processes subject to production based limits under the National Categorical Standards or requirements. 11) A statement regarding whether or not the requirements of this ordinance and the National Categorical Pretreatment Standards and requirements are being met on a consistent basis and, if not, what additional operation and maintenance work and/or additional construction is required for the industrial user to meet the applicable standards and requirements.

12) Basic information on the spill containment program and the program for the prevention of accidental discharges for each of the pollutants referred to in item (4) above. The information provided shall include the appropriate average and maximum flow rates, the standard schedule for testing on the form of raw materials, chemicals and/or wastes therefrom and the containment capacity for each. Only substances which are in a form which could readily be carried into the POTW and which constitute a concentration of five (5) percent or greater on a dry weight basis in the raw material, chemical solution or waste material are required to be reported. Volumes of less than fifty-five (55) gallons or the equivalent thereof need not be reported unless lesser quantities could cause pass-through or cause interference with the POTW.

13) Proposed or actual hours of operation of each pretreatment system for each production process. 14) A schematic and description of each pretreatment facility. Identify whether each pretreatment facility is of the batch type or continuous process type. 15) If other than DWSD potable water, the industrial user's source of intake water together with the types of usage and disposal method of each water source and the estimated wastewater volumes from each source.

16) If additional construction and/or operation and maintenance procedures will be required to meet the requirements of this ordinance and the National Categorical Standards, the user shall describe by the user will provide such additional construction and/or implement the required operation and maintenance procedures. 17) Any other information as may reasonably be required to prepare and process a wastewater discharge permit.

d) PERMIT ISSUANCE. Upon receipt of an application, the control authority shall review the application, determine and so notify the industrial user of any of the following: 1) The industrial user is not required to have a wastewater discharge permit. 2) The application is incomplete or the information only partially satisfies the information and data required by 40 CFR 403.12 (a) and (b) or the control authority and that additional information and data are required which shall be promptly furnished.

3) The industrial user is required to have a wastewater discharge permit which has not been submitted an adequate or timely report to the control authority in accordance with the baseline reporting requirements of 40 CFR 403.12 (a) and (b). If the control authority determines and the industrial user is required to have a wastewater discharge permit and has evaluated and accepted the data furnished, the industrial user will be notified accordingly by certified mail. The notification shall contain a copy of the proposed permit, so marked, for the industrial user's review. An industrial user may contest the determination of the control authority; any term or condition of wastewater discharge permit including modifications thereof, by filing a request for reconsideration in accordance with the procedures set forth in Sec. Thirteen of this ordinance. In the event of such request, the contested terms and conditions of the proposed permit shall be stayed pending the control authority's review of contested issues. If the permit is not contested, the industrial user shall be notified of the permit's issuance. A permit shall be issued upon resolution by the control authority of any contested terms or conditions. Only one facility location shall be included in each permit.

e) PERMIT CONDITIONS. Wastewater discharge permits shall be deemed to contain all provisions of this ordinance, other applicable laws, rules, regulations, user charges and fees established without repetition hereof. 1) Limits may also contain the following: A) Limits on the average and maximum wastewater constituents or characteristics if more restrictive than or supplemental to the numeric limits enumerated in Sec. Five of this ordinance or the applicable National Categorical Pretreatment Standards. B) Limits on average and maximum rate and time of discharge or requirements for flow regulation and equalization. C) Requirements for installation, operation and maintenance of discharge sampling manholes and monitoring facilities by the industrial user. D) Restrictions on which of the user's discharge wastestreams are to be allowed to be discharged at each point of connection to the POTW. E) Specifications for industrial user monitoring programs which may include sampling locations, frequency and type of sampling, number, types and standards for tests and reporting schedules. F) Requirements for the prevention of accidental discharges and the containment of spills. G) Restrictions based on the information furnished in the application. H) Compliance schedules for installation, operation and maintenance of upgraded or additional pretreatment facilities or to the implementation of additional operation and maintenance procedures required for the industrial user to meet the applicable pretreatment requirements and standards (E.G. hiring an engineer, completing preliminary plans, completing final plans, executing contracts for major components, commencing construction, completing construction, etc.).

2) No increment referred to in Paragraph (a), shall exceed nine (9) months. 3) Not later than fourteen (14) days following each date in the schedule and the first date for compliance, the industrial user shall submit a progress report to the control authority including, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress, the reason for delay, and the steps being taken by the industrial user to return to the established schedule. In no event shall more than seventy-five (75) days elapse between each such progress reports to the control authority.

4) The compliance schedule embodied in an industrial user's wastewater discharge permit shall be binding until the expiration and fulfillment of the schedule or until such permit is modified. Changes to the compliance schedule which are acceptable to the control authority shall be made in accordance with applicable regulations. Where 40 CFR, Part 136 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be performed in accordance with the procedures set forth in the EPA's Sampling, Sampling And Analysis Procedures For Screening Of Industrial Effluents For Priority Pollutants, April, 1977, and amended versions thereof, or with any other sampling and analytical procedures which are appropriate and applicable, approved by the EPA for these purposes. The report shall state whether the applicable pretreatment standards are being met on a consistent basis and, if not, what additional operation and maintenance procedures required for the industrial user to meet the applicable pretreatment standards. This report shall be signed, dated and certified by the authorized representative of the industrial user or a registered professional engineer.

5) REPORTING REQUIREMENTS. IN ADDITION TO THE ABOVE: A) All permittees shall submit a compliance report in the prescribed form, or an alternative approved form indicating the status of compliance with all conditions contained or referred to in the wastewater discharge permit or made applicable to the permit by this ordinance. The reports shall be submitted at six (6) month intervals, unless required more frequently, on a schedule to be established by the control authority for each permittee. Except for permittees subject to National Categorical Pretreatment Standards or requirements, a permittee, who has demonstrated consistent compliance with a permit for a period of one (1) year or more (which contains no compliance schedule), may request in writing to be excused from submitting the required reports at the required interval. Upon review and acceptance of the request, the control authority may grant a less frequent reporting interval. The reports shall state whether all requirements of the permit are being made on work under compliance schedule. The report shall also contain provisions of compliance for the next six (6) months. At a minimum, the report shall also contain a dated and signed analytical report of at least one (1) representative wastewater discharge sample taken during the period since the last report. If the control authority has sampled the compliance schedule, the user shall submit a report which shall include the concentration of each substance for which there is a specific limitation in the permit. The report shall be signed and dated by the authorized representative of the industrial user.

6) Permittees subject to National Categorical Pretreatment Standard or requirements shall submit compliance reports at the times and intervals specified by the Federal regulations and the control authority. Compliance reports shall be submitted to the control authority no later than thirty (30) days following the time compliance date for a standard and at six (6) month intervals thereafter on the schedule established by the control authority for each permittee as the provisions of their permits. The control authority may request such samples to be split for the control authority's independent analysis. Industrial users shall maintain records of all information from monitoring activities required by this ordinance or by 40 CFR 403.12(b). Industrial users shall maintain the records for no less than three (3) years. This period of record retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the industrial user or the operation of the City of Detroit's industrial pretreatment program or when requested by the control authority, EPA, or the State. Industrial users shall, upon the request of the control authority, furnish information and records relating to discharges to the POTW. Industrial users shall make such records readily accessible at all reasonable times, and allow the control authority to copy such records. In the event the control authority obtains samples and analyzes are made of such samples, a copy of the results of such analyses shall be promptly furnished to the control authority. The user shall be responsible for the cost of samples requested by the industrial user's authorized representative. When requested by the industrial user, the control authority shall leave a portion of any sample of the user's discharge from any sampling point or adjacent to the premises for the user's independent analysis. In cases of disputes arising over shared samples, the portion taken and analyzed by the control authority shall be controlling unless proven invalid. In the event a grab sample of the industrial user's discharge is obtained and analyzed by the control authority and found to contain concentrations of pollutants which are in excess of the numerical limitations for composite or flow-proportioned samples as listed in Sec. Five (1) - (9) of this ordinance, the industrial user shall be required to provide a written report describing the cause of greater concentration and a description of the measures by which such concentration may be held to values of less than two times the composite sample concentration limitation in the future.

7) Other requirements reasonably necessary to ensure compliance with this ordinance. 8) To the extent the control authority seeks to impose restrictions in a permit which are more restrictive than those contained in this ordinance, the control authority shall provide written documentation to substantiate the necessity hereunto stated. The user shall be responsible for the cost of the control authority or on an approved alternative form and shall indicate the nature and concentration of all pollutants in the discharge from each regulated process which are limited by National Categorical Pretreatment standards and the records of each day's flow for each process until the stream formula is facility which is regulated by such pretreatment standards. The combined wastestream formula may be used for reporting purposes after the initial information has been furnished to the control authority, provided that the user shall have been furnishing the combined wastestream. These reports shall contain the results of sampling of the discharge and analysis of pollutants contained therein cross-referenced to the related flow or production and mass as required to determine compliance with the applicable National Categorical Pretreatment Standards. The frequency of monitoring shall be as prescribed in the applicable General Pretreatment Standard.

Book work more than trivial pursuit

By Diane Gale
staff writer

Did you know that actor Charles Bronson was born Charles Buchinski?

Or that as of 1987, 800,000 people of Polish descent lived in metropolitan Detroit?

And that Nicolaus Copernicus, a Polish astronomer, was the first to discover that the Earth and its fellow planets revolve around the sun?

Minutiae like that are among 816 facts found in "The Polish Trivia Book" written by John M. Vranlak of Plymouth Township. The book is full of historical data, movie tidbits and tributes to Poland and people of Polish descent.

MOST PEOPLE mistakenly think that Marie Curie, who co-discovered

radium, used in cancer treatment, and polonium, used to run heart pacemakers, was French. Actually, she was born Marie Sklodowska in 1867. By marrying a French man, she took the nickname "madame."

"A lot of these things are not brought up in public schools," said Vranlak, whose name-dropping in the book includes notes about actresses Loretta Swit and Stefanie Powers.

Swift's name in Polish means dawn. And Powers, born Stefania Federkiewicz, was the first Polish-American to have her own line of clothing, Vranlak writes.

"In general, I didn't know most of this" before the research, said Vranlak, whose father came from Poland to the United States in 1932. His purpose for writing the book, Vranlak said, was to diffuse the

many Polish joke books that line book store shelves. The 169-page paperback that took three years to research and write, Vranlak said, will balance the readers' options.

"Polish jokes were a take-off of the moron jokes in the 1950s and they evolved into ethnic jokes," said Vranlak. "And Poland was once a legitimate term to describe people of Poland."

The much talked-about political changes going on in Poland, Vranlak admits, will likely boost sales. But, he added, the book was doing well before the most recent upheaval there.

The first printing of 2,000 copies has been sold, said Vranlak, who recently moved from Farmington Hills with his wife Annette and three children, ages 6, 4 and 1.

THE 10 MILLION Polish-Americans are an obvious potential market. But Vranlak said he wants to reach non-Polish readers with historical facts and other less-sequential information in a light-hearted way that would draw their attention.

Vranlak made the book easy to read by setting up a question-and-answer format. On the left side of the fold, questions appear, such as "What alternative to Mother's Day is observed in Poland?" The answer, "Women's Day," lies directly across the fold on the opposite page.

"This intentionally was supposed to be a fast-food approach," Vranlak said.

The book's index turns the trivia manual into a valuable reference

when the reader is finished, said Vranlak, who grew up on Detroit's east side, a few miles from Pole-ton.

He works as a Ford Motor Co. service quality engineer and drew from that environment for the book. For instance, he talks about the reader as the "voice of the customer," a phrase coined by Ford Motor.

And if the 616 pieces of trivia costing \$5.95 doesn't satisfy your curiosity, Vranlak has a sequel that he plans to have published next year. The title, he said, will be simple, like "More Polish Trivia."

Unicyclists set meet

The Redford Township Unicycle Club is sponsoring its 13th annual meet Saturday, Sept. 16, at Madonna College in Livonia.

In case of rain, the meet will be held the next day.

The cost is \$3 and includes lunch. Registration is at 9 a.m.

For information, call 591-0815 or 661-0334. Non-unicyclists are urged to bring lawn chairs out and enjoy the show. Madonna is at Levan and I-96.

obituaries

RAMON F. BAAMONDE

Services for Mr. Baamonde, 90, of Westland were held Aug. 26 from the Harris Funeral Home in Livonia with the Rev. Leonard Partensky officiating. Burial was in Parkview Memorial Cemetery, Livonia.

A native of Spain and a retired automotive company machinist, Mr. Baamonde died of heart failure Aug. 24 in Garden City Osteopathic Hospital.

Survivors are his wife, Manuela; daughter, Dora Mosquera of Westland; grandchildren, Joseph, Raymond, Philip, and Robert; and three great-grandchildren.

HELEN T. KIDA

Services for Mrs. Kida, 68, of Livonia were held Sept. 5 from St. Suzanne Catholic Church, Detroit, with Rev. Dennis Duggan officiating. Interment was in St. Hedwig Cemetery, Dearborn Heights.

A homemaker, she died Sept. 1. Survivors are a son, Gordon of Canton Township; daughter, Gloria of Garden City; and two grandchildren, Christina and Eric.

Arrangements were handled by the Vermeulen Memorial Funeral Home, Westland.

born Heights; daughter, Gayle Ralko of Royal Oak; three grandchildren, Robert, Michael and Michelle; brothers Wilbur, Lloyd, William, Rodney Henrlon, and Robert Lakin.

WINNIE E. LOFTIN

Services for Mrs. Loftin, 90, of Westland were held Sept. 1 from the Neely-Turowski Funeral Home,

Livonia, with Rev. Carl Campbell officiating. Interment was in Grand Lawn Cemetery, Detroit.

A homemaker, she died Aug. 30 in Four Chaplains Nursing Center, Westland.

She is survived by a daughter, Billie Simpkins; grandchildren, Kathie Holman, Debbie Simpkins, and Jim Simpkins, and five great-grandchildren.

ETHEL A. GLOWACKI

Mrs. Glowacki, 77, of Garden City, died Sept. 6 in Middlebelt Hope Nursing Home, Westland.

A homemaker, she is survived by a daughter, Norma Jean Wilcock of Westland; four grandchildren; one great-grandchild; and one great-great-grandchild; and two sisters, Jean Sampson of Cheboygan and Edna Wiseman of Washington.

Arrangements were handled by Vermeulen Memorial Funeral Home, Westland.

MILDRED B. LORENZEN

Services for Mrs. Lorenzen, 73, of Westland were held Sept. 8 from the John Santeu and Son Funeral Home, Garden City, with Pastor Bruce Rhodes of Garden City Free Methodist Church and the Rev. Leo Sabourin of St. Thomas Aquinas Catholic Church officiating. Interment was in White Chapel Cemetery, Troy.

Mrs. Lorenzen, a homemaker who lived in Westland Towers for five years, died Sept. 4 in St. Mary Hospital, Livonia.

Survivors are a son, Gary of Dear-

Continued from Page 4

ment Regulations (40 CFR 403) or by the control authority, whichever is more stringent. All sampling and analysis shall be of such greater restriction for protection against pass-through, interference, or violation of the NPDES permit.

PERMIT DURATION. Permits shall be issued for a specified time period, not to exceed five (5) years. A permit may be issued for a lesser period of time or may be stated to expire on a specific date; however, permits shall not be issued for a period less than one (1) year. Existing permits shall apply for permit reissuance a minimum of ninety (90) days prior to the expiration of existing permits on a form prescribed by the control authority. Upon final application for reissuance of a permit in accordance with this paragraph by a permit holder, the expired permit shall be automatically extended until modified or renewed by the control authority.

PERMIT MODIFICATION. The terms and conditions of the permit may be subject to modification by the control authority during the term of the permit as limitations or requirements as identified in Sec. 54.07 are amended or other just cause exists. Just cause for a permit modification includes, but shall not be limited to, the following:

- Material or substantial changes to an industrial user's facility or operation or changes in the characteristics of the industrial user's effluent. It shall be the industrial user's duty to request an application form and apply for a modification of the permit within thirty (30) calendar days of the change. Unchanged need not be resubmitted by the permittee. Failure of the industrial user to so apply shall be considered a violation of this ordinance. The control authority may also modify the permit of its own initiative based on its findings or reasonable belief of the above.
- Change(s) in the City of Detroit's NPDES permit;
- Embodiment of the provisions of a conciliation agreement, court settlement or order;
- Any changes necessary to allow the City of Detroit to fulfill its role as control authority;
- An industrial user's non-compliance with portions of an existing permit;
- A change of conditions within the POTW;
- A finding of interference or pass-through attributable to the industrial user;
- Amendment to, or promulgation of, National Categorical Pretreatment Standards or requirements. Permittees shall request an application form and apply to the control authority for a modified permit within ninety (90) days after the promulgation of a new or revised National Categorical Pretreatment Standard to which the industrial user shall be subject. Information submitted pursuant to this paragraph shall be confined to that information related to the newly promulgated or amended National Categorical Pretreatment Standard or requirement. However, information previously submitted need not be duplicated, insofar as the previously submitted information continues to be current and applicable. The control authority may also initiate this action. The industrial user shall be informed of any proposed change in its permit at least sixty (60) days prior to the proposed effective date of the change for any change initiated by the control authority, unless such change is the result of any enforcement action taken pursuant to this ordinance.

PERMIT CUSTODY AND TRANSFER. Wastewater discharge permits are issued to a specific person as defined herein for a specific discharge. A wastewater discharge permit shall not be reassigned or transferred to another person, new owner, new industrial user, different premises, or a new or changed operation without the written approval of the control authority. It shall be the permit holder's duty to notify the control authority of any such change within thirty (30) days of the change. The control authority may revoke a permit if it determines that an unreported change has occurred. The control authority may require the application for a new or modified permit if a change takes place. Any succeeding person shall comply with the terms and conditions of any existing permit which the control authority allows to be retained.

SMALL QUANTITY DISCHARGES. Industrial users whose maximum daily discharge on any day does not contain more than the following quantities of the listed pollutants, as expressed in pounds, may on a pollutant-by-pollutant basis apply to the control authority for an exemption from the concentration limitations set forth in Sec. 54.07 (b) and (c) of this ordinance for each such pollutant. Industrial users granted such an exemption shall comply with the below Listed poundage limitations.

POLLUTANT	DAILY POUND LIMIT
TSS	12
FUG	10
BOD	6
P	0.25
AS	0.0002
CU	0.001
CD	0.005
CB	0.001
CH	0.001
Ni	0.0002
Hg	0.007
Ag	0.0008
Cr	0.009
Zn	0.93

Upon application by an industrial user who has obtained approval to discharge under the foregoing poundage limitations, the control authority may on a pollutant-by-pollutant basis grant an exemption from the following wastewater discharge permit requirements described in Sec. 54.07 of this ordinance. No exemptions may be granted to industrial users subject to National Categorical Pretreatment Standards or requirements.

Sec. 54.08 MONITORING FACILITIES

Significant users shall provide, operate, and maintain at their own expense a sampling manifold or special structure to facilitate monitoring, inspection, sampling, and flow measurement of their discharge by the control authority and the industrial user and to enable the control authority to conduct such other monitoring and sampling as required for determining compliance with discharge requirements, limits, and standards as provided by this ordinance. The sampling manifold should be situated on the industrial user's premises in a location readily accessible to the control authority. It shall be the responsibility of the industrial user to obtain any necessary approvals from the City or other government entities which may be required by the location and construction of monitoring facilities in the public street or sidewalk area. Such construction shall only occur when another location would be impractical or cause undue hardship upon the industrial user. In no case shall the location be obstructed by landscaping or parked vehicles. There shall be ample room in or near such sampling or monitoring manifold or facility to allow accurate sampling and preparation of samples for analysis. The facility and all permanently installed sampling and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the industrial user. Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the control authority's requirements and all applicable local construction standards and specifications.

Sec. 54.09 INSPECTION, SAMPLING, AND RECORD KEEPING

For purposes of administering and enforcing this ordinance, the control authority may inspect the establishment, facility, or other premises of the industrial user. The control authority shall have ready access to the industrial user's premises to engage in inspection, sampling, compliance monitoring and/or metering activities. Each such inspection activity shall be commenced and completed at reasonable times, within reasonable limits, and in a reasonable manner. The control authority shall, upon arrival at the industrial user's premises, inform the industrial user or the industrial user's employees that sampling and/or inspection will be performed on private property, the control authority and the City shall observe all reasonable safety, security and other reasonable rules applicable to the premises established by the industrial user. Representatives of the control authority shall bear proper credentials and identification and shall be accompanied by a representative of the industrial user, at the industrial user's option. The control authority shall have no authority to inquire into any process beyond that point having a direct bearing on the kind and source of discharge to the POTW. However, such employees or representatives shall not be restricted from viewing any of the site. The control authority may take photographs of facilities subject to this ordinance unless specifically prohibited by the industrial user upon request to be permitted to take photographs, where an industrial user has security measures in force, the industrial user shall make prompt and necessary arrangements with the security personnel so that upon presentation of appropriate credentials, the control authority will be permitted to enter immediately for the purposes of performing their specific responsibilities. Significant users shall sample and analyze their discharges in accordance with a schedule from the compliance schedule may result in the industrial user being found in violation of this ordinance.

Sec. 54.10 CONFIDENTIAL INFORMATION

a) Information and data of an industrial user obtained from written reports, questionnaires, permit applications, permits and monitoring programs and from inspections shall be available to the public or other governmental agencies without restriction unless the industrial user specifically requests and is able to demonstrate to the satisfaction of the control authority that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets of the industrial user. All claimed confidential information must be clearly marked "Confidential." When requested by the person furnishing the report, the portions of a report which disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available upon written request to governmental agencies for use in judicial proceedings, the National Pollutant Discharge Elimination System (NPDES) permit, State Disposal System Permit and/or the pretreatment programs provided, however, that such portions of a report shall be available for use by any local, State, or Federal agency in judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information. Information accepted by the control authority as confidential shall not be transmitted to any governmental agency until and unless a ten (10) day notification of intent to transmit is first given to the industrial user.

b) All information with respect to an industrial user on file with the control authority shall be made available upon request by that user or the user's authorized representative during normal business hours.

Sec. 54.11 STATUTES, LAWS, AND REGULATIONS

Unless otherwise provided, any reference in this ordinance to a code, standard, rule, regulation, or law enacted, adopted, established, or promulgated by any private organization, or any element or organization of government other than the City shall be construed to apply to such code, standard, rule, regulation, or law in effect or existence upon the date of enactment of this ordinance.

Sec. 54.12 ENFORCEMENT

VIOLATIONS. It shall be a violation of this ordinance for any user to:

- Fail to completely and/or accurately report the wastewater constituents and/or characteristics of the industrial user's discharge;
- Fail to report significant changes in the industrial user's operations or wastewater constituents and/or characteristics to the control authority;
- Refuse reasonable access to the industrial user's premises or waste discharge for the purpose of inspection or monitoring;
- Fail to comply with any condition or requirement of the industrial user's wastewater discharge permit;
- Fail to comply with any limitation, prohibition, or requirement of this ordinance including any rule, regulation, or order issued hereunder, however, if an industrial user acts in full accordance with a compliance schedule applicable to such violation, the industrial user shall be deemed to be in compliance pursuant to the provisions of this ordinance, that industrial user shall be deemed to be in compliance with those requirements of this ordinance addressed by the compliance schedule. Industrial users acting in full compliance with wastewater discharge permits issued prior to the effective date of this ordinance shall remain in effect and be enforceable under this ordinance until the expiration date of such permit, or until a superseding permit is issued, whichever occurs first. Industrial users shall comply with National Categorical Pretreatment Standards and requirements on the date specified in the Federal regulations, regardless of compliance schedules.

UPSETS. An upset shall constitute an affirmative defense to an action brought for noncompliance with limits imposed under this ordinance or National Categorical Pretreatment Standards if the requirements of Paragraph (1) are met.

- An industrial user who wishes to establish the affirmative defense shall demonstrate, through properly signed, contemporaneous operating logs or other relevant evidence that:
 - An upset occurred and the industrial user can identify the specific cause(s) of the upset;
 - The facility was the time being operated in a prudent and workmanlike manner and in compliance with applicable operating and maintenance procedures;
 - The industrial user has submitted the following information to the Department, orally or in writing, within twenty-four (24) hours of becoming aware of the upset (if this information is provided orally, a written submission must be provided within five (5) days):
 - A description of the discharge and cause of noncompliance;
 - The period of noncompliance including exact dates and times or, if not corrected, the anticipated time the noncompliance is expected to continue;
 - Steps being taken and/or planned to reduce, eliminate, and prevent recurrence of the noncompliance.
- In any enforcement proceeding, the industrial user seeking to establish the occurrence of an upset shall have the burden of proof.
- The industrial user shall control production of all discharges to the extent necessary to maintain compliance with this ordinance upon reduction, loss, or failure of its treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost, or fails.

EMERGENCY SUSPENSIONS AND ORDERS. The control authority may order suspension of the sewer or wastewater treatment service and/or a wastewater discharge permit where such suspension is necessary, in the opinion of the control authority, to stop any actual or threatened discharge which presents or may present an imminent or significant hazard to the health or welfare of persons or to the environment, interfere or may interfere with the POTW, or causes or may cause the City of Detroit to violate any condition of its NPDES permit. Any person not having been discharged into the wastewater treatment system of the POTW and/or the wastewater discharge permit shall immediately stop or eliminate the contribution. In the event of a failure of the person to comply voluntarily with the suspension or revocation order, the control authority shall take such steps as deemed necessary, including immediate severance of the sewer connection or services, to prevent or minimize damage to the POTW system or danger to any individual or the environment. In the event such steps are taken, the Director shall immediately notify the industrial user in writing of such action and the specific recourse available and shall provide the industrial user with an opportunity for a hearing before the Director or his designated representative within ten (10) days of such action. The control authority shall reinstate the wastewater discharge permit and/or the sewer or wastewater treatment service upon proof of the elimination of the noncomplying discharge. The industrial user shall submit a detailed written statement to the control authority within fifteen (15) days of the occurrence describing the causes of the harmful contribution and the measures taken to prevent any future occurrence.

NOTICE OF VIOLATION. Except in the case of an actual or threatened discharge as specified in subparagraph (b), whenever the control authority has reason to believe that an industrial user has violated or is violating this ordinance, the control authority shall serve upon such industrial user a written notice stating the nature of the violation.

NOTICE OF CONTROL AUTHORITY ACTION. The City or designated department thereof shall be notified by the control authority of any enforcement activity taken within its boundaries.

ADMINISTRATIVE ACTIONS. Whenever the Director has reasonable grounds to believe that sewage, wastes, or other wastes of any kind are being discharged into the wastewater treatment system of the POTW and/or the wastewater discharge permit, the Director may, except in the case of emergency or flagrant violation, by conferences, notices, or cooperation, endeavor to the fullest extent possible to have the industrial user eliminate or remedy such violation.

CONFERENCE. The control authority may order any person who violates this ordinance to attend a conference where the control authority may endeavor to eliminate or remedy the violation by (10) days after the scheduled conference and shall set forth the date, time, and place thereof. The conference shall be conducted by a representative of the control authority. The industrial user shall present a plan and schedule for achieving compliance with this ordinance. The conference attendees may agree upon a compliance schedule which sets forth the terms and conditions and time period or schedule for full compliance. Nothing contained herein shall require the control authority to accept or agree to any proposed plan to achieve or prevent the control authority from proceeding with a show cause hearing as set forth in subsection (1) below. Should the attendee agree to a compliance schedule, the industrial user's wastewater discharge permit shall be modified accordingly. An industrial user must exhibit good faith and expenditures effort to comply with this ordinance and any procedures, requirements and conditions hereunder.

SHOW CAUSE HEARING. The control authority may order any industrial user who violates

this ordinance, or allows such violation to occur, to show cause before the control authority why a proposed enforcement action should not be taken. A notice shall be served on the industrial user specifying the time and place of a hearing before the control authority regarding the violation; the reasons why the action is to be taken; the proposed enforcement action; and directing the industrial user to show cause before the control authority why any proposed enforcement action should not be taken. The notice of the hearing shall be served personally or by registered or certified mail, return receipt requested, at least ten (10) days before the hearing, with copies sent to the City. Service may be made on any agent or officer of a corporation or authorized representative.

HEARING PROCEDING. A representative of the control authority shall conduct the show cause hearing and take the evidence, and may:

- issue, in the name of the Board, notices of hearings requesting the attendance and testimony of the witnesses and the production of evidence relevant to any matter involved in such hearings;
- transmit a report of the evidence and hearing, including transcripts and other evidence, together with recommendations to the Director for action thereon.

At any show cause hearing held pursuant to this ordinance, testimony taken must be under oath and recorded stenographically.

ACTIONS. After a show cause hearing has been conducted, an order may be issued to the industrial user by the control authority directing any of the following actions:

- Immediate compliance with the industrial user's wastewater discharge permit or with any applicable limitation, condition, restriction, or requirement of this ordinance or applicable Local, State, or Federal Law or Regulation;
- That pretreatment of waste by installation of adequate treatment equipment or proper operation and maintenance of existing treatment equipment be accomplished within a specified time period. Sewer or wastewater treatment service may be discontinued upon failure to comply;
- Submission of compliance reports on effluent quality and quantity as determined by self-monitoring and analysis during a specified time period;
- Submission of periodic reports on effluent quality and quantity determined by self-monitoring analysis throughout the final period set by a compliance date;
- Control of discharge quantities;
- Payment of costs for reasonable and necessary inspection, monitoring, and administration of the industrial user's activities by the control authority during compliance efforts; and/or
- Any such other orders as are appropriate, including, but not limited to, immediate termination of sewer or wastewater treatment services or revocation of a wastewater discharge permit or orders directing that following a specified time period, sewer or wastewater treatment service will be discontinued unless adequate treatment facilities, devices, or operation and maintenance practices have been employed.

PUBLIC PARTICIPATION. A list of all industrial users which were the subject of enforcement proceedings pursuant to Sec. 54.12 of this ordinance during the twelve (12) month period shall be annually published by the control authority in the largest daily newspaper, published in the municipality in which the POTW is located, summarizing the enforcement actions taken against the industrial users during the same twelve (12) month period whose violations remained uncorrected forty-five (45) or more days after notification of non-compliance over that twelve (12) month period, or which does not fail to accurately report non-compliance, or required the control authority to use its emergency authorities. All industrial users identified in a proposed publication shall be provided a copy of that proposed notice at least thirty (30) days before publication and provided with an opportunity to comment as to its accuracy.

LEGAL ACTIONS.

- Any user who violates any provision of this ordinance, including the failure to pay any fees, charges, or surcharges imposed hereby or any condition or limitation of a permit issued pursuant thereto or who knowingly makes any false statements, representations, or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this ordinance or wastewater discharge permit or who tampers with, or knowingly renders inaccurate any monitoring device required under this ordinance is guilty of a misdemeanor and shall, upon conviction, be punished by a fine not to exceed five hundred (\$500) dollars per day for each violation or by imprisonment for not more than ninety (90) days or both. The control authority is hereby authorized to seek, through its counsel, prosecution of criminal charges against any person violating any provision of this ordinance.
- If any person discharges sewage, industrial wastes, or other wastes into the POTW contrary to the provisions of this ordinance, permit or order issued thereunder, the City or the control authority may commence a Civil action to enjoin such discharge or to enforce compliance with its ordinance, permit, or order issued thereunder, in the Circuit Court for the County of Wayne or other appropriate court. Upon a proper showing of a violation of its ordinance, permit, or order issued thereunder, a permanent or temporary injunction may be granted without bond. The control authority or the City may also seek additional legal and/or equitable relief. Instituting suit in this circuit court does not constitute an exclusive election of remedies and does not prohibit the control authority or the City from commencing action in Federal Court for discharges believed to be in violation of this ordinance. State and Federal requirements pursuant to the Clean Water Act, the City of Detroit's NPDES permit, or other applicable laws or requirements. The control authority and the City may also recover reasonable attorney fees, court costs, court reporters' fees, and other unusual expenses related to enforcement of this ordinance and the person against the person found to have violated this ordinance or the orders, rules, regulations, and permits issued hereunder.

Sec. 54.13 REVIEW AND APPEAL. The following procedures control the course of reconsideration and appeal to the control authority with respect to the construction, application or enforcement of this ordinance and may be used if informal methods do not achieve satisfaction.

- Any permit applicant, permit holder, authorized industrial wastewater discharge or other discharger, or other person who has been adversely affected by any decision, act or determination made by or on behalf of the control authority by the Director or his authorized representative in interpreting or implementing the provisions of the ordinance or any permit issued thereunder, with the exception of any decision, determination, or order made following a show cause hearing pursuant to this ordinance may file with the control authority a written request for reconsideration. Such request shall be received at the control authority's General Offices within twenty (20) days of the date of the occurrence of the control authority's act or decision to dispute. All requests shall set forth the requester's name and address, along with a brief statement of the reasons for requesting and the factual basis for the request. Requests shall be filed in triplicate and sent by certified mail to the General Offices of the control authority.
- The control authority shall notify the applicant within fifteen (15) days after receipt of any request for reconsideration of the time and place for hearing upon the request. The hearing shall be conducted by the Director or his authorized representative not more than 18 days and not more than thirty (30) days after mailing such notice. The hearing may be continued for a reasonable time for good cause shown at the discretion of the Director. The hearing shall be held at an informal consultation and conference at which the requester, in person or by counsel, shall present his argument, evidence, data and proof in connection with the issue submitted. The parties shall not be bound by legal rules of evidence. The hearing shall be recorded and the requester shall be provided with a transcript thereof upon request and upon payment of the cost thereof. The decision of the Director shall be made known to the requester by Certified Mail within thirty (30) days after the hearing.
- The requester may appeal the ruling of the Director on the request for reconsideration or any order or decision issued following a show cause hearing pursuant to this ordinance by filing a request for appeal with the Board, for appearance before the Board, the procedures for appearance before the Board will be determined by the Board, and the requester will be notified of these procedures within thirty (30) days after such a request is filed.
- The filing of a request for reconsideration or for appeal and appearance before the Board shall stop any action by the control authority unless such action is immediately necessary to prevent pass-through.

Sec. 54.14 Any person who violates any provision of this ordinance or any condition or limitation of a permit issued pursuant thereto or who knowingly makes any false statements, representations, or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this ordinance or wastewater discharge permit or who tampers with, or knowingly renders inaccurate any monitoring device required under this ordinance is guilty of a misdemeanor and shall, upon conviction, be punished by a fine not to exceed five hundred (\$500) dollars per day for each violation or by imprisonment for not more than ninety (90) days or both. The control authority is hereby authorized to seek, through its counsel, prosecution of criminal charges against any person violating any provision of this ordinance.

Sec. 54.15 All ordinances or parts of ordinances in conflict herewith by the same authority are hereby repealed, except as hereinafter provided, and Code shall remain in full force and effect.

This ordinance is the latest necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Garden City and to hereby given immediate effect upon publication.

STREET SCENE

ART EMANUELE/staff photographer

Roman Lesman of Atlanta, Ga., and Tim O'Hara of Detroit head back to the Detroit Boat Club on Belle Isle after an early morning rowing session on the Detroit River.

'Row, row, row your boat . . .'

By LeAnne Rogers
staff writer

Teamwork in its purest sense is at the heart of rowing, a sport that has been active on the Detroit River for more than 150 years.

"This is one of the only true team sports," said Southfield resident Dick Bell. "Once a football play breaks, the players are on their own. In rowing, every move has to be calculated or something goes wrong."

In sports like basketball and football, teams can be built around particular players, said Bell, former oarsman and the rowing coach at the Detroit Boat Club on Belle Isle. But, "in rowing, there is a lot of hard work and there is real pressure to conform and develop your skills like the best guy in the boat," he said.

Club members hit the river twice each day during the week and once each weekend day for rowing sessions, pretty much any time of the year when the

river isn't frozen.

"There is so much more boat traffic in the summer that we are usually out in the mornings," said Bell, who is out on the river at about 5:30 a.m. on an average morning.

Rowing can be sculling with individuals to four-member teams where each member uses two oars, or sweeps with two- to eight-member teams where each member handles a single oar. The sweep teams also may row with a coxswain.

The boats used in the sport are designed to be lightweight yet able to carry a lot of weight. Bell said a boat weighing about 310 pounds can carry eight oarsmen and a coxswain.

"THE BOATS are specifically structured with carbon fiber riggings and a hull that is a 3/2nd of an inch thick," he said. "In a sense it is very strong, but also very fragile. It's the ultimate in balance and craftsmanship."

State of the art doesn't come cheap, however.

Boats can run \$13,000 for eights to \$3,000 for singles. Sculling blades cost about \$350 per pair and sweep blades run about \$200.

In an era when rowing machines are popular in gyms and at homes for aerobic workouts, it would seem to follow that rowing would be a popular participation sport.

"We don't have a recreational rowing program per se and I see that as a defect," Bell said. "We are geared to competition. With this emphasis on sports and fitness, rowing just hasn't maximized on it."

Detroit Boat Club member John Welchli said other sports don't compare with the physical fitness attained in rowing.

"At the 1984 Olympics, all the athletes were physically tested and the oarsmen were found to be the most fit, bar none," said Welchli, a silver medalist in rowing at the 1956 Olympics.

Bell agreed that through their training, oarsmen are able to develop tremendous strength and stamina.

IN OTHER countries, rowing is a much more popular sport. Welchli said, drawing 40,000 or 50,000 spectators to events, such as Britain's Royal Henley or the Ontario Henley in St. Catharines.

In earlier years in this country, rowing was an activity and spectator sport for a wider audience including many from the working classes.

Motor boats have cut into the sport, Bell said, since people can afford not to work up a sweat while boating. Another problem is that speed boats tend to swamp the narrow rowing boats.

Competition and physical fitness aside, a primary attraction for the oarsmen is being on the Detroit River during the quiet hours of the day.

"I rowed from 1959 until 1967 when I was in grad school," Bell said. "I started coaching in 1971 and I've been here every summer since."

The Detroit Boat Club has been a Detroit landmark for almost as long as Michigan has been a state. See Page 4D.

Readers' report: New River rafting

By Iris Sanderson Jones
contributing travel editor

Our story on white water rafting drew a lot of letters from readers who have rafted in eastern states, especially the New River in West Virginia. They all want to tell Susan Baldori of Plymouth, whose question prompted the original story, that a novice can feel safe and have fun on white water rivers.

Jack and Linda Christen of Farmington Hills were on the New River in late July with their son Tony, all of them on their first rafting trip. They rafted with North American River Runners Inc., P.O. Box 81, Hico, W. Va. 25854-0081. You can call them toll-free at (800) 930-2585.

"Hico is a seven-hour drive from here," Linda said. "The cost was \$30 a day each. Our trip began at 9 a.m. with orientation and 'suttling up,' which means life jackets and helmets. A bus trip of about 40 minutes took us to the beginning point."

"There were only eight and a guide to each raft, with a total of

five rafts. Our guide Dana was great! We began with some floating and drifting while Dana instructed us in paddling, etc. Everyone paddled. Our first few rapids were Class ones and twos.

"At certain points on the trip, we could get out of the raft and 'body surf' and jump from 20-foot rocks along the shore. What a blast! They served a delicious lunch along the shore."

"After lunch, we did some Class three and five rapids. It was great! One of the best things about the trip is the our raft was self-bailing. Boy, did that save a lot of work! We reached the end about 5 p.m. and had a 10- to 15-minute ride back to base camp."

"WE TOOK this trip with my two sisters and their husbands, who have rafted before in Wyoming, Colorado and Maine. They said this was by far the best trip they have been on."

If you wonder what Linda means by Class one, two, three and five, Please turn to Page 4

Rafters along the New River Gorge National Scenic River are treated to beautiful scenery, including the New River Gorge Bridge.

MOVING PICTURES

Raul Julia stars in "Romero," a film about Salvadoran Archbishop Oscar Romero, champion of the country's poor and defender of human rights, who was assassinated in 1980.

Kudos for Julia, 'Romero'

For most of us who lead relatively secure lives in which violence is a crowded freeway, the latest slasher movie of TV cop show, "Romero" (A, PG-13, 165 minutes), this week's major release, is a frightening, disturbing and provocative experience.

As well it might be, for we live in a world where money and power are more important than the humanistic values to which we pay lip rather than real service. Money talks and it talks with a vicious tongue.

Nowhere is this more true than in Central and South America where recent decades have been characterized by brutal official repression of peasant and worker efforts to achieve decent living standards.

The motion picture is capable of vividly portraying life as it is being lived — but it seldom does. There have been very few motion pictures about Central and South American rightist repression — "The Official Story" and "The Kiss of the Spider Woman" are two major and very worthy examples.

The latter featured Raul Julia whose masterful performance in the title role of "Romero" should earn him as many — or more — kudos than did his portrait of a political prisoner in "Spider Woman."

Based on the actual story of Salvadoran Archbishop Oscar Romero, the film opens prior to national elections and shortly before the consecration of Romero as archbishop.

Throughout the film, which concludes with his March 1980 assassination by a right-wing governmental terrorist squad, the interplay of Church and governmental forces is vivid, forceful and graphically tragic.

BUT IT'S not just a church/state struggle for both those forces have their own internal competition. Tragically, individuals bear the brunt of pain generated by such combat.

Much to the credit of "Romero," human suffering is the central issue as the rather mild and conservative Father Romero is chosen as archbishop on the theory that a bookish priest won't inflame the situation.

But Romero is caught in a milieu of escalating violence. His aristocratic friend, the minister of agriculture, Rafael Zaida (Omar Rodriguez), is kidnapped.

Father Rutilio Grande (Richard Jordan) and other priests feel strongly that their allegiance to the church demands that they work with the peasants in their struggle for decent living standards. "You are Jesus here and now," is their credo.

Gradually, as he sees and experiences the daily repressive conditions in El Salvador, the different Romero grows and speaks out against violence and abuse.

Raul Julia develops this gradual radicalization of Archbishop Romero with great restraint and vastly underplays the role to achieve a tremendously touching poignancy, as effective as one can imagine.

Cinematographer Geoff Burton adds to that poignancy with memorable images of the people and the

the movies

Dan Greenberg

Grading the movies

A+	Top marks - sure to please
A	Close behind - excellent
A-	Slight in running for top honors
B+	Pretty good stuff, not perfect
B	Good
B-	Good but notable deficiencies
C+	Just a cut above average
C	Mediocre
C-	Not so hot and slipping fast
D+	The very best of the poor stuff
D	Poor
D-	It doesn't get much worse
F	Truly awful
Z	Reserved for the colossally bad
*	No advanced screening

countryside. In particular, the faces, however, deeply lined with suffering, are strong and effectively emphasized in close-up. At every crucial juncture, these faces appear to affirm the humanistic values the archbishop knows the Church upholds.

JULIA'S masterful acting — and the rest of the cast as well — taken with this photographic emphasis on faces leads to a graphic personalization of these major, abstract issues of power.

This emphasis on individual pain and struggle makes "Romero" at one and the same time frightening and poignant, touching and disturbing — a film about a real suffering in our world.

"Kickboxer" (*, R) and "Time Trackers" (*, PG) also opened last Friday. Neither seem destined to rise above potboiler status.

The former details the trip to Thailand by a young American kickboxer. Purpose of travel: vengeance and rescue.

"Time Trackers" are off through time chasing down a mad scientist in a stolen time machine. Good luck.

STILL PLAYING:

"The Abyss" (D-) (PG-13) 135 minutes. Despite excellent underwater sequences, this muddled and murky sci-fi sea saga sinks.

"Batman" (C+) (PG-13) 120 minutes. Michael Keaton is a dud in the title role but Jack Nicholson's Joker is terrific.

"Casualties of War" (B+) (R) 105 minutes.

Grim, gripping and graphically violent story of Vietnam war.

"Cheetah" (D-) (G) 75 minutes.

Slow, cliched Disney in Africa epic that left its excitement at the airport.

"Dead Poets Society" (A+) (PG) 124 minutes.

Robin Williams' sensitive portrait of a fine teacher is complimented by excellent young actors as his students.

"Eddie and the Cruisers - II: Eddie Lives" (PG-13).

They're still looking for Eddie's body.

"Honey, I Shrunk the Kids" (B+) (PG) 105 minutes.

It's fun but it ain't easy to be small.

"Indiana Jones and the Last Crusade" (B+) (PG-13) 120 minutes.

Good entertainment, but enough already.

"Lethal Weapon II" (B+) (R) 115 minutes.

Glover and Gibson do it again in high, albeit violent, style.

"Licence to Kill" (B+) (R) 105 minutes.

Number 16 in the 007 series with Carey Lowell as Dalton's lovely lady. Outrageous but entertaining.

"Lock-up" (R).

Stallone's in jail and Donald Sutherland is the warden. Best wishes to the latter.

"Millennium" (PG-13).

Sci-fi thriller features Kris Kristofferson as government investigator who finds strange clues at airline disaster site.

"Nightmare on Elm Street: V" (R).

Freddie's back.

"Parenthood" (A-) (D) 120 minutes.

Large, talented cast in complex, but entertaining story about a family which includes Jason Robards, Steve Martin, Tom Hulce, Martha Plimpton and Diane West, among others.

"Peter Pan" (A) (G) 77 minutes.

Disney's classic animation of Sir James Barrie's story.

"The Package" (R).

Gene Hackman and Joanna Cassidy in story of deceit on the international scene as career military man escorts prisoner back from Russia.

"Relentless" (*) (R).

Judd Nelson, Robert Loggia, Leo Rossi and Meg Foster in story of driven young man who becomes a killer.

"Turner & Hooh" (D) (PG) 95 minutes.

Man and slobbery dog bonding against background of confused — and confusing — murder investigation.

"Weekend at Bernie's" (C) (PG-13).

A one-joke film about conniving boss of insurance company.

"Wired" (R).

Bob Woodward's best-seller was basis for this story of John Belushi's rise and fall.

"Young Einstein" (D+) (PG) 90 minutes.

Off-the-wall re-interpretation of history that never realizes its humorous potential.

Jean-Claude Van Damme, as Kurt Sloane, steels himself for another round with his brutal challenger in "Kickboxer."

ALTERNATIVE VIEWING

DFT widens with 'Scope

By John Monaghan
special writer

When CinemaScope came to the movie screen in 1953, it was just another gimmick to get people away from television and back into movie theaters. But where 3-D and Cinemascope proved limited, 'Scope still remains a vital part of many filmmaker's visions.

When shown on television, most wide screen movies are cropped to fit the dimensions of the small screen. As a result, you only see about 1/4 of the original image in a "letterboxed" format.

Elliot Wilhelm considers this as much as travesty as colorization. That's why he has mounted an amazing 13-film tribute to the art of wide screen at the Detroit Film Theatre.

The series begins with "Bye Bye Birdie" (USA — 1963), based on the Broadway musical inspired by Elvis Presley hysteria. It traces the rise on Conrad Birdie who, like Elvis, gets drafted into the army. It screens at 7 and 9:30 p.m. this Saturday at the Detroit Institute of Arts auditorium.

Wide screen is accomplished by filming with a special anamorphic lens that condenses the panoramic image onto a standard piece of film. A similar lens on the project pulls the image apart and splashes it across the screen. The effect, when shown with the right equipment, can be breathtaking.

WHILE MANY directors were originally stymied by the wider image, others — especially epic directors — found it opened the screen up for bold images. Wilhelm believes that Sam Peckinpah, Sergio Leone and especially Akira Kurosawa remain the masters of wide screen.

Each director is amply represented. Kurosawa's "High and Low" (Japan — 1963) is based on a hard-boiled Ed McBain kidnapping story. Japanese streets are filmed with the same grittiness as New York City (Dec. 17).

Practically a staple for DFT fans, "Once Upon a Time in the West" (Italy — 1969) is an operatic "spaghetti western" from Leone, who died earlier this year. Henry Fonda plays a blue-eyed murderer who meets his match in a vengeful Charles Bronson (Dec. 10).

Peckinpah's "Ride the High Country" (USA — 1962) plays Oct. 7. It

stars old-timers Randolph Scott and Joel McCrea in a film that many consider the symbolic end to the popular American western. His recently restored "Pat Garrett and Billy the Kid" (USA — 1973) stars Bob Dylan and screens Oct. 8.

Jerry Lee Lewis fans will adore the opening of "High School Confidential" (USA — 1958), where "The Killer" performs the title song from the back of a flatbed truck. The film follows undercover narcotics agent Russ Tamblin, who cracks a high school drug ring while posing as a student. Busty Mamie Van Doren plays his seductive "aunt" (Nov. 11).

FOR ME, The most exciting title is Federico Fellini's flashy "La Dolce Vita" (Italy — 1961), which is typically shown in "flat" prints. Marcello Mastroianni is at his handsomest as a paparazzi journalist tiring of decadent Rome (Nov. 12).

Though film fans can argue favorite 'Scope titles that aren't on the schedule, selections have been based on the availability of quality prints.

"I didn't want to get a 'Scope picture just to show it wide and then have a choppy print with faded color," Wilhelm explained.

TELE-ARTS, 1540 Woodward Ave., Detroit. Call 963-3918 for information and show times. (\$3.25 adults, \$2 students and senior citizens).

"Exquisite Corpses" (USA — 1988), Sept. 13-17 (call for show times). More cultish fun, Tele-Arts style. In a twist on "Midnight Cowboy," a corn pone Oklahoma (played by musician Gary Knox) arrives in New York with dream of stardom. After some bizarre twists in the Big Apple, he grows into a cynical, bisexual sophisticate.

UNIVERSITY OF MICHIGAN-DEARBORN, Recreation Center, 4901 Evergreen, Dearborn. Call 593-5390 for information. (free)

"Eight Men Out" (USA — 1988), Sept. 13-14. John Sayles' inspired filming of the "Black Sox" scandal of 1919, where the Chicago White Sox threw the World Series. Perhaps the film's greatest strength is the vivid characterization achieved through each of the players as well as the managers, promoters, sports writers and fans.

"Stagedoach" (USA — 1939), 7 p.m. Sept. 12-13. The classic John Wayne western starring John Wayne and a cast of Hollywood's best character actors. More great stuff from the classic year of 1939.

"Broken Blossoms" (USA — 1919), 7 p.m. Sept. 17. D.W. Griffith's memorable silent film feature will be shown for free.

— John Monaghan

SCREEN SCENE

CENTER FOR JAPANESE STUDIES, Lorch Hall, 909 Monroe, Ann Arbor. Call 764-6307 for information. (free)

The center continues its Saturday series of rare Japanese films with a double feature. "Osaka Elegy" (1936) at 7 p.m. Sept. 15 is the story of a woman, rejected by family and friends, who turns to prostitution. With "Sisters of the Gion" (1936) about two Geisha sisters and their various involvements with their customers.

CINEMA GUILD, Lorch Hall, 909 Monroe, Ann Arbor. Call 994-0027 for information. (\$2.50 single, \$3.50 double feature)

"Touched in the Head" (France — 1974), 7 and 9 p.m. Sept. 16. From underrated French director Jacques Dillion, the story of a young man who invites a Swedish hippie to come and stay.

DETROIT FILM THEATRE, Detroit Institute of Arts, 5200 Woodward Ave. Detroit. Call 832-2730 for information. (\$5)

"Let's Get Lost" (USA — 1989), 7 and 9:30 p.m. Sept. 15. Photographer Bruce Weber's Oscar-nominated documentary portrait of brilliant jazz trumpeter and singer Chet Baker.

"Bye Bye Birdie" (USA — 1963), 7 and 9:30 p.m. Sept. 16. The film version of the popular Broadway musical about an Elvis Presley-like rock n'roll singer who is drafted into the Army. A fun way to kick off the DFT's excellent tribute to wide screen films.

"Heathers," (USA — 1989), 5 and 7 p.m. Sept. 17. Though critically acclaimed, this biting look at high school hell only played a couple of weeks in area theaters. Winona Ryder stars as an attractive and intelligent high school junior who becomes an unwilling (sort of) accomplice in the murder of the school's most popular clique.

HENRY FORD CENTENNIAL LIBRARY, 16301 Michigan Ave., Dearborn. Call 943-2330 for information. (free)

"Sons of the Desert" (USA — 1933), 7 p.m. Sept. 11. The best of Laurel and Hardy's short features, this one follows the boys as they sneak away from their typically shrewish wives for a weekend lodge convention. With Charley Chase.

LIVONIA MALL CINEMA, 29415 Seven Mile, Livonia. Call 476-1166 for information. (free)

"All This and Heaven Too" (USA — 1940), 10 a.m. Sept. 12. Charles Boyer teams with Bette Davis in this lurid story of a French artist who murders his wife to run off with the governess. As part of the mall's ambitious month-long tribute to Bette Davis.

MICHIGAN THEATRE, 16301 E. Liberty, Ann Arbor. For information, call 669-8397. (\$4 regular and \$3.25 students and senior citizens)

"Kung Fu Master" (1989), Sept. 11-16 (call for show times). The oddly titled new film from Agnes chronicles the relationship between a 40-year-old woman and a 15-year-old boy.

"Stagecoach" (USA — 1939), 7 p.m. Sept. 12-13. The classic John Wayne western starring John Wayne and a cast of Hollywood's best character actors. More great stuff from the classic year of 1939.

"Broken Blossoms" (USA — 1919), 7 p.m. Sept. 17. D.W. Griffith's memorable silent film feature will be shown for free.

VIDEO VIEWING

By Dan Greenberg
special writer

Random House Home Video recently acquired Crown Video and their combined fall list includes a wide array of educational and entertainment videos, all in color.

Some are available for rental, but most are pitched for sales in the \$10-30 range, probably on the assumption that the kids will watch Dr. Seuss over and over while mom is learning "Martha Stewart's Secrets for Entertaining" — all four of which are 60 minutes and retail for \$19.95.

Meantime, dad better install a VCR in his workshop to watch "The Victory Garden," "Last Chance Garage" and "This Old House" (also 60 minutes and \$19.95). In less traditional homes, of course, this may be reversed with dad in the kitchen and mom in the garage.

These and other Crown titles have been available for about a year while Random's children programs — all closed captioned — are new this fall. They'll appear on the stands this month.

The Crown titles include a "Living Language Video Series" — French, German, Spanish and Signing (60 to 90 minutes each, \$29.95) — as well as "Fodor's Travel Guides" on videos for Hungary, Bangkok and Singapore (45 to 60 minutes, \$14.95).

Martha Stewart's entertainment series consists of four tapes — "An Antipasto Party," "A Holiday Feast," "A Formal Dinner Party" and "A Buffet Party for Family and

Christian Slater and Winona Ryder star in the black comedy, "Heathers," being shown at the Detroit Film Theatre Sept. 17.

TELE-ARTS, 1540 Woodward Ave., Detroit. Call 963-3918 for information and show times. (\$3.25 adults, \$2 students and senior citizens).

"Exquisite Corpses" (USA — 1988), Sept. 13-17 (call for show times). More cultish fun, Tele-Arts style. In a twist on "Midnight Cowboy," a corn pone Oklahoma (played by musician Gary Knox) arrives in New York with dream of stardom. — John Monaghan

Friends." Stewart has many good kitchen hints for upscale entertainment although her manner is a bit too classy for me.

BOB THOMPSON and Jim Wilson are the master gardeners instructing viewers in every step of vegetable growing. If you gain too much weight with Stewart's recipes for your garden produce, Crown Video has you covered with "Flatten Your Stomach — For Women" (30 minutes at \$9.95. Of course there's one for men, too). It's a 30-minute-a-day workout.

The car maintenance and home repair tapes originally were WGBH-TV (Boston) presentations and feature Brad Sears, host of the PBS-TV auto repair series. Bob Villa and Norm Abram are the home maintenance experts.

These tapes include 20 car repairs and 14 home maintenance projects. While they range in complexity from checking tire pressure to replacing alternators and constructing brick walks and building decks, all assume the viewer has basic mechanical know-how and experience handling power tools.

While mom and dad are busy building, repairing, cooking and entertaining, kids can learn while being entertained. Richard Scarry's "Best ABC Video Ever" and "Best Counting Video Ever" (both 30 minutes, \$14.95) are fairly conventional but attractive cartoons which teach counting and the alphabet by repetition within an entertaining story framework.

Most parents are familiar with Dr. Seuss's unique cartoon style and his wry and whimsical view of the world. It is a very special and unusual vista that every child should experience as they grow and develop.

The translation of these books to tape has been accomplished with good style. The camera moves over the pages — and from page to page — in a visually attractive way. The voices are varied and distinctive to avoid the trap of one-voice monotony. All-in-all, these four tapes are well done and should be attractive to the youthful spirit in us all, no matter what our chronological age.

As with most animated films for the younger set, "The Berenstain Bears" include moral lessons along with the entertainment. This three-tape series (each 30 minutes, \$14.95) features six stories. They are entertaining although the art work is limited and conventional. All the bears look alike but then I suppose they think people all do, too.

DR. SEUSS in any form is entertaining — and educational as well — although the educational goes beyond simple lessons of morality and the alphabet. These four video cassettes are an excellent opportunity to view everyone's favorites: "One Fish, Two Fish, Red Fish, Blue Fish," "Hop on Pop," "Dr. Seuss's ABC" and "The Cat in the Hat Comes Back" are the lead titles on each of the four tapes, which include a number of other Dr. Seuss stories.

Most parents are familiar with Dr. Seuss's unique cartoon style and his wry and whimsical view of the world. It is a very special and unusual vista that every child should experience as they grow and develop.

The translation of these books to tape has been accomplished with good style. The camera moves over the pages — and from page to page — in a visually attractive way. He needs a professional

street seen

Our intrepid Street Seen reporter is always looking for the unusual and welcomes comments and suggestions from readers and entrepreneurs. Send those to this column in care of this newspaper, 36251 Schoolcraft, Livonia 48150, or call 591-2300, Ext. 313.

Forget brown baggin' it

If you are bent on being a fashion setter in your office, don't get caught brown bagging it. This — 'cuse the word — "yuppie" lunchbox includes a place setting and a cooler/storage case. \$49.95. Sauces 'n' Tosses, Bloomfield Place, Maple and Telegraph roads, Birmingham.

Dear Barbara,
My son is 8 and a delightful kid in most ways. He has one problem — he cannot be away from me for long periods of time. If I leave to go out, he worries about something happening to the car.

I work in the office at his school and he comes down to check on me four or five times during the day. He insists that I drive him home rather than him taking the bus.

He's always had these problems, but I guess I thought they would get better and they haven't.

Shirley

Dear Shirley,

Have you assessed your son realistically and carefully? It is unusual for a child to have the problem he does without some manifestation of it in other areas.

The literature describes your son's behavior as being reflective of ambivalence. As such, it is probably highly distressing to him.

Although I have said that I would not "cop out" by making referrals to

professionals, there are some situations in which that is the only responsible action. This is one. It is hoped that by talking about his feelings, some of his anxiety can be relieved.

Barbara

Dear Barbara,

What does teasing mean? My husband and son are constantly teasing me, each other and my three daughters.

My husband is understanding in other ways, but he grabs me and holds me so that I can't move and I get very angry. He can't seem to stop. He does it less with the kids, but still often slaps them with a force a little too hard to be felt affectionately.

My son is more verbal with his teasing. He focuses mostly on his father and youngest sister, who can least handle it. My son is a good student and not too much of a problem in other ways.

Nothing I have said has made a difference and I'm very frustrated.

Livonia

Dear Livonia,

This is a complicated topic. Teasing can be a lot of things, both good and bad.

It is more frequent and typical with men. In sports, it can be a way they show affection or disdain for one another. Teasing, rather than a more straightforward approach, makes both of these emotions less embarrassingly felt.

Teasing can be normal or pathological, depending on the extent and way in which it is done. While it can be hurtful, it may be the least damaging way for people to communicate honestly.

The important thing in being teased is to tease back and react in good spirit. It is a good trait to be able to laugh a little at yourself. If two people can laugh together, they can be close together.

Barbara

Barbara Schiff

Dear R.B.,

May I suggest that you put an ad in the personal column explaining your goals as you have in your letter to me. I would be interested in hearing the response that you get.

Barbara

If you have a question for Barbara Schiff, a trained therapist and experienced counselor, send it to Street Sense, 36251 Schoolcraft, Livonia 48150.

Magical touch

Add a magical touch to any decor with a fiber sculpture acrobat. Juried artist Barbara Robertson creates unusual circus characters to grace your coffee table or dresser. Robertson's work and other original artist's pieces from the Step Above Art Gallery in the Room at the Bottom Design Studio, Crosswinds Mall, 4301 Orchard Lake Road, West Bloomfield.

Fringe of fashion

To be on the cutting edge of fashion, you must include a bit of "country" in your wardrobe and an easy way is with colorful bandanas that use beads for accents. Designed in several colors. \$13.50. The Gold Star in Livonia.

Saturday chic

If you're a real diehard college football fan or family, you can be on the football "fash track" and demonstrate your team spirit and support with the original "Die Hardhat." The hardhat looks like the football helmet of your favorite college team with visual imagery of the team's colors and distinguishing marks. Available for 60 college teams. Created by William B. Harrington of Genesus Marketing, 27752 Franklin Road, Southfield for \$18.99 plus \$4.95 shipping and handling. For more information, call 353-4840. Available direct from

Peekaboo protection

You won't have to hand-wash your panyhose anymore. This lace bag holds your nylons in the washer and dryer protecting them from snags and runs. \$4. The Lace Curtain Shop, 33216 Grand River, Farmington.

ART EMANUELE/staff photographer

Jim Hartman and Jeff Pfandner, both of Detroit, take a rest after rowing under the Belle Isle Bridge.

Rowing tradition spans 150 years

By LeAnne Rogers
staff writer

Through the 1960s the Detroit Boat Club on Belle Isle, which celebrates its sesquicentennial this year, was the place to be.

Founded on another location across the Detroit River in 1839 by E.A. Brush and a group of oarsmen, the club was originally in the basement of a brewery.

"The current clubhouse was built in 1902 after several fires which destroyed the six or seven wooden clubs which had burned down," said Dick Bell, a longtime member and rowing coach at the club. "This building was the first fireproof building built in Detroit."

WHEN THE Detroit Boat Club was built, it was on the outskirts of Detroit.

"Grand Boulevard was the city limit at the turn of the century and this was a summer club," Bell said. "There used to be a boathouse all along the rear of the building which is constructed on stilts in the water."

In the club's early days, before showers were installed, Bell said rowers would "take the plunge" after their workouts, jumping through a floor opening into the river.

By the time Bell became involved with the club in the 1950s, most of its members were drawn from residents living in the nearby Indian Village section of Detroit.

"We were river rats. We were al-

ways on the river swimming or sailing," said Bell, who was hooked on rowing by a high school friend.

THE USES of the club, just east of the Belle Isle Bridge, changed over the years. Swimming pools were added in the 1930s when the club hosted the Olympic trials.

"This was a very affluent club during the 1940s and 1950s," Bell said. "And in the 1960s, it was the place to be."

While docks for powerboats were added to the club over the years, Bell said that for most of the club's history only rowers could serve as club president.

"This is a private social club, so it helps (in obtaining membership) to

know someone at the club," he said. "We have an oarsman membership. It's a matter of coming down and deciding you want to be involved... then making yourself available to compete and participate."

THE WHITE stucco and tile roofed club looks bright and sunny on the banks of the Detroit River.

The dark timbered interior rooms have the traditional feel of a private club. The club is decorated with mementos of its history, ranging from drawings of its earlier incarnations to competition trophies, pennants and distinctively shaped oars.

The club also has a dining room, banquet facilities and lounges for use by its members.

Rafters find adventure in eastern states

Continued from Page 1

call toll-free (800) CALL-WVA and the West Virginia Department of Commerce will send you information on white water rafting. I received that info through the mail from Ralph and Mary Humphlett of Livonia, who brought it home from a rafting trip.

"My husband and son went on their first rafting trip," Mary wrote. "They had a great time and will do it again. They went on the New River in West Virginia. It is a beautiful part of the country. They took their trip with 'Passages to Adventure,' an rafting outfit in Fayetteville."

The information she sent describes West Virginia as the White water Capital of the East, with 2,000 miles of mountain streams in the Appalachian Mountains. Here is their description of the class system:

"River runners class white water rapids according their difficulty, from one to six. Novices can run class one and two stretches without guides; segments classed three to five require real paddling skills or qualified leadership such as provided by professional outfitters.

"Class six water poses the utmost challenge, not often attempted by even highly skilled athletes. There are several West Virginia rafting rivers. Some are especially rapid when the rain fills them up to spilling point. There are at least two dozen rafting and canoeing companies on the New River Gorge National Scenic River, known as the Grand

Canyon of the East."

PHILIP RANKEY of Redford went rafting with a group of friends this summer on the New River and had a great time.

"We went with Wildwater Unlimited Inc. They have a very nice camping area and some of the best guides on the New River. They run the New River everyday during rafting season. They also run the Gauley in the fall. The Gauley is for experienced rafters only with continuous rapids rating from two to six."

The New River, with class one to six rapids, gives the beginner a very good taste of white water. The cost is \$78 per person for the one day trip. The camping is \$5 per night per person. Their address is P.O. Box 55, Thurmond, W.Va. 25936 or telephone (304) 469-2551."

The New isn't the only good rafting river in the east. June Fasang of Troy wrote to "highly recommend, for a novice, Laurel Highlands River Tours out of Ohiopyle State Park in Pennsylvania — it's about a six-hour drive from this area, near Uniontown, Pa."

"Laurel Highlands have guided trips on the Youghiogheny River. We recently rafted there for the first time one rainy Sunday and it was one of the most exciting and fun events of my life!"

"You have to pay attention to what they tell you, but our group had no casualties. Spills, yes, but nothing serious and the water level was quite high and the rapids exciting. The minimum age for the seven-mile trip down the river is 12 years old. Their toll free information number is (800) FOR-RAFTIN."

Thanks, and keep those cards and letters coming. We like to hear from you about places you'd like to go and places you recommend.

If you have a travel question or comment, send it to Iris Sander-Jones, 36251 Schoolcraft, Livonia 48150.

SREET CRACKS

Sharp comes 'home' to Castle

By Loraine McClellan
staff writer

The Comedy Castle has set up shop in six different locations in the metro area and Thom Sharp has appeared in five of them.

He'll be back for the last show and grand finale at the Berkley location before Mark Ridley's Comedy Castle moves on to yet another spot. He's the star of the show this week.

Sharp, who got his start as a comedian in the Detroit area with the Dick Puritan Show on WXYZ radio, is expecting to see some of the old faithfuls in the audience during his homecoming.

He has been living in California for about 12 years and is working with Linda Blair in the movie "Repossessed."

"Repossessed by the devil, that is," Sharp said. "Believe it or not it's a comedy and a funny one. We're a happy nuclear family with two kids — I play the husband — who get caught up in this occult craziness."

"It's a satire on 'The Exorcist' of course. But

she does finally get unpossessed and we have a happy-ever-after ending."

Sharp has had parts in a few other movies, "but nothing like this."

"This is far and away the largest role I've ever had," he said. His and Blair's co-stars are Leslie Nielsen and Ned Beatty.

Sharp also has had roles in four different television series, none long-lasting, but he's never been idle and he's never been sorry he made the switch from ad man to comedian.

SHARP LIVED in West Dearborn and worked his 9-to-5 job at W.B. Donor's advertising agency when he started to appear on the Dick Puritan Show "every couple of weeks and just for the heck of it and hopefully to be funny," he said.

Apparently, he was.

Sharp gained a following early on, the same following he expects to see in his audience this week. Show-goers were well aware of his name by the time he was doing stand-up comedy in the local clubs.

The move to California was a move into another 9-to-5 job at a Los Angeles advertising agency and more moonlighting in night clubs.

Making the complete transition to full-time comedian was a scary one.

"It was scary the first day I went off on my own and sometimes it is still scary," he said. "But I've never had down periods. I have never sat around waiting for the phone to ring. I have always been busy with something."

Show time at Comedy Castle is 8:30 p.m. Tuesday through Thursday and 8:30 and 11 p.m. Friday and Saturday.

"If there is nothing good on TV those nights, come and see the show," Sharp said. "If you have no plans for the weekend, come and see the show. If you are in the area and the car breaks down, come in and see the show while you are waiting for AAA to show up."

Thom Sharp will perform at Mark Ridley's Comedy Castle, 2593 Woodward Ave., Berkley, Tuesday through Saturday, Sept 12-16. For reservations, call 542-9900.

Thom Sharp hasn't forgotten his roots. The comedian, who got his comedic start by doing spots on the Dick Puritan Show on WXYZ-radio, will be back in Detroit this week for a stint at Mark Ridley's Comedy Castle in Berkley.

COMEDY CLUBS

Here are some listings of comedy clubs in our area. To let us know who is appearing at your club, send the information to: Comedy Listings, Observer & Eccentric Newspapers, 36251 Schoolcraft, Livonia 48150.

BEA'S COMEDY KITCHEN
Tony Hayes will perform with Downtown Tony Brown and Dan Logan Friday-Saturday, Sept. 15-16, at Bea's Comedy Kitchen, 541 Larned, Detroit. Show times are 9 and 11:15 p.m. For information, call 961-2581.

CHAPLIN'S EAST
Larry Miller will perform Wednesday-Saturday, Sept. 13-16, at Chaplin's East, 34244 Groesbeck, Fraser. Show times are 8:30 p.m. Wednesday and Thursday and 8:30

and 10:30 p.m. Friday and Saturday. For information, call 792-1902.

CHAPLIN'S PLYMOUTH
Craig McCart will perform Thursday-Saturday, Sept. 13-16, at Chaplin's Plymouth in the Plymouth Radisson, 14707 Northville Road, Plymouth. For information, call 454-4680.

CHAPLIN'S WEST
Jack Open will perform Tuesday-Saturday, Sept. 12-16, at Chaplin's West, 16890 Telegraph, south of Six Mile, Detroit. For information, call 533-8866.

HOLLY HOTEL
Lowell Sanders will perform along with Danny Gray and Steve Bills Thursday-Saturday, Sept. 14-16, at

Holly Hotel, 110 Battle Alley, Holly. Show times are 8:30 p.m. with additional 10:30 p.m. shows on Friday and Saturday. For information, call 634-1891.

JOEY'S LIVONIA
Kirk Noland will perform along with Brent Cushman and Steve Bills Thursday-Saturday, Sept. 14-16, at Joey's Comedy Club, 36071 Plymouth Road, Livonia. Show times are 9 p.m. Thursday and Friday and 8:30 and 10:30 p.m. Saturday. For reservations, call 261-0555.

LOONEY BIN
Mark Still will perform along with Jim McLean and Steve Billnitzer Friday-Saturday, Sept. 14-16, at the Wolverine Lounge and Looney Bin Comedy Club, 1655 Glengary, Walled

Lake. Show times are 9 p.m. Friday and 8 and 10:15 p.m. Saturday. For information, call 669-9374.

LOONEY BIN TOO
Chris Jacway will perform Friday-Saturday, Sept. 15-16, at the Looney Bin at the Roxy, I-94 and Haggerty. Show times are 9 p.m. Friday and 8 and 10 p.m. Saturday. There's a \$5 cover charge. For information, call 699-1829.

MISS KITTY'S
Allyn Ball will perform along with Jim Burrows Thursday-Saturday, Sept. 14-16, at Miss Kitty's Comedy Club, Long Branch Restaurant, 595 N. Lapeer Road, Oxford. Show times are 8 p.m. Thursday; 8 and 10:30 p.m. Friday and Saturday. For information, call 628-6500.

We Need Volunteers Who Love Happy Campers!

Sun Deer campers are happy campers and it's no wonder because most severely asthmatic kids are forced to spend their summers indoors. At Camp Sun Deer, asthmatic kids ages 9-12 participate in a variety of outdoor activities, but they can't do it without your help. The limitations and doubts they face can be diminished by a volunteer who cares. Your participation at Camp Sun Deer can make all the difference in an asthmatic child's summer.

When you're 'just visiting' in Jackson

By Carolyn DeMarco
staff writer

Some visitors to Jackson come and stay a lifetime. Unfortunately, they're confined to the state prison and never see anything of Jackson except on the bus ride in.

Why would they want to, you might ask? What else is there in Jackson?

Twenty-three thousand acres of recreational land for starters. The Jackson Convention and Tourist Bureau bills its hometown as "Jackson, recreation country."

Skeptical? We were too until we took a personalized tour led by convention bureau director Pamela Pond.

Jackson, we found, has more than its share of three things — golf courses, parks and native born and/or bred astronauts. And whether you're speaking of Jackson, the town, or Jackson, the county, we discovered more than enough Jackson to fill a day, a weekend or an extended stay.

Jacksonians are particularly proud of the wealth of golf courses. Eighteen public golf courses and two private clubs make it the undisputed golf capital of Michigan.

It's the second best area in the United States for golf when it comes to most number of public golf courses per capita, says the National Golf Foundation.

One of the most popular courses is Cascades Golf Course, owned by the Jackson County Parks Commission and recognized by Golf Digest as one of the nation's top public courses.

"The best bang for the buck" is how some experts describe it. A weekend round of golf is \$11 for 18 holes. A two-person cart is \$16.

CASCADES, the golf course, is just a part of the Sparks Foundation County Park, more commonly referred to as Cascades Park. Park visitors can enjoy tennis, miniature golf, paddle boat rides, basketball and special activities on the expansive grounds.

It's too late for this year, but from Memorial Day until Labor Day the park hosts a spectacular show nightly — Cascade Falls. It's Jackson's most famous monument, a 500-foot-high, man-made system of 18 waterfalls open nightly 7:30-11 p.m. for a show of dancing waters and colored lights.

Not so far away is the 535-acre Ella W. Sharp Park, a city-owned park which includes the 18-hole Sharp Park Golf Course as well as tennis, picnics, volleyball, swimming pool, softball, baseball and soccer fields and playgrounds.

It's also home to a lovely treasure, the Ella Sharp Museum, sort of a mini, manageable Greenfield Village, the type of place you can get through easily well before the feet give out and the kids start whining.

Focal point of the museum, once a busy family farm in the 1800s, is the Victorian farmhouse with period furnishings in every room from the elegant parlor to the attic toy room.

Other structures include the tower barn, which houses farm implements, a woodworking shop, print shop and doctor's office, all of which are part of the original homestead.

Two additional buildings, a one-room school house and an authentic log cabin have been brought to the site from other parts of Jackson.

ON THE GROUNDS, you'll also find Heritage Hall, a gallery which reflects Jackson County history and art; the Peter F. Hurst Planetarium; and the Granary, a small attractive tea room and ice cream soda fountain which serves lunch until 4 p.m.

The museum is open 10 a.m. to 5 p.m. Tuesday through Friday and noon to 5 p.m. Saturday and Sunday. Admission fee is \$5 for families. The planetarium shows are 3 p.m. Sundays, mid-September through mid-June, for a nominal fee.

Yet another park-type setting is the 200-acre Dahlem Environmental Education Center on the Jackson Community College grounds, 7117 S. Jackson Road.

Nature lovers can explore five miles of trails through forests, marshes and fields originating from the visitors' building which houses exhibits. One special attraction is a half-mile special needs trail for easy walking. A rail fence is built along side the entire length to aid walkers.

Visitors can drop in for free hiking, walking, cross country skiing at any time. The visitor's building is closed Monday. It's open 8 a.m.-5 p.m. Tuesday through Friday and noon-5 p.m. weekends.

Also on the Jackson Community College grounds is the Michigan Space Center, "the biggest little space center on earth."

The MSC houses \$30 million in space artifacts, many on permanent loan from NASA, the Smithsonian Institute and private industry.

The whole idea started in 1971 with a contest by Jackson Community College to create a sign honoring Jackson's astronauts (Al Worden, Jack Lousma, James McDevitt, and Ed White). It mushroomed into a museum.

A SPACE CENTER visitor can view a moon rock through a microscope, try on an astronaut helmet, take a simulated ride in a capsule, step on a scale to compute his or her weight on other planets, look inside a pretend black hole and ask questions, questions, questions of director James Satterelli. (Like how do the astronauts go to the bathroom. Diaper rash used to be a real problem, says Satterelli.)

Some other Jackson County sights of note which are not open all the time and require advance planning:

- Michigan International Speedway, The Miller High Life 400, the Marlboro 500, the International Race of Champions and the Champion Spark Plug 400 were all here in 1989. For information on future schedules, call 981-1922.

- Jackson Harness Raceway, The fall meet is through Oct. 14. Post time is 7:30 p.m. Wednesday, Friday and Saturday and 3 p.m. Sunday. For more information, call (517) 788-4500.

- Ye Olde Carriage Shop. You'll have to be part of a group of 20 or more to get Lloyd Ganton or his son Troy to open the door to this Spring Arbor private collection. Inside you'll find two dozen antique cars including four one-of-a-kind automobiles and 10 which were built right in Jackson.

You'll also find 20 antique gas pumps dating from 1905 to 1950 and showcase after showcase of other automobile memorabilia.

In addition to the automobile-related collection, there's a Coca-Cola room with Coke bottles, glasses, trays, signs, toys and anything else which carries the world-famous logo. A soda fountain from an upper Michigan soda shop, complete with wooden booths and those spin-around stools contributes to the nostalgia.

TO ARRANGE a visit — remember, groups only — call the Gantons at (517) 750-1905.

- Conklin Antique Reed Organ Museum. More than 70 reed organs are displayed in the former Hanover High School in Hanover. It's open 1-5 p.m. the first and third Sundays April through October. Call (517) 563-2311 to arrange group visits.

- Fox Hill Farm. This Parma farm grows herbs, lots of herbs, maybe 450 of them, as well as fragrant plants, scented geraniums and specialty vegetables. It's open April 15 to Oct. 15, but it's best to call first at (517) 531-3179.

For more information, maps, directions or suggestions for accommodations or restaurants in Jackson County, call the Jackson Convention and Tourist Bureau, (517) 788-3330.

photos by DAN DEAN/staff photographer

Lenora Rogers, 7, and her friend Stephanie Castle, 8, walk the trails of the Dahlem Environmental Center with her grandmother Gina Powers.

Pam Hutchinson lifts up her five-year-old daughter Kristin for a closer look at at display in the Michigan Space Center, while her son Paul, 7, patiently waits his turn.

You might not find the likes of Arnold Palmer or Jack Nicklaus on the greens of Cascades Park Public Golf Course, but the two golf greats have teed off there.

At the Ye Olde Carriage Shop, groups of 20 or more may get a guided tour of the private automobile collection from Troy Ganton.

Referring to a map, Dawn and David Hicks explore the buildings that make up the Ella Sharp Museum in Jackson.

Seeing Jackson in a day

Jackson's closer than you think — 55 minutes from Plymouth, 75 minutes from the Bloomfields, maybe 90 minutes from Troy.

A daylong stay will give you a good look at the variety of family-oriented attractions around Jackson, the city, and Jackson, the county.

Here's a sample itinerary for a family day trip:

- Take I-94 west to exit 142 and follow the signs to the Michigan Space Center on the Jackson Community College campus. It opens at 10 a.m. Plan on spending 1½-2 hours, if you and your youngsters are into space travel and its memorabilia. The museum is small but chock-full with items of interest. There are picnic tables and play equipment outside. Admission is \$3 for adults, \$2 for students or \$9 for the family.

- Now it's on to the Dahlem Center, only minutes away. Turn left at the end of the space center drive onto Emmons Road. Turn right at Kimmel and right again at South Jackson Road. Follow the signs. The center has five miles of walking trails, as short as a few minutes. No charge.

- Lunch time could find you dining in the Granary at the Ella Sharp Museum. Yes, that's just minutes away, too. Take South Jackson Road to Horton Road. Horton Road runs into Fourth. The intersection is at the site of the museum.

- Stay and play in Ella Sharp Park or try a trip through the 500-acre Cascade Park, center of the world-famous Cascade Falls. Take Fourth Street to High Street. Turn left and take the street into the park.

- A visit to Jackson is not complete without a visit to the famous Jackson All Star Dairy Ice Cream Parlour. Famous, despite the fact that it never advertises. An ice cream cone is still under \$1. Take Brown Street from the park, but watch the road signs; the name quickly changes to McDaniel. The dairy is on your right.

Jackson has a variety of restaurants near its attractions, including Brandywine Pub and Food, near the Ella Sharp Park, and Gilbert's, known for its famous Tiffany lamp collection.

If you're having so much fun you want to spend the night, Jackson has a dozen hotels, motels and inns, including a Holiday Inn Holiday with an indoor pool, game room and miniature golf course.

For dining guides or lists of accommodations, call the Jackson Convention and Tourist Bureau, (517) 783-3330.

Just a few more sites to see —

Late summer and early fall are as good a time (and reason) as any to visit Jackson County. If you need more reasons:

- Sept. 1-30 — Harness racing at Jackson Harness Raceway. Post time is 7:30 p.m. Wednesday, Friday and Saturday and 3 p.m. Sunday. Admission is \$2.

- Sept. 16 — Ella's Family Festival 5-8 p.m. on the Ella Sharp Museum grounds. Games, prizes, refreshments and entertainment.

- Sept. 23 — Family Farmfest on five area farms. Escorted tours of modern farming operations every half hour 11 a.m. to 4 p.m.

- Sept. 24 — Fall Festival noon to 5 p.m. at the Dahlem Center. Food, entertainment, honey harvest demonstration, elder pressing, guided walks. Admission free.

- Oct. 1 — Fall Heritage Festival 1-5 p.m. at Conklin Antique Organ Museum. Elder pressing, sheep shearing, basket making, spinning and local artists displaying and selling their crafts. Lunch available. Admission \$1.50.

- Oct. 1 — Fall Harvest Day and Art Fair, noon to 5 p.m. on the Ella Sharp Museum grounds. Demonstrations of early farm tools including elder pressing and corn shelling. Admission \$2.50 for adults, \$1 for seniors.

- Oct. 8 — Pioneer Day at Waterloo Area Farm Museum.

For maps, brochures and other information on Jackson County attractions, call the Jackson Convention and Tourist Bureau, (517) 783-3330.

'Less Is Better' update

Q: What has become of your *Less Is Better* campaign to decrease third class mail? You printed several columns about it but then I haven't heard what happened.

A: I was pleased to receive about 300 letters supporting my campaign, along with some radio interviews. Thanks to everyone who wrote. About six opposing letters also came to me along with a few received by the editorial pages of the paper (fewer than I had expected.) Several people wrote suggestions for other ways to decrease bulk mail, which were also appreciated.

My ultimate goal is to convince the Postal Service that the public is weary of the overwhelming amount of bulk mail it receives and to induce advertisers to end mailing list duplications and refine their lists by removing names from their lists when requested. (Although many advertisers do a good job of this, many more do not.) After discussing this at length with postal officials and advertising specialists, I still believe the most effective way to achieve this would be to allow third class mail to be returnable at the sender's expense, just as first class mail is now.

I intend to proceed by waiting until the next Postal Commission Rate Hearing and sending all the

letters I receive to the Secretary of the Board of Governors of the U.S. Postal Service at that time. As yet unscheduled, that hearing will probably be held this winter and will be announced in advance through the media. I will also call for another letter writing campaign directly to the Board Secretary then, too.

Even if the Board of Governors and the Rate Commission are not convinced to change the rules, they will still receive the message. If an atmosphere of non-acceptance by the public is created and even some advertisers take heed, I would consider this campaign a success. I still feel that the public should not have to helplessly endure this waste and subtle form of perpetual harassment.

It is not too late to support this campaign. Although this is the last column I will write on the subject until the Rate Commission hearing, I will continue to accept letters until then. Just send a short note to "Less Is Better," P.O. Box 330, Franklin 48025. The more I receive, the more effective our message will be.

P.S. Don't worry — I won't be putting the names of those who wrote me on a mailing list! (You many now breathe a sigh of relief . . .)

New garden 'stars' waiting in wings

Four flowers, four vegetables and two bedding plant flowers have won 1990 All-America Selections Awards and will be ready for your next gardening season.

Each winner, according to AAS judges, exhibits improved qualities over the "closest variety currently on the market."

In the 57th AAS judging program, the bedding plant winners are *Petunia F1 (First Generation) Polo Burgundy Star* and *Polo Salmon*. Both reportedly performed exceptionally well in both greenhouse and garden trials.

The four flower winners are *Achillea Summer Pastel*, *Celosia Pink Castle*, *Pansy Jolly Joker* and *Zinnia F1 Scarlet Splendor*.

The four vegetable winners are *Bean Derby*, hot *Pepper F1 Super Cayenne*, *Squash F1 Cream of the Crop* and *Squash F1 Sun Drops*. AAS said all exhibits improved characteristics based on outdoor garden trials.

ACHILLEA MILLEFOLIUM plants reach a height of 3 to 4 feet, using a lot of space and probably requiring staking. But *Achillea Summer Pastels* are only 2 feet tall and use only 18 inches per plant.

The plants create a flowering hedge. They begin flowering in approximately 12 weeks from sowing

weeder's guide

Earl Aronson

seed. Color range is pink, apricot, beige, blue, red and white. *Achillea*, a perennial, is recommended for summer cut flowers. They like full sun.

Pansy Jolly Joker is a rich, velvety purple with orange faces. The flower faces are held upright on short stems. The compact plant needs only 8 inches of garden space and tolerates heat and weather well. Plant from seed or bedding plants. They are easy to maintain.

Celosia Pink Castle's pastel pink blends well with shades of blue, cream, coral or white annuals.

The semi-dwarf reaches approximately 14 inches tall when mature. The 7-to-8-inch plumes are surrounded by secondary plumes, which may be used for cut flowers.

It is tolerant of heat and drought, and may be grown from seed or as a bedding plant. For summerlong bloom, give it water and some fertilizer.

Zinnia Scarlet Splendor has big blooms — 4 to 5 inches — on a

scaled down plant occupying less garden space. The velvety, scarlet flowers are semi-ruffled. The mature plant reaches 2 feet in height, but no staking is needed.

Plant in full sun. Excellent for cut flowers. As the flowers are cut, new blooms are produced. The plant grows easily from seed directly in the garden or started indoors approximately four weeks before the last frost date.

PETUNIA POLO SALMON and *Polo Burgundy Star* are improved multifloras. The masses of blooms are smaller than on grandifloras. The plants tolerate heat, drought and summer storms. *Polo Salmon* and *Burgundy Star* do not need cutting back or deadheading to encourage continuous bloom.

Squash Cream of the Crop is the first creamy white acorn type to receive the AAS award. Its color makes it easier to find amid the green foliage. The 2-to-3-pound winter squash matures in approximately 85 days.

The interior is a creamy golden

color and has a nutty flavor. The squash has a bush-growth habit and stores well. Grow it from seed or bedding plants.

Squash Sun Drops has a new oval shape for North America. The summer squash matures in 50 to 55 days. Immature fruit may be harvested for a gourmet vegetable dish containing whole baby squash. The plant has a compact bush habit needing only 20 to 24 inches of space.

Pepper Super-Cayenne is a decorative item suitable for container culture. The long, thin peppers are fiery hot and may be harvested while green, or left to mature red. They may be used fresh, or dried and stored.

Bean Derby, a green bush variety, is easy to grow from seed. Pods remain tender when up to 7 inches long. Pods mature in approximately 57 days. The tender quality is enhanced due to slow seed development. The upright plant is resistant to common bean mosaic.

(Earl Aronson is the Associated Press garden writer.)

Veneer plastic new wallboard option

WHAT WE know as drywall — or gypsum board or wallboard or any of its various synonyms — is used so frequently in residential construction these days that it sometimes seems to be the only choice for interior walls.

This has been going on for more than 40 years, ever since it replaced lath-and-plaster as the commonly used interior wall surface.

But there are alternatives. One, obviously, is lath-and-plaster, still recognized as a high quality wall material. It lost out to drywall in housing because its installation expenses are much higher. Another alternative is what is called veneer plastic, essentially a cross between drywall and lath-and-plaster.

A veneer plastic wall is made by applying one or two thin coats of a high-strength, fast-drying plaster over a special gypsum board base. This base, known as blueboard, comes in standard drywall sizes and costs no more to install than basic gypsum board. Blueboard is either nailed or screwed to studs, the same as drywall.

THERE ARE DIFFERENT varieties of veneer plastic or, as it is known, plastic finish systems.

One provides an ultra-hard surface. Another, not quite as hard, is easier to apply. Rick Stalle, product manager for United States Gypsum Co., the leading plaster manufacturer in the United States, says plaster finishes can be installed faster than drywall and is harder and thinner than conventional plaster.

Because veneer plastic sets and dries very quickly, usually within 24 hours, the walls can be painted sooner. According to Stalle, it is virtually indistinguishable from conventional plaster walls. Additionally, such common drywall problems as joint shadowing and fastener pops are almost non-existent.

It can be troweled to achieve a variety of custom textured appearances. These finishes are being widely used in several major markets, most notably the Northeast and the Eastern seaboard. Acceptance in other areas of the country is growing rapidly.

In the two most common varieties of plastic finish systems — the one which provides an ultra-hard surface and the other which is not quite as hard but can be applied easier —

on the house

Andy Lang

there are one and two-coat systems.

In the one-coat system, the plaster is troweled directly over the blueboard base. In the two-coat system, a plaster basecoat is first applied over the blueboard, followed by a plaster finish over the basecoat.

STALLE SAYS IT is not uncommon for a residential veneer plastic installation to be completed three or four days faster than a typical drywall installation. Completed costs, he says, are about the same.

For the moment, this type of wall system requires special plastering skills the average person does not have. Therefore, its use is best left to a professional.

If you want any further information on veneer plastic, contact United States Gypsum Co., 101 S. Wacker Drive, Dept 122-22, Chicago, Ill. 60608.

(Andy Lang is a writer for Associated Press. Do-it-yourselfers will find much helpful information on a variety of subjects in his handbook, "Practical Home Repairs," which can be obtained by sending \$3 to P.O. Box 1055, Brick, N.J. 08723.)

condo queries
Robert M. Melsner

Q: We are interested in buying a home and a condo, and I am wondering what protections you recommend be inserted in a purchase agreement that are frequently left out. Any suggestions, although we plan to use an attorney?

A: There are three contingencies which should be inserted in almost every purchase agreement if the buyer is to be reasonably protected. First is that the agreement is not binding until the purchaser has had a reasonable opportunity to have the home inspected. In a case of the condominium, keep in mind, of course, that you are not only buying your unit outright, but an undivided interest in the common elements of the condominium which may be in need of repair.

The second contingency involves the right of your attorney to review, and change and/or correct the terms of the agreement within a certain period of time, except for the purchase price. That is essential because once the agreement becomes binding, the attorney can do very little, if any, to change the terms or conditions of the deal.

Finally, if you are obtaining a mortgage, obviously the deal should be contingent upon you obtaining a mortgage commitment within a reasonable period of time. There are also possible other contingencies which would be relevant, depending upon the circumstances of your purchase, including your ability to sell your existing home, etc. You are wise to consult an experienced real estate attorney if you contemplate such a purchase.

Q: We are extremely frustrated with our management company. It does not call us back when we inquire as to a needed problem and usually sends out a "funky" secretary disguised as a property manager. We have talked to the principal of the company, but he says that "property managers" are expensive and that he is not getting enough of a return from our project to justify a full-time property manager. What can we do since we are under contract with him for another seven months?

In your case, I would advise the management agent that you are not getting adequate management, and that such conduct constitutes a default of the terms of the management agreement. Perhaps the managing agent will then see to it that you are given better service and/or more competent personnel. On the other hand, it is true that many times management companies are not able to afford to hire the quality property managers necessary to adequately service the Associations' demands because many Associations are not willing to pay an adequate management fee. Again, you generally get what you pay for.

Q: I am being sued by an out-of-state condominium association, where I own a unit, for back due assessments in Florida. Can they get my assets here in Michigan if they get a judgment in Florida? I'm not worried about their lien on the condo since there is not any equity in the unit. Can you give me some advice?

A: Assuming that you are not worried about the association executing on your unit in Florida, forcing a sale of it to satisfy its lien for non-payment of assessments, and assuming that the association gets a money judgment against you in Florida, it can sue on that money judgment here in Michigan, obtain a judgment and execute on any property that you own or have possession of here in Michigan.

That will, no doubt, cost the association a lot of money. It may be willing, therefore, to negotiate a compromise with you as to the amount owing, in order to avoid the necessity of at least two lawsuits and attendant legal fees!

It will also take them, depending upon the amount owed, a considerable amount of time even to get a default judgment against you. Of course, if you can defend your position in either one of the cases, that will drag the thing out even longer, assuming that you have a reasonable basis to do so.

If there is no defense, however, you are probably best advised to try to settle with the association, assuming that you have no intent or need to deal with the association in the future.

Robert M. Melsner is a Birmingham attorney specializing in condominiums, real estate and corporate law. You are invited to submit topics which you would like to see discussed in this column, including questions about condominiums, by writing Robert M. Melsner, 30200 Telegraph Road, Suite 467, Birmingham 48010. This column provides general information and should not be construed as legal opinion.

In jeopardy

Take a good look at the rattan furniture on your porch because you may not be able to replace it. The light, attractive, durable and moderately priced furniture comes from an endangered climbing cane plant.

Fabric slats

Window blinds with slats made of fabric are being marketed by Huxter Douglas Inc. The textured polyester slats are chemically treated to hold their shape.

TENNIS ANYTIME

Great Beverly Hills location for this fine family home...plus backyard tennis court to keep your game in shape. Updated throughout with contemporary style! Spacious 4 bedrooms, 2 1/2 baths, family room. Immediate possession. \$184,900 H-51880

SPECTACULAR POOL AREA

Hickory Grove area for this fine family colonial with lots of room. Formal dining room, family room with fireplace, large kitchen, screened porch with skylight and pool. 45 foot pool with 12 foot deep end. Lots of amenities. \$239,900 H-5

A FREE MONTH HERE IS JUST LIKE PARADISE
 So much is free at Schooner Cove for a month: A one or two-bedroom apartment with window walls, showing you a breathtaking view, a patio or balcony and fresh new interior. Acres and acres of deep blue lake in your backyard. Nature trails. Boating. Canoeing. Sailing. And a Clubhouse with great stone fireplace to party in. Plus a service staff you can count on 24 hours a day. You get all this - and save hundreds, too. Hurry. It won't be free for long.
 Quality and Service from McKelvey of course

The Green Hill difference:

Do you come home to an apartment or a 75-acre estate?
 Most apartment living measures 600+ sq. ft. Ours measures over 3,000,000 sq. ft. Green Hill residents enjoy a gorgeous 75-acre estate setting of park and woodland, peace and tranquility. You're right next door to the I-275 corridor, Michigan's multi-billion dollar explosive growth area and just minutes away from I-96, a direct route to downtown Detroit. See our 1- and 2-Bedroom luxury apartments, terrace residences and country townhouses on 9 Miles, 1 1/2 miles west of Farmington Road in Farmington Hills.
