AUTO REPAIR students at the William D. Ford Vocational/Technical Center have \$8,000 worth of car parts to work with, thanks to the folks at Crestwood Dodge in Garden City.

The parts, donated by the dealership to the Wayne-Westland school district this month, will provide "invaluable technical and practical experience" to students at the center, said Tom Svitkovich, associate superintendent for communications and finance.

NEWS FROM the political

The Westland Democratic Club and the Wayne-Ford Civic League will co-sponsor a "Meet the" Candidates Night" Tuesday.

The event - which will include the two mayoral and eight city council candidates - is scheduled for 7-10 p.m. at the Wayne-Ford Civic League, Wayne Road south of Ford.

Admission is free and refreshments will be served. _

EXPECT THE music to be tuned up a notch Tuesday when the Churchill High School band plays host to a guest director: Leslie Dunner, assistant director of the Detroit Symphony Orchestra.

Dunner will conduct the band and talk with students 12:30-2:30 p.m. in the school's band room.

Meanwhile, the rest of the DSO is preparing for a Monday, Nov. 13, concert stop at the school.

Unions divided on who to back in mayor's race

By Tedd Schneider staff writer

With public safety one of the top issues in the election campaign, Westland's-police-and-fire departments are divided over which mayoral candidate - incumbent Charles Griffin or challenger Robert Thomas-- will best handle their concerns.

The Westland Police Officers Association and the police Sergeants and Lieutenants Association were expected today to issue a joint endorsement supporting Thomas.

"We are turning into a reactive police department," officer John Hall, WPOA president said Friday. "We can't be pro-active, we just don't have the manpower to do it."

"The police department's manpower situation isn't being addressed (by Griffin)," said Sgt. Robert Barthhold, SLA president. "It's time for a

"I think we've seen a lot more cooperation with the administration over the last two or three years," Kevin Riley, firefighters' union president, said Friday. "He (Griffin) has indicated that he's willing to work with us to support our situation," Riley said. "Progress may be slow, but at least we're making progress."

Police and fire protection, along with economic development, have been the two issues dominating both the mayoral and city council cam-

Elaborate landscaping will shield Carlson residents from future commercial and office development across the street on Central City Parkway, a city official said last

Scott Veldhuis, the city's economic director, presented the landscaping plan to members of the Economic Development Advisory Commission Thursday.

'The residents want to be

screened and also a lot of thinking was done about future property values," Veldhuis sald Friday.

The plan calls for oak and evergreen trees, shrubs, an estate wall, lighting and an automatic irrigation system to be placed on a strip between Ford and Elmwood that separates the two streets.

The Central City Parkway median will get additional landscaping between Ford and Warren Road, Vel-

Wayne-Westland checking to retain money from state

By Mary Rodrique staff writer

Wayne-Westland schools will check with state education officials to ensure that the district's practice of holding adult education classes in industrial locations is legal.

The question arose out of a recent order by Wayne County Prosecutor John O'Hair, who ordered Dearborn Public Schools to halt paying for classes at the Ford Rouge plant for Ford workers. He objected because the classes were being held on private property and they aren't open to everyone.

The order means that school district cannot get any money from the

state for classes that exclude the general public.

"It doesn't make a whole lot of sense," said Wayne-Westland Superintendent Dennis O'Neill. "What is a valid environment for public education? We're going into the work place to encourage literacy. Our goal on the state level is to increase adult -

PROBABLY THE only place atfected in the Wayne-Westland district is a Ford assembly plant in Wayne, where high school completion courses are offered. O'Neill said. The district's adult education program will continue to offer classes there until told to stop, he said.

"We will get a clarification from the Michigan Department of Educa-

tion. Ken Walsh monitors our adult education program for the state, and he never told us we couldn't offer courses in a factory.

The district will abide by the prosecutor's ruling, said Ron Gutkowski, head of Dearborn's adult education department. Classes will continue at the site but will be paid for by Ford Motor Co. and the UAW.

The order came after an appeal to Michigan Attorney General Frank Kelley, who decided not to rule on the issue and sent it back to the Wayne County Prosecutor's office for action.

While residents are excluded from taking the Dearborn courses, the same situation has never come up in the Wayne-Westland district.

Ford Road car crash kills Canton woman

A Canton Township woman was killed Tuesday morning when her car, skidding out of control on Ford Road, was struck by several oncoming vehicles during the rush hour, police said.

Killed was Sabrina Luann Brock, 19. She was dead on arrival at Westland Medical Center, where she was taken by an EMS

Brock was in her 1984 Chevrolet Camaro headead eastbound on Ford at Crown at 7:35 a.m., police

Brock's car changed lanes abruptly before the driver lost control on wet pavement and

witnesses told police. The Camaro was struck first by a Pord van, then by a 24-foot truck and finally a 1978 Bulck, all traveling westbound, police said.

The driver of the van, a 33-yearold Westland man, was treated and released from Annapolis Hospital, police sald.

'She (Brock) was apparently on her way to an 8 o'clock class at Henry Ford Community College (in Dearborn) and running late," said officer Terry Donohue of the Westland police department traffic bureau.

Brock wasn't wearing a seat belt at the time of the accident, Doskidded into the westbound lanes, nohue said.

Jefferson's principal learning her school

By Leonard Poger

Susan Dorenkamp was confirmed as Jefferson Elementary School's new principal last summer on a divided vote of the Wayne-Westland school board.

One board member refused to support the administrative recommendation because Dorenkamp's background was mostly as a social work background and she never taught in a classroom.

But superintendent Dennis O'Neill, who recommended her appointment, said she has an excellent record as an assistant principal in an elementary school that houses a major special education program.

IN HER first weeks on the job in the school on Dorsey in the Norwayne neighborhood, Dorenkamp said she can be an effective building principal as she talked about her background, her plans for Jefferson, and how she deals with

students. During the first few weeks of classes, Dorenkamp admitted that her top priority was to figure out where all the rooms are and where

all the forms are. With her social work background, Dorenkamp stressed that she has extensive experience with child development and family dynamics.

with a cut knee, that cut knee is very important at that moment. After it is cleaned, the child is then sent back to class.

"We must take the whole child where they are, listen carefully and give individual attention to that youngster."

DURING HER first semester, Dorenkamp plans to familiarize herself with the school's curriculum, discipline policies, teaching staff, "and then see where we stand and look for possible changes where there is a need."

She said she will integrate the state department of education's new definition of reading into the Jefferson curriculum.

That new definition stresses comprehension of what students are reading is more important that mastery of specific skills.

Included in her plan are emphasis on writing and cooperative learning. "Computers aside, youngsters still need writing skills."

COOPERATIVE learning teaches students to interact.

Dorenkamp began her new duties in mid-July by ordering stock, looking ahead to a new roof and awaiting completion of the parking lot.

The new principal is proud that her school is the only elementary in the district with a developmental kindergarten program. The developmental kindergarten teaches 5-yearolds who need more help before entering conventional kindergarten.

Nature group eyeing area field of dreams

NDEVELOPED land is getting scarce in western Wayne County. There are few spots

a short driving distance where you can get away from the busy suburban environment of retail centers, party stores, and autoservice businesses to see great horned owls, red-tailed hawks, copper hawks, deer and other wildlife

That's why the Southeast Michigan Land Conservancy is trying to preserve 40 acres of wetlands and open fields a few minutes drive for local residents along Koppernick, near Hix and Joy, which is home to each of those species.

Jack Smiley, president of the non-profit conservancy, said it's important to maintain the natural characteristics of the land to stop

the area being part of the development sprawl from Ann Arbor to Detroit. .

The 40 acres are owned by private investors and will be bought by the conservancy for \$150,000 to be added to the existing William P. Holliday Forest and Wildlife Preserve, which parallels the Tonquish Creek south of Joy and west of Farmington Road.

Two months ago, Oakwood and United Care signed a letter of intent to create the new joint venture entity, as a subsidiary of Oakwood Health Services Corp. to lease and manage three of the five United Care hospitals. Since that time representatives of Oakwood and United Care have been working out details of the lease.

A contract has also been signed for United Care to provide Annapolis, Heritage and Seaway with support services that have been provided to them as United Care hospitals through the corporation's centralized services. Those support areas include services such as laundry, president of Oakwood Hospital since purchasing and medical transcription. Bullard cool to police search bill-

By Tim Richard staff writer

A state Senate-passed bill allowing police to obtain no-knock search warrants is in trouble in the House of Representatives.

"I don't see a need to give it a hearing," said Rep. Perry Bullard, D-Ann Arbor, who chairs the House Judiciary Committee.

"It looks to me like it will risk lives rather than save them," said Bullard, a liberal and civil libertarian who often is cool to crime legisla-

THE SENATE gave 31-6 approval to the measure last week, but not until critics had blistered it as a threat to the public, police and the Bill of Rights.

Part of a new package almed at drug crimes, Senate Bill 23 would

Sen. Rudy Nichols, R-Waterford, guided it through the Senate Judiciary Committee, which he chairs, and praised the measure.

Yes votes were cast by Sens. Doug Cruce, R-Troy, William Faust, D-Westland, Richard Fessler, R-Commerce; R. Robert Geake, R-Northville, and George Z. Hart, D-Dear-

(Nichols was called from the Senate floor and missed voting on the bill but announced later he would have voted yes.)

OPPOSED WAS Sen. Jack Faxon, D-Farmington Hills, who recorded—premises without somebody actually his protest in the Senate Journal.

"This country separated from England over 200 years ago because

of the abuse of power on the part of the crown and its ability to enter into homes . . ." Faxon said.

"We're subjecting law enforcement people to greater danger. We're subjecting an innocent public' to greater mistakes.

"If there's at least an announcement, then if there are children in that environment, they can be immediately pushed out of the way before an entrance occurs."

The Senate's three black members also opposed it.

NICHOLS SAID the fears were groundless.

"According to testimony, police currently have the ability to enter answering the door," he said.

"If they do so improperly, however, they risk having evidence obtained while executing the search warrant thrown out (in court).

"This bill requires police to justify waiving such knock-and-announce procedures before they execute the search warrant. Therefore, it decreases the risk of losing valuable evidence which has to be presented in court.

"At the same time, by requiring advance review (by a judge), the bill improves upon existing procedure which now happens after the event

THE SENATE also gave 37-0 approval to a House-passed bill allowing the attorney general or a group of county prosecutors to petition for multi-county grand juries.

Gov. James J. Blanchard has announced his support and is expected to sign it into law.

Pro-choicers fool selves

To the editor:

The "pro-choice" column by Judith Berne in the Sept. 28 Observer & Eccentric was misleading and flawed by illogical rationalizations.

Those who pretend that abortion is anything but murder are simply deluding themselves in order to justify their self-centered lifestyles. They

Ms. Berne discussed the pro-abortion rally she attended at Lansing. She admired her fellow pro-abortionists who conducted themselves with "quiet sincerity." Would these same people retain this dignified ness the bloody destruction of human life they so proudly support?

Ms. Berne found grandmothers at het rally (they must have been prolife once in their lifetime) and even a token "Catholic." The doctrine of the Catholic Church is very clear regarding the grievous sin of abortion and the sanctity of life. In the 1989 Respect Life Brochure the National Conference of Catholic Bishops

Responsibility is more than just duty. It's the ability to respond to need. To know that every person has a right to life that precedes and surpasses all other rights, a right upon which all other rights rest. To be willing to protect that right at the risk of inconvenience or loss. Responsibility challenges each of us. It preserves our past and guarantees our future. It is the essence of

Fewer and fewer pro-abortionists are claiming that life begins at a time other then conception. With the mounting scientific evidence of this fact, they now simply deny the morality of protecting that human life. Pro-abortionists never state they personally should have been aborted. The choice is made when a man and woman decide to allow life to begin. As a high value personal convenience more, school student I was often reminded of my responsibility to "choose" a chaste life. Upholstering column was lean on facts

To the editor:

In the Oct. 5 Creative Living section of the Observer & Eccentric an article appeared by Eve Garvin to which I take certain exceptions.

First of all, if the intent of the article was to assist readers in choospromised by pro-choicers is a lie. fell way short. There were inaccura-

cies and the last part of the story did nothing but describe her own living room and how "happy it looks."

As a professional upholsterer and businessman I have the same questions asked of me several times a day regarding the furniture dilemma. My response to customers is, if the piece is solidly built, comfortable and the style they like, it is wiser to re-upholster than to buy

The article failed to point out the advantages of owning a solidly built piece. It also failed to point out that most furniture built today is poorly made and that new sofas range in price from \$500 to \$5,000 in retail stores. There must be some differences. Those differences are mainly in the quality of fabric and the quality of the frame, which would include the springing and the padding.

The frame on most sofas built 25 years ago would compare with the middle to higher priced pieces of to-

The article did not mention that most upholstery shops carry a very wide range of fabrics from which to choose. This offers the customer much more choice than most furniture stores.

The article correctly stated that choosing an upholsterer is an important factor. But it failed to point out ways to do this. The best and safest way is by the word of friends whenever possible. Visiting the shop and seeing the work itself is the next best way. References are good but not 100 percent fool proof. But pulling a name out of a hat is the worst way. The customer would be welladvised to pay a little more for better workmanship.

We offer a lifetime warranty on all our our workmanship at no extra

I have spent many hours trying to convince people of these facts and I feel to have these hours wasted with an inaccurately written paragraph is unfair to the upholstering industry and unfair to the many readers who trust your paper.

Rep refutes Headlee attack on Proposal B

This is a rebuttal to Richard Headlee's letter to the editor.

Michigan voters have the opportunity to make an important decision about education and property tax relief Nov. 7. They should not make that decision without the following information.

On Aug. 31 Richard Headlee testified to the State Elections Committee that the 1978 Headlee amendment to the constitution has not worked to keep local property taxes down. Mr. Headlee recently sent letters to the editors of Michigan's newspapers attacking the constitutional changes in Proposal B.

Simply put, Proposal B-does the following:

 Lowers property taxes in the state by a net of \$1.3 billion. Every property taxpayer in the state will know his constitutionally capped millage rate before he votes on Proposal B.

- Provides a more stable, constitutionally guaranteed school formula. All schools in the state will know their funding levels many years in advance and will not have to rely on the internal politics of Lansing.

 Constitutionally dedicates—all educational revenue to local schools. This includes a \$5.5 billion trust fund plus \$670 million iff general fund dollars and their growth. This will make education a higher priority in state government because this year's general fund contribution is only \$600 million.

 Maintains local control. Voters still will elect local school board members who hire superintendents and set school programs. Proposal B does not set many new mandates. It provides more operating money and local property tax relief so local boards can spend most of their time on long-term curriculum develop-

Mr. Headlee is correct that his tax limitation amendment has not Richard L. Belanger, solved the problem of rising properowner Dick's Upholstery Shop ty taxes. The facts speak for them-

Informed voters should vote for the many constitutional protections in Proposal B, which include:

• Lowering school operating millages an average 38 percent for residential property owners.

 Capped local foundation millages that cannot be voted up more than 4 mills. (Today, local mills can be voted up an average of over 10 mills.)

• Protected general fund commitment so all lottery profits are dedicated to education and property tax relief.

• State Account For Education (SAFE), which guarantees that all increases in school property taxes go to education.

• Guaranteed formula which can be adjusted only by a two thirds vote of the Legislature. (Today, it takes just a simple majority vote.)

• Guaranteed state funding of at least 75 percent which only can be used for more equity between schools and less reliance on local property tax.

I invite Mr. Headlee to join other informed voters to fix his property tax limitation effort and guarantee more state support for education. Let's not wait for the Michigan Supreme Court to tell us the obvious; the Supreme Courts of Montana, Kentucky, and Texas have ruled their property tax funded systems inequitable and unconstitutional.

Informed voters will be ahead of the Michigan Supreme Court and canput in their "two cents" for the education of children with property tax relief. It's a good investment in Michigan's future.

Glenn Oxender, state representative

Mall isn't in public interest

In response to your editorial of Oct. 5, 1989, in which you chastise both sides on the reasons for their positions in opposition to the Mega-Mall, you mention only Rochester Hills and Southfield, (along with those in the small community of Lake Angelus). What about Birmingham, Troy, Lake Orion, Oak Park, Addison Township and the City of Lake Angelus?

Southfield started the fight because the extension of sewers into an undeveloped area would cause sprawl opposed by SEMCOG and GDEDG.

Lake Angelus Initiated the SEM-COG Regional Clearing House Review because there is no other entity to assess the regional impact of the proposed Mega-Mall. It is wrong that a small city such as Auburn Hills is able to make unilateral decisions which seriously impact other communities and the entire region.

 The proposed Mega-Mall and then proposed destruction of the 32 acres of wetlands are not in the public interest. The mall will destroy the residential character of the contiguous City of Lake Angelus, will disrupt a high quality wetland and does not represent true growth from a regional standpoint, only changing locations of jobs, congestion, traffic congestion, etc.

With no demonstrated need for the mall, public expenditures for infrastructure will be solely for a private developer's private interest. There would be some public benefit from the increased school taxes that would be received by the Pontiac School District, but that benefit is not great when balanced with the detriment. The mall will weaken other communities in an economic sense, it will not be placing the mall in an area where existing infrastructure is available and it will promote urban sprawl.

There are only so many dollars available for retail sales in the region. Economic impact of the mall will move shopping, jobs and businesses to this new location from other parts of the region. Many existing retail businesses in the region will be forced to close and communities will be weakened.

Enormous traffic and congestion will result from a project on the scale planned for this mail. The character of an entire City of Lake Angelus is at stake. The mall project is only the beginning, with further retail centers, stand-alone stores, hotels, offices, traffic and congestion soon to follow. Urban sprawl will force itself on the area and the City of Lake Angelus.

Area reps split on abortion policy

Here's how Observer & Eccentricarea members of Congress were recorded on major roll call votes in the week ending Oct. 13. HOUSE:

ABORTION - The House adopted. 216 for and 208 against, an amendment to broaden federal abortion policy by permitting Medicaid funding of the medical procedure when the pregnancy results from rape or incest. The language was attached to a fiscal 1990 appropriations bill (HR 2990). Medicald now covers only those abortions necessary to save the mother's life.

Supporter Nita Lowey, D-N.Y., said "Congress cannot and must not turn its back on the poorest victims of rape and incest who become preg-

Opponent Henry Hyde, R-Ill., said "rape and incest are tragedies...But why visit on the second victim, the unborn child that is the product of (the) criminal act, capital punishment?"

Members voting yes supported Medicald funding of abortion if the pregnancy is by reason of rape or incest.

Michigan congressmen voting yes were: Carl Russell, R-Plymouth; William Ford, D-Taylor, and Sander Levin, D-Southfield.

Those voting no were: Dennis Hertel, D-Harper Woods; and William Broomfield, R-Lake Orion.

TO PROTECT THE FLAG - By a vote of 371 for and 43 against, the

Roll Call Report

House sent to President Bush a bill (HR 2978) making it a federal crime to physically damage the American flag. Also due for congressional votes this year are proposals backed by conservatives to protect the flag by constitutional amendment. The legislative activity is in response to the U.S. Supreme Court ruling this year that flag desecration is political expression protected by the Consti-

Supporter Don Edwards, D-Calif., said it is better "to protect the flag by a simple statute than to go through the mammoth and dangerous procedure of weakening for the first time in our history the free speech provisions of the Bill of Rights.

Opponent-Bob Michel, R-Ill., said, "If you really want to protect the flag, if you really want to do something more than make a gesture, then given the court's decision you have to support our bipartisan constitutional amendment to save the flag."

Members voting yes were: Pursell, Hertel, William Ford, Levin and Broomfield, R-Lake Orion.

SENATE:

FUNDING THE ARTS - By a

vote of 62 for and 35 against, the Senate chose the less strict of two proposals before it for prohibiting federal funding of art judged by some to be morally offensive. The vote retained language preventing National Endowment for the Arts funding of works judged by the NEA chairman to be obscene and devoid of artistic merit. It killed stronger language shifting the decision on what is obscene from the NEA to an unspecified authority elsewhere in the federal government. The vote ocurred during debate on a fiscal 1990 appropriations bill (HR 2788).

Dale Bumpers, D-Ark., said, "Every country on earth that has ever had a dictator, the first thing they want to do is control art, literature and the judicial system."

Jesse Helms, R-N.C., who authored the stricter approach, urged support from colleagues who "agree that funding such disgusting materials with the taxpayers' money is outrageous."

Senators voting yes opposed the Helms amendment.

Michigan Senators Carl Levin and Donald Riegle voted yes.

CATASTROPHIC CARE - By a vote of 26 for and 73 against, the Senate refused to repeal a 14-monthold law protecting Medicare participants against catastrophic doctor, hospital and prescription drug costs. The vote occurred during debate on an omnibus budget bill (HR 3299). It cleared the way for Senate approval of a scaled-back catastrophic plan that, in part, retains a ceiling on hospital costs but eliminates the 1988 law's protections against runaway doctor and drug costs.

The new Senate measure also eliminates the income tax surcharge on Medicare beneficiaries designed to pay most of the costs of the 1988. law. It now must be reconciled with recent House action to repeal all of the catastrophic provisions enacted last year with strong support from the House and Senate and the Reagan Administration.

Richard Shelby, D-Ala., said "Congress must admit, as I do that we made a mistake and vote to repeal the act."

John Rockefeller, D-W.Va., said "if we repeal, we are signaling to seniors all over this country that we do not have . . . the guts to face up to the problem" of catastrophic medical costs.

Senators voting yes wanted to repeal the 1988 Catastrophic Cover-

The period of the day that the foot or ankle condition worsens, provides a clue to the cause of the discomfort. Arthritis distress increases with walking and lessens when you are resting. The same holds true for problems in arterial circulation of the blood. Thus, impairment of the leg due to narrowed

In contrast, nerve ending conditions become worse at night. The reason is that during the day, other input reaches the brain and blocks attention on disordered sensation. At night these stimuli decrease, and the brain has no distractions from the foot discomfort.

Compression of the sciatic nerve may cause a similar burning in the foot, but the pattern of numbness is sufficiently different to permit a distinction between sciatica and a nerve ending disorder.

Treats for good ghouls

Don't ever let it be said that you have to be a kid to enjoy Halloween.

Granted, my days of trick or treating disappeared many moons ago along with electric crepe makers and hot dog cookers, but I still enjoy the rituals involved with my kids.

Halloween can be a very inventive time in the kitchen for anyone who dares to still enjoy the banging of cauldrons and the humming of microwaves.

TAKE SOMETHING as simple as soup and transform it into a simmering vat of warmth and heartiness, especially on a chilly All Hallows eve, and the kitchen cook can warm the hearts and souls of even the scariest of gob-

Last Halloween, my kids asked why we don't "get crazy" like this with our dinner more often.

WHY? PROBABLY because we burden ourselves with the thoughts of just getting dinner out on the table. For many kitchen wizards, this is a feat by itself, but you've gotta admit that occasionally it can be fun to get flamboyant and creative and make a dinner that everyone will surely remember, 45 g

Green River Specialty Foods of Royal Oak caters to customers hooked on meat and fish which have been soaked in a sweet brine and then hickory smoked for several hours.

Hooked on smoked fish

Call of the Wild

By Ariene Funke special writer

Maybe it's the call of the wild. Do you crave tender, moist chunks of smoked rainbow trout? Have you ever wanted to try smoked par-

tridge, goose, pheasant or duck? The Green River Specialty Foods of Royal Oak caters to customers who are hooked on meat and fish that have been soaked in a sweet brine and then hickory-smoked for several hours.

The shop, on North Woodward Avenue near Normandy, is a subsidiary of the well-known Green River Trout Farm of Mancelona, where 5,000 rainbow trout are harvested annually from spring-fed ponds. The store sells both fresh rainbow trout and trout smoked on the premises, as well as other smoked foods.

"The key is to start with good, clean water and fresh fish," said Frank Marra of Bloomfield Hills, a company vice president.

The Royal Oak store, which opened almost one year ago, obtains its rainbow trout from the Mancelona farm. The shop also smokes a variety of other fish, seafood and fowl such as turkey, quail and cornish hens. Many of the products come from Michigan sources.

"The only fresh fish we sell are the ones we raise on our farm," said Marra, 62, who bought into the business around 18 months ago. A retired president of a plastics tooling firm, Marra also is an international business consultant and board member of several corporations.

According to Marra, many customers are people who have developed a taste for trout or whitefish while vacationing in northern Michi-

The Green River Trout Farm, established almost 25 years ago, was for many years operated by the Weber family. The company has established a reputation for quality and consistency.

The farm is located below the headwaters_of_the_spring-fed Green River north of Mancelona, not far from tourist-rich Petoskey and Charlevoix. Water from the river is diverted-into several ponds, where rainbow trout are segregated according to size. The trout, which come from a hatchery in northern Michigan, are fed high-protein fish meal and remain in the ponds for around 18 months, Marra said.

"It's the largest trout pound in Michigan," Marra said. Visitors may fish from the ponds and are charged only for the fish they catch.

When a trout is between 8-12 ounces - the size preferred by many restaurants — it is ready to be harvested. The company supplies such prestigious restaurants as the Tapawingo and Rowe Inn of northern Michigan, the Whitney in Detroit, Rik's in Birmingham and LesAuteurs in Royal Oak.

Ken Weber developed the sweet, molasses-based soak and slow-smoking technique that gives Green River smoked products their distinctive taste. The Webers are no longer affiliated with the business.

The Royal Oak shop is redolent with the aroma of hickory flavor which emanates from the computercontrolled smoking oven. Food processor Jim Sheldon, 21, of Ferndale, was trained in the Weber method.

The technique calls for the meat or fish to be soaked overnight in sweet brine. Once it goes into the oven it is smoked for several hours, with temperature and humidity carefully controlled to ensure tend-

Bagelmania: not just breakfast food

By Katle Maple McBride

special writer

The word is out. There's more to bagels than cream cheese. Traditionally considered a breakfast bread, -bagels have come out of the oven and onto the table for lunch, dinner

and anytime in between. "We get a lot of traffic in the afternoon," said Corrie Schmidt, owner of The Bagel Factory in Southfield. "People take them home for dinner. For example, we have a garlic bagel that goes well with spaghetti, and people use them instead of bread."

Bagels are big business in the Detroit area today, with numerous shops selling thousands of dozens each week. Metropolitan bagelries have been baking bagels for nearly 70 years, but the history of the hard

roll goes back to the 1600s. According to legend, the original bagel took shape as a gesture of appreclation by a Jewish baker in Vienna, Austria. The baker thanked the King of Poland for fending off Turkish invaders into Austria by making him a special hard roll in the shape of a "beugal," a riding stirrup. The , boiling the circles of dough before roll represented the king's favorite

sport, and gave the bagel its characteristic shape.

BAGELS WERE a big hit in Poland and Russia, where they were said to bring good fortune and have magical powers. Jewish immigrants brought them to the United States, forming the Bagel Bakers Local No. 338 in New York by 1915.

In those days, bagel baking was back-breaking work for the 300 craftsmen who labored in 36 union shops in New York City and New Jersey. They typically worked in three-man teams, earning about 19 cents each for a box of 64 bagels.

The rolls became easier and more profitable to produce when bagelmaking machines were introduced in the early 1960s. However, the art of making bagels remains an exacting practice.

"We have a supervisor that used

his expertise to talk new bakers through the process," Schmidt said. "It's a trial-and-error process at first, so our bakers are supervised for the first month." The uniquely chewy texture of

bagels results from "kettling," or

they are baked. The boiling gives

bagels their shiny crust and since some of the water is absorbed into the roll, the interior is tender and chewy.

While all bagels share the trademark texture, they come in a num-

ber of flavors. Traditional plain bagels now share shelf space with egg, salt, onion, cinnamon-raisin, pumpernickel, rye, whole wheat, garlic, cheese blueberry and even nathran varieties

JoAnn Schmidt of the Bagel Factory in Southfield says people stop by for more than just breakfast bagels. Garlic bagels, for example, are a great dinner accompaniment to spaghetti.

IN ADDITION to the 15 kinds of bagels offered by The New York Bagel Baking Co. at locations in Ferndale, West Bloomfield Township, Oak Park and Southfield, coowner Howard Goldsmith said they even offer "teething bagels" small-bagels-that-bables can-teethe

For children and adults alike, Goldsmith said bagels are a "good snack food - they're an individual piece of bread and easy to eat."

Bagels are a healthy alternative to chips or sweet snacks, and a better breakfast choice than doughnuts or Danish.

"Doughnuts are laden with oils, cholesterol and sugar," Goldsmith said. "Bagels are becoming more popular with people who are conscious of what they're putting into their bodies."

While bagels have a small amount of sugar and salt to activate the yeast, they have no preservatives, no showening and, except for the egg variety, no suclesterol. One-half of a bagel averages 60 calories, about the

same as a slice of white bread. Perhaps because of today's health-

Robert Kaslly sings the praises of smoked food.

Mention a meat or fish and Raslly, a chef at the Beverly Hills Grill, will find a way to smoke it.

"It's really succulent and moist," Kaslly said. "The smoked product should taste moist, with a barbecue

Kaslly, 29, has smoked the usual fish, pork, chicken, quail and ribs. But he's also experimented with bear meat, vegetables and a host of other foods.

Kaslly, who has been at the Beverly Hills Grill, on Southfield Road between 13 Mile and 14 Mile roads, for a little more than a year. He grew up in Utica and headed west to study at the California Culinary Academy. It was there that he began learning smoking techniques.

UNTIL RECENTLY, Kasliy had used a homemade smoker that he'd rigged up. But that proved to be impractical because juices from the meat dripped into the wood chips where the heat was generated, causing flare-ups.

The restaurant has installed a versatile commercial smoker that Kaslly deems to be "Mercedes-Benz" in quality and usefulness.

According to Kaslly, smoked food require a three-part process that begips with a 24-hour soak in brine. Brine is a solution of salt, water and spices. Its purpose is to draw natural sugars and moisture from food and form lactic acids to protect against bacteria that causes spoilage.

"There are millions of different brines and theories," Kaslly said. For example, Kaslly uses maple.

SHRIMPY BAGEL ROUNDS What you need:

5 bagels, sliced horizontally in fourth, using a good serrated knife (you'll have a total of 20 thin bagels circles) 8-ounce can water chestnuts, drained and chopped 14 cup choped scallions 1 pound frozen cooked shrimp, thawed ¾ teaspoon salt ¾ teaspoon sugar I tablespoon cornstarch 1 egg, beaten oll for frying 1 bottle sweet and sour sauce " What you do:

1. Place shrimp in blender or food processor together with chopped water chestnuts and chopped scallions, and blend until the mixture is pastelike. 2. Place mixture in bowl and add salt, sugar, cornstarch, and beaten egg. Blend well. 3. Spread approximately 16 cup of shrimp mixture on each bagel round. 4. Place in frypan in heated oil, shrimp-side down at first. Careful, these sometimes splatter oil as they cook, 5. When golden crispy-brown on shrimp side, turn and brown on the other side. Drain on paper towels. 6. Serve with bowl of sweet and sour sauce for dipping. Makes 20 shrimpy bagels rounds. (If you want to make these up ahead of time, you can freeze the rounds after you fry them. Then just reheat uncovered in a 375 degree oven for 20 minutes.)

THE BIG APPLE BAGEL What you need:

5 whole cinnamon-raisin bagels 21-ounce can apple pie filling

1 cup flour (all purpose or whole wheat graham flour) 1/4 cup soft margarine or butter 2 tablespoons brown sugar ¼ teaspoon cinnamon

What you do: 1. Slice thin portion off the top of each bagel, and with fingers scoop out inside to make a "shell." Freeze bagel bits and tops for later use: 2. Place 1/2 cup pie filling in each bagel shell. 3. Place flour, soft margarine or butter. brown sugar, and cinnamon in a small bowl and mix with a fork. Then crumble with fingers until thoroughly blended. 4. Spoon crumb topping over each apple-filled bagel, pressing crumbs onto filling. Bake on foil-covered cookle sheet in a 375 degree oven for 30 minutes, Serve warm. Serves 5.

Home bagel cooks

Successful bagel making calls for 1 teaspoon saft control over a number of variables. including the proper flour/malt mix, the correct amount of yeast and sait and a multiple-step-mixing/boiling/baking process.

Tom and Marilyn Bagel, authors of "The Bagel's Bagel Book," report 1 to 2 eggs weather conditions can even affect 3 % cups sifted all-purpose flour the bagel's outcome, with professional bagel bakers adjusting their ingredients and timing to a dry or humid day.

With this in mind, professionals ourage home bakers who want to ake bagels in their own kitchen.

("It's different from making bread or pizza at home - you need time and patience," said Corrie Schmidt, owner of the Bagel Factory in Southfield. "You need to understand proofing

- the rising of the dough, which helps the bagel have strength," Schmidt said. "Bagels are different from other bread products because they don't have pans to help them form their shape." For brave home bakers who like a

cooking challenge, the "Joy of Cooking" cookbook includes this recipe for egg bagels: BAGELS:

Combine: 1 cup scalded milk 1/4 cup butter 1 tablespoon sugar

When this inixture is 105 - 115 degrees, add and dissolve for 3 min-·utes:--

1 package active dry yeast Blend in:

Knead this soft dough about 10 -minutes, adding more flour if necessary to make it-firm enough to handle. Let rise, covered, in a greased bowl until doubled in bulk. Punch down and divide into 18 equal pieces. Roll each piece into a rope about 7 inches long and tapered at the ends. Wet the ends to help seal. Form into doughnut-shaped rings. Let rise, covered, on a floured board about 15 minutes. To help firm the dough, you can chill it 2 hours. Drop rings, one at a time, into a solution of:

2 quarts almost boiling water 1 tablespoon sugar

As the bagels surface, turn them over and cook about 3 minutes longer. Skim out and place on an ungreased baking sheet. Coat with: Beaten egg white

Bake in a preheated 400 degree oven for 20 to 25 minute until golden brown and crisp. Very tasty toasted and served with butter.

More than breakfast fare choices than just white or wheat soe's statement. They learned that conscious craze, Schmidt said

"We're seeing a shift away from the traditional bagel buyer. A lot of younger people come in now - instead-of buying doughnuts for the office, they'll buy bagels."

Breakfast is still the busiest time at the Detroit Bagel Factory shops in Livonia, Farmington, Bloomfield Hills, Oak Park and Mount Clemens, but Supervisor Jean Bledsoe said bagel sandwiches have brought more and more people in for brunch and lunch.

BAGELS MAKE a healthy shell for sandwich fixings, Bledsoe said, and "since we make bagels from oatbrah, pumpernickel, rye and whole wheat flours, we give people more

SAUCE-MAKING TIPS

Prevent lumps in cornstarch- or flour-thickened sauces by stirring constantly. If lumps do form, beat." the sauce briskly with a wire whisk or a rotary beater.

Cook sauces over low to medium heat unless the recipe says otherwise. Cook no longer than the time specified. High heat and lengthy cooking can cause a sauce to curdle or break down.

If you have to leave the sauce while it's cooking, remove it from the heat.

Meteor showers, comet light up November sky

November will be a very busy month for skywatchers: There will be two meteor showers; conjunctions (groupings) involving Venus and Saturn, Venus and Uranus, and Saturn and Neptune; Venus reaches its maximum elongation; and a new recently discovered comet may reach nakedeye visibility!

Mars and Jupiter will be the morning planets this month. Venus' and Saturn are evening objects. Mercury is too close to the sun to be seen.

The length of the day decreases by exactly one hour this month. On Nov. 1 the sun rises at 7:05 a.m. and sets at 5:25 p.m., for a possible ten hours and 20 minutes of sunlight. On the 30th these times are 7:41 a.m. and 5:01 p.m. for a possible nine hours

NEA's Geiger will address local group

Keith B. Gelger, president of the 1.98-million member National Education Association, will be the featured speaker at the Michigan Association of School Boards' Council of School Attorneys conference in Detroit Thursday.

Geiger, a former math and science teacher in Livonia and past president of the Michigan Education Association, will be the keynote luncheon speaker in Cobo Exhibition Cen-

The Livonia Education Association plans a reception for Geiger from 5-7:30 p.m. Thursday in the LEA office (the in the former Wilcox School Building), 29520 Munger, west of Middlebelt, just south of Six Mile. The public is invited.

Geiger is a member of the Nation--al Council for the Accreditation of Teacher Education executive committee. He is a native of Pigeon,

The Cobo conference is designed for school attorneys, administrators and school board members, but registration is open to all. For more information, call (517) 371-5700.

Topics at the conference include a debate on Michigan's Teacher Tenure Act and workshops on religion in public schools and developments in union-sponsored insurance plans Also included are presentations by lawyers on special education and recent U.S. Supreme Court decisions on civil rights.

and 20 minutes of sun. (All times are Eastern Standard Time.)

Face the southwest about 45 minutes after sunset, on Nov. 1, and you'll see a very nice alignment of objects. Start with the waxing (growing) crescent moon. Below and to the west (right) of the moon is the star Antares (an TAR ees,) the "heart" of Scorpius. It's only a few degrees above the horizon and a challenge to see in the glow of evening twilight.

VERY EASY to see, above and to the south (left) of the moon, is the brilliant planet Venus, Draw a line from the moon through Venus, and you'll come to Saturn, the planet with the beautiful ring system. Watch the moon move past both these planets during the next two evenings. Also watch Venus pass Saturn during the next few weeks.

The S. Taurid (TORE id) meteor shower is at it's maximum in the pre hours of November 2. Named for the constellation of Taurus, from which the "falling stars" appear to radiate, this meteor shower is not very im-

pressive. A patient observer can expect to see only 15 meteors per hour. Taurus will be high in the south at

On the evening of the 2nd, there will be a spectacular sight: The moon will be within one degree of Venus. That planet will appear to sit atop the point of the moon's crescent! On the next night, the moon will be about four degrees below and to the south (left) of Saturn.

Notice the moon's position after sunset on the 4th. It is now past Saturn and the crescent is noticeably larger.

First Quarter Moon is at 9:11 a.m. on Nov. 6. The moon is one-quarter of its way around the earth. If you have a telescope, look at Venus to-

night before the sky gets too dark. You may be surprised to see that it looks like the first quarter moon as

Venus goes through phases, like our moon, as it orbits the sun. As dif-ferent portions of Venus are illuminated by the sun, we see different "phases." Because Venus appears so bright, it's best to observe it in partial twilight when there is less contrast between a dark sky and the brilliant planet.

PLUTO IS in conjunction with the sun on the 7th. It is behind the sun, as seen from the earth. Even when it isn't hiding behind the sun, Pluto is

not an object you will see in the sky. Venus passes Uranus on the eve-

ning of the 7th. The planet Uranus is not easily visible without binoculars or a telescope, but having Venus nearby as a guide will make it easier to find Uranus.

Use your binoculars and look three and one-quarter degrees (about seven full moon diameters) to the north (upper right) of Venus. Try not to look directly at Venus; its brightness will dazzle your eyes and you'll have difficulty making out Uranus. be visible all night, and will set at Uranus will have a faint greenish sunrise.

Venus is at maximum elongation (greatest apparent distance) from the sun on the 8th. Venus is 47 degrees east (left) of the sun and dominates the evening sky.

Mercury is at superior conjunction with the sun on the 10th. Mercury is behind the sun, and is not visible. Don't worry about a collision occuring between Mercury and Pluto, which is the "behind" the sun. Those two planets are billions of miles apart, orbiting at different distances from the sun.

Saturn will pass one-half of a degree (one moon diameter) south of

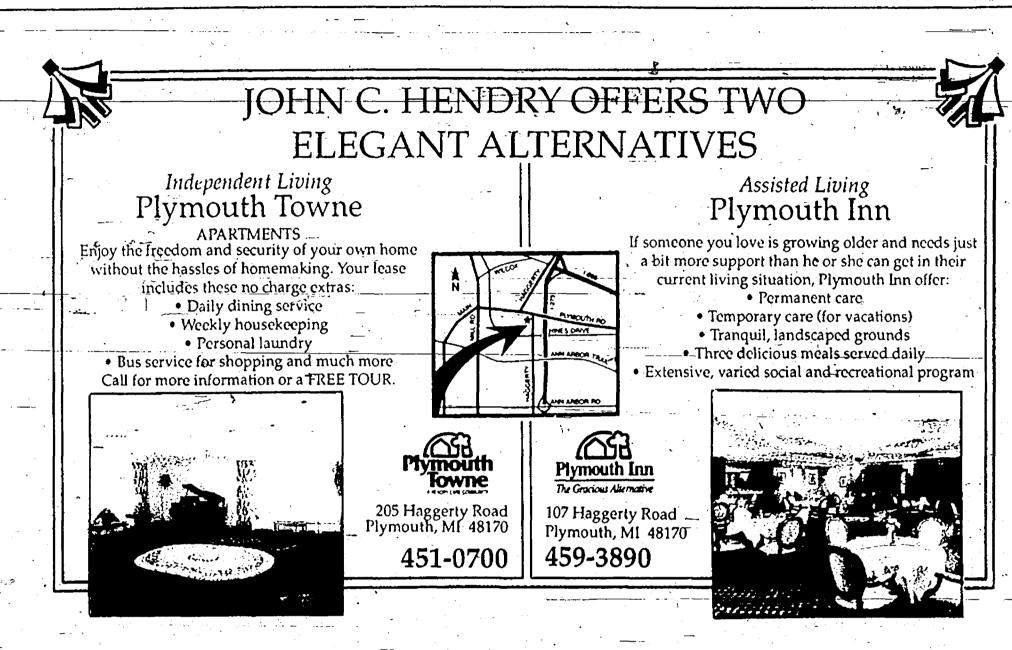

Neptune on the evening of Nov. 11. Use a telescope and look to the north (right) of Saturp. This is the third and final conjunction of a triple conjunction that began in March this year. These two planets will not have another conjunction until 2028!

FULL MOON is at 12:51 a.m. on Nov. 13. The moon is fully lighted by the sun. It will have risen at sunset,

Look for the moon, in the east northeast, on the evening of the 13th: Above the moon and to the right is: the Pleiades (PLEE a dees) star cluster. The Plelades marks the shoulder of Taurus the bull and is a beautiful sight in binoculars.

Venus passes four degrees south of Saturn on the evening of the 15th. This is the first pass of a triple con-"junction that will conclude next

The moon is two degrees to the west (right) of Jupiter before dawn on the 16th. Jupiter is the 4th brightest object in the sky. Only the sun, the moon and Venus are brighter.

Close shave

Hawks trip Glenn for WLAA title, 23-15

By Brad Emons staff writer.

Farmington Harrison survived a series of hard knocks Friday, capturing its second straight Western Lakes Activities Association football title with a 23-15 victory over host Westland John Glenn in a battle of unbeatens.

The Hawks, who extended their unbeaten streak to 21 games, were given their stiffest test since a season-opening 34-18 victory over Saginaw Arthur Hill. - - -

Once again quarterback Mill Coleman was the catalyst.

The elusive 5-foot-9 senior, who also spent part of the night playing safety, completed 12 of 21 passes for 161 yards. He made several clutch plays, including a diving interception of an Eric Stover pass in the end zone to thwart a Glenn scoring threat just before intermission.

fense primed to force a Harrison punt, Coleman completed a 15-yard screen pass to Joe George on thirdand-12 from his own 17.

The first down enabled the Hawks _ to kill the clock and walk away with their third WLAA title in four years.

1 "I THOUGHT MILL was outstanding." said Harrison coach John Herrington. "They put a lot of pressure away from Farmington Harrison beon him and they contained his running pretty well, but he made some. big plays, including the one to Joe George.

because they (Glenn) were really jacked up at that point."

Glenn, which rallied the week before in the final seconds to nip Plymouth Salem, 7-6, for the WLAA's Lakes Division crown, had many of the same thoughts against the state's No. 1 ranked team in Class B.

With just under four minutes left to play, Stover completed an electrifying 55-yard touchdown strike to Mark Wetmore.

The Rockets, trailing 23-13, went for the two-pointer and converted on a pass from Stover to David Ryan, cutting the lead to eight.

On the ensuing kickoff, Harrison return man Roy Granger was nailed by a Glenn tackler just inside the 20.

The ball popped loose and a mad scramble ensued.

The Glenn side erupted in pandemonium when Bryan Clark came up with the ball, but officials ruled Late in the game, with Glenn's de ... Granger was down. There was not afumble and Harrison retained possession.

> GLENN COACH Chuck Gordon was furning about the referee's decision afterwards. He vehemently made his feelings known to the lead official after the final gun had sounded.

> "I don't want to take anything cause they're a great football team," Gordon said. "They're well coached and very deserving, but that was a horrendous call. It's a difficult thing

"We didn't want to punt to them —to explain to my kids, but we'll deal with it the best we can.

"I've never talked to an official in 13 years, never said 'boo," but there comes a point in time where you have to stick up for your players and I felt I had to speak out."

Glenn, however, had plenty of chances for an upset victory.

On Harrison's opening possession, Tom Luxton pounced on a Coleman Rockets stalled after dropping a pair of passes.

But on Glenn's next possession, Stover, who completed seven of 17 passes for 159 yards on the night, threw a perfect strike to Ryan, who made a diving catch in the end zone with only five seconds left in the pe-

And after Mark Wetmore's extra point made it 7-0, Harrison found itself behind for the first time since the opening game of the 1988 season against Southfield.

'IT REALLY DIDN'T bother us being down, but it bothered me and the coaching staff a little more because we were down against a good football feam," Herrington said.

The momentum turned Harrison's way in the second quarter as Coleman directed a seven-play, 76-yard drive capped by Matt Conley's 2vard run with 9:03 left in the half. but the Hawks were still down 7-6 when a rarity occurred.

Steve Hill's extra point attempt was blocked by Luxton.

But Hill and the Hawks came storming back again on their next possession.

The senior drilled a 37-yard field goal with 2:04 to play, giving Harrison a 9-7 lead.

Glenn then began maneuvering down the field again, marching down to the Harrison 26 to get into position for a go-ahead field goal.

"We didn't feel a letdown there, but we were in field goal range,' Gordon said. "Then again, we could have been up at the half."

Harrison's defense came up with a pivotal play at the outset of the third period.

UNDER A HEAVY RUSH, Stover was stripped of the ball by Blazo Sarcevich and George recovered it at the Glenn 33.

Suddenly the sun was shining. The wind died down, too. For the first time in days, the weather bordered on

Of course the change came too late. The match had ended a few minutes before, with Warren DeLaSalle holding on for a 2-0 victory over Redford Catholic Central in a winter-like Catholic League soccer final.

The weather conditions Saturday at Harper Woods Notre Dame were not the only contrasting elements. Rather, the frigid gusts that swept the field throughout the game, then surrendered to very-welcome warm sunshine after the game, provided one of the afternoon's several contradictions.

"Our approach to this game was, sure, we want to win the Catholic League title," said CC coach John Boots.

"But win or lose, we're going to play again Monday. If we lose Monday, our season's over."

SO AS MUCH as Boots would have liked to beat De-LaSalle, he figured it would be in his team's best interests to instead focus on the Class A state tournament, which the Shamrocks open today at Livonia Franklin.

"We wanted to have fun," said Boots. - On the other bench, the attitude was as different as the two team's playing styles. Moments after the titleclinching triumph, DeLaSalle coach Terry Mukhtar told

Boots how much the victory meant to the Pilots. "We really get ready for you because we think you have one of the best teams in the state," said Mukhtar to

Maybe so - CC (14-2-1) was ranked second in Class A by the coaches association last week - but the Shamrocks have yet to overcome the Pilots' defense consistently. Saturday's meeting was the third this season between the two sides. DeLaSalle leads 2-1; they are CC's only losses, and the only two shutouts CC has suffered

THE PILOTS, 16-2 overall, struck midway through the first half when midfielder Jeff Fratarcangeli crossed the ball to Craig Abraham. Abraham headed it past CC keeper J.P. Angell - which may have disappointed, but didn't'surprise, Boots.

"(DeLaSalle's) whole game is played above everyone's head," said Boots. "We wanted to bring the ball down and make them play it with their feet, where I think we'd have the advantage."

It didn't hurt the Pilots to have a half-dozen players well over 6 feet tall on the field — a sizable advantage in head-ball situations. Nor did it help the Shamrocks that perhaps their best defender, Jason Ries, has been

lost for the season with torn knee ligaments. Ries also happens to measure 6-foot-3.

But Boots would not use his "let's have fun" approach. or DeLaSalle's size advantage, or even the weather, as an excuse. "Our plan was to beat them to the ball, and we didn't," he said. "We didn't play as well as we should have. We had scoring opportunities. We didn't take advantage of them."

WHICH IS where DeLaSalle keeper Dan LeBeau en. tered into the picture. "Their keeper made two or three saves in the first half that kept them in the game," said Boots. "I wasn't that impressed with him before, but he sure did the job today."

Said Mukhtar: "Danny LeBeau was outstanding."

So was the rest of the Pilots' tight-marking defense. "We wanted to pinpoint their strong players and take them out of the play," explained Mukhtar. "We wantedto neutralize them and force someone else to beat us." -.

Avondale grinds out big win over Trojans

Auburn Hills Avondale (now 8-0) rushed for 309 yards and four touchdowns in defeating Clarenceville 26-7 in a showdown for the Metro Conference football championship.

The win was the Rhinos' 35th-consecutive regular-season triumph and earned them their fourth-straight conference crown. Avondale has won the league title all four years it has been in the Metro.

Clarenceville coach Vic Balaj was impressed with this year's version of the Avondale juggernaut.

They are by far the best team we've played against this year," he

THE FIRST-YEAR Clarenceville coach had reason to be impressed, as the Rhinos held his high-scoring offense to one yard rushing and a single score.

However, early in the game, it appeared the Trojans would have another offensive field day. Avondale's Jervon Lang fumbled the opening kickoff and Clarenceville recovered on the Rhinos' 9-yard line.

The Trojans came close to capitalizing on the fumble, but after a dropped pass in the end zone and a quarterback sack, Clarenceville faced fourth and goal at the 3. The Trojans elected to go for the field goal, but kicker Jay Larson's at-

tempt missed to the left. end zone. The successful extra-point only Avondale pass of the game. made the score 4.0.

The points continued to mount when the Trojans got the ball back. Clarenceville put together a 78-yard, Two contrasting teams met Fri-12-play scoring drive to tie the game at seven. The march was culminated

The drive was alded by five penalties for 39 yards against Avondale, Four of the calls resulted in Clarenceville first downs.

THE GAME remained tied until the Rhinos came through with the game's biggest play with less than a minute left in the second quarter.

Facing a fourth and 10 from the Clarenceville 49, Lang hit wide receiver Eric Merritt with a 47-yard halfback option pass to the Trojan 2yard line. Lang scored on the next play to give Avondale a 13-6 lead at intermission.

Clarenceville had moved the ball: well in the opening half, with Foss hitting 10 of 17 passes for 129 yards. But the Trojans scored just once.

The second half was a different story. Foss was held to 26_yards inthe air, and the Clarenceville ground game continued to struggle. The Trolans were able to manage just three

first downs in the final two quarters. The Rhinos' offense did anything but struggle, mounting two long marches to put the game away. The first drive covered 80 yards, took 13 plays and was capped by Lang's

scoring run from a yard out. The final Avondale points were the result of a \$7-yard, 11-play drive that took more than six minutes off the clock. Lang's 6-yard scoring jaunt finished it.

LANG WAS the star all game long Lang made up for his earlier error for the Rhinos, scoring four touch-on the first Avondale snap from downs and rushing for 264 yards on scrimmage, racing 80 yards to the 34 carries. He also completed the // "He is a great football player,".

said Avondate coach Rick Brewer. Clarenceville was able to stop the option part of Avondale's veer attack, holding quarterback Kevin Woodmore to negative 12 yards rushing on three carries. However, the Trojans could not stop the dive element of the veer; Lang gained almost all of his yards running between the tackles.

Balaj credited the Avondale offensive line.

"We worked against (the dive) all week," he said. "They were just blocking us. We even tried crawling into the holes and tackling their linemen's legs."

After a few minor adjustments, Brewer felt things started to fall into place for his offense in the second

"We went to twins (two split receivers instead of one) because we wanted to see some things," he said. "The things we saw, we didn't need. We were able to grind it out."

With their ground game stymled, the Trojans relied almost exclusively on the air attack, and Foss responded, completing 15 of 29 passes for 155 yards.

However, it's tough to win at any level when you can't run the football. Balaj knew his team would have trouble running against Avondale.

Big plays carry Franklin to an OT triumph.

The outcome of Friday's Livonia Franklin-at-Walled Lake Central football game was decided in-two plays. Thanks to Brian Stover, Franklin got the better of both, and won the game 13-12 in

The end result could easily have favored Central, which dropped to 1.7 with the Western Lakes Activities Association loss. The Vikings scored first on a 2-yard pass from Lawrence Kerver to Darren Bowers in the second quarter. The touchdown was set up by a 56-yard toss from Kerver to Nick Kiffner.

Franklin (now 3-5) tied it on defense. Stover picked off a Kerver pass and returned it 30 yards for a third-quarter TD.

With neither team mounting much of a running game - Central gained 48 yards rushing on 32 carries (1.5 per attempt); Franklin got 26 yards on 29 attempts (0.8) — it's hardly surprising the clock ran out with no further scoring.

Franklin won the toss to start overtime and elected to take the ball first. On first down; the Patriots were penalized 5 yards for illegal procedure, but it didn't matter, Brian Bartz found Jeff Graham with a 15-yard scoring toss in the corner of the end zone. Bobby Johnson's extra-point kick put Franklin up 13-6.

Central answered, however. Kiffner caught a 9-yard pass to the 1, and on the next play Brian Buchan powered into the end zone. The Vikings, though, did not have an adequate placekicker, so they went for the two-point conversion.

Joe Gough tried to get off a halfback option pass, but Stover sacked Gough to preserve the

Tapp to Larry Johnson. By the time Friday's game ended. Trenton's coaches must've been sick of that Wayne Memorial combination.

With good reason. Tapp, the Zebras' quarterback, fired three scoring passes at Trenton Friday, all to Johnson and all covering considerable yardage. Tapp's first TD toss to Johnson was in the first quarter, from 43 yards out. His second covered 22 yards and came just three seconds before halftime.

The last was, in keeping with tradition, the best: 94 yards, in which Johnson did most of the work, turning a short pass into a long scoring play. Tapp finished with eight completions in 13 attempts for 206 yards. He also kicked five of seven extra points.

Wayne, which improved to 6-2 overall and 5-2 in the Wolverine A League, had much more in its offensive arsenal. Todd Florn scored a pair of touchdowns, on runs of 15 yards (in the second quarter) and 22 yards (in the third). Greg Walker also had a 5-yard scoring run (third quarter), Walker gained 104 yards on 16 carries.

He was the workhorse in a six-play, 69-yard secondquarter drive, contributing runs of 27 and 18 yards. Pierre Hixon capped it with a 2-yard scoring run.

Trenton (2-6 overall, 2-5 in the WAL) wasn't hurting for offense, either. The Trojans got 88 yards on 18 carries and three TDs from Joe Surowiec and 178 yards on 17 carries and one TD, on a 63-yard third-quarter gallop, from Jerry Hopps.

WESTERN 21, STEVENSON 7: Livonia Stevenson outgained the visiting Warriors from Walled Lake Western, but costly turnovers ruined any hopes of

Western scored twice in the second quarter, and the Spartans never recovered. Jelf Kubik grabbed a tipped pass and returned it 60 yards for the game's first score. Craig Johnson's first extra-point kick put the Warriors ahead 7-0.

Mat Middleton made it 13-0 - Johnson added the placement - on a 4-yard TD run before halftime. The

Warriors added to their lead in the third quarter with a 5-yard run by John O'Mell and another Johnson kick. Stevenson's only points came on a Brian Piergentili plunge from a yard out in the final quarter. Jim Maye

booted the extra point. The Spartans finished with 89 yards rushing and 137 passing, 226 total. Sophomore Ryan Furkas, making his first start at quarterback, completed 12 of 19 passes.

He had two intercepted. "He did an outstanding job," said Stevenson coach Jack Reardon of Furkas' performance. "He's only been up with (the varsity) for a week. We're very, very

pleased with his effort." Stevenson limited Western to seven first downs (the Spartans had nine), 84 yards rushing on 26 carries (3.2 per try) and 65 yards passing, with three completions in 10 attempts. The Warriors totalled 149 yards. .

Kevin Corradi was in on 10 tackles and Piergentili had eight for the Spartans, who dipped to 3-5 overall and 2-4 in the WLAA's Lakes Division. Western is 2-6 overall and 2-4 in the Lakes.

MOTT 28, RU 0:It really wasn't as bad as the . final score might indicate. Or maybe it was.

Redford Union could muster virtually no offense Priday at Waterford Most. Sophomore quarterback Brian Theis completed six of 15 passes for 39 yards and had one intercepted, another sophomore, running back Don Carney, led the ground game with 35 yards on six at-

tempts. Other than that, there was little for the Panthers to yowl about - even though the game was scoreless until the fourth quarter. Mott got on the board with 10:57 left to play on a 1-yard run by James Branch.

RU started to collapse after that. Scott Sagamang increased the Corsairs' lead to two touchdowns with a 27-yard run with 5:53 left. The final 4:16 was a nightmare for the Panthers; they coughed up the ball three times on an interception and two fumbles.

Al Arellano raced 34 yards with a fumble for a TD with 4:16 left, and - after an interception - Tom Bradley bulled in from 9 yards out with 40 seconds remaining to cap the scoring.

Mott, which improved to 3-5, rushed for 222 yards but was frustrated by two missed field goals by Arellano in the first half. RU, which slipped to 0-8, wrecked its chances for victory by committing four major penalties for 60 yards in the last quarter.

Bobcat back runs outmanned Cougars ragged

By Ray Sellock staff writer

When the snow began to fall at Garden City High School Friday, the Cougars also began to fall, all the way to a 49-14 trouncing at the hands of Bay City John Glenn.

A sparse crowd turned out to see Bobcat tailback Bryce Sturtz gain 195 yards on 19 carries. The 5-foot-10, 170-pound senior scored five touchdowns, one a 72-yard run on the Bobcats' opening drive.

"When you have a line like I have blocking forme, you can't help but do well. Those guys aren't big, but they play with a lot of heart."

Following his opening 72-yard touchdown run,

Sturtz came right back on the Bobcats' next possession to give them a 14-0 lead. COUGAR TAILBACK Frank Gotham took charge on Garden City's next drive, darting 3

yards into the end zone for a touchdown. The Cougars failed to convert the extra point and found themselves down 14-6 at halftime. The downfall accelerated in the second half for Garden City, as Bobcat quarterback Marc

Uhlmann connected with wide receiver David Hennard on an 11-yard touchdown pass and a 21-6 Bobcat lead. Just minutes later, Gotham bolted 8 yards through the Bobcat defense for a Cougar touch-

down. John Samborski scored the two-point con-

version, but that was the last time Garden City's

offense would be heard from.

Sturtz scored on runs of 1, 2 and 10 yards, and fullback Brian Stopyak concluded the Bobcat scoring with a nifty 3-yard dash through the Garden City defense.

"This is a real big win for us," Loop said. "We now have a chance to play for an undefeated season. That is the goal our kids set at the beginning of the year, and I'll be damned if they don't reach

THE BOBCATS accumulated 445 yards total offense, compared to just 193 for the Cougars.

Sturz was supported by fullback Shawn Snable, who gained 98 yards on seven carries. He set up a third-quarter touchdown with a 15-yard run.

Although the Bobcats kept the ball on the ground much of the game, Uhlmann still managed to complete two of five passes for 42 yards. He threw one interception. Mike Moore converted seven extra points for

the Bobcats.

Gotham gained 128 yards on 28 carries for Garden City and scored both Cougar touchdowns.

Madonna, Ocelots post big collegiate victories

The action and performance equalled the importance of Thursday's NAIA District 23 volleyball match between Madonna College and Aquinas College. So did the time span - three hours - needed for the Fighting Crusaders to subdue Aquinas 15-9, 13-15; 15-13, 15-17, 15-10, at Madonna.

The victory clinched second place in the district for Madonna (22-10 overall) with a 7-1 mark. Northwood Institute repeats as district champ at 8.1; Aquinas is 6.2 in the district, 18-6 overall.

The attacking of Tonia Smith (from Walled Lake Central) and Stacev Girard (Redford/Livonia Ladvwood), both freshmen, and Kristy McFadden (Redford Bishop Borgess), a sophomore, triggered the Madonna triumph. Smith established a Crusader team record for kills in a match by collecting 34; Girard had a personal best of 29, and McFadden chipped in with 16.

"It was definitely the best of the year for us," said Madonna coach Jerry Abraham. "It was an outstanding effort. Aquinas played great defense — it was just a super game.

"We hung in real tight as a group." Every time we needed a big hit, we got one. Our passing and defense were exceptional."

Lynn Bernwanger, a freshman setter (Walled Lake Central), ran the 5-1 offense superbly, said Abraham, and sophomore Lisa Dreske and

volleyball

freshmen Ann DiMambro, Melissa Mars (all from Borgess) and Maria Wordhouse (Plymouth Salem). sparked the defense. Wordhouse had five solo blocks for kills.

Madonna hosts St. Clair College of Windsor tonight, then travels to Alma College Tuesday.

SCHOOLCRAFT COLLEGE kept rolling along in the Eastern Conference — the Lady Ocelots have not lost a conference match in four years - by dismantling Oakland Community College 15-3, 15-8, 15-8 Thursday at OCC.

The net play of Angellette Love, Elena Oparka and JoAnn Kolnitys (Wayne Memorial) carried SC to the victory, its seventh-straight in the conference (23-6 overall). Love had 12 kills (500 kill average), Oparka contributed nine (.412) and Kolnitys finished with three solo blocks and two block assists.

Setter Jenny Sproul (Livonia Churchill) had 22 assists-to-kills, Alisha Love had four service aces in the first game, and Anjanette Lankford (Garden City) contributed two kills, one ace, four digs and two block as-

Over 40 percent of the people over 64 years old in this country live alone. By the year 2000 their number will have doubled. Many are poor. Most are widowed. And when they need care, often there's no one to turn to.

Your donation to the United Way Torch Drive supports 153 agencies in Wayne, Oakland and Macomb counties like the Walter P. Reuther Senior Center and Adult Well-Being Services. Plus, you'll be helping other agencies that feed the

hungry, counsel troubled youth and conduct medical research.

Please, think about how much your contribution does and how much more there is to be done.

And this year, give even more to the United Way Torch Drive.

Because old age is no time to be left alone.

Detroit has a reputation as a pretty tough city. And this weekend, it's a safe bet that it will be the toughest in the world.

The 1989 North American Karate Championships will be at Cobo Arena Saturday and the baddest dude in the city will be there. Is he a 6-8, 300-pound Joe Palooka? Naw, just 5-7, 160-pound Willie Adams.

Adams, you see, is and eighth degree black belt, chief instructor at the Southfield Martial Arts Institute and Tournament chairman of this weekend's contest.

Adams has mastered the control over his mind and body to a point that borders on something supernatural. And the key to his mastery is just that . . "key power."

"Key power comes from deep inside," said Adams, who has been practicing the Isshin-Ryu style of karate for some 26 years. "It is the ability to ignite your adrenalin resources when you need to . . . It's stronger than anything in this world."

It's also mysterious.

A bit of Paradise in the U.P.

By ris Sanderson Jones contributing travel editor

I am sitting at breakfast at the Little Falls Restaurant, looking down the road into Paradise. The only time I ever hear of this little town is when a television weather-caster gets bored on a cold, cold winter's night and says "and it's cold in Paradise today..."

Paradise is in the eastern Upper Peninsula 12 miles south of Whitefish Point, the last finger of land that guards the bay north of the Soo Locks. Pass it and you're in the

open waters of Lake Superior.

The town is only a block or two long on M 123, starting here at the Cedar Lodge, run by Jim and Shirley Stabile, at the south end of town, and wandering past rustic gift shops, restaurants, grocery stores and balt and tackle shops to Curley's Motel, run by Bill Ferguson at the other end of town.

Bill serves the area's biggest and hest pastles at T.J.'s Restaurant across the street in what still looks like an A and W root beer place.

Paradise is a popular little tour-

ist town summer and winter, but it

ed by state and national forests, so it's a winter heaven for snowmo-bilers.

Jim Stabile tells me that the Paradise Chamber of Commerce groomed the first snowmobile trails in Michigan in the early 1970s. Whitefish Township now has 250 miles of the most lovingly groomed cross-country ski trails in the UP and keeps three snow-grooming machines working full time in season.

SNOWMOBILERS are so welcome here that they ride right on the roads along with the cars. They are so plentiful that they fill rooms as far away as St. Ignace, so reserve early.

If you drive or snowmobile through the Paradise area you could easily believe that there is nothing here except a wondrous spread of treed wilderness, but this was a very busy place a century ago and the whole history of the Great Lakes is jucked away among these forests and waterways.

French explorers Radisson and Grosellliers spent 18 months in the Great Lakes area in the 17th century and in 1660 took 60 canoes full of fur pelts back to Montreal, many of them beaver skins from what is now Whitefish Township.

MOVING PICTURES

Paul Newman stars as Gen. Leslie Groves, commander of the Manhattan Project, and

Dwight Schultz as J. Robert Oppenheimer, project director, in "Fat Man and Little Boy."

'Anatomy': College life that's slow and bland

Strangely enough, "Gross Anatomy" (C-, PG-13, 105 minutes), a film about first-year medical students, isn't all macabre. That's rather surprising these days, when filmmakers seem to be intent on gross images and gross dollars.

One expects such a film to be_ filled with grisly black humor - at least in today's market. But "Gross Anatomy" is quite bland and, for a romantic comedy, rather slow.

The film centers on five diverse, unlikely lab partners, freshmen at Chandler University's College of Medicine - Joe Slovak (Matthew Modine), the hot-shot son of a fisherman, Laurie Rorbach (Daphne Zuniga), the demure, intense student who wants to be a surgeon like her mother, the stressed-out David Schreiner (Todd Field), the very spooty Miles Reed (John Scott Clough) and Kim McCauley (Alice Carter), an Oriental woman whose husband just wants her to have lots

In an overwhelming, overburdened year, "Gross Anatomy" is their major trauma. By working together, they survive and achieve. But it didn't seem as hard as they

Their instructors are Dr. Rachael Woodruff (Christine Lahti) and Dr. Banumbra (Zakes Mokae). Lahti's fine acting talent is lost in a poorly conceived and weakly directed characterization, while Mokae looks slightly guilty, as if he were a refugee from a zomble movie caught with all those cadavers. (He was in "The Serpent and the Rainbow.")

DESPITE PR protestations to the contrary, the model cadavers looked like the plastic from which they were constructed and had as much impact as any other non-blodegradable debris.

The pregnant Kim wears a respirator mask sometimes. Does this mean formaldehyde odors are only occasionally dangerous to her fetus? The intermittent use of surgical gloves during dissecting procedures also strikes a discordant note. It may be all very authentic, but it doesn't matter. How it looks is the main consideration in movies and none of this seems right.

Audiences need not worry If the slow pace and lack of tension calls for a nap. "Gross Anatomy" plods along intermittently, so little is missed when the eyes close. Most often the characters will be in the same position when the eyes open.

Characterizations are well-drawn initially but their potential is frittered away and tense interaction never materializes - in considerable part because of excessively long takes. Not too much happens a lot of the time. That just isn't exciting.

Like a TV soap opera, in casé you miss an episode, you won't feel left out. Whether mooning over each other, their cadaver or their medical ethics, these five students flunk out of the School of Dynamic Behavior?

"NEXT OF KIN" (*, R) sounds like a film about people whom one is relieved to discover are not related. Patrick Swayze continues to build the movies Dan

No advanced screening

"Fat Man and Little Boy" (A-, PG-13, 120 minutes) is a well-crafted, superbly acted film. It is one that makes you think and question the big

picture. The movie chronicles the development of the atomic bomb and raises overwhelming issues — and it doesn't stop there. "Fat Man and Little Boy" — the nicknames for the two bombs dropped on Japan - also tells the personal stories of the men who developed "the gadget."

Paul Newman as General Leslie "Dick" Groves is nearly flawless in his performance. Groves, the man in charge of the Los Alamos project, was so far out on a limb, there was barely a twig to support him as World War II wound down. Yet he had to maintain a confident, demanding demeanor toward the scientists, particularly their leader, Dr. J. Robert Oppenheimer, portrayed impeccably by Dwight Schultz.

Despite long-standing communist sympathies, Oppenheimer was a very American American. The clash of wills between Groves and Oppenheimer as the project draws to a close amidst a developing crisis of conscience among the scientists creates a tense drama.

THE FILM is narrated by Michael Merriman (John Cusack), a young scientist whose daily journal narrates and comments on the action, and in so doing very pointedly keeps "Fat Man and Little Boy" from becoming just another political soap box on the horrors of atomic war-

The final image of the conflagration let loose in a nuclear explosion is both insidious and compelling. It's a sight seen with thoughtful eyes at the end of this focused, intelligent filmmaking effort. (Reviewed by Susan Fincham)

ALTERNATIVE VIEWING

'Sorceress' conjures boredom

By John Monaghan special writer

He's the son of a wealthy count, pledged to the ionely life of a Dominican friar. He roams the countryside, weighed down by a heavy conscience, hunting for heretics in the name of the Lord.

She's a beautiful herbal healer leading a simple, fulfilling life in the woods. The good friar, however, accuses her of devilish witchcraft and insists that she be burned at the

A film chronicling this meeting could have been powerful stuff. But in the French-made "Sorceress" playing this weekend at the downtown Tele-Arts Theatre - it's handled in the clumsiest way possible.

"Sorceress" started with good intentions. First-time screenwriter Pamela Berger, an art history professor at Boston College, has long been fascinated with the Middle Ages. She based her story on the writings of Etienne de Bourbon, a

13th Century country friar who kept vivid accounts of his travels.

ONE OF the more unusual passages concerns a dog cult begun by superstitious villagers. The film's opening scene shows a greyhound mistakenly killed after saving an infant from a poisonous snake. The villagers bury the dog in sacred ground and worship him as a saint.

This infuriates Bourbon, who arrives in the tiny village preaching a pious brand of fire and brimstone. . He's too blind to see that the locals' real problem doesn't include the dog saint or Elda the healer, but the sadistic landowner who constantly taxes and preys upon them.

"Sorceress" is directed by Suzanne Schiffman, a longtime collaborator of Francois Truffaut. It's easy to see the similarities between this and the late director's work, especially in the simplicity of her images.

Unfortunately, the effect here is something less than poetic and certainly more trudging and dragging than Dungeons and Dragons.

The actor who plays Bourbon may look a little like Gerard DePardieu. but he's as wooden as the cross that hangs from his neck.

Remember the crazed heretic. hunters in Ken Russell's "The Devils" or the emotion of Carl Dreyer's "Passion of Joan of Arc." You'll find little of that here, with the saintly Elda so easily resigned to her fate and Bourbon walking around in a trance.

PART OF the problem may be the dubbed video version I saw. Tele-Arts owner Carl Allison-assures me that the print screening this weekend will be the English language version that was shot simultaneously with the French.

Still, I can't imagine that French actors stumbling through a foreign language will help the stilted proclamations that pose as dialogue. "Sorceress" would be difficult viewing in any language.

Film chronicles 1919 riot

By Dan Greenberg special writer

"The Killing Floor" (1984, mostly color, PG, 118 minutes) is an important chronicle of the black experience in America.

It's the story of Chicago's 1919 race riot and the background to those riots - racial segregation, economic deprivation and attempts to organize labor in Chicago's stock yards and meat-packing plants, the site of Upton Sinclair's "Jungle" 15 years earlier.

An expanded economy and depleted labor pools characterized the World War I home front. Big cities throughout the country desperately needed labor for the war machine. Blacks from the south and numerous rethnics fleeing persecution and destruction in Europe were attracted to northern factories and their substantial wages.

Based on actual events, "The Killing Floor" is a social docudrama that rises above normal expectations of that genre. It is a dramatic, compelling and highly personal look at the people behind the headlines the people who make the news but seldom appear in it.

Hearing of good jobs and high wages, Frank Custer (Damien Leake), a southern sharecropper, leaves his wife, Mattle (Alfre Woodard), and hops a freight north with his best buddy, Thomas Joshua (Ernest Rayford).

They settle in a Chicago flop house and look for work. The stock yards are hiring, blacks as well as whites, since labor was at a premium and getting meat to the troops fighting in Europe was the priority. Frank is hired, but Thomas is not. Finally, losing hope, Thomas joins the Army and goes off to fight in Europe.

SWIRLING IN in the background of Frank's dedication to bringing Mattle and the kids north is conflict - racial and labor. Under the leadership of famed Chicago labor leader, John Fitzpatrick (James O'Rielly), union organization of blacks, Poles, Lithuanians, Germans, everyone who worked in the meat packing plants, continued until full management recognition in the '80s.

Union struggles in this period were flerce with only occasional, partial victories. During the World

'The Killing Floor' is an absorbing drama peopled by characters who incidentally represent some pretty significant times in American history.

War I, to keep the meat moving to the front, the U.S. Government appointed a federal judge, Samual Alschuler (Nathan Davis), to arbitrate between union and management. This limited union victory is central to "The Killing Floor" plot.

Frank Custer is torn by his acceptance into the union by whites, particularly a German-American shop steward, Bill Bremer (Clarence Felder) who helps him become a butcher, a considerable step up from his cleaning job.

That acceptance by whites must have had a considerable psychological impact on a southern black sharecropper. But why the acceptance in a period when the north was still segregated?

Some blacks mistrusted whites, be they union or management, and were certain they were being used. Austin "Heavy" Williams (Moses Gunn) was one such individual and, of course, he was right to some considerable extent as the meat packers used black labor to break strikes.

Frank is propelled into this maelstorm as he joins the union and becomes an organizer. But his wages are high enough for him to bring Mattie, their children and her father

FRANK CUSTER'S voice-over narration and period newsreels (in black and white) effectively link "The Killing Floor's" rather involved segments covering the 21/2 years from early 1917 when Frank and Thomas come north through late 1919. Because of these two techniques, one personal and intimate, the second general and historical, there is no question about what's going on and when. Nor does the film ever lose its personal touch and intimate focus.

That's the bottom line on "The Killing Floor." It's personal touch. Frank Custer is an engaging young man, someone to care about. He and the others in this film are human beings caught up in difficult times. Most of them deal with their problems with strength and courage.

Excellent acting and an intelligent script skillfully personalizes the ethnic and economic conflict that tormented their lives.

"The Killing Floor' is an absorbing drama peopled by characters who incidentally represent some pretty. significant times in American history. You can take your history or leave it, but there's no doubt about the people in this drama, they will

Area band applies laid-back approach

Formed partly through a friendship at a beer store, the Sea Monkeys are indeed a strange brew.

The lanky guitarist, bandana on his head, strides in well-past interview time. A pack of Merit cigarettes are presented on the table as his tardy slip.

-- "Sorry-about-the late-thing," said Dan Brooks, pulling up a chair.

Polite to a fault, the Sea Monkeys are a three-man band that seeks neither to offend or alienate. Their music is cover-oriented with a sprinkling of originals.

The sound is guitar-driven rock'n'roll with Brooks carrying a cat-ate-the-canary grin throughout the set. He's paired with lead singer Nick Jones, who approaches the microphone cautiously like it's a foe to be conquered.

Contrary to the often heard advice of go west, the Jones-Andrews tandem headed east - to Ann Arbor. Jones managed a beer store where he met Brooks, who served in the Air Force after graduating from Ypsilanti High School.

Brooks played guitar; Jones. played bass. The two decided to get together to make some music.

"It went terrible," Jones said. "We have nothing in common musically. We still don't."

"It was horrible actually," added Brooks later. "Finally, we packed up and blew it off for a week or two. Then we got together in a little room and started writing this song. There was about seven of us. Something clicked."

BREAK **OF HEARTS**

- Katrina and the Waves

The year was 1985; the song: "Walking on Sunshine."

It was a near-perfect summertime ^ hit. But as radio airplay restrictions increasingly forced bands to make a choice between pop and rack, this British-American congregation found itself out in the cold.

Their debut album yielded no more hits. A solid second effort fell through the cracks. Now, with "Break of Hearts," (SBK) they try again.

This time, the focus is more squarely on rock. (Check the scrufty cover photos.) Trouble is, the band's light touch is more suited to pop.

'Rock 'n' Roll Girl," the leadoff track, is case in point. It's a fun, driving tune, more than a little reminjecent of some of the lighter moments on Springsteen's "Born in

the USA" album.
"That's the Way," the first single, is also the album's most typical

track with its big beat and massive harmonies. Not surprisingly, it is tile band's biggest hit since you-know-

The rest is competent, if not as memorable. Kansas-born Katrina Leskanich is a good vocalist - imagine Wynona Judd more heavily steeped in rock. Her British-based Waves play loudly, but avoid heavy metal cliches or soggy pop bombast.

"Can't Tame My Love" and "Rock Myself to Sleep," the album's closing track, move into Joan Jett territory - a wise move. While not a major player on either the pop scene or heavy metal radio, Jett's hook-laden rock has nonetheless found its niche. At the very least, it's enabled her to keep her career affort. And career viability is something Katrina and the Waves desperately seek.

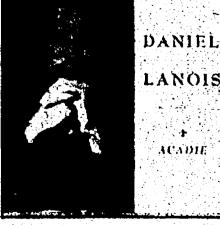

The hope here is that they succeed. - Wayne Peal

ACADIE - Daniel Lanois

Daniel Lanois has come to prominence over the past few years because of his production credits. His most notable achievement was coproducing U2's "Joshua Tree" LP with Brian Eno. Since then, he has produced a fine album from the Neville Brothers and recently, the latest one from Bob Dylan, which is quite

powerful, according to all reports. Here, Lanois steps out from behind the desk to go to the other side of the studio console. His is guite an accomplished singer and guitar player that has no doubt accounted for his understanding of other artists' motivations when producing.

Canadian by birth, he shows his Gallic heritage on this LP with a lot of the vocals being sung in French. This, combined with his "folk" style of googwriting and use of acoustic guitars and accordions, sometimes gives this LP a "Cajun" feel, particularly at the beginning of side one. Whether for this reason or the strength of the songs, these songs are the best on the LP.

From the subtle harmony basses, played by Tony Hall, on "The Maker" to the atmospheric guitar on "Fisherman's Daughter," the quality of musicianship is high. This is understandable when you see that Lanois has called upon the people with whom he has worked best -Eno, Adam and Larry from U2 and a variety of Neville Brothers.

On "White Mustang II" and "Hawkwind" in particular, Eno's atmospheries combined with the guitar sound, run dangerously close to a "U2" sound. It makes one wonder who inspired, or ripped off, whom. A curious case of the chicken or

ly identifiable version of "Amazing Grace" (Yes ... that Amazing Gracel), but my own particular hatred for that song colors my opinion. The strength of the first few songs

makes the album at least worth borrowing from someone. Cormac Wright

THE HEALER -John Lee Hooker

What can you say about a legend of American music?. You don't say anything. You just listen.

This latest effort from the blues great is something to behold. The twang from the guitar, the growl from the man have been a major influence on a great number of musicians like Pete Townshend, Bob Dylan, Bono of U2 and the list goes on and on.

Some of Hooker's most ardest admirers step forward and load a hand on the LP Carlos Santane, Robert Cray, Bossie Raitt, Los Lobos. George Thorogood, Cannod Heat and Charlie Musselwhite accompany

The result is some tast and enjoy The album finishes with a unique mable bless music. Like, for instance, the Latin rock flavor provided by Santana takes a sperse, urben blum number, "The Healer," and points it in several different munical shades.

Bonnie Raitt Jumps in right on cue with Hocker in "I'm in the Mood." providing the right harmony. Hooker's guitar work.

In other songs, one can seeme almost a timidity from the guest artists. Perhaps it's an over effort not to step into Hooker's territory. Or, maybe it's case of strapty being in awe of Hooker. After all, the man to A logend

Such seemingly is the case with Robert Cray in "Buby Lee." This has all the excellent makings of the classic pupil and the master year, a chance to hold up the rock style of blues with the traditional

Instead of coming out on fire, Cray merely trades slow guitar links with the great. Not bad, but you enpect more.

Dare to win. Swim with the sharks. Be a peak performer.

Corporate America is pouring millions into motivational books, tapes and seminars to inspire their sales staffs. Top companies are hiring eyeryone with Ph.D.s to eastern gurus to psych up their sales teams.

Meanwhile, the greatest potential sales force in the country remains virtually untapped. Despite the heavy emphasis on self-actualization and personal growth for humans, there's yet to be a single motivational program for household pets.

Not until now, that is. Thanks to this exclusive tape offer, you can now "unleash" your dog's hidden talents.

Let's face it. Most dogs mope around the house day after day. The sad truth is they're not lazy, they're just not motivated. Using the techniques on these tapes, your dog can quickly become the most productive member of the family.

Why let Rover just lay there, consuming oxygen, when he could be out earning big bucks selling door-to-door? During his lifetime, the average dog cost his owner thousands of dollars in food, veterinary bills and pedicures. Now, your pet can pay his own way, meet new friends and leave you with a healthy investment portfolio when he checks into the big doghouse in the sky.

FROM BRUSHES to water filters, steak knives to vinyl siding, there's no end to the products man's best friend can peddle right in his own subdivision.

For the first time ever, your pet can hear trade secrets from awardwinning salesmen like "Overcoming Dog Breath" and "How to Keep From Barking up the Wrong Prospect."

Order now and you'll receive "insider" business tips, such as teaching your dog to drive, which breeds can handle a stick shift and what to do when your pooch chases a cat with the family wagon.

Call today and we'll include two exciting biographies from financially independent dogs — "From the Back Alley to Silicon Valley" and "Liz Taylor Shares My Dish."

Liz Taylor Shares My Dish."
In this tape album, we share the

Karl Nilsson

kind of surefire closing techniques that human salesmen can only dream of. Techniques like "The Slobbery Lick on the Face Close" and "Chew on the Furniture Close." Your dog will even master the powerful "Demonstration Close."

For instance, he can prove the power of a new vacuum cleaner by rolling across the prospect's loveseat, then sucking up his own pet hairs. If he's selling cleaning supplies, he'il-learn how and when to soil the carpet for the most dramatic demonstration possible.

BUT WAIT, that's not all. A special bonus tape will give Bowser the sales advantage of a more powerful vocabulary. Like it or not, people judge your dog by the way he speaks. To build your dog's fluency, we've lifted actual dialogue from the TV shows_dogs like best — "Lassie," "Huckleberry Hound" and "Joan Rivers."

Extra care is taken to explain figures of speech that are especially puzzling to dogs, phrases like "His bark is worse than his bite," and "It's a dog-eat-dog world."

These tapes will explain how low self-esteem, boredom and uncontrolled tartar combine to force your pet into delinquency. You'll discover how you're also to blame for undermining his self-concept through insensitive expressions like "My blind date was a real dog" and "This town's going to the dogs."

WHY. AM I so sure your dog can sell? For years, I suspected dogs were much smarter than they pretended. Finally, my theory was confirmed in the best seller, "Charlots of the Dogs."

In it, Professor Heineken reveals how the Great Pyramid of Egypt was actually built by dogs to bury soup bones in. His startling research suggests that the Aztecs weren't visited by aliens from space, but poodles from New Jersey.

And archeologists now agree that the mysterious statues on Easter Island are merely one dog's tribute to his favorite mail carrier.

When in doubt, change

Dear Ms. Schiff,

I cannot believe I am writing this letter, but I need advice desperately. I have been married for nine years to a wonderful man and have had children. All of my friends see us as the perfect couple,

If I take a real look at our life, I suppose we have been lucky, both financially and personally. My husband treats me good and except for the normal ups and downs, our marriage is strong.

Now the question. Several months ago, I met a single man through a girlfriend. I have been working for years and have had opportunities to see other men (through my business I have met men), but have never been interested. This man interested me and it shocked me. I am so against extramarital relationships.

I cannot understand why my feelings are so strong. My girlfriend informs me he feels strongly about his feelings toward me. The attraction was so strong, but I have said I am not interested. Why do I keep thinking about him? Should I see him and keep it strictly Platonic or just try to forget him? I am more shocked by my feelings than anything, but as hard as I try, they won't let up.

Please respond.

Dear Mrs. No Name,
Your letter both interests me and
allows me to verbalize to my readers a problem which I have encoun-

tered in writing this column. The problem stems from having laid down a principle of avoiding as much as possible recommending quality help—for example, therapy. The result is that I have had to blunt some of my answers. I hope I have done so tactfully.

Some readers have written, complimenting me on the directness of my responses. This has encouraged me to continue to be straightforward. With that said, I will be candid in my reply to your question.

There are contradictions in your letter that I don't understand. You say that all of your friends see you as the perfect couple. You don't say that you have a perfect marriage. Thus, I infer that whatever needs are not being gratified in your marriage are coming out in your fantasies toward the new man. This is often the purpose of extramarital relationships and I hope it helps you understand why you keep thinking of him.

The other contradiction is that you talk about the mutual attraction between both of you and then bring in the word "Platonic," which doesn't

I have mentioned the movie, "When Harry Met Sally," in this column before. The message in the movie is that there can't be a Platonic relationship between a man and a woman. I would add that non-sexualfriendship is particularly unrealistic when there is a mutual attraction,

such as the one you describe.

In "Sex, Lies and Videotape," another recent movie with a similar theme, the hero says to the heroine that men learn to love the women they are attracted to but women become attracted to the men they love. In other words, even with the best of intentions, your relationship with the other man would become physical.

So what do I think you should do? I don't think you should see him. Instead, you should change yourself by becoming more involved in self-development and growth and thus be

more able to satisfy your own needs.
Then your excitement about your own life would diminish and possibly eliminate your need for this man's attractiveness and other qualities.

This is not an easy path, requiring as it does self-discipline and denial, but it brings the rewards of integrity and accomplishments.

Dear Barbara,

I used to enjoy a close relationship with my brother. He is two years older than I am. I am 39. Several years ago we had a falling out over a difference of opinion. I remained friends with his abandoned wife when he married another woman who had been the spouse of a good friend of his.

Now, he refuses to have anything of do with me unless I am approving of his action. I called him recently and he said, "Stop harassing me, I'll call you if I want to talk to you." This makes family gatherings non-existent and is very hard on our parents who love to have their family together.

Birmingham

Dear Birmingham,

1. If that is what he said, then you have no choice but not to call him

and that defines your relationship with him.

2. The relationship between your parents and your brother is between

2. The relationship between your parents and your brother is between them and you have no power to change it.

The ability to accept reality is a marvelous aid toward a happy life.

Thousands of ships sailed past Whitefish point and many of them stopped in the Bay to pick up saited fish, cranberries picked by the Indians in marsh farms, and the logs cut by the timbermen who moved into the area in the 1880s.

Many of those ships were shipwrecked near Whitefish Point, and you can relive their stories in the Great Lakes Shipwreck Historical Museum beside the still-working lighthouse at the Point, where agate lovers walk heads down in search of the famous Lake Superior agates that wash up on the sand beach.

This very fine little museum is built around an enormous lens from the White Shoal Lighthouse, surrounded by displays and dioramas of the shipwrecks that have haunted Whitefish Point for centuries.

UNFORTUNATELY, you can't visit on the 13th anniversary of the

sinking of the Edmund Fitzgerald, which went down Nov. 10, 1975. The museum is only open Memorial Day through Oct. 15. I suspect they might open the museum by special request, however. Contact the Great Lakes Shipwreck Historical Society Inc., Rte. 2, Box 279-A, Sault Ste. Marie, Mich. 49783, or call the Eastern U.P. Tourist Association in St. Ignace at (906) 643-7343.

The tourist office will also send you a big snowmobile trail map and information about how to enjoy late fall and winter activities here.

If you are really into fall and winter activity, you can bicycle or snowmobile from Houghton Lake in the Lower Peninsula to the far western border of the Upper Peninsula without any support system other than a Mackinac Bridge Authority truck that takes you across Mackinac Bridge by appointment. Call (906) 643-7600. Bikes cost \$1, snowmobiles \$1.50.

Summer visitors enjoy the logging history of the area by touring the new Taquamenon River Logging Museum in Newberry, another very fine little museum that closes in the fall. You can still follow the museum boardwalk to the riverbank where logs were once piled up during the winter and sent down the river in the spring, and you can walk, ski or snowmobile down the riverside trails to Tahquamenon State Park.

The park and the paths to the upper and lower falls are open all winter; thousands of snowmobilers and cross country skiers follow its trails.

IN THE FALL, when the country is ablaze with color, it is a wonderful five-minute drive by car from the Upper to the Lower. Falls, where you can row a small boat across one arm of the river to photograph the rapids in their gold and red setting.

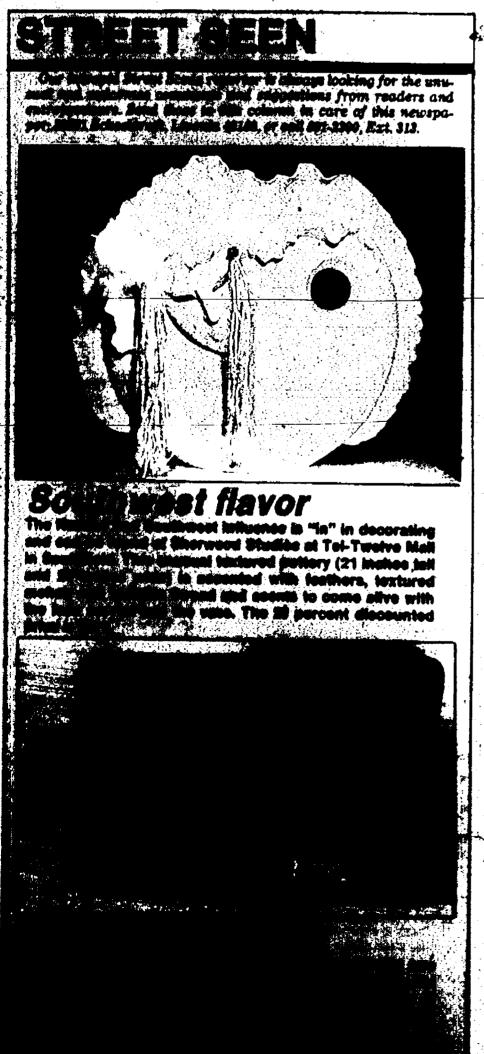

In the old days, the log booms followed the river to Whitefish Bay, but you will probably follow the road now to Paradise and Whitefish Point.
You will find accommodations in half a dozen roadside motels, or in area bed-and-breakfast homes, and end up eating pancakes and sausages in a roadside restaurant like this one, which is connected to the Cedar Lodge, a one-story log motel with

adjacent cabins in Paradise.

If you like sunsets, buy one of Bill Ferguson's pasties, and one of his giant-sized homemade cinnamon buns, and eat them on the beach at White-fish Point, with the shipwreck museum behind you and the souls of 100 sunken ships out there beneath the beautiful calm waters of Lake Superior.

For information, telephone the state toll-free at (800) 5432-YES; write to the East Michigan Tourist Association, 100 Marley St., Ignace, Mich. 49781, or to the Upper Peninsula Travel and Recreation Association, P.O. Box 400, Iron Mountain,

A trip down Laugh Avenue

By Lorraine McClish staff writer

Mike Veneman may be the star of the show at Joey's Comedy Club Wednesday through Saturday, Oct. 25-28, but it's business as usual for the comedian whose life has taken a long and funny road.

It originates from his Ohio base criss-crossing the country spreading his own brand of humor. He's already put 76,000 miles on his less than two-year-old car and that doesn't include the miles traveled in airplanes.

But driving is better than flying for the man who once described an airport as "Mardi Gras gone mad."

Veneman has performed in Detroit twice since he became a fulltime stand-up comedian three years ago - once at Puzzles and once in Chaplin's East. Show-goers who missed those shows might have seen the heavy-set young man with the easy-go air of assurance in an Oct. 16 comedy special on Showtime.

It was Veneman's first nationwide cable TV appearance and one more step up the long. TV ladder to "the ultimate goal of appearing with Carson or Letterman," he said.

Veneman's first step into the world of comedy came with entering and winning — amateur night in Hilarities Comedy Club in Cleveland. The club's booking agent asked him to work professionally in the club

In the wee, wee hours of morning

By Stephanie Drobot special writer

The moon is still high in the sky when Colleen Burcar starts her morning. The public affairs director for WKQI 95.5 FM - previously WCZY - she wakes up when her alarm buzzes at 4 a.m.

Part of the early-morning routine includes leaving her Bloomfield Hills home as quietly as possible to avoid disturbing her family — husband Bryan Becker and daughter Kimberly.

Once at the radio station, Burcar checks the news service wire for stories for her newscasts.

lough Burcar loves her job at WKQI, she maintains that a adcast career isn't glamorous by any stretch of the imagina-

"I get in generally at 5:15 a.m., pull together a quick newscast in 10 minutes and then I'm on the air," she said.

Throughout the remaining hours, she rechecks the Associated Press wire copy constantly for news updates, basing her topics on what people are talking about on the streets. She also chooses a "kicker" - an informative funny story - to end her newscasts on a positive note.

The majority of the WKQI staff arrives by the time Burcar reads the last of her five broadcasts at 9 a.m.

IN SPITE of her early mornings, Burcar is a Carolyn Hough, a former WCZY receptionist.'

"She's a fun-loving person and a pleasant individual," Hough

And according to morning show personality Mark Andrews, "Colleen has a unique style unlike other female broadcasters who try to act like their male counterparts."

He added that Bucar's "incomparable voice easily transmits her bubbly and effervescent personality over the airwaves" to the listening audience. --

Burcar enjoys working on the morning shows because of the flexibility. She can, she said, fulfill her commitments at her convenience. Those commitments include taping a weekly radio talk show and writing and scheduling the station's public service an-

Later, at home, Burcar can be found perusing magazines in search of kicker stories and spending time with her 10-year-old daughter. Her family's happiness is her primary concern and most important goal in her life.

"I want us to be happy," she said. "I want to be a good mother, a good wife and a good journalist third."

Becoming a good journalist was a slow climb up the ladder of

Burcar had little luck when she started looking for employment in the radio and television industry in the '70s. But in 1977, within the course of three days, Burcar auditioned at CKLW, was called back and put on the air.

Six years after her debut on CKLW, Burcar moved to WCZY and stayed when it became WKQI.

BURCAR DIDN'T have any contacts in the field of radio broadcasting when she first auditioned for jobs.

"I didn't know a soul, so it isn't necessarily who you know in the

business," she said. "I think it's a matter of being in the right place at the right time." She attributes part of her success to her educational back-

ground. She received her bachelor's degree from Michigan State University and a master's degree in guidance and counseling from Eastern Michigan University. "I think that (getting an education) shows that you are able to

handle responsibility," she said. Burcar advises aspiring journalists to accept a beginning in en-

try-level positions and internships. Although they provide little or no pay, they do provide a wealth of experience, she said.

A case in point: When she worked at Channel 2 on "PM Magazine," producing two-minute segments, Burcar worked "dilligently' on them. Her hard work, however, was for almost no pay.

"I was compensated something, but it was almost nothing," she said. "But when that was over, I had a tape and I had experience."

STUDENTS NEED to get a good education and experience to compete in a very tight job market, especially Detroit where job availability has decreased in the past decade, forcing newcomers to go to other markets in other cities, she said.

"Certainly, I think it's good to go in with really high goals and go for them, but be realistic," Burcar said.

Although Burcar doesn't lecture on the discriminatory treatment of women in the media, she clearly has an opinion. People have to think about where women are going and how they are

Another case Whenever you watch the news, one male and one female, co-anchoring or even two males anchors, but never two women, Burcar sald. "I think women can do just as good of a job of handling that as a

Stories about Adams include raising and lowering the flame of a lit candle with nothing more than an intense glare, catching a razor-sharp sword (swung at Adams' head by a blind-folded guy) between his palms, stopping kunchack (a martial arts weapon) swinging idiot in front of several alarmed police officers with just a handful of dirt.

ADAMS EVEN has a penchant for winning all of those giant stuffed animals at carnivals that nobody else can seem to win.

Sure, you say, I've seen those kung fu westerns on television. OK, we'll let some of Adams students (who would rather tell fibs about Mike Tyson than their teacher) paint some more of the picture.

"This one time at a Christmas party, I saw Sensel (a Japanese martial arts instructor) let 10 guys grab him," said black belt John Cox of Detroit. "There were two on each limb and three or four guys around his waist.\Next thing you know, bodies were flying every where and Sensel is the only one left standing."

So he got lucky, you say. Well, luck is as luck does and Adams has done

"I saw two guys swing live (sharp) swords at Sensel, one at his head and one at his legs," said second-degree black belt Burt Maben, who has studled under Adams for 10 years. "He jumped up and turned into a small ball and the swordsmen missed. I've studied the samurai sword and know that one can easily cut you in half."

Yeah, but this Adams guy couldn't take Chuck Norris or, um, Bruce Lee, you say. Well, you're right . . . and wrong.

Back in 1966 in Cincinatti, Adams fought Norris in a karate tournament in which 20 of the top martial artists in the country (including Lee) were invited to do battle until only one man was left standing.

ADAMS, WEIGHING a mere 129 pounds back then, was edged in a decision to the larger Norris.

"It was a knock-down, drag-our fight," Adams said. "Five minutes of fighting and a lot of fun."

Yeah, but nobody could take Bruce Lee, you say.

Even though he never got the chance, Adams would have loved to face the legendary Lee. When asked what would have happened if the two would have met in a true, bare-knuckle brawl, Adams said simply, "He would have been in blg trouble."

Adams began his career in martial arts in the late '50s. Hanging out at the local YMCA, practicing judo (karate was somewhat foreign then), Adams first befriended a Japanese exchange student who taught him the Shotokan martial aris technique, which emphasizes punching. Adams then met a Korean gentleman and learned a Tangsoodo technique, which involves mostly kicking.

These two styles helped Adams master the Isshin-Ryu technique -50-50 punching and kicking — which he practices today.

Adams reached his prime in the late 1960s when full contact karate fights were bare-knuckle battles that ended with blood and broken bones. A popular version now is the kick boxing seen on TV.

THAT'S CHILD'S play, according to Adams, who told this story on how tough It was back then:

"I once saw a fight where this guy from Montana named Jim Harrison was fighting fny instructor," Adams said. "Harrison got hit in the nose so hard, bones shot out all over his face. Wanting to continue, (Harrison) went to the judges' table, grabbed a pencil and proceeded to push bones back into his nose with an eraser.

"Nowadays, you may see a cut lip and that's better."

Adams fought bare-knuckle, but to look at his face you wouldn't know it. At 129 pounds, he fought his way to become the North American champlon back in the late 1960s, whipping guys that weighed as much as 100 pounds more than him.

He also reigned as state champion in Michigan, Illinois, Indiana, Ohio and Pennsylvania from 1964 to 1968. And that was an unlimited weight class. It got to the point where tournament directors paid Adams not to show up.

"No one would sign up if I was

4

there," Adams sald with a laughed.

The story of when all 129 pounds of Willie Adams fought the 6-5, 270pound president of the motorcycle gang called the Heathens is a classic - kind of like a modern day David and Goliath.

ADAMS LIKES to ride motorcy-

ley Davidson Lowrider) and owned a little Honda bike back in the 1960s. He liked to follow the "Hells Angels" types on his blke and hang out with them at their parties. But the Harley guys didn't like him to hang out with them because, well, he didn't ride a Harley. Adams was at this huge biker party - 300 plus bikers - at

the beach, minding his own business, this guy notices Adams, says he's seen him fight and wants to know if he'd like to fight the leader of the Heathens. Adams sald "sure."

"The next thing you know I hear. this 'boom-boom' coming across the sand," Adams said. 'I look up and see probably the biggest biker of the bunch.

The president of the Heathens asked Adams if he'd like to "slap box," to which Adams replied, "You do what you want. I'll do what I

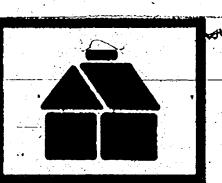

want." "He swung, I dropped him . . . He swung again, I dropped him again,"

By night's end, the Heathens president wanted karate lessons and every other president there wanted Adams (and his little Honda) to ride with them, Adams said

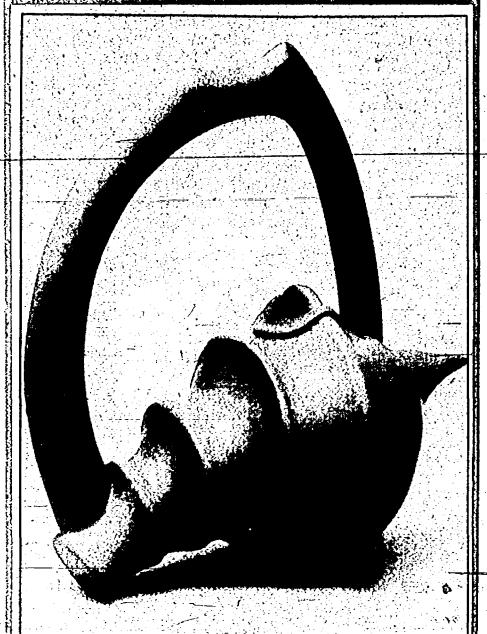

"Everyone in this world has the right to walk around and feel as if they're a whole person even if they're small like me," Adams said.

The 1989 North American Karate Championship will be Saturday, Oct. 28, at Cobo Hall in Detroit. Registration starts at 7:30 a.m., with elimination bouts beginning at 9 a.m. The Black Belt Battle of the Stars will be at 8 p.m. Tickets cost \$35 each. The tournament is being staged by Willie Adams in association with Karate Tournaments Inc.

Q. With my husband gone most of the time, I am handling the contracting of our kitchen remodeling job. I would like some direction in being more organized and direct in talking with trades people. They seem to act as if a woman doesn't know anything.

A. I know what you mean. Most people have learned to have more respect for women, but there are still a few thoughtless people out there. After noticing a gavel on a plaque handing on our own basement office wall recently, a service man connecting wires inquired if my husband is a judge? (It was my office and my plaque - a memento of my presidency of our speakers' association.) Here are some suggestions

which may help. Collect ideas ahead of time so you know approximately what you want, then begin your educational process by making the rounds of kitchen remodeling stores. It's important to ask every question you have with confidence. Neither male nor female customers are expected to understand everything about construction nor the latest products available and you should not be embarrassed to ask any question you have. Be direct, and if you are told you cannot get what you want, then ask "What are my choices?" As you learn, write everything down so you can ultimately make an informed deci-

You must remember you are the person with the checkbook

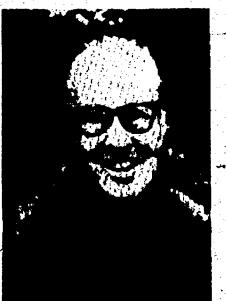

and therefore you are the boss. Make it clear that your are the person in charge, not your husband. Insist that everything is in writing ahead of time, including a detailed drawing, and don't just assume that a certain quality of material will be used or that what is torn out will automatically be hauled away free of charge.

If there is anything you don't understand, ask now. Identify nagging concerns and bring them out in the open. No question is too dumb to ask. Your contractor will respect you when he realizes you are on top of all the details.

Agree ahead of time how changes in plans will be handled. Will there be a penalty, and if so, at what point and at what cost? Also have a written agreement as to the completion date and any followup work to correct residual problems after completion.

If, during the course of construction, you realize you don't like something, stop the workers. immediately and discuss it. It will no doubt cost you extra labor and materials to change your plans, but if you are unhappy it will be less costly to change it now than later.

Note to tradespeople: Don't, treat women as if they are merely servants for their husbands. If you have been dealing only with the woman, then ask her for money when it is due. Although she may indeed have to get it from her husband, suggesting that is the case is an insult to many women, including this one.)

'Scary Stories' author visits

Author Aivin Schwartz will sign his Halloween books, "Scary Stories to Tell in the Dark" and "More Scary Stories to Tell in the Dark," 7:30-8:30 p.m. Monday, Oct. 30, in Borders Book Shop in the Novi Town Center off Nov! Maximize fall colors

Choose your home trees carefully

HE RIGHT selection of trees for your home grounds can help provide brilliant fall coloring, but Mother Nature must cooperate.

Color intensity may vary from year to year, depending on the variety of trees, soils, nutrients, moisture, sunny days, frosty nights and other weather factors.

Fall's shorter days, not its colder weather, cause leaves to change color and drop from trees. The spectacular colors are caused by the tree's pigments, which are always present but are hidden in spring and summer by chlorophyll; the dominant green pigment formed by exposure to light, or the process of photosynthesis.

In the fall, when days are shorter, photosynthesis ceases, chlorophyll production ends and other pigments dominate.

Cool nights and warm days favor production of bright scarlets, lavenders and purples, But freezing temperatures kill leaf cells and prevent color formation. Chemical changes in the leaf stalk, where it joins the twig, cause leaves to fall

AUTUMN COLOR IS better some years than is others. Generally, colors are better in auweeder's guide

Earl Aronson

tumns that have bright, sunny days and cool

Light is important to the development of color. A tree may be red only on one side, the side exposed to afternoon sun. Trees growing in low places may develop red color earlier than trees in higher locations, perhaps the result of cold air settling in low places on still, windless nights. Cooler temperatures trap tree sugars earlier in

Here is a guide to autumn foliage colors, based on tree species and Jack-Frost's paint

Reds: sugar maple, reds, orange and yellow; red maple, orange and scarlet; dogwood, vivid scarlet; sweet gum, crimson; red oak, dark red to russet; scarlet oak, brilliant scarlet; black gum, burgundy; sassafras, orange to scarlet.

Yellows: Eastern redbud, mellow yellow; Nor-

way maple, buttercup yellow; yellowwood, yellow to gold; larch, golden yellow; tuliptree, sparkling yellow; elm, pale yellow; ginkgo and aspen, vellow.

Browns and oranges: American beech, golden bronze; white oak, purplish red to violet; black oak, reddish tan to brown; hickory, leathery yellow to brown; white ash, purple; American hornbeam, bright ora ige.
AUTUMN COLORS peak in early to mid-Oc-

tober. It takes approximately two weeks for a tree to complete its color cycle. Autumns that are rainy, very hot-or cloudy may produce foliage that is bland or less vivid.

Indian legend explains the autumn color this way: Celestial hunters stalked and killed the Great Bear, and its dripping blood fell onto the forest trees, gradually changing the leaves to various shades.

A modern version holds that little green people inside the leaves conjure up psychedelic happenings that burst into view in the fail.

Generally, only areas of the Eastern United States, Southeastern Canada, Eastern Asia and Southwestern Europe have weather conditions and deciduous forest trees favorable to vivid fall

Sandpapers get a going-over

By Andy Lang special writer

The multiplicity of sandpapers on the market makes shopping for them a hit-and-miss chore unless you have some idea of what you are doing.

Here are some facts that will help you make the proper selections:

Flint paper, once widely used, is not seen too much these days because it is brittle and quickly deteriorates with use compared to other materials. Remember that if you should see it and be tempted by it because it is cheaper.

Garnet, a natural material, removes wood easily and resists what is known as 'loading," which is filling up the spaces between the abra-

It is not as durable as the manufactured materials, such as aluminum oxide and silicone carbide. Aluminum oxide is especially good for power sanding.

The principle of sanding is that the finer the grade of paper, the better it is for sanding between coats and on the final coat.

The final sanding, with what is called very fine paper, prepares it for the finishing material. Rough wood must be treated with coarse paper, then medium and then either fine or very fine.

PAPER USED TO be designated only by number. Today, most have a number. The smaller the number, the larger the size of the grit. And the larger the size of the grit, the coarser the resulting finish.

Thus, if you wanted to remove wood fast and not be too particular about the coarseness of the wood (because you would use finer papers later), you would use a 36 grit rather than a 120 grit.

It will make it easier on you if you look for sandpaper that gives the classification, such as coarse, medium, fine, very fine.

SANDPAPERS USED for wet sanding have a special waterproof backing, since the sanding is done

on the house

regular backing, varying in thickness according to the use to which they will put. The strongest paper backing, for instance, is on material to be used for tough hand sanding or regular power sanding.

Inferior sandpaper utilizes inferior adhesives to hold the abrasive grains to the backing: Notice if a lot of grains have accumulated at the bottom of the sandpaper package. If you tap the paper against a solid surface, some of the grains on this type of product will come off easily.

Also, look for folds and wrinkles in the paper. These things can affect the quality of the final finish as well as reduce the life of the paper. The product may have been fine originally, but the folds and wrinkles developed in the packaging and transporting. If that's the paper you want, look for another package.

THIS IS ESPECIALLY important when choosing paper to be used in a power machine, where the extra pressure can greatly affect the overall performance.

When you have a specialized kind of job to be done, look over the store's entire stock of sandpapers and accessories. A special open coat sandpaper has more and larger spaces between the grains, which minimizes loading.

Some dealers even have a special treatment that will retard loading when using aluminum oxide, silicon carbide or garnet. Manufacturers are constantly coming out with products designed to handle particular kinds of stubborn sanding.

There is even a sanding sealer that helps the finer-grit papers be more effective on softwoods. The sanding sealer toughens the wood. Some wood finishers achieve the same result by mixing shellac with an equal part of denatured alcohol.

The principle of sanding is that the finer the grade of paper, the better it is for sanding between coats and on the final coat.

Benefit to aid art archives

Ten metropolitan Detroit galleries will present artists and their works as part of a benefit for the Archives of American Art at 7 p.m. Wednesday, Oct. 25, in the Roostertail.

At "Show and tell - an evening with the artist," guests can talk with the artists and view their works. After supper, the artists will be for-

mally introduced.

Artists participating in the event include: Timothy Solien, Cantor/ Lemberg Gallery; Ann Mikolowski, sponsored by Joy Emery Gallery; sculptor Tom Bills of Feigenson/ Preston Gallery, John Torreano and sculptor Lynda Benglis representing Suzanne Hilberry Gallery and watercolorist Alfred Leslie of the Hill Gal-

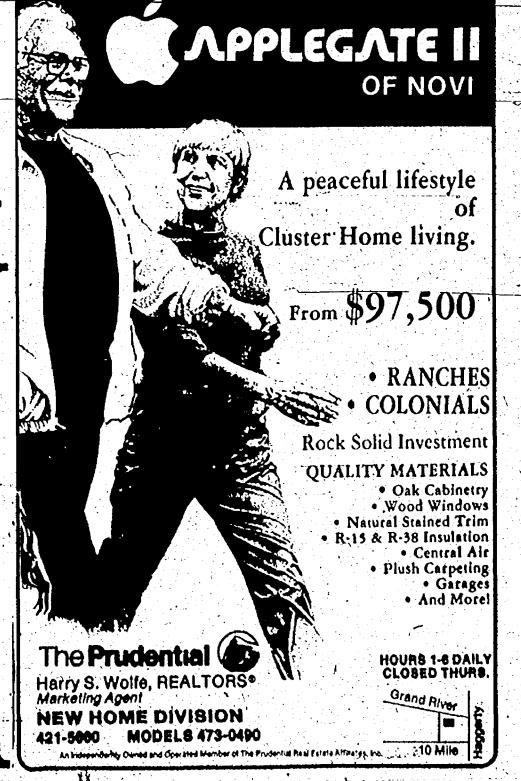

Robert L. Kidd Associates sponsors Glen Michaels and the Donald Morris Gallery has invited painter Robert Wilbert. Allie McGhee, painter and ceramic muralist, represents George N'Namdi Gallery. Douglas

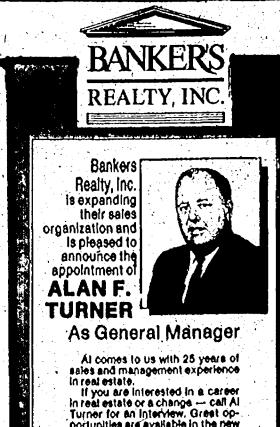

W. Warner represents Xochilpilli Art Gallery. The Yaw Gallery presents. Jean Stark, goldsmith and painter, and Anthony Lent, creator of wearable sculpture. Tickets are \$75 each. For informa-

tion call the Archives of American; Art office at 226-7544. The Archives of American Art was

founded in Detroit in 1954 and has been a bureau of the Smithsonian Institution since 1970. The archives has so far collected nearly 10 million original papers and other memorabilia of American painters, sculptors, craftspeople, dealers, collectors, critics and curators. It conducts an oral history program, which has produced nearly 3,000 interviews with significant figures on the art scene.

About one-third of the collection is available on microfilm for public use in the archives' six regional research and collecting centers including the Midwest Regional Center in the Detroit Institute of Arts.

Apartment living just got better.

We're making The Crossings a better place to live and a better value. You'll feel it in the new hallways and newly refurbished clubhouse. You'll see it in the plush landscaping when you enter the grounds. And that's just the beginning. It's the new look and feel of The Crossings at Canton—and it's for you.

The Crossings at Canton offers 19 different floor-plans with 1 to 4 bedrooms. And whether you choose a 2-level townhome or a luxury apartment, the renewed beauty of this charming rental community shines through in every one—the result of our recent "Capital Improvements & Upgrading" program. These apartments and townhomes are the largest in the area, yet are still incredibly affordable.

Discover these features at // The Crossings at Canton:

• Dens & Fireplaces

• Fully-applianced Kitchens Patios or Balconies

• Central Air Conditioning

• A Clubhouse with sauna, indoor pool, exercise room, a new party room, and more!

concerns raised Site contamination

By Gerald Frawley staff writer

Intensifying environmental concerns continue to trouble land developers and if the trend continues, it could conceivably drive smaller developers out of business.

Attorney George Fulkerson, of the Troy law firm of Dean and Fulkerson, told members of the Builders Association of Southeast Michigan Wednesday that environmental concerns are today's "moral imperative," and unless builders - especially small builders - learn to anticipate and protect themselves, they're in for a rough ride.

Environmental concerns will squeeze out the smaller developer because he does not have the resources to comply with all the regulations and , requirements being placed on him, Fulkerson said.

"That may very well change, but

greater enforcement is the trend," he said, adding the slow growth movement prevalent in southeast Michigan uses environmental concerns as one of the key weapons in the arsensal to stop development.

Historically, building and the environment have always been related, but the emphasis and the nature of that relationship has drastically changed, Fulkerson said. "It's become magnified over the years.

"We have moved from a 'protection, from nuisance' theory, which implies a certain amount of negligence, to a point where liability is no longer dependent on negligence," he said. Today, developers can be liable for environmental problems by virtue of land ownership, regardless of whether they caused the problems.

In almost every case where an environmental concern is raised, the developer is bound to lose because the courts almost always support the environmental concern, he said.

Living Award.

"Builders are faced with a myriad of laws and regulations," he said, adding that there are currently more than 200 laws addressing environmental concerns and development.

"It's a gloomy picture," Fulkerson continued. Whether the developer is personally responsible for an environmental problem or not, as a purchaser he can be held liable for contamination aiready on the site.

Recently, hazardous waste regulations have had the greatest impact on builders, Fulkerson said. Loan approval from lending institutions, for example, may greatly depend on previous uses of the site and evidence of current contamination.

PERHAPS EVEN more frightening, he said, is the chance that contamination will be discovered on a recently purchased site. "Whoever owns the property — even if they're not responsible for the contamina-

tion — is liable for cleanup costs." He added the average price tag for the cleanup of a contaminated site ranges from \$6 million to \$10 mil-

Federal environmental protection laws and regulations protect the developer who is innocent of further contaminating the property and who has thoroughly investigated the property to be exempt from repercussions, Fulkerson continued, but the definition of innocent and thorough is interpreted "very narrowly."

Fulkerson said developers must be cautious at every turn. "There are resources out there - hire someone to investigate the property and see what they can find."

Such investigations might include anything from soil samplings to interviews with previous property owners. "You may have to sit heavily on the previous owner to find out what the property's previous uses

Readers' poll leads to wood house design

staff writer

What are the desires of home buyers in today's market?

A workable functional kitchen, energy efficiency, low maintenance and a spacious pantry, according to a reader poll taken by Home Mechanix Magazine.

The American Wood Council and Home Mechanix Magazine co-sponsored the poll last fall that asked readers to describe their dream home. More than 200 readers responded, and those responses were incorporated by Stephen Mead Assoclates of Des Moines, Iowa, into the design of the 1,950-square-foot

"Home Mechanix Dream Home." "We wanted to design a relatively affordable package, but one that en-capsulated as many of the readers' responses as possible," explained Mead. "A lot of readers wanted a sense of space so they-didn't feelthey were crawling over other family members. I think we have accomplished that. The house lives much larger than it actually is."

TO ACHIEVE THAT sense of spaciousness, Stephen Mead Associates designed the house - located in the Crescent Hills Subdivision in Ortonville - with several features. In addition to a spacious kitchen with an adjacent greenhouse/solarium breakfast area, the house also features a two-story entrance, a columned dining room leading to a screened porch and sweeping deck, a large workshop and adjacent storage area easily accessible from the garage, a huge master suite, french doors and a window seat.

"One of the unique aspects of the house is the way spaces relate to one another," added Mead. "There isn't a

lot of wasted space, but the house isn't cramped, either."

An example includes a work station (desk and book shelves) which was added to a widened hallway on the second floor. Such "nooks of storage" could be used by children or parents for work or play.

The house - built by Gary Sabo of Future Homes Inc. in Davison also incorporates advanced wood construction techniques that earned it the American Wood Council's Design For Better Living Award.

"The council recognizes houses that feature the use of new wood products and systems and innovative design," explained Wally Poure, regional marketing director of the American Wood Council.

These construction techniques include a permanent wood foundation, Interlock lap-siding on the exterior walls. The house also conforms to the Code Plus building code.

The permanent wood foundation is used in place of a concrete foundation with the aim of providing a drier, warmer environment. The wood foundation is constructed of pressure-treated lumber and plywood walls set on a gravel base and backfilled with gravel. The walls are insulated with a high R-factor insulation providing a warm basement environment. And because wood doesn't settle like a concrete foundation, there tend to be no cracks or leaks in the basement walls.

The house is priced in excess of \$199,000 It was recently featured in the Parade of Homes '89, a builder's show sponsored by the American Wood Council and 11 north Oakland County Builders. The house is open for viewing by appointment. Call Future Homes at 653-3490 for an ap-

By Andy Lang special writer

(AP)— What's new on the market? THE PRODUCT - A ceramic tile caulk to match or coordinate with many of today's grout colors and shades.

Manufacturer's claim - That the new color selections include clear, antique white, wheat, sand tan, pewter gray, red wood, black onyx, Almond and pure white; that it is mildew-resistant and prevents water seepage around sinks, tubs, vanities, countertop spashguards and tile soap holders; and that it seals surface areas that tend to move slightly, such as where a wall meets a floor. or where tiles abut corner and count-

THE PRODUCT -- An epoxy adhesive especially designed for vertical and overhead bonding projects.

Manufacturer's claim — That this epoxy gel bonds quickly through a chemical reaction between the epoxy resin and the hardener; that it will not sag or drlp, setting in five minutes; that it bonds wood, metal, fiberglass, china, ceramic, glass and other materials; that, after the adhesive is applied, bonded objects can be handled in 15 minutes, with the epoxy achieving full strength in one hour at room temperature; that it hardens to an opaque finish; that it is available in a dual-syringe container that dispenses equal amounts of the resin and the hardener, and

ideal for bonding objects to walls, ceilings, under counters and wherever such projects normally are difficult to handle.

THE PRODUCT — A motion sensor light control that reduces the problem of false triggering. Manufacturer's claim - That

false triggering, caused by such things as blowing leaves, will be eliminated by 75 percent; that when the sensor discovers heat in motion, it takes a "second look" to verify the object before it switches the lights on; that the sensor detects people in motion from up to 70 feet away, providing more than 4,500 square feet of coverage; that a multitone lens provides overlapping detection zones for both downward and outward coverage; that it has a variable shutoff delay to allow the user to adjust the period of time the light stays on from one to 20 minutes; and that it is UL-listed for wet locations.

The epoxy adhesive is made by Devcon Consumer Division, 780 A.E.C. Drive, Wood Dale, Il. 60191; the light control by Health-Zenith, Hilltop Road, St. Joseph, Mi. 49085; and the caulk by Darworth Co., Avon, Ct. 06001.

Condo board responsible for pool

Our condominium is considering having a "lotto" to raise money for the clubhouse maintenance of the pool because the board is unwilling to budget funds for maintenance as it claims that not enough co-owners are using it. Do you have any comments?

First, I am not sure from your question what type of "lotto" the board is planning to conduct, but it had better make sure that it is not violating any state laws with respect to such "lotto" and that, if necessary, it obtain a license from the state to conduct any type of gaming activity. Secondly, and more important, if the association has a pool which the association members are allowed to

use, the board may well have a fiduciary and legal responsibility to raise funds necessary in order to maintain that pool so as not to deprive any co-owners of its use. You should contact the board to remind them of this responsibility and in the absence of any forthright action by the board, you should consult with an attorney to assist you.

Q: I am being transferred from Birmingham to New York City and wish to buy a co-op in the upper 60s of Manhattan. Do you have any inkling as to what the market is in New York and how is a co-op different there from what I might find here with respect to a condominium or

queries Robert M. Meisner

condo

A: Coincidentally, I have just had the opportunity to review the co-op market in New York, particularly as it relates to the higher echelon of coops surrounding Central Park. The co-op market in New York is weakening, as I understand it, although the price of co-ops in New York comparable to what one would find in Michigan is extremely high. Co-

ops, unlike condominiums, are not regulated by an enabling statute and have a substantial amount of flexibility in regard to who may or may not live in the co-op. A good example, of course, is the Richard Nixon situation in New York where he was denied an opportunity to buy a co-op because he was a lawyer. In a co-op, you rent your unit from the cooperative association; even though you are buying shares in the cooperative association. You sign a proprietary lease and live by the rules and regulations, or they can evict you. I would be very cautious before investing in a co-op in Manhattan because of the apparent fluctuation in market conditions.

Decorating rules meant to be broken

(AP) - The current trend in home design is no fad - it is tradition.

"Tradition is back," said House Beautiful editor JoAnn Barwick, "because we are tired of trendy fads and have swung around again to an appreciation of architecture and furnishings with serenity and balance — the way a home looks when the age-old rules have been followed."

Young people decorating their first homes hunger for rules, according to Barwick. How should they arrange the furniture? Which chairs go with what table? Can they use something unconventional that they've fallen in love with?

Barwick said her magazine went to the masters of home design - past and present - for the following "Golden Rules of Decorating," which range from the classic look to personal

John Saladino gave his view of how to create classic design: "To be timeless, we must pare away fussy details, create an orderly balance. Simple geometric forms the ancients knew - circles, squares, triangles - shape the classics."

Comfort was Blily Baldwin's subject: "Some people confuse luxury with grandeur. To me, comfort is perhaps the ultimate

Edith Wharton and Ogden Codman Jr. on symmetry: "The desire for symmetry, for balance, for rhythm, is one of the most inveterate of human instincts."

For Elsie de Wolfe, suitability was the subject: "We must learn to recognize suitability, simplicity and proportion, and apply our knowledge to our needs. A huge stuffed leather chair in a tiny gold and cream room is unsultable."

Dorothy Draper had this to say about color: "There should never be any doubt about what your color has to say it may be lemon yellow, watermelon pink, chocolate brown or anything you like, just as long as it knows its own mind. Muddy walls are nothing but a blight." Michael Greer puts passion into his interior designs, saying:

"You need one marvelous decorative object which you love outrageously; which you may have spent far more for than you could afford. It can be anything - a painting or a rug or a vase, as well as a plece of furniture."

David Hicks understands the need for warmth. "I may create a very disciplined background, but then I like things messed up or cozled up a little. I am always thinking of

No matter how many rules you follow, a home must reflect you, as T.H. Robsjohn-Glbbings noted when he said: Why do we love certain houses, and why do they seem to

love us? It is the warmth of our individual hearts reflected in our surroundings."-That brings the amateur decorator back to House Beautlful's advice in glving out these rules: "Just remember: Once

learned, rules are also meant to be broken."

Clinical Manager

With great pride, Cottage Hospital of Grosse Pointe, a part of the Henry Ford Health Care Corporation, announces the plans for its new Labor, Delivery, Recovery, Post-Partum Holis discountries.

Recovery, Post-Partum Unit due to open in 1990. This L.D.R.P. will feature the very latest in equipment and procedures. Along with this announcement comes the unique and exciting opportunity for the experienced Clinical Manager to develop and design this unit from ground up. Working closely with the Medical stall, the Clinical Manager will be included in the planning of the physical layout of the unit, purchasing equipment; along with formulating policies, procedures, hiring and training of personnel.

The preferred candidate will possess a Master's degree in Perinatal Nursing, and 5 years management experience, experience in L.D.R.P. and strong clinical skills. Experience setting up and opening an L.D.R.P. unit is an added plus. As a creative and innovative member of the management team, Cottage Hospital offers a competitive salary and benefit package, featuring a choice of three health insurances, dental & vision coverage, life insurance, short and long-term disability, and 5 weeks of Combined Time off the first year. Qualified individuals should direct their resumes to Joan Lee, R.N., Administrator for Nursing and Inpatient Services, Cottage Hospital of Grosse Pointe, 159 Kercheval Avenue, Grosse Pointe Farms, Mt 48236.
