## Whitmer visits Livonia Stevenson to talk roads in her town hall tour

Susan Vela Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

Gov. Gretchen Whitmer visited Livonia on Thursday, reminding hundreds she wants to “fix the damn roads.”

As part of her proposed 2020 budget, the Democratic governor has proposed a

45-cent increase to Michigan’s fuel tax that potentially could raise about \$2 billion for road repairs.

The fliers handed out in the latest stop of her Budget Town Hall Tour said Eight Mile and Ecorse roads, along with Ashton Avenue, are some high-priority Wayne County thoroughfares that

could benefit.

“Let’s just jump right in,” said Whitmer, who took office in January. “Of course, I call the budget the road to opportunity because well, I hope you’ve learned by now, I just can’t stop talking about those damn roads, right?”

Laughter filled the Livonia Stevenson

High School performing arts center, where Whitmer and state transportation director Paul Ajegba emphasized that fixing Michigan’s roads — and fixing them properly with quality materials — is a fundamental need.

A few nights ago as Barb Lindlbauer watched her 24-year-old son Jesse plug a charger into his phone, she marveled at how far he had come since the horrifying December day in 2010 when he nearly died.

When Jesse Lindlbauer was 16 and a sophomore at Canton High School, an abscess burst near his brain, erasing most of the physical and cognitive skills he had perfected since birth.

The awesome student with a million friends, a passion for sports and a loving family has been climbing an obstacle-covered mountain ever since, but doing so with an unyielding spirit that has earned him the nickname Super Jess.

“Even though he was doing something so simple, plugging a cord into a phone, it made me think back to the days when he had no fine motor skills at all,” Barb Lindlbauer said. “For the longest time, he couldn’t pick up even a big, light object.”

“It’s been a lot of hard work and ther-

apy, therapy, therapy.”

“I wasn’t always gung-ho (about the therapy sessions), but my mom was, so I went along with her,” Jesse said, generating a smile from his mom.

Emotions ran high in the Lindlbauer home the day Jesse spoke his first post-injury word, simply because there were doctors who doubted he’d ever talk again.

“He used to call me ‘ma,’ so when we’d work on his speech together, I’d

## Communities face shortage of firefighters

Susan Bromley Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

On Easter Sunday, Lyon Township firefighters responded to four separate emergencies, including a structure fire in which four dogs died.

The township has only four full-time fire department staff and relies on paid on-call firefighters, a challenge in a growing township in which the department responded to more than 1,400 calls last year.

Lyon Fire Chief Ken Van Sparrentak wants to change that.

“We do the best with what we have, and usually that works out, but it’s like turning on a faucet and people expect water,” he said. “It’s the same when calling 9-1-1, they expect a fire department response. It may not be as fast as the community they came from. We are making strides to meet the demands of the community and we have some catching up to do.”

### Paid on-call not a sure-fire thing

Like Lyon, Milford relies almost solely on paid on-call firefighters. Fire Chief Tom Moore is the only full-time employee.

Those paid on-call firefighters respond to emergencies in the 36-square-mile village and township with about 16,500 residents. In 2018, they went on 1,711 calls, including 1,148 for medical emergencies. Other calls include vehicle accidents, grass fires and “citizen assists.” When Moore first came on board in 1986, the department responded to about 325 calls, 40 of them for grass fires.

“We are getting into an era now where there are multiple calls,” he said. “They are heading to one call, and before or after they get there, we have another call, then another. And that starts taxing the system.”

Farmington Hills, a city of more than 80,000 residents, has about 50 full-time firefighters, but also relies on paid on-call firefighters to respond to the roughly 10,000 calls they receive per year.

Up to 21 full-time firefighters work any given day, but with multiple calls coming in at the same time it doesn’t take long to run out of full timers.

## Police seek driver who tore up sod

**Susan Vela** Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

Livonia police are looking for the white Jeep witnesses say tore up the sod north of Botsford Elementary School, 19515 Lathers St.

Police said in a report they were dispatched to the area at 8 p.m. April 21 because witnesses said the Jeep was doing doughnuts and driving carelessly across the grass.

Police weren't able to locate the vehicle, but they noticed a single set of tire tracks running across a sod infield.

Witnesses said the white Jeep had a black top and over-sized wheels. Three black males with short hair and two white females were inside.

Call the Livonia Police Department at 734-466-2470.

## Driver critically injured when semi, car collide on Interstate 96

**Susan Vela** Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

A Detroit man, 28, was in critical condition after crashing Friday morning with a semitrailer on westbound Interstate 96 at the Newburgh Road exit ramp.

Livonia police said in a statement

they were dispatched to the crash around 7 a.m.

An initial investigation found an unidentified driver cut off the semitrailer.

The semitrailer driver — a Dearborn Heights resident, 31 — lost control and struck a freeway barrier wall and a Pontiac, injuring the driver.

He was taken to a local hospital. The

semitrailer driver was not injured.

Drugs and alcohol do not seem to be involved but an investigation continues.

If anyone has information about the crash, call the Livonia Police Department at 734-466-2683.

## Watch out for charity scam requests

**Money Matters**  
Rick Bloom  
Guest columnist

It's unfortunate that I have to write this; however, it's the reality of the world that we live in. What I'm writing about is scams regarding charity where there has been some disaster.

Even before the fires were extinguished at Notre Dame in Paris, the call went out to begin to raise money to rebuild the Cathedral. Unfortunately, it was also a call to thieves to take advantage of the situation.

These scammers send out emails and set up websites that pull at your heart. In addition, many of these thieves begin phone solicitations in an attempt to raise money. It is up to us to make sure that before we give to any charitable cause, we do our homework ahead of time.

The key to making sure your money goes to an honest charity is to research the charity. Going to charitynavigator.org or bbb.org are great ways to begin your search. It is important that when you do your research you make sure that you use the exact name of the charity. If the charity you're researching is not covered under the two aforementioned websites, it's a good sign that there may be a problem.

It's not only scam artists, but also identity thieves who come out in force when there has been a disaster. That is

why it is important to remember that if you get an email from an organization seeking to solicit money that you do not click on the link in that email. All too often, crooks will attach viruses to these emails.

To also protect yourself, never give to a phone solicitation, especially when you're not familiar with that charity.

Even if I'm familiar with the charity, I still don't give through phone solicitations. Even with legitimate charities that use phone solicitations, up to 50 percent of your contribution may go to the phone solicitor, not to the charitable organization.

When it comes to charitable scams, the scam artists are around the world. Because of this, it is more important than ever that if you're going to make a charitable contribution, that you check the charity out before you give.

Even if you give money to a legitimate charity, it doesn't necessarily mean that you can write it off your taxes. Typically, if you give money to a foreign charity, that money is not tax deductible to you. In order to be able to deduct a charitable contribution, you need to make sure the organization is listed as an IRS tax exempt organization.

Good luck!

## Catalytic converter thieves strike again

**Susan Vela** Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

Some Livonia neighbors woke up April 15 to find someone stole their vehicles' catalytic converters, which frequently are taken because of their precious metal content.

Police said in their reports they were called to the 30000 block of Bretton because a resident walked to his vehicle and found the muffler laying on the ground.

It was the same for his neighbor, along with a Flamingo Boulevard resident.

Police say catalytic converters are worth about \$500.

Also that day, a Glengarry Drive resident visited police headquarters to say someone took \$200 sunglasses, a wallet and about \$50 in cash from his vehicle.

Anyone with information is encouraged to call Livonia police at 734-466-2470.

# Roads millage work starting in Canton

Ed Wright Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

Orange-and-white construction barrels are lined up as far as the eye can see along Hanford Road in Canton — the first visual evidence of the roads-improvement millage township voters approved last August.

Township road crews will ultimately repair Hanford from Haggerty to Beck Road. The first phase, which is prepared to start this week, will run from Haggerty to Lilley Road.

The projects are divided into sections due to the length of the roads being repaired.

The first phase of the project also in-

cludes repairs to a stretch of Saltz Road from Beck to Lilley.

Motorists on Saltz will be limited to one lane during the first phase of its repairs that will include a stretch just west of Beck.

Motorists are urged to avoid the sections of roads that are being repaired if at all possible and to drive cautiously if

they need to use those roads.

A tentative construction schedule is available on the township's website.

To view the list of 2019 Major County Road Projects as well as a tentative construction schedule, visit [www.cantonmi.org/roads](http://www.cantonmi.org/roads).

## Whitmer

Continued from Page 1A

The governor spoke of the state's general fund and a "shell game" that happens in Lansing. According to Whitmer, potholes are being filled by borrowing money from the general fund. Money from the school aid fund is shoring up the general fund.

"We're not rebuilding roads like we should be," Whitmer said. "We're just filling potholes. Our kids are ultimately the ones that are paying for this because it's all balanced on the school aid fund."

The governor prompted another round of laughter and applause during the question-and-answer session when she said it wouldn't be realistic to use marijuana sale proceeds for roads since there wouldn't be enough dollars to cover the necessary repairs.

"Yes. I love it! Thanks for going right to it," she said. "It comes up every single time. I know ... pot for potholes sounds good."

Potholes are an obvious problem throughout the region. Whitmer and those behind the fuel tax increase hope taxpayers would have fewer car repair costs as the roads get better.

Livonia resident Jacquelyn Dygert avoids right lanes that seem to be more damaged. She's glad she was part of the Town Hall Tour that began in March.

"I'm a Democrat, and I'm a supporter of Gov. Whitmer," she said. "I know that we're in a huge hole, no pun intended, but I have a lot of questions on how the money is going to be distributed to counties and how that's going to be managed."

Scott Sobas said he likes that Whit-

mer is concerned about Michigan's roads. However, he's worried about the potential impact on his family's travels.

"I hope that there's a progression to it and it's not all at once," he said of the potential fuel tax jump. "We like to travel. We take advantage of all these roads here in Michigan and the state parks. It may put a damper on travel."

The state fuel tax is 26.3 cents per gallon for both regular and diesel fuel, according to the American Petroleum Institute. If approved, Michigan would have the highest fuel taxes in the country. The increase would be phased in over a one-year period.

Whitmer's commitment to fix the roads speaks to Clinton Township resi-

dent Toni McIlwain

"It's very bad," McIlwain said of driving conditions. "It's across the state. It's across the city. The bottom line is they ... need to be fixed properly."

# Firefighters

Continued from Page 1A

It can be a particular strain in the winter, with expressways surrounding the city including Interstate 696, I-275 and M-5.

For each highway crash, the department sends a truck with at least two firefighters to block traffic, as well as a fire truck and a medical truck with multiple firefighters as well. Capt. Jim Donovan said the department could be out of full-timers just on that call. Meanwhile, the rest of the city still has to be covered.

## Where did all the volunteers go?

The highest number of paid on-call firefighters in the city reached its high of about 120 more than five years ago. Donovan said the city would be comfortable with averaging between 80-100. Currently, they have about 65.

"People aren't coming in, and we don't know why," he said. "We don't have people applying. Is it because the economy is good and a lot of people are still working? Or is it because it's not what they expect?"

Paid on-call firefighters in Milford and elsewhere, receive a "tone" on a pager when there is an emergency in the community they serve. Donovan said that tone will wake anyone from a dead sleep, but there is no mandate that they must respond to that call.

The only expectation of a paid on-call firefighter is that they will respond to a certain quota per month. In Farmington Hills, that is about 35% of all calls. In Milford, that number is even lower — 15% of all calls.

"That takes into account that they have jobs and family obligations," Moore said. "Somewhere in there, you fit 15%."

The Milford fire budget accounts for funding a maximum of 40 paid on-call firefighters. Currently, the department has 30, but it has been as low as 19, just three years ago.

Moore, who has been a firefighter for 33 years, said it is getting harder and harder to find individuals to answer the call to serve the community. He attributes that to a difference in generations, in which those in the 1940s, '50s, and '60s had a stronger sense of community

Jim Wren, right, works with trainees April 13 at the Farmington Hills DPW training house. Farmington Hills, along with fire departments in Milford and Lyon Township, are seeking paid on-call firefighters. JOHN HEIDER/HOMETOWNLIFE.COM

and desire to help. Now, he said, no one wants to volunteer their time, even with compensation.

"About 10-15 years ago is when the attitudes started to change," he said. "A lot of new kids have no mechanical aptitude unless you want them to program your smartphone. The sense of community has taken a back seat. It's 'me, myself and I' instead of community."

Moore acknowledges that the "stereotypical" family of the '40s and '50s, in which fathers worked and mothers stayed home, is also "out the door" with both parents having to work now, leaving little time for anything else.

"This is a very large commitment, I will admit that," he said.

## Wanted: Paid on-call firefighters

That commitment involves extensive training: about one year to obtain firefighter I and II certificates and an emergency medical technician basic license. But not only is it a free education, students are actually paid for attending classes, which run for two nights per week from 6-10 p.m. and a Saturday class from 7 a.m. to 4 p.m. for several months.

To be eligible to be a paid on-call firefighter are the same as many other public service jobs — you must be at least 18 and a high school graduate; able to pass drug tests, physical and psychological exams and a background check with no criminal convictions.

Moore said the most frequent problem he runs into with applicants is their driving record, but exceptions can be

made depending on the situation. As an example, he points to a 21-year-old who might have had points on a driving record from mistakes made when 16 and "their frontal lobe had not developed."

"We will look at what happened since," Moore said. "Did that brain develop and they didn't repeat the mistake? OK. But if your driving is horrendous, I can't put a reckless driver behind a million-dollar fire truck. I can't and I won't."

Donovan, who trains firefighters for departments all over the area, said the biggest class he ever had was 38. Some will start but not make it to graduation in what he calls a "tough class." Currently, he is training 12. The goal is 20.

When he interviews applicants, he asks why they want to be a firefighter. The response is always the same: "Because I want to help people." Donovan says that is a great answer, but when he asks the follow-up question, "What have you done to help people so far?" they are often stumped.

Still, that desire to help is what is needed.

"Come help your community, come make a difference," Donovan said. "You have an opportunity to make a difference in somebody's life. We need people."

Moore agrees and said the day will come when paid on-call is not enough for Milford, although it is unknown how far in the future that day will be.

As the community ages and senior community housing and assisted living facilities grow, he expects call volumes to increase.

"We have two primary age groups (that are serviced) — the young who do something really stupid, and the old, who are just old," Moore said. "If your community as a whole is younger, you don't have that many calls, but as a community ages, the run volume goes up."

Moore currently predicts Milford has about five years until it will need to transition to a combination fire department, adding full-time firefighters to the current paid on-call, although he said it could be longer, perhaps 8 years.

"If we get to the point where I can't recruit and maintain 20-25 people, that is where we need to have a good heart-to-heart, but that will require extra funds," he said. "I will not lower hiring standards just to say I have to numbers. We go in people's homes and if I want a quality product, I have to hire quality people."

At the end of the day, Moore says the level of service will be dictated by the taxpayers and what they are willing to pay for a millage.

An informational meeting for paid-on-call (part-time) firefighter recruitment is planned for 7 p.m., June 19, at Farmington Hills Fire Station #5, 31455 W. Eleven Mile. For details, visit Farmington Hills Fire Department.

# Teriyaki Madness brings fast-casual Asian food to west Oakland County

Susan Bromley [HometownLife.com](http://HometownLife.com)  
USA TODAY NETWORK — MICHIGAN

Teriyaki Madness, offering fast-casual Asian food, opened last week in Wixom.

The restaurant is only the second franchise location in the state and offers fresh, made-to-order teriyaki.

It is the first business venture for owner Matt Jones, a Plymouth resident and former insurance claims manager.

"In this area, it is pretty unique and I think it will do really well here," Jones, 47, said. "You don't see this on every corner like you do a burger place. With fast-casual Asian food, there is Panda Express, but our food is prepared to order. It isn't sitting under a heat lamp."

In building their own bowls, customers can choose a base of rice or Yakisoba noodles, and add fresh vegetables including cabbage, broccoli, zucchini, and onions. Proteins are fresh chicken, beef, salmon and tofu.

Nearly all sauces are made in house and include teriyaki, spicy, sweet and sour, stir-fry, orange, goyza and katsu.

The restaurant offers appetizers including crab Rangoon, chicken egg rolls, chicken pot stickers, and edamame, as well as side salads. Rice options, which include stir-fried, brown, and white, as well as noodles, can also be ordered as sides.

The first Teriyaki Madness restaurant opened in 2003 in Las Vegas, and there are currently about 150 franchise agreements in 14 states. The only other location in Michigan is in Macomb County.

"I am excited to be a part of this community and to watch the business grow," Jones said. "It's a great place to be and I'm excited for customers to experience the food and service. We've only been open a couple days and have had several repeat customers. Come in for some fresh, delicious Asian cuisine."

# Michiganders excel at robotics championship

Micah Walker Detroit Free Press  
USA TODAY NETWORK

A number of teams from Michigan won awards in the four-day FIRST Robotics Competition and the FIRST Tech Challenge world championships, which concluded with final matches Saturday night at Ford Field.

More than 17,000 students ages 6 to 18 from 37 countries competed, according to a news release from For Inspiration and Recognition of Science and Technology (FIRST).

Teams used robots to complete tasks such as sealing a chamber with a hatch, inserting a large dodge ball into a cylinder and climbing a step 19 inches high under the theme "Destination: Deep Space."

Participants also learned how to develop skills ranging from engineering and coding to marketing, fundraising, brainstorming and teamwork.

In addition to the robotics competitions, FIRST held a Lego League World Festival, which had younger students build LEGO-based autonomous robots to complete tasks on a thematic playing surface.

"This is the age when a passion for innovation starts with STEM," said Angela Baker, director of Corporate Responsibility at Qualcomm, the event's presenting sponsor. "We are committed to giving today's students the foundations they need to invent the future and are proud to support FIRST."

Paige Drob of Team 1718 from Armada won the Dean's List Award, which celebrates outstanding student leaders.

The Brighton TechnoDogs and the ThunderChickens of Sterling Heights, were two of the several teams that were a part of the Winning Alliance team.

# PCEP robotics team wins states, world subdivision

Ed Wright Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

Like a bolt of brilliance-coated lightning, Plymouth-Canton's robotics team lit up the competition in the For Inspiration and Recognition of Science and Technology (FIRST) Robotics event hosted earlier this month by Saginaw Valley State University.

Working with two other high school robotics teams that were merged via a random draw — one team from Brighton, another from Woodhaven converged with PCEP's Lightning Robotics squad — the crew of 140 Plymouth, Canton and Salem high school science and technology aficionados placed first in the 160-team competition.

The state champs' radar next focused on the FIRST World Championship this past weekend at Cobo Center in Detroit. There, the Lightning Robotics contingent battled teams from around the globe, including China, Australia and Great Britain. The Lightning Robotics team won the Daly Subdivision in the competition.

### Pressure? What pressure?

Drama apparently brings out the best in the PCEP squad, which persevered through a series of overtime matches to win the program's first state title since the prestigious award was initiated in 2009.

Participating schools spent six weeks preparing their robots for April's ultimate showdowns.

The 20-year-old Lightning Robotics club is guided by mentor Jay Obsniuk, who praised all of his team's members, but especially the larger-than-normal class of 40 seniors.

"It helps to have the large number of seniors that we have this year because most of them have been involved in the program since their freshman year," Obsniuk said. "They've been able to something new each year as they move up and now they're in a position where they can help their younger teammates."

he state competition was aired on ESPN3.

Obsniuk dispelled the myth that to be a part of a robotics program, you need to

Kristen Gury, left, Brian Derry, and Aidan Milewski, a few of the leaders of Canton High's robotics team, look over their practice robot April 22 at the school. JOHN HEIDER/HOMETOWNLIFE.COM

be a prodigy. The club is also way more than just working on a robot, he added.

"It seems like everybody outside the program thinks that you have to be incredibly smart to be on the team, but that's not true," he said. "We have a wide variety of academic achievers and about 10 percent of our team is made up of special education students."

"Also, the students learn a lot more than just robotics. There are business and communications parts to it and, most importantly of all, everyone on the team learns leadership skills that they'll be able to use after high school."

Teams are required to develop a new robot every season based on a new set of rules developed at the start.

This season's topic is "space" and the objective during meets was to pick up more balls than your opponent in a 2-minute and 30-second time frame.

Lightning Robotics' pilot is Luke Fenstermacher while the co-pilot is

Nick Lipsik.

Canton junior Kristen Gury joined the club her freshman year "as a way of meeting new people."

She's done that and more.

"I've learned a lot of important things other than robotics," she revealed. "You learn time management and teamwork skills, among other things. Last year I got up and spoke in front of 150 people, including eight state governors and two premiers, at an event in Detroit."

Joining the club has even changed Gury's future career path.

"Before I joined, I was thinking about getting into the medical surgery field," she said. "Now, I'm leaning more toward biomedical engineering. I'd like to help make prosthetics and things like that."

Canton senior Aidan Milewski serves as one of Lightning Robotics' two vice presidents along with Salem senior Brian Derry. Milewski oversees the engi-

neering section, which includes six sub-groups of students, while Derry is in charge of communications and marketing.

"Basically, my job is to make sure the robot is on schedule," said Milewski, whose post-high school plans include attending Michigan Tech to pursue a career in electrical engineering. "Our schedule really picks up during build season. We'll be in here eight to 12 hours some days along with our mentors, making sure the robot is ready."

Derry helped develop an operating manual for the program.

"While Aidan is more hands-on with the robots, I do a lot of communications-type projects to let people know what we're doing," he said.

Lightning Robotics won its division's Entrepreneurship Award sponsored by Kleiner Perkins Caufield & Byers. The award recognizes the entrepreneurial spirit teams develop.

## South Lyon beats Milford in charity game

Andrew Vaillencourt

USA TODAY NETWORK — MICHIGAN

The fight against childhood cancer had the support of both the South Lyon and Milford girls soccer teams Tuesday night at South Lyon High School.

The two squads used their game as a way to raise funds and awareness for Mott Children's Hospital in Ann Arbor.

South Lyon won the game, 1-0, after a goal by sophomore Lexi Nabozny with two minutes remaining.

With the win, the Lions remain undefeated with a record of 7-0-1. Milford drops to 4-2-1.

The evening, which featured an entertaining game, was an overall success with more than \$2,000 being raised. None of that would have been possible if it weren't for the efforts of South Lyon

senior goalie Carmen Sweigard, who was the mastermind behind the fundraiser. She had help from teammates, coaches and members of the Milford team, but led the way after coming up with the idea at the beginning of the season.

"I think it came together perfectly," Sweigard said. "We had a great turnout. The game was really close, but we came out with a win so that was awesome."

Money was raised through gift baskets and other giveaways, face-paint, cotton candy, bracelets and more.

"I'm super proud of her and all the work she did," South Lyon coach Brian Elliott said. "I think if you were to add up all the hours that she put in, it would be staggering. This has been in the making for months."

At halftime, the South Lyon boys soccer team performed a dance routine to

Britney Spears music and rising boxing star Joey Spencer was interviewed.

Spencer, who trains in Linden, is undefeated in his professional boxing career and has long been a supporter of children's hospitals. He has a young man that travels with him to all his matches who is a cancer survivor.

South Lyon East, which was originally asked to play South Lyon in the contest but had to decline due to scheduling conflicts, gave a check to Sweigard on behalf of the team to show its support.

"I thought the event was awesome," Elliott said. "It was a great turnout. ... It was an incredible event. I can't remember the last time we've had more people at a soccer game. It was fun and good to have everybody out for a great cause."

## Northville track and field starts season strong

USA TODAY NETWORK - MICHIGAN

The Northville boys 400 meter relay broke the Northville High School stadium record on last week as the host Mustangs defeated Howell in a KLAA West Division dual meet.

Seniors Ben Shuart, Zack Phillips, Demetri Zervos, and Brandon Kearney teamed up to best the mark in the relay which was set last year by Novi.

"It's nice to break records, especially when they're held by another school, particularly our rival," Northville coach Tim Dalton said. "I'm really happy for these four young men and I think the best is yet to come for them this season."

Howell proved to be no match for the Mustangs, as Northville won the meet 128-9 and improved to 3-0 in their division this season.

Senior Ben Shuart continued his impressive season by setting personal bests in the 110 and 300 meter hurdles with times of 15.51 and 41.38, respectively.

Junior Demir Tagani had a big day in the throwing events, tossing personal bests in the shot put (44.-7.00) and the discus (123-06).

Sophomore Zach Helner won the high jump clearing the bag at 5-8.00 for his best performance in the event, and junior Jacob Pichler set his best mark in the long jump with a leap of 19-10.75.

"We had a lot of really, really good performances in all of the events today," Dalton said. "If these boys continue to work hard and we keep on improving, this will be a successful season."

The girls track team downed Howell 99-38 in a KLAA West Division dual meet last week as well, improving to 3-0

## Plymouth's Michael Jordan drafted by Bengals in 4th round

USA TODAY NETWORK — MICHIGAN

The long wait was worth it. Michael Jordan, an offensive guard/center from Ohio State and graduate of Plymouth High School, was selected by the Cincinnati Benagls in the fourth

round of the NFL Draft Saturday afternoon at pick No. 136.

The Bengals traded up with the Dallas Cowboys to take Jordan.

To make it even more perfect, Jordan was born and grew up in Cincinnati and rooted for the Bengals. He said before the draft began that he'd love playing in Cincinnati and it would

mean he'd be pretty close to a lot of family members. He gives his family a lot of credit for helping him succeed.

"I have such a great support group so being around them makes it easier to go through this entire process," Jordan said.

# CC baseball are Chocolate Milk Mustache Celebs

USA TODAY NETWORK — MICHIGAN

It's not often local high school students become celebrities, but the United Dairy Industry of Michigan is out to change that.

The Detroit Catholic Central baseball team has been named Chocolate Milk Mustache Celebrities by the UDIM after the team received the Chocolate Milk: Nature's Sports Drink grant, which gives money to state high schools to promote good nutrition.

This spring, 64 Michigan high school sports teams were awarded funds to purchase and provide low-fat or fat-free chocolate milk to help their student athletes get the nutrition that they need after practices, games and competitions.

Chocolate milk is one of the most nutritious choices that students can make at home or at school, says the UDIM. It's a natural, nutrient-rich beverage and an excellent source of nine essential nutrients — calcium, potassium, protein, phosphorus, vitamins A, D and B12, riboflavin and niacin — nutrients that students need for good health.

"According to the 2015 Dietary Guidelines, Americans of all activity levels over the age of eight should include

three servings of low-fat or fat-free milk or milk products in their diet every day. Chocolate milk is a nutritious option to help meet these recommendations," UDIM registered dietitian Melissa Ger-

harter said. "And what's really great about chocolate milk is that it packs a powerful nutrient punch, it's affordable, and it tastes great."

grants to state high school teams since 2011, and hopes to continue the program. Catholic Central's baseball team will receive promotional posters and educational materials, as well as chocolate milk.

"CC varsity baseball is proud to take part in this initiative to bring awareness of the benefits of chocolate milk and the importance of proper nutritional recovery after practices and games," Catholic Central coach Dan Michaels said. "The team is excited to represent the Chocolate Milk: Nature's Sports Drink grant and plan to have chocolate milk in the cooler to grab instead of sugary energy drinks after competitions."

## Draft

Continued from Page 1B

He joins an offensive line group in Cincinnati that features another former Ohio State lineman, Billy Price, who the team took in the first round last season.

He celebrated the next step in his football career at a draft party at a Hampton Inn in Canton Friday night, surrounded by friends and family, and had a private draft gathering with family on Saturday.

"I'm looking forward to competing against the best football players in the world," Jordan said. "To me, that's fun and embodies who I am. I'm a competitor."

He declared for the draft following the conclusion of his junior season, in which he was named an All-American by Sports Illustrated and the Walter Camp Football Foundation.

At Plymouth, he played for coach Mike Sawchuk and had an outstanding career with the Wildcats, leading to plenty of college attention.

"Coach Sawchuk was such a fierce, hard-working coach," Jordan said. "He really instilled what you want in a football player, and that's does he want to win, is he a competitor and is he tough. You have all three of those and you're going to do well in football. So I think that coming from Plymouth High School kind of started that up and Ohio State, they really polished it off."

### The build up

At the beginning of the draft, Jordan mother welcomed everyone there and told a story about how her son had decided he was going to play in the NFL at age 6, and at age 8, he knew he was going to Ohio State.

That determination has helped get him to this point, and now he'll have the chance to build on his football success.

There were more emotions than just excitement, however, before the night began.

"I'm really nervous, because you don't know who is going to choose you," Jordan said. "I know I'm excited to play in the NFL."

During the pre-draft process, he learned from several former Buckeyes who have gone through the process before. He said he learned the most from offensive lineman Pat Elflein of the Minnesota Vikings, who played center at OSU during Jordan's freshman year.

Thursday night during the draft's first round, he watched as former teammates Nick Bosa and Dwayne Haskins were picked No. 2 and No. 15 overall by the San Francisco 49ers and Washington Redskins, respectively. He was close with Haskins, given the fact he handed him the ball on every offensive play this past season.

"Watching Dwayne go No. 15 was really incredible because he's had this dream to play for Ohio State since he was a kid and to see him get drafted in the first round is a huge accomplishment and a milestone," Jordan said. "For Nick Bosa to go No. 2, that's a huge accomplishment too. Nick's worked hard his entire life. From knowing him personally, I can't wait to see what he does

in the NFL."

Several other Ohio State players were selected Friday night, including wide receiver Parris Campbell, defensive tackle Dre'Mont Jones and wide receiver Terry McLaurin.

On Saturday, Ohio State's Kendall

Sheffield was taken early in the fourth round. Jordan was the seventh OSU player to be picked overall in the draft.

To land with the Bengals is simply a dream come true. It's not often a player gets to play for his hometown team. He

lived in Cincinnati for about 11-12 years before moving to South Carolina for two. He moved to Plymouth when he was 14.

His first NFL contract is expected to be for four years and \$3,006,531 with a signing bonus of \$486,531. Drew Rosenhaus is his agent.

He already has one big purchase in mind.

"One of the things I look forward to is switching from Sprint to Verizon or AT&T," Jordan said.

ATHLETE OF THE WEEK

# Stevenson's Reed had huge week at the plate

Andrew Vaillencourt  
Hometownlife.com  
USA TODAY NETWORK — MICHIGAN

It was an Athlete of the Week poll for the ages.

Livonia Stevenson softball player Autumn Reed was voted the winner, just topping Novi soccer's Abbey Pheiffer. Nearly 87,000 votes were cast — the most ever in a Hometown Life Athlete of the Week poll.

Reed earned the honors thanks to a huge week at the plate, going 8-for-9 against rival Churchill, hitting seven doubles and collecting nine RBIs.

She received 35,337 votes (40.62%) edging Pheiffer, who totaled 33,476 votes (38.48%). Both players would have normally won in a landslide with that many votes, therefore, due to the unprecedented turnout and support both girls received, we will be posting a story on each girl.

Alas, Reed was the victor and helped move Stevenson closer to a division title with a pair of wins.

We caught up with her and asked her a few questions:

**Your team recently helped raise money for Gift of Life, what made playing in those charity games against Churchill so special and what was your favorite part of the experi-**

ence?

"Playing for a great cause, having a team with such great coaches and teammates makes the experience the greatest."

**Who is your favorite sports role model or athlete and why?**

"Miguel Cabrera is my favorite athlete because he's a great hitter in the MLB, and a great team player."

**Who is your favorite musical artist/band and why?**

"My favorite musical artist is dan + shay. I really like their music because it's my favorite type of music and the songs are great."

**What is your all-time favorite movie (or series) and why?**

"My favorite show series is Grey's Anatomy because when I'm older I want to go into the medical field and it's very addicting to watch and keeps you on your toes."

**What are your future plans after high school and do they include softball? What year in school are you?**

"After high school I plan to attend college and play at the collegiate level and pursue a nursing career. Currently I am a junior in high school."

struggle. Neither team was able to generate many scoring chances. It was 0-0 at halftime and remained that way until late in the second half.

The best scoring chance of the first half came with 11:45 left to play.

After a scramble in the Milford box, the goalie fell down and was unable to grab the ball, leaving a wide open net with two South Lyon players nearby. However, the Lions weren't able to get to the ball before a defender got a foot on it, and the ball sailed wide right of the open goal.

"It wasn't our best game," Elliott said. "From a coaching standpoint, that was probably the worst game we've played all season in terms of our first touch on the ball, our movement off the ball, our passing accuracy up and down the board it was bad on our part. Being able to squeak out the win at the end is just a testament to the fact that we didn't give up. Credit to Milford for making everything we tried to do difficult."

Things heated up a little bit in the latter portion of the second half. South Lyon started to get a few more opportunities before Nabozny found the back of the net with 2:03 left to play after the ball slipped free of the Milford goalkeeper. The crowd went crazy and the Lions went on to earn the victory.

"It was amazing," Sweigard said. "Yeah it wasn't our prettiest game, but when we got that, it was just relief. With two minutes left, we knew we had to keep it that way."

game, but still had several chances. Before Tuesday's game, she had scored 11 goals and recorded six assists in just seven games. She's nominated for this

week's athlete of the week award.

"She's a game changer," Elliott said. "I think if she sticks with it and continues to work, there's no doubt in my mind

that she'll shatter every record here."

ATHLETE OF THE WEEK

# Novi girls goalie Pheiffer named runner-up in poll

Andrew Vaillencourt  
HometownLife.com  
USA TODAY NETWORK — MICHIGAN

Unprecedented could almost be an understatement.

This week's Hometown Life Athlete of the Week poll totaled nearly 87,000 votes, with almost 80% of them going to two candidates: Livonia Stevenson's Autumn Reed and Novi's Abbey Pheiffer.

Usually, we only do a write-up on the winner; however, this week's poll had the most votes in the history of the honor, so we decided that both girls deserved a story.

Reed edged out Pheiffer, taking 35,337 votes (40.62%). Pheiffer recorded 33,476 votes (38.48%) which was more than 23,000 votes more than Livonia Churchill's Alex Forry, who took third-place.

Pheiffer, who plays goalie for the No. 1 ranked Novi soccer team, earned the honor after posting a five-game shutout streak, with all five games coming against top 20 teams in the state. Three of them came against top 10 teams (No. 6 Hartland, No. 9 Plymouth and No. 10 Brighton). Over the five games, Pheiffer saved all 30 shots she faced (including two penalty kicks). To make it all even more impressive, she's only a sophomore.

We caught up with her and asked her a few questions:

**What are your personal and team goals for this season? Can this Novi**

**team win another state championship?**

"My personal goal is work together with my back line to prevent as many goals as possible. My team goal is for our team to make it back to the state finals. I think if we give 110% every game and play together as a team, things can go our way.

My coach always says, 'when you work hard and do things the right way, good things will happen.' We have some really good competition and will have to work very hard and play well every game."

**Who is your favorite sports role model or athlete and why?**

"Mallory Weber, Portland Thorns Professional Soccer Player, Northville High School graduate and Penn State Alumna. Mallory would help coach and train me when I was young and I have always looked up to her. She is one of the hardest working players I have ever watched play the game and she's the perfect example that hard work pays off."

**Who is your favorite musical artist/band and why?**

"Thomas Rhett because he has really good and relateable music and I'm a country fan."

**What is your all-time favorite movie (or series) and why?**

"I don't watch very many movies but I'd have to say Wonder. The movie just has a great message and its really cute and pulled on my heartstrings."

**What are your future plans after high school and do they include soccer?**

"I'm not one hundred percent sure on what I want to be when I'm older but I know I want to do something with athletics and be involved with sports in some way. (Playing soccer) is definitely the goal. I would love for an opportunity to play in college one day."

on the season.

The Mustangs took first place in 13 events and swept all points in five events.

"We tried out some different things today's meet," Dalton said. "We have some things to work on but we have a strong team with contributors in all areas."

Junior Lauren Marshall set a personal record in long jump with a mark of 15-3.50.

"I'm really happy for Lauren," Dalton said. "We ask a lot of her because she is so versatile. She is a huge piece of our varsity team."

Sophomore Delaney Hopkins had her best showing in the discus 102-3.50 and Anna DeHenau cleared the crossbar at 6-6.00 in the pole vault for her best

vault ever.

The success for both team's continued over the weekend.

The Northville boys track and field team notched four first place finishes en route to winning the Spartan Classic hosted at Michigan State University.

The Mustangs, scoring 206 points, outdistanced second place Greenville who scored 155.

"It was really exciting for the boys to win tonight," Northville coach Tim Dalton said. "We're keeping it in perspective, though. We have bigger goals we want to accomplish this season. There's a lot of work still to do."

Kearney won the 100 meter dash before teaming up with Nolan Knight, Zervos, and Phillips in the 800 relay for another first place finish, while Nick Couyoumjian, Raymond Jiang, Alex Beloui, and Ryan Vig won the 3,200 relay. Shuart won the 110 meter high hur-

dles in a time of 15.70 and also took second in the 400 relay with Phillips, Zervos, and Kearney.

"Our senior sprinters have grown and improved since they began high school," Dalton said. "They are a lot of fun to watch."

Other top finishers for the Mustangs included Couyoumjian, second, 800 (1:57.46); Jacob Pichler, second, long jump (20-4.25); and Knight, second, 400 (51.09).

In the women's meet, Northville finished runner-up for the second year in a row.

Rockford won the team title with 328 points. Northville scored 188.

"We had a very high score tonight," Dalton said. "To finish second after scoring 188 points shows how good and deep of a team Rockford has."

Northville's 400 relay of Claire Wan, Angel McCray, Marshall, and Melanie

Sarafian finished in 49.82, their best this season and the third fastest time in school history.

McCray also anchored the winning 1,600 relay of Wan, Abby Dunn, and Alia Bournay.

"We had a number of girls really step up tonight," Dalton said. "We have some young girls who are realizing how good they can be this year."

Other top finishers for Northville included Sarah Herring, third, high jump (4-10.00); Sarafian, second, 100 (13.06), and third, 200 (27.52); Dunn, second, 100 hurdles (16.80) and third, 300 hurdles (48.86); and the 800 relay of Wan, McCray, Marshall, Sarafian, second (1:51.32).

**THE CITY OF GARDEN CITY ORDAINS:**

**SECTION I**

**§155.01 PURPOSE**

*Purpose and Intent.* It is the intent of this subchapter is to help protect the health, safety and welfare of the citizens to prevent blight, protect property values and neighborhood integrity, to avoid the creation and maintenance of nuisances and to ensure the safe and sanitary maintenance of dwellings and commercial and industrial buildings. Due to economic conditions, mortgage foreclosures, and bankruptcies, homes, buildings and properties have become vacant and unsupervised. This has caused properties to become nuisances, decrease private investment and to invite unwanted activity. Such unwanted activities have included an increase in instances of unsecured or open doors and windows, broken water pipes, flooded basements, theft of metals and other materials, overgrowth of grass, weeds, shrubs, and bushes, illegal dumping, vermin activity, foul odors, and façade decay at vacant properties. These vacant properties have a negative impact on surrounding properties and causes deterioration in neighborhoods and commercial areas. The city also needs to be able to contact owners for utility shutoff, fire safety and police reasons.

**§155.02 DEFINITIONS**

*Evidence of Vacancy.* Any condition that on its own, or combined with other conditions present, would lead a reasonable person to believe that the property is vacant. Such conditions may include, but shall not be limited to, overgrown and/or dead vegetation; unshoveled snow from sidewalks; accumulation of newspapers, circulars, flyers and/or mail, past due utility notices and/or disconnected utilities; accumulation of trash, junk and/or debris; boarded-up windows; abandoned vehicles, auto parts or materials; the absence of window coverings such as curtains, blinds and/or shutters; the absence of furnishings and/or personal items consistent with habitation or occupancy; statements by neighbors, passersby, delivery agents or utility agents, including city employees, that the property is vacant.

*Owner.* The person or legal entity who has legal title and/or the right to possess, use, transfer or convey property, i.e., the owner or successor to title by foreclosure, sheriff's sale or by court order.

*Vacant Property.* A lot, property, building, or structure that is not legally or currently occupied. Vacant property does not mean property that is temporarily unoccupied while the residents are away on vacation, tending to personal matters or business, or property that is not intended by the owner to be left vacant.

**§155.03 SCOPE**

The provisions of this article shall apply to all existing vacant land and structures including, but not limited to, residential, commercial and industrial structures. This article does not relieve any person from compliance with all other city ordinances, the state building code, and all other laws, rules and regulations.

**§155.04 REGISTRY OF VACANT PROPERTIES**

(A) *Creation of Registry.* There is hereby created in the City of Garden City a registry of vacant properties and structures.

(B) *Vacant properties to be registered annually.* Owners of real property are required to register all vacant properties within 60 days of the vacancy and to reregister the properties annually thereafter. Structures that are vacant at the time of the enactment of this ordinance must register within 60 days.

**§155.05 REGISTRY INFORMATION REQUIREMENTS**

(A) *Required Information.* Owners of vacant properties required to register their properties pursuant to this article shall submit a completed vacant property registration form, as provided by the city or its designee containing the following information:

- (1) The name of the owner of the property.
  - (2) A mailing address where mail may be sent that will be acknowledged as received by the owner. If certified mail/return receipt requested is sent to the address and the mail is returned marked "refused" or "unclaimed", or if ordinary mail sent to the address is returned for whatever reason, then such occurrence shall be prima facie proof that the owner has failed to comply with this requirement.
  - (3) The name of an individual responsible for the care and control of the property. Such individual may be the owner, if the owner is an individual, or may be someone other than the owner with whom they have contracted.
  - (4) A current address, phone number, fax, and email address (if fax and email addresses are available) where communications may be sent that will be acknowledged as received by the owner or individual responsible for the care and control of the property. Here's How It Works:  
Sudoku puzzles are formatted as a 9x9 grid, broken into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
